FOOD, ENGLAND

The Natural Mineral Water, Spring Water and Bottled Drinking Water (England) Regulations 2007

Made - - - -	*19th September 2007*
Laid before Parliament	*27th September 2007*
Coming into force	*31st October 2007*

THE NATURAL MINERAL WATER, SPRING WATER AND BOTTLED DRINKING WATER (ENGLAND) REGULATIONS 2007

PART 1

1. Title, application and commencement
2. Interpretation
3. Exemptions

PART 2

4. Recognition as natural mineral water
5. Exploitation of natural mineral water springs
6. Treatments and additions for natural mineral water
7. Bottling of natural mineral water
8. Marking, labelling and advertising of natural mineral water
9. Sale of natural mineral water

PART 3

10. Bottling of spring water and exploitation of spring water springs
11. Marking, labelling and advertising of spring water
12. Sale of spring water

PART 4

13. Bottling of drinking water
14. Marking, labelling and advertising of bottled drinking water

15. Sale of bottled drinking water

PART 5

16. Enforcement
17. Arrangements for samples taken for analysis
18. Secondary analysis by the Government Chemist
19. Methods of analysis
20. Offences and penalties
21. Defences
22. Application of other provisions
23. Revocation
Signature

SCHEDULE 1 — Conditions for treatment of natural mineral waters and spring waters with ozone–enriched air
1. Treatment of natural mineral waters and spring waters with ozone-enriched...
2. Treatment of natural mineral waters and spring waters with ozone–enriched...
3. A person seeking to have a treatment with ozone-enriched air...
4. The relevant authority shall assess the application and any information...
5. Where the relevant authority decides to authorise a treatment pursuant...
6. Where the relevant authority refuses to authorise a treatment pursuant...
7. Where a treatment has been authorised pursuant to paragraph 4,...
8. If the relevant authority is satisfied that the conditions specified...
9. Where the relevant authority has informed an operator under paragraph...
10. Upon receiving the application for review, the Agency shall make...

SCHEDULE 2 — Requirements for spring water and drinking water including prescribed concentrations or values of parameters
PART 1 — Requirements for spring water and drinking water
1. Water satisfies the requirements of this Schedule if —
2. The concentrations or values of the parameters listed in Tables...
PART 2 — Prescribed concentrations or values

SCHEDULE 3 — Recognition of natural mineral waters
PART 1 — Natural mineral waters extracted from the ground in England
1. A person seeking to have water which is extracted from...
2. The particulars are— (a) those specified in paragraph 1 of...
3. In so far as particulars of any of the anions,...
4. Where such particulars have been so given, the relevant authority...
5. The relevant authority shall, on recognising a natural mineral water...
PART 2 — Natural mineral waters extracted from the ground in a country other than an EEA State
1. A person seeking to have a water which is extracted...
2. The particulars are— (a) those specified in paragraph 1 of...
3. In so far as particulars of any of the anions,...
4. The Agency shall recognise such a water if the responsible...
5. Recognition of such water shall lapse after a period of...
6. The Agency shall, on recognising water in accordance with this...

PART 3 — Requirements and criteria for recognition as a natural mineral water

1. Geological and hydrological surveys must include the following particulars —
2. Physical, chemical and physico-chemical surveys must establish—
3. Microbiological analysis at source must show— (a) the absence of...
4. (1) Subject to sub-paragraph (2), clinical and pharmacological analyses must...

SCHEDULE 4 — Exploitation and bottling requirements for natural mineral water and spring water

1. Equipment for exploiting the water must be so installed as...
2. The spring or outlet must be protected against the risks...
3. The catchment, pipes and reservoirs must be of materials suitable...
4. The conditions of exploitation, particularly at the washing and bottling...
5. (1) Subject to sub-paragraphs (2) and (3), water must not...
6. (1) The revivable total colony count of the water at...
7. (1) After bottling, the total colony count of the water...
8. Water shall be free from— (a) Parasites and pathogenic micro-organisms;...

SCHEDULE 5 — Particulars of anions, cations, non–ionised compounds and trace elements

SCHEDULE 6 — Maximum limits for constituents of natural mineral waters

SCHEDULE 7 — Performance characteristics for analysing the constituents in Schedule 6

SCHEDULE 8 — Labelling indications for natural mineral water and criteria for use

Explanatory Note
