- (a) is a project described in regulation 3(2) of the Environmental Impact Assessment (Forestry) Regulations (Northern Ireland) 2005⁽⁷⁾;
 - (b) constitutes development to which the Planning (Environmental Impact Assessment) Regulations (Northern Ireland) 1999⁽⁸⁾ apply; or

- (3) A project is exempt under this paragraph to the extent that the Department directs that it shall be exempt from these Regulations.
- (4) The Department shall only make a direction under paragraph (3) in an exceptional case and where it does so it shall—
- (a) consider whether in that case another form of assessment of the environmental effects of the proposed project in question would be appropriate;
 - (b) make available to the public the information obtained under that other form of assessment, information relating to the making of the direction and the reasons for making it.
- (5) Where the Department makes a direction under paragraph (3) it shall by general and local advertisement briefly describe the project to which the direction relates, explain the effects of the direction and gives the reasons for making it.
- (6) In the case of a project which the Department decides is likely to have a significant effect on a European site (either alone or in combination with other projects), the power to direct that the project is exempt from these Regulations under paragraph (3) shall be exercisable only to the extent that compliance with the Habitats Directive is secured in relation to the project.

Requirement for screening decision

- (8) If at any time after the Department has decided (or is deemed to have decided) that a project is a relevant project under this regulation, it receives additional environmental information or representations which cause it to decide that the project is not a relevant project, it shall vary its opinion accordingly and shall—

 - (b) shall by local and general advertisement publish a notice of the variation.

(4) Paragraph (3) shall not require the Department to disclose information which is capable of being treated as confidential or must be so treated under the Environmental Information Regulations 2004.

(5) Paragraph (3) shall not prevent a consultation body from imposing a charge reflecting the cost of making the information available (including for the identification, preparation and copying of any information) or making the payment of such a charge a condition of providing the information.

(11) Where, in accordance with paragraph (10)(a), the Department sends any person a copy of the environmental statement it shall consult that person about the statement and the likely environmental effects of the proposed project to which it relates.

Further information and evidence relating to environmental statements

10.—(1) The Department, when dealing with an application in relation to which an environmental statement has been provided may by notice in writing require the applicant to provide such further information as may be specified to enable the Department to make a determination in relation to the application or concerning any matter which is required to be dealt with in the environmental statement.

(2) The Department may only issue a notice under paragraph (1) where—

and where an applicant is so notified he shall provide the further information in question.

(3) The Department may in writing require to be produced to it such evidence, in respect of any environmental statement which falls to it to take into consideration, as it may reasonably call for to verify any information it contains.

(4) Where, pursuant to paragraph (1) or otherwise, the Department obtains any additional environmental information it shall—

Other EEA States

11.—(1) As soon as possible following receipt of the application for consent the Department shall consider whether the relevant project is also likely to have significant effects on the environment of another EEA State and, if it is of the opinion that such effects are likely, or where an EEA State likely to be significantly affected so requests, the Department shall provide a copy of the environmental statement relating to the project to the EEA State.

(2) Where the Department receives a copy of an environmental statement in accordance with paragraph (1) it shall—

- (a) send to the EEA State as soon as possible and no later than the date of its publication in the Belfast Gazette of the notice referred to in regulation 9(6), a copy of that notice;

(5) The Department shall, in accordance with Article 7(4) of the EIA Directive—

- (a) enter into consultation with the EEA State concerned, regarding, among other things, the potential significant effects of the project on the environment of that State and the measures envisaged to reduce or eliminate such effects;
- (b) seek to agree with the other EEA State a reasonable period of time for the duration of the consultation period (to include consideration of any opinions received pursuant to paragraph (4)(b)).

- (a) arrange for that information to be made available within a reasonable time, to such of the consultation bodies and such members of the public as, in its opinion, would be likely to be affected by the project;
- (b) ensure that the consultation bodies and members of the public provided with the information in accordance with paragraph (a) are given an opportunity during the period agreed between the Department and the relevant EEA State in accordance with paragraph (8)(b) to forward to the competent authority in the relevant EEA State within reasonable time, their opinion of the information provided.

