

## SCHEDULE 4

Articles 5(1), 6(2), 12(2),15(3), 19(1) and  
20(1)**RESTRICTIONS ON THE LANDING IN AND MOVEMENT  
WITHIN WALES OF RELEVANT MATERIAL****PART A****RELEVANT MATERIAL, FROM THIRD COUNTRIES, WHICH MAY ONLY  
BE LANDED IN WALES IF SPECIAL REQUIREMENTS ARE SATISFIED**

<i>(1)</i> Item	<i>(2)</i> Description of relevant material	<i>(3)</i> Requirements of landing
1.	Plants, other than fruit or seeds, of conifers (Coniferales), originating in any country outside Europe	Without prejudice to the requirements in items 2, 3, 60 and 64, the plants must be accompanied by an official statement that they have been produced in nurseries and that the place of production is free from <i>Pissodes</i> subsp. (non-European).
2.	Plants, other than seeds, of <i>Pinus</i> L., intended for planting, originating in any third country	Without prejudice to the requirements in items 1, 3, 60 and 64, the plants must be accompanied by an official statement that no symptoms of <i>Scirrhia acicola</i> (Dearn.) Siggers or <i>Scirrhia pini</i> Funk and Parker have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
3.	Plants, other than seeds, of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. or <i>Tsuga</i> Carr., intended for planting, originating in any third country	Without prejudice to the requirements in items 1, 2, 60 and 64, the plants must be accompanied by an official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
4.	Plants, other than fruit or seeds, of <i>Quercus</i> L., originating in the USA	Without prejudice to the requirements in items 5, 60, 61 and 64, the plants must be accompanied by an official

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
5.	Plants of <i>Castanea</i> Mill. or <i>Quercus</i> L., other than fruit or seeds, originating in any country outside Europe	<p>statement that they originate in an area or areas known to be free from <i>Ceratocystis fagacearum</i> (Bretz) Hunt.</p> <p>Without prejudice to the requirements in items 46, 60, 61 and 64, the plants must be accompanied by an official statement that no signs of <i>Cronartium</i> subsp. (non-European) have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.</p>
6.	Plants, other than seeds, of <i>Castanea</i> Mill. or <i>Quercus</i> L., intended for planting, originating in any third country	<p>Without prejudice to the requirements in items 5, 60, 61 and 64, the plants must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in area or areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr; or</li> <li>(b) no symptoms of <i>Cryphonectria parasitica</i> (Murrill) Barr have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.</li> </ul>
7.	Plants, other than seeds, of <i>Corylus</i> L., intended for planting, originating in Canada or the USA	<p>Without prejudice to the requirements in item 61, the plants must be accompanied by an official statement that they have been grown in nurseries and:</p> <ul style="list-style-type: none"> <li>(a) originate in an area or areas, established in the country of export by the national plant protection organisation in that country, as being free from <i>Anisogramma anomala</i></li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>(Peck) E. Müller, in accordance with ISPM No. 4, and which is mentioned under the rubric “Additional declaration” on the phytosanitary certificate or phytosanitary certificate for re-export; or</p> <p>(b) originate in a place of production, established in the country of export by the national plant protection organisation in that country, as being free from <i>Anisogramma anomala</i> (Peck) E. Müller on official inspections carried out at the place of production or in its immediate vicinity since the beginning of the last three complete cycles of vegetation, in accordance with ISPM No. 10, and which is mentioned under the rubric “Additional declaration” on the phytosanitary certificate or phytosanitary certificate for re-export and declared free from <i>Anisogramma anomala</i> (Peck) E. Müller.</p>
8.	Plants, other than seeds, of <i>Platanus</i> L., intended for planting, originating in the USA or Armenia	Without prejudice to the requirements in item 60, 61 and 64, the plants must be accompanied by an official statement that no symptoms of <i>Ceratocystis fimbriata</i> f. sp. <i>platani</i> Walter have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
9.	Plants, other than seeds, of <i>Populus</i> L., intended for planting, originating in any third country	Without prejudice to the requirements in items 10, 60, 61 and 64, the plants must be accompanied by an official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
10.	Plants, other than fruit or seeds, of <i>Populus</i> L., originating in any country of the American continent	Without prejudice to the requirements in items 9, 60, 61 and 64, the plants must be accompanied by an official statement that no symptoms of <i>Mycosphaerella populorum</i> G. E. Thompson have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
11.	Plants, other than seeds, of <i>Ulmus</i> L., intended for planting, originating in any country in North America	Without prejudice to the requirements in items 60, 61 and 64, the plants must be accompanied by an official statement that no symptoms of Elm phloem necrosis mycoplasma have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
12.	Plants, other than seeds, of <i>Chaenomeles</i> Lindl., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Prunus</i> L. or <i>Pyrus</i> L., intended for planting, originating in any country outside Europe	Without prejudice to the requirements in items 19, 21 to 23, 27 to 30, 60, 61 and 64, the plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in a country known to be free from <i>Monilinia fructicola</i> (Winter) Honey; or</li> <li>(b) no symptoms of <i>Monilinia fructicola</i> (Winter) Honey have been observed at the</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		place of production since the beginning of the last complete cycle of vegetation.
