EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which extend to Scotland only, amend for the second time the Plastic Materials and Articles in Contact with Food Regulations 1998 (S.I.1998/1376, “the 1998 Regulations”). The Regulations implement—

- (a) Commission Directive [2001/62/EC](#) amending Directive [90/128/EEC](#) relating to plastic materials and articles intended to come into contact with foodstuffs (O.J. No. L 221, 17.8.2001, p.18);
- (b) Commission Directive [2002/16/EC](#) on the use of certain epoxy derivatives in materials and articles intended to come into contact with foodstuffs (O.J. No. L 51, 22.2.2002, p.27); and
- (c) (in relation to camphor and benzaldehyde only) Commission Directive [2002/17/EC](#) amending Directive [90/128/EEC](#) relating to plastic materials and articles intended to come into contact with foodstuffs (O.J. No. L 58, 28.2.2002, p.19).

The Regulations also reflect the revocation, with effect from 4th September 2002, of Directive [90/128/EEC](#) relating to plastic materials and articles intended to come into contact with foodstuffs (O.J. No. L 75, 21.3.1990) as amended and its re-enactment in consolidated form by Commission Directive [2002/72/EC](#) relating to plastic materials and articles intended to come into contact with foodstuffs (O.J. No. L 220 15.8.2002, p.18).

The Regulations amend the 1998 Regulations by—

- (a) adding a provision declaring that, in addition to regulating (as previously) the contact with food of certain types of plastic materials and articles, the 1998 Regulations now also include provisions which regulate the contact with food of certain other types of food contact materials, namely adhesives and materials or articles covered by surface coatings (regulation 3);
- (b) providing for the definition of “plastic material or article” to have an extended meaning where that term is used in the context of provisions added to the 1998 Regulations in implementation of Commission Directive [2002/16/EC](#) (regulation 4(a)(vii) and (c));

Status: This is the original version (as it was originally made).

- (c) extending, so as to apply to adhesives and materials and articles covered by surface coatings, the provisions in the 1998 Regulations which–
 - (i) give to the term “sale” an extended meaning for the purposes of those Regulations;
 - (ii) prohibit the use, sale or importation of plastic materials and articles not meeting specified standards;
 - (iii) make available the defence of “due diligence” in the case of offences relating to plastic materials and articles;
 - (iv) create a presumption as to the accuracy of any particulars shown in relation to a plastic material or article which may come into contact with food; and
 - (v) apply for the purposes of those Regulations, in relation to plastic materials and articles, various provisions of the Food Safety Act 1990 (regulations 4(b), 5, 12(b), 13 and 14 respectively);
