

## SCHEDULE 2

Regulation 9(1)

## RURAL PRIORITIES OPTIONS

## PART 1

OPTION, ACTIVITIES AND ELIGIBILITY  
CONDITIONS AND RATES OF PAYMENT

It is an additional eligibility condition of the activities that only rural priorities options numbered 15 and 36 can be carried out, or carried out and maintained on land set aside in accordance with Articles 54 or 107 of Council Regulation 1782/2003.

<i>Column 1</i> <i>Option</i>	<i>Column 2</i> <i>Activity and eligibility conditions</i>	<i>Column 3</i> <i>Rate of payment</i>
1. Skills development for individual land managers	<p>(1) A beneficiary is eligible for payment under this option if the beneficiary undertakes either—</p> <p>(a) vocational training courses for individual persons eligible to apply for any of the options numbered 2 to 62 in this schedule, the training courses must relate directly to an application for aid under any of those options; or</p> <p>(b) vocational training for persons involved in land management, including farming, crofting and forestry and who belong to an existing group set up with terms of reference and aims to improve land or business management performance and the following must apply—</p> <p>(i) there must be a minimum of 10 eligible trainees from</p>	<p>75percent; of the cost of training.</p> <p>An additional 10% for the organising member of the group based on the total cost of group training.</p>

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

Land type	Year 1	Year 2	Year 3	Year 4	Year 5
Unimproved grassland/ rough grazing	£5	£5	£5	£5	£5
	Maintenance				
Arable	£60	£60	£60	£60	£60
Improved grassland	£50	£50	£50	£50	£50
Fruit & vegetable	£60	£60	£60	£60	£60
Unimproved grassland/ rough grazing	£5	£5	£5	£5	£5

**Table B**

Woodland Type	Minimum wood or individual block size planted per year (hectares)	Composition	Minimum stocking density per hectare at year 5 or when considered to be 'established'
Productive conifer woodland (low cost)	5.0	<ul style="list-style-type: none"> <li>— up to 85% conifers but predominantly spruce</li> <li>— at least 5% broadleaves</li> <li>— up to 10% open ground</li> </ul>	Spruce – 2500 Broadleaves – 1100
Productive conifer woodland (high cost)	5.0	<ul style="list-style-type: none"> <li>— up to 85% other conifers e.g. Scots Pine, Douglas Fir, Larch</li> <li>— at least 5% broadleaves</li> <li>— up to 10% open ground</li> </ul>	Pine – 3000 Douglas Fir, Larch – 2000 Broadleaves – 1100
Productive broadleaved woodland	2.0	<ul style="list-style-type: none"> <li>— at least 85% productive broadleaves e.g. Oak, Beech, Sycamore, Ash</li> <li>— up to 5% other broadleaves</li> <li>— up to 10% open ground</li> </ul>	Oak, Beech – 3100 Sycamore, Ash – 2500 Other Broadleaf – 1100

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

Woodland Type	Minimum wood or individual block size planted per year (hectares)	Composition	Minimum stocking density per hectare at year 5 or when considered to be 'established'
Native woodland	0.25	— at least 75% species native to the locality and appropriate to the site — up to 25% open ground	1600
Naturally regenerated native woodland	0.25	— at least 75% species native to the locality — up to 25% open ground	1600
Mixed conifer / broadleaf woodland	0.25	— at least 80% mixed conifer and broadleaves, the latter being at least half of the planted area. — up to 20% open ground	Conifer – 2500 Broadleaves – 1600

**Table C**

Woodland Type	Initial Planting Payment Rate £/ha *	Maintenance Payments Rate £/ha/year **
Productive conifer woodland (low cost)	840	112
Productive conifer woodland (high cost)	980	133
Productive broadleaved woodland	1780	161
Native woodland	875	154
Naturally regenerated native woodland	630	70