13.	From 15th February to 30th September, fruits of <i>Prunus</i> L., originating in any country outside Europe	The fruits must be accompanied by an official statement that they: <ul style="list-style-type: none"> <li>(a) originate in a country known to be free from <i>Monilinia fructicola</i> (Winter) Honey; or</li> <li>(b) have been subjected to appropriate inspection and treatment procedures either before harvest, before export or before both harvest and export to ensure freedom from <i>Monilinia</i> subsp.</li> </ul>
14.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., originating in any third country	Without prejudice to the requirements in items 15 to 18, the fruits must be free from peduncles and leaves and the packaging, any label attached to the packaging or any document normally used for trade purposes which accompanies the consignment must bear an appropriate origin mark (which may be a reference to the name of the country of origin).
15.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., originating in any third country	Without prejudice to the requirements in items 14 and 16 to 18, the fruits must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in a country recognised as being free from <i>Xanthomonas campestris</i> (all strains pathogenic to <i>Citrus</i>);</li> <li>(b) they originate in an area recognised as being free from <i>Xanthomonas campestris</i> (all strains pathogenic to <i>Citrus</i>),</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>and mentioned on the phytosanitary certificate or phytosanitary certificate for re-export; or</p> <p>(c) they comply with the following—</p> <p>(i) in accordance with an official control and examination regime, no symptoms of <i>Xanthomonas campestris</i> (all strains pathogenic to <i>Citrus</i>) have been observed in the field of production or in its immediate vicinity since the beginning of the last cycle of vegetation;</p> <p>(ii) none of the fruits harvested in the field of production has shown symptoms of <i>Xanthomonas campestris</i> (all strains pathogenic to <i>Citrus</i>);</p> <p>(iii) the fruits have been subjected to treatment such as sodium orthophenylphenate, mentioned on the phytosanitary certificate or phytosanitary certificate for re-export; and</p> <p>(iv) the fruits have been packed at premises or dispatching centres registered for this purpose.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
16.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., originating in any third country	<p>Without prejudice to the requirements in items 14, 15, 17 and 18, the fruits must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in a country recognised as being free from <i>Cercospora angolensis</i> Carv. and Mendes; or</li> <li>(b) no symptoms of <i>Cercospora angolensis</i> Carv and Mendes have been observed in the field of production or in its immediate vicinity since the beginning of the last cycle of vegetation, and none of the fruits harvested in the field of production has shown, in appropriate official examination, symptoms of this organism.</li> </ul>
17.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., other than fruits of <i>Citrus aurantium</i> L., originating in any third country	<p>Without prejudice to requirements in items 14 to 16 and 18, the fruits must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in a country recognised as being free from <i>Guignardia citricarpa</i> Kiely (all strains pathogenic to <i>Citrus</i>);</li> <li>(b) they originate in an area or areas recognised as being free from <i>Guignardia citricarpa</i> Kiely (all strains pathogenic to <i>Citrus</i>), and mentioned on the phytosanitary certificate or phytosanitary certificate for re-export;</li> <li>(c) no symptoms of <i>Guignardia citricarpa</i> Kiely (all strains pathogenic to <i>Citrus</i>),</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>have been observed in the field of production or in its immediate vicinity since the beginning of the last cycle of vegetation, and none of the fruits harvested in the field of production has shown, in appropriate official examination, symptoms of this organism; or</p> <p>(d) the fruits originate in a field of production subjected to appropriate treatments against <i>Guignardia citricarpa</i> Kiely (all strains pathogenic to <i>Citrus</i>), and none of the fruits harvested in the field of production has shown, in appropriate official examination, symptoms of this organism.</p>
