- (2) The target—
- (a) for 2010, must be set at an amount that is less than the estimated net Scottish emissions account for 2009;
 - (b) for each year in the period 2011–2019, must be set at an amount that is consistent with a reduction over that period of net Scottish emissions accounts which would allow the interim target and the 2050 target to be met;
 - (c) for each year in the period 2020–2050, must be set at an amount that is—
 - (i) consistent with a reduction over that period of net Scottish emissions accounts which would allow the 2050 target to be met; and
 - (ii) at least 3% less than the target for the preceding year.
- (3) In this Act—
- (a) an “annual target” for any year means the target for the maximum amount of the net Scottish emissions account set for that year in accordance with this section and section 4;

 - (b) in the case of annual targets proposed for years in the period 2021–2050, as to whether those targets are consistent with a reduction over that period of net Scottish emissions accounts which would allow the 2050 target to be met;
 - (c) in any case—
 - (i) as to what annual targets are appropriate by reference to the target-setting criteria;
 - (ii) as to the extent to which the annual targets should be met—

 - (a) the circumstances in which carbon units may be credited to the net Scottish emissions account for a period;
 - (b) the circumstances in which such units may be debited from that account for a period;
 - (c) the manner in which this is to be done.
- (6) The regulations must contain provision for ensuring that carbon units that are credited to the net Scottish emissions account for a period cease to be available to offset other greenhouse gas emissions.

14 Restriction on use in 2010–2017 of carbon units purchased by Scottish Ministers

- (1) The Scottish Ministers may not, where subsection (2) applies, credit to the net Scottish emissions account for a year in the period 2010–2012 any carbon units purchased by them.
- (2) This subsection applies provided the percentage figure mentioned in section is 34%.
- (3) The Scottish Ministers may only credit to the net Scottish emissions account for a year in the period 2013–2017 any carbon units purchased by them up to a limit of 20% of the reduction in the amount of the net Scottish emissions account planned for that year.