\* Paid as a lump sum on completion of planting

\*\* Paid as an annual payment for a period of 5 years. Trees must be satisfactorily "established" within 10 years of planting. Only payable where planting has occurred on agricultural land or abandoned agricultural land (i.e. at least 50% of a woodland type must be on agricultural land and/or abandoned agricultural land to be eligible for the maintenance payments)

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

Woodland Type	Initial Planting Payment Rate £/ha *	Maintenance Payments Rate £/ha/year **
Mixed conifer / broadleaf woodland	1470	154

\* Paid as a lump sum on completion of planting

\*\* Paid as an annual payment for a period of 5 years. Trees must be satisfactorily “established” within 10 years of planting. Only payable where planting has occurred on agricultural land or abandoned agricultural land (i.e. at least 50% of a woodland type must be on agricultural land and/or abandoned agricultural land to be eligible for the maintenance payments)

The term “established” means that trees must be present to the minimum stocking densities specified, healthy, and in a condition capable of continued growth given no further weeding but subject to normal ongoing maintenance operations such as protection from inappropriate grazing by wild or domestic animals.

An additional establishment premium for using genetically improved planting material is available as follows:

Categories of genetically improved planting material	£ per hectare
Sitka spruce seed orchard material that falls within the tested category in terms of regulation 4 of the Forest Reproductive Material (Great Britain) Regulations 2002(49)	50
Sitka spruce vegetatively propagated tested “family mixture” material derived from controlled cross-pollination.	150

**Table D –**

Woodland Improvement Grants option

<i>Column 1</i> <i>Item</i>	<i>Column 2</i> <i>Standard cost</i>
Badger gates installed in fence lines which are cutting across an established badger run	£110 per gate
Respace natural regeneration	£500 per hectare
Pre commercial and non commercial woodland thinning	£150 per hectare
Removal of tree crop to waste 3 6 metre high	£750 per hectare
Woodland clearance benefiting raised bog/ blanket bog – felling of waste	£975 per hectare
Woodland clearance benefiting raised bog/ blanket bog – felling and extraction	£1375 per hectare
Seedling tree removal	£35 per hectare

(49) S.I. 2002/3026.

<i>Column 1</i> <i>Item</i>	<i>Column 2</i> <i>Standard cost</i>
Small scale woodland thinning	£300 per hectare
Chipping/mulching of tree debris and brash	£500 per hectare
Restructuring with Caledonian Scots pine and other conifer	£448 per hectare
Restructuring with mixed broadleaves	£1,002 per hectare
Restructuring with native broadleaves	£1,099 per hectare
Woodland deer impact reduction	£30 per hectare for deer control during the first 5 years of a Deer Management Plan
Forest plan preparation	£20 per hectare for first 200 hectares, £5 per hectare thereafter
Dead wood management	£40 per hectare
Stock fence	£4 per metre
Enhancing/modifying a stock fence in black grouse and capercaillie core areas	£2 per metre
Upgrading stock to deer fence	£2.75 per metre
Scare or temporary fencing	£1.50 per metre
Rabbit proofing – existing or new stock/deer fence	£1.90 per metre
Deer fence	£6.90 per metre
Enhancing/modifying a deer fence in black grouse and capercaillie core areas	£5 per metre
Conversion of deer fence to stock fence in black grouse and capercaillie core areas	£2 per metre
Fence removal	£2 per metre
Gate for stock fence	£100 each
Gate for deer fence	£170 each
Ditch/drain blocking with plastic piling dams: Small ditches (up to 0.5 metres wide and deep)	£60 per dam
Ditch/drain blocking with plastic piling dams: Medium ditches (between 0.5 and 1 metre wide and deep)	£120 per dam
Ditch/drain blocking with plastic piling dams: Large ditches (between 1 and 2 metre wide and 0.5 and 1 metre deep)	£280 per dam
Peat dam	£0.26 per metre of drain or furrow blocked with peat dams. Minimum payment £300
Small scale tree and shrub planting (on a site not exceeding 0.25 hectares)	£2 per tree or shrub