18.	<p>Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle, or <i>Poncirus</i> Raf., originating in any third country where Tephritidae (non-European) are known to occur on these fruits</p>	<p>Without prejudice to the requirements in items 14 to 17, the fruits must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas known to be free from <i>Tephritidae</i> (non-European);</p> <p>(b) no signs of <i>Tephritidae</i> (non-European) have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation, on official inspections carried out at least monthly during the three months prior to harvesting, and none of the fruits harvested at the place of production has shown, in appropriate official examination,</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>signs of <i>Tephritidae</i> (non-European);</p> <p>(c) they have been shown, in appropriate official examination on representative samples, to be free from <i>Tephritidae</i> (non-European) in all stages of their development; or</p> <p>(d) the fruits have been subjected to an appropriate treatment, any acceptable vapour heat treatment, cold treatment, or quick freeze treatment, which has been shown to be efficient against the <i>Tephritidae</i> (non-European) without damaging the fruit, or, where not available, chemical treatment as far as it is acceptable under Community legislation.</p>
19.	Plants, other than seeds, of <i>Amelanchier</i> Med., <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Ehrh., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Photinia davidiana</i> (Dcne.) Cardot, <i>Pyracantha</i> Roem., <i>Pyrus</i> L. or <i>Sorbus</i> L., intended for planting, originating in any third country	Without prejudice to the requirements in items 12, 21 to 23, 27, 28, 60, 61 and 64, the plants must be accompanied by an official statement that the plants in the field of production or in its immediate vicinity, which have shown symptoms of <i>Erwinia amylovora</i> (Burr.) Winsl. et al., have been removed
20.	Plants, other than fruit or seeds, of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf., and plants of <i>Araceae</i> , <i>Marantaceae</i> , <i>Musaceae</i> , <i>Persea</i> subsp. or <i>Strelitziaceae</i> , rooted or with growing medium attached or which appear to have been in contact with growing medium, originating in any third country	Without prejudice to the requirements in items 60, 61 and 64, the plants must be accompanied by an official statement that:
		(a) the plants originate in countries known to be free from <i>Radopholus citrophilus</i> Huettel et al. and <i>Radopholus similis</i> (Cobb) Thorne; or

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		(b) representative samples of soil and roots from the place of production have been subjected, since the beginning of the last complete cycle of vegetation, to official nematological testing for at least <i>Radopholus citrophilus</i> Huettel et al. and <i>Radopholus similis</i> (Cobb) Thorne and have been found to be free from those plant pests.
21.	Plants, other than seeds, of <i>Crataegus</i> L., intended for planting, originating in any third country where <i>Phyllosticta solitaria</i> Ell. and Ev. is known to occur	Without prejudice to the requirements in items 12, 19, 60, 61 and 64, the plants must be accompanied by an official statement that no symptoms of <i>Phyllosticta solitaria</i> Ell. and Ev. have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation.
22.	Plants, other than seeds, of <i>Cydonia</i> Mill., <i>Fragaria</i> L., <i>Malus</i> Mill., <i>Prunus</i> L., <i>Pyrus</i> L., <i>Ribes</i> L. or <i>Rubus</i> L., intended for planting, originating in any third country where the following plant pests are known to occur on the following genera: — on <i>Fragaria</i> L.: — <i>Phytophthora fragariae</i> Hickman, var. <i>fragariae</i> , — Arabis mosaic virus — Raspberry ringspot virus, — Strawberry crinkle virus, — Strawberry latent ringspot virus, — Strawberry mild yellow edge virus, — Tomato black ring virus, or — <i>Xanthomonas fragariae</i> Kennedy and King; — on <i>Malus</i> Mill.:	Without prejudice to the requirements in items 12, 19, 24 to 31, 60, 61 and 64, the plants must be accompanied by an official statement that no symptoms of diseases caused by the plant pests listed in column 2 of this item have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
	<ul style="list-style-type: none"> <li>— <i>Phyllosticta solitaria</i> Ell. and Ev.;</li> <li>— on <i>Prunus</i> L.:</li> <li>— Apricot chlorotic leafroll mycoplasma, or</li> <li>— <i>Xanthomonas campestris</i> pv. <i>prunus</i> (Smith) Dye;</li> <li>— on <i>Prunus persica</i> (L.) Batsch:</li> <li>— <i>Pseudomonas syringae</i> pv. <i>persicae</i> (Prunier et al.) Young et al.;</li> <li>— on <i>Pyrus</i> L.:</li> <li>— <i>Phyllosticta solitaria</i> Ell. And Ev.;</li> <li>— on <i>Rubus</i> L.:</li> <li>— Arabis mosaic virus,</li> <li>— Raspberry ringspot virus,</li> <li>— Strawberry latent ringspot virus, or</li> <li>— Tomato black ring virus;</li> <li>or</li> <li>— on all species:</li> <li>— non-European viruses and virus-like organisms</li> </ul>	
23.	Plants, other than seeds, of <i>Cydonia</i> Mill. or <i>Pyrus</i> L., intended for planting, originating in any third country where Pear decline mycoplasma is known to occur	Without prejudice to the requirements in items 12, 19, 22, 60, 61 and 64, the plants must be accompanied by an official statement that plants at the place of production or in its immediate vicinity, which have shown symptoms giving rise to the suspicion of contamination by Pear decline mycoplasma, have been rogued out at that place within the last three complete cycles of vegetation.