- (8) The Department shall also, in accordance with Article 7(4) of the EIA Directive—
- (a) enter into consultations with an EEA State from which information has been received as mentioned in paragraph (7) regarding, amongst other things, the potential significant effects of the proposed project on the environment in Northern Ireland and the measures envisaged to reduce or eliminate such effects; and
 - (b) seek to agree with that EEA State a reasonable period, before consent for the project is granted, during which the consultation bodies and members of the public referred to in paragraph (7)(b) may forward their opinion to the competent authority of that EEA State in accordance with that paragraph.

The consent decision

12.—(1) The Department shall consider, in the light of the environmental statement, any additional environmental information and any representations received in accordance with regulations 9(9), 10(1) or (3) or 11(5), whether or not to grant consent for a project.

- (2) The Department shall not reach a decision under paragraph (1) until the latest of—
- (a) the expiry of the period specified in the notice published under regulation 9(9)(b);
 - (b) the expiry of twenty-eight days from the date on which the additional environmental information was sent to any person under regulation 10(5) or EEA States under regulation 11(3) or from the date that notice of it was published in accordance with regulation 10(4), whichever is the later; and
 - (c) the expiry of any period agreed between the Department and the relevant EEA State pursuant to regulation 11(5)(b).

(3) The Department shall not grant consent for a project that would involve doing anything which would be unlawful under regulations 34, 36 or 38 of the Habitats Regulations (which shall not include anything for which a licence has been granted under regulation 39 of those Regulations).

(4) Paragraphs (5) to (9) shall apply to a decision by the Department whether or not to grant consent for a project which is likely to have a significant effect upon a European site (either alone or in combination with other projects) and in those paragraphs “project” shall be construed accordingly.

(5) Subject to paragraphs (7) and (8), the Department shall only grant consent for a project if, in light of the information referred to in paragraph (1) and (2), it has considered the implications of the project for the European site and is satisfied that the project will not adversely affect the integrity of that site.

(6) The consideration to be undertaken under paragraph (5) shall involve an appropriate assessment of the implications of the project for the European site in view of that site’s conservation objectives.

(7) If the Department is satisfied that, there being no alternative solutions, a project must be carried out for imperative reasons of overriding public interest (which subject to paragraph (8) may be of a social or economic nature), the Department may grant consent for the project notwithstanding a negative assessment of the implications for a European site.

(8) Where the European site concerned hosts a priority natural habitat type or a priority species, the reasons referred to in paragraph (7) must be either—

- (a) reasons relating to human health, public safety or beneficial consequences of primary importance to the environment, or
- (b) other reasons which in the opinion of the European Commission are in the case of the site concerned imperative reasons of overriding public interest.

(9) Where in accordance with paragraph (7) consent is granted for a project notwithstanding a negative assessment of the implications for a European site, the Department shall ensure that any

necessary compensatory measures are taken to ensure that the overall coherence of Natura 2000 (as defined in the Habitats Regulations) is protected.

(10) Any consent granted in accordance with paragraph (1) shall be subject to the conditions required by paragraph (11) and to such additional conditions as the Department may think fit.

(11) Every consent shall be granted subject to conditions to the effect that—

- (a) the consent shall lapse if the project has not commenced (by the carrying out of a material act) within one year of the date on which it was granted;
- (b) if the project has not been completed (which, in this regulation shall mean that works permitted by the consent have been completed and all changes in the use or level of use of the relevant land permitted by the consent have been implemented) within three years of the date on which the consent was granted, the consent shall expire and the Department may require operations or uses implemented pursuant to the consent to cease until it has granted further consent in accordance with sub-paragraph (d);
- (c) the consent authorises the project only as described in the consent application, subject to any amendments approved by the Department pursuant to a request by the applicant, and any material change in the operations or uses so authorised shall require further consent in accordance with sub-paragraph (d);
- (d) applications for further consent under conditions in sub-paragraphs (b) or (c) shall be subject to such of the requirements of these Regulations as the Department shall think fit.

