

SCHEDULE 2

Certification requirements

PART 2

Cereals

Meaning of “certified seed, second generation”

12. Certified seed, second generation is seed—
 - (a) of oats, barley, triticale, wheat, durum wheat or spelt wheat other than hybrids in each case;
 - (b) produced directly from basic seed, from certified seed, first generation or, if the breeder so requests, from pre-basic seed that satisfies the conditions for basic seed;
 - (c) intended for purposes other than the production of cereal seed.