24.	Plants, other than seeds, of <i>Fragaria</i> L., intended for planting, originating in any third country where the following plant pests are known to occur: <ul style="list-style-type: none"> <li>— Strawberry latent “C” virus,</li> <li>— Strawberry vein banding virus, or</li> </ul>	Without prejudice to the requirements in items 22, 25, 26 and 28, the plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) the plants, other than those raised from seed, have been: <ul style="list-style-type: none"> <li>(i) either officially certified under a certification</li> </ul> </li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Description of relevant material</i>	<i>(3)</i> <i>Requirements of landing</i>
	<ul style="list-style-type: none"> <li>— Strawberry witches' broom mycoplasma</li> </ul>	<p>scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least the plant pests in column 2 of this item using appropriate indicator or equivalent methods and has been found free from those plant pests; or</p> <ul style="list-style-type: none"> <li>(ii) derived in direct line from material which is maintained under appropriate conditions and has been subjected, at least once within the last three complete cycles of vegetation, to official testing for at least the plant pests in column 2 of this item using appropriate indicators or equivalent methods and has been found free from those plant pests; and</li> <li>(b) no symptoms of diseases caused by the plant pests in column 2 of this item have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
25.	Plants, other than seeds, of <i>Fragaria</i> L., intended for planting, originating in any third country where <i>Aphelenchoides besseyi</i> Christie is known to occur	<p>the last complete cycle of vegetation.</p> <p>Without prejudice to the requirements in items 22, 24 and 26, the plants must be accompanied by an official statement that:</p> <p>(a) no symptoms of <i>Aphelenchoides besseyi</i> Christie have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation; or</p> <p>(b) in the case of plants in tissue culture, the plants have been derived from plants which complied with paragraph (a) or have been officially tested by appropriate nematological methods and have been found free from <i>Aphelenchoides besseyi</i> Christie.</p>
26.	Plants of <i>Fragaria</i> L., other than seeds, intended for planting, originating in any third country	Without prejudice to the requirements in items 22, 24 and 25, the plants must be accompanied by an official statement that they originate in an area or areas known to be free from <i>Anthonomus signatus</i> Say and <i>Anthonomus bisignifer</i> (Schenkling).
27.	Plants, other than seeds, of <i>Malus</i> Mill., intended for planting, originating in any third country where the following plant pests are known to occur on <i>Malus</i> Mill.: <ul style="list-style-type: none"> <li>— Cherry rasp leaf virus (American), or</li> <li>— Tomato ringspot virus</li> </ul>	Without prejudice to the requirements in items 12, 19, 22, 60, 61 and 64, the plants must be accompanied by an official statement that: <p>(a) they have been:</p> <p>(i) officially certified under a certification scheme requiring them to be derived in direct line from material which has</p>

		<p>medium which meets the conditions laid down in paragraph (v); or</p> <p>(cc) subjected to appropriate treatments to ensure that the growing medium is free from plant pests (the active ingredient, concentration and date of application of these treatments shall be mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the rubric “disinfestation and/or disinfection treatment”); and</p> <p>(c) the plants at the nurseries referred to in paragraph (a) shall be packed in closed containers which have been officially sealed and bear the registration number of the registered nursery, which number shall also be indicated under the rubric “additional declaration” on the phytosanitary certificate</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		or phytosanitary certificate for re-export enabling the consignments to be identified.