(12) Where an application for consent has been determined by the Department it shall—

- (a) give notice in writing of its decision to the applicant and any person from whom it received representations in relation to the application in accordance with paragraph (2);
- (b) publish a general and local advertisement in accordance with paragraph (13).

(13) Each notice under paragraph (12) shall inform the person concerned of the determination and shall give a statement of—

- (a) the Department's determination and any conditions to which it is subject;
- (b) the main reasons and considerations upon which its determination was based;
- (c) where necessary, a description of the main measures to avoid,
- (d) reduce and, if possible, offset the adverse effects of the proposed project;
- (e) the nature and extent of any rights of appeal.

(14) Each of the advertisements referred to in paragraph (12) shall inform the public of the determination and give details of the places where and the times at which the public may inspect a statement of—

- (a) the Department's determination and the conditions to which it is subject;
- (b) the main reasons and considerations upon which its determination was based;
- (c) where necessary, a description of the main measures to avoid,
- (d) reduce and, if possible, offset the adverse effects of the proposed project; and
- (e) the nature and extent of any rights of appeal.

(15) Where the Department has decided to grant consent for a project which involves the carrying out of operations likely to damage any of the flora, fauna or geological or physiographical features by reason of which an area of special scientific interest (as defined by the Wildlife (Northern Ireland) Order 1985(11)) is of special interest it shall impose a condition on the consent to prevent the project from being commenced before the end of the period of twenty-one days beginning with the date of the notice relating thereto published in the Belfast Gazette under paragraph (12).

Review of decisions and consents

13. Schedule 4 shall apply to—

- (a) any decision that a project is not a relevant project made in accordance with regulation 5(4); and
- (b) any consent granted in accordance with regulation 12(1) where, after the date of the decision or grant of consent, a site becomes a European site and in the opinion of the Department the completion (within the meaning of regulation 12(11)(b)) of the project would be likely to have a significant effect on that site and would not be directly connected with or necessary for the management of the site.

Appeals (general provisions)

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations implement Directive [2003/35/EC](#) (O.J. No. L156, 25.6.2003, p.17) providing for public participation in certain environmental decision making, which amends Council Directive [85/337/EC](#) (O.J. No. L175, 5.7.85, p.40, as amended by Council Directive [97/11/EC](#), O.J. No. L73, 14.3.97, p.5), (“the EIA Directive”) on the assessment of the effects of certain public and private projects on the environment, insofar as it affects environmental impact assessments of uncultivated land and semi-natural areas.

The definition of “project” identifies those activities that are subject to the requirements of the Regulations.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Regulation 3 defines the application of the Regulations and specifies those projects which are exempt from the Regulations.

Regulation 4 prevents any projects from being undertaken unless a screening decision is first obtained. The screening decision determines whether the project is one that is likely to have significant effects on the environment (which will include a project likely to have a significant effect on a European site within the meaning of the Conservation (Natural Habitats etc.) Regulations (Northern Ireland) 1995 (“the Habitats Regulations”). A project which has been so determined is defined as a “relevant project” in the Regulations. The screening decision must be reached in accordance with the selection criteria set out in Schedule 2 of the Regulations. The procedural requirements in respect of screening decisions are set out in regulation 5.

Regulation 6 prohibits a relevant project from being carried out without consent first having been obtained from the Department.

Regulation 7 entitles the prospective applicant for consent to obtain an opinion from the Department as to the information which will be required as part of the environmental statement to accompany the application for consent.

Regulation 8 requires the consultation bodies listed in Schedule 1 to provide any relevant information in their possession to the applicant for consent.

