5 The sustainable development principle

 - (b) the need to take an integrated approach, by considering how—
 - (i) the body's well-being objectives may impact upon each of the well-being goals;
 - (ii) the body's well-being objectives impact upon each other or upon other public bodies' objectives, in particular where steps taken by the body may contribute to meeting one objective but may be detrimental to meeting another;

 - (d) how acting in collaboration with any other person (or how different parts of the body acting together) could assist the body to meet its well-being objectives, or assist another body to meet its objectives;