65.	Herbaceous perennial plants, other than seeds, intended for planting, of the families <i>Caryophyllaceae</i> (except <i>Dianthus</i> L.), <i>Compositae</i> (except <i>Dendranthema</i> (DC.) Des Moul.), <i>Cruciferae</i> , <i>Leguminosae</i> or <i>Rosaceae</i> (except <i>Fragaria</i> L.), originating in any third country other than a country in the Euro-Mediterranean area	Without prejudice to the requirements in items 48 to 52, 70 and 71, the plants must be accompanied by an official statement that they: <ul style="list-style-type: none"> <li>(a) have been grown in nurseries;</li> <li>(b) are free from plant debris and from flowers and fruits; and</li> <li>(c) have been inspected at appropriate times and prior to export, and <ul style="list-style-type: none"> <li>(i) found free from symptoms of harmful bacteria, viruses and virus-like organisms, and</li> <li>(ii) either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms.</li> </ul> </li> </ul>
66.	Plants of herbaceous species and plants of <i>Ficus</i> L. or <i>Hibiscus</i> L., other than bulbs, corms, rhizomes, seeds or tubers, intended for planting, originating in any country outside Europe	Without prejudice to the requirements in items 41 to 44, 48, 50, 55, 61, 70 and 71, the plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in an area or areas established in the country of export by the national plant protection organisation in that country, as being free from <i>Bemisia tabaci</i> Genn. (non-European populations) in accordance with ISPM</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>No. 4, and which is or are mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the rubric “Additional declaration”;</p> <p>(b) they originate in a place of production, established in the country of export by the national plant protection organisation in that country as being free from <i>Bemisia tabaci</i> Genn. (non-European populations) in accordance with the ISPM No. 10, and which is mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the rubric “Additional declaration”, and declared free from <i>Bemisia tabaci</i> Genn. (non-European populations) on official inspections carried out at least once every three weeks during the nine weeks prior to export; or</p> <p>(c) in cases where <i>Bemisia tabaci</i> Genn. (non-European populations) has been found at the place of production, are held or produced in this place of production and have undergone an appropriate treatment to ensure freedom from <i>Bemisia tabaci</i> Genn. (non-European populations) and subsequently this place of production must have been found free from <i>Bemisia</i></p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p><i>tabaci</i> Genn. (non-European populations) as a consequence of the implementation of appropriate procedures aiming at eradicating <i>Bemisia tabaci</i> Genn. (non-European populations), in both official inspections carried out weekly during the nine weeks prior to export and in monitoring procedures throughout that period. Details of the treatment must be mentioned on the phytosanitary certificate or phytosanitary certificate for re-export.</p>
67.	<p>Cut flowers of <i>Aster</i> subsp., <i>Eryngium</i> L., <i>Gypsophila</i> L., <i>Hypericum</i> L., <i>Lisianthus</i> L., <i>Rosa</i> L., <i>Solidago</i> L., <i>Trachelium</i> L., or leafy vegetables of <i>Ocimum</i> L., originating in any country outside Europe</p>	<p>Without prejudice to the requirements in items 70 and 71, the flowers or leafy vegetables must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in a country free from <i>Bemisia tabaci</i> Genn. (non-European populations); or</li> <li>(b) immediately prior to their export, they have been officially inspected and found free from <i>Bemisia tabaci</i> Genn. (non-European populations).</li> </ul>
68.	<p>Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., other than seeds, intended for planting, originating in any third country where Tomato yellow leaf curl virus is known to occur and where <i>Bemisia tabaci</i> Genn. is not known to occur</p>	<p>Without prejudice to the requirements in items 36 to 38, 70 and 71, the plants must be accompanied by an official statement that no symptoms of Tomato yellow leaf curl virus have been observed on the plants.</p>
69.	<p>Plants of <i>Lycopersicon lycopersicum</i> (L.) Karsten</p>	<p>Without prejudice to the requirements in items 36 to</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
	ex Farw., other than seeds, intended for planting, originating in any third country where Tomato yellow leaf curl virus is known to occur and where <i>Bemisia tabaci</i> Genn. is known to occur	38, 70 and 71, the plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) no symptoms of Tomato yellow leaf curl virus have been observed on the plants; and               <ul style="list-style-type: none"> <li>(i) the plants originate in areas known to be free from <i>Bemisia tabaci</i> Genn.; or</li> <li>(ii) the place of production has been found free from <i>Bemisia tabaci</i> Genn. on official inspections carried out at least monthly during the three months prior to export; or</li> </ul> </li> <li>(b) no symptoms of Tomato yellow leaf curl virus have been observed at the place of production and the place of production has been subjected to an appropriate treatment and monitoring regime to ensure freedom from <i>Bemisia tabaci</i> Genn.</li> </ul>