Regulations 9 and 10 contain the procedural requirements for the application for consent. In particular, the application is required to include an environmental statement. This is defined as a statement which includes the information in Part II of Schedule 3 of the Regulations and such of the information in Part I of Schedule 3 as is reasonably required to assess the environmental effects of the project. The Department is required to consult on the application and for this purpose must make available any environmental statement and certain additional information.

Regulation 11 contains provisions for notifying and consulting with other EEA states in relation to projects likely to have environmental effects on those states and or giving them the opportunity to make representations in respect of such projects. It also provides for consultation with the other EEA states about corresponding projects on their territory.

Regulation 12 prescribes how the Department should decide whether to grant consent for a project. It requires the taking into account all of the information and representations provided in accordance with the Regulations.

Under regulation 12(3) the Department may not grant consent for a project which would involve activities prohibited under those provisions of the Habitats Regulations which implement Articles 12,13,15 and 16 (requirements for protection of species) of the Habitats Directive.

Paragraphs (4) to (9) of this regulation implement the requirements to be met before consent can be granted for a project which is likely to have a significant effect on a European site. Although the same information and representations need to be taken into account, insofar as they may be relevant, as with any other project, there are specific tests to be met. These specific tests implement Article 6(3) of the Habitats Directive. The provisions in these Regulations are consistent with those in the Habitats Regulations as applied to other consent regimes.

Regulation 12(11) specifies mandatory conditions to which the consents are required to be subject to ensure that consents are implemented and that further consent is required for works which are materially different from those permitted.

Paragraphs (12) to (14) of regulation 12 contain procedural requirements to be complied with in granting or refusing consent and detail what should be contained in the Department’s notification to the applicant and in related public advertisements.

Regulation 12(15) takes account of the provisions in the Wildlife (Northern Ireland) Order 1985 which apply where a competent authority intends to grant consent for any project which consists of an operation likely to damage an area of special scientific interest.

Regulation 13 and Schedule 4 implement Article 6(2) of the Habitats Directive by ensuring that any decisions taken in accordance with the Regulations before the designation of a European site which would permit a project to be carried out which would adversely affect the integrity of the site are reviewed and revoked or modified as necessary.

An applicant for a screening decision or for consent for a relevant project (or a person interested in a project subject to a revocation or modification under the review provisions contained in Schedule 4) may appeal against an adverse decision to the Department. An appellant is entitled to be heard by a person appointed by the Department for the purpose which hearing may be in public if the Department so decides. The general appeal provisions are contained in regulations 14 to 17. They include provision for determination by written representations or by hearing

Regulation 18 outlines the public participation provisions and states what information the Department shall make available to the public in relation to any proposed project.

Persons who carry out projects without first obtaining either a negative screening decision or consent for the project, or who act in breach of conditions imposed on a consent, commit an offence under the Regulations. It is also an offence under the Regulations to make false or misleading statements in order to obtain a particular decision (regulations 19-21).

If the Department wishes to ensure that unauthorised activities are stopped with immediate effect, it can serve a stop notice on the person carrying out the activities or any person with an interest in the land upon which the activities are taking place (regulation 22). Non-compliance with the stop notice is an offence (regulation 23).

Regulation 24 contains a power for the Department to serve a notice requiring a person it believes to be responsible for committing an offence to reinstate the land to its former condition. An appeal against a reinstatement notice may be made to the Magistrates Court. Failure to comply with the requirements of a reinstatement notice is an offence.

Regulation 25 contains powers of entry in connection with carrying out the functions of the Department under the Regulations and includes the power to inspect and take copies of records. Powers are also provided to enter land for the purpose of carrying out works of reinstatement following non-compliance with a reinstatement notice.

Regulation 26 revokes, with a saving, the Environmental Impact Assessment (Uncultivated Land and Semi-Natural Areas) Regulations (Northern Ireland) 2001.