70.	Plants, other than seeds, bulbs, tubers, corms or rhizomes, intended for planting, originating in any third country where the following relevant plant pests are known to occur: <ul style="list-style-type: none"> <li>— Bean golden mosaic virus,</li> <li>— Cowpea mild mottle virus,</li> <li>— Lettuce infectious yellow virus,</li> <li>— Pepper mild tigré virus,</li> <li>— Squash leaf curl virus, or</li> <li>— other viruses transmitted by <i>Bemisia tabaci</i> Genn., and where <i>Bemisia</i></li> </ul>	Without prejudice to the requirements in items 36, 37, 48, 49, 53, 54 and 65 to 69, the plants must be accompanied by an official statement that no symptoms of the relevant plant pests in column 2 have been observed on the plants during their complete cycle of vegetation.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
	<i>tabaci</i> Genn. (non-European populations) or other vectors of the relevant plant pests are not known to occur	
71.	Plants, other than seeds, tubers, corms, or rhizomes, intended for planting, originating in any third country where the following relevant plant pests are known to occur: <ul style="list-style-type: none"> <li>— Bean golden mosaic virus,</li> <li>— Cowpea mild mottle virus,</li> <li>— Lettuce infectious yellow virus,</li> <li>— Pepper mild tigré virus,</li> <li>— Squash leaf curl virus, or</li> <li>— other viruses transmitted by <i>Bemisia tabaci</i> Genn., and where <i>Bemisia tabaci</i> Genn. (non-European populations) or other vectors of the relevant plant pests are known to occur</li> </ul>	Without prejudice to the requirements in items 36, 37, 48, 49, 53, 54 and 65 to 69, the plants must be accompanied by an official statement that no symptoms of the plant pests have been observed on the plants during an adequate period, and <ul style="list-style-type: none"> <li>(a) the plants originate in areas known to be free from <i>Bemisia tabaci</i> Genn. and other vectors of the plant pests;</li> <li>(b) the place of production has been found free from <i>Bemisia tabaci</i> Genn. and other vectors of the relevant plant pests on official inspections carried out at appropriate times; or</li> <li>(c) the plants have been subjected to an appropriate treatment aimed at eradicating <i>Bemisia tabaci</i> Genn.</li> </ul>
72.	Seeds of <i>Helianthus annuus</i> L., originating in any third country	The seeds must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in an area or areas known to be free from <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni; or</li> <li>(b) other than those that have been produced on varieties resistant to all races of <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni pre subjected to an appropriate treatment against <i>Plasmopara</i></li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
73.	Seeds of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., originating in any third country	<p><i>halstedii</i> (Farlow) Berl. and de Toni.</p> <p>The seeds must be accompanied by an official statement that they have been obtained by means of an appropriate acid extraction method and:</p> <ul style="list-style-type: none"> <li>(a) they originate in an area or areas where <i>Clavibacter michiganensis</i> subsp. <i>michiganensis</i> (Smith) Davis et al, <i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> (Doidge) Dye and potato spindle tuber viroid are not known to occur;</li> <li>(b) no symptoms of diseases caused by those plant pests have been observed on the plants at the place of production during their complete cycle of vegetation; or</li> <li>(c) they have been subjected to official testing for at least those plant pests, on a representative sample and using appropriate methods, and have been found free from those plant pests.</li> </ul>
74.	Seeds of <i>Medicago sativa</i> L., originating in any third country	<p>Without prejudice to the requirements in item 75, the seeds must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) no symptoms of <i>Ditylenchus dipsaci</i> (Kühn) Filipjev have been observed at the place of production since the beginning of the last complete cycle of vegetation and that no <i>Ditylenchus dipsaci</i> (Kühn) Filipjev has been revealed by laboratory</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
75.	Seeds of <i>Medicago sativa</i> L., originating in any third country where <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> Davis et al. is known to occur	<p>tests on a representative sample; or</p> <p>(b) fumigation has taken place prior to export.</p> <p>Without prejudice to the requirements in items 74, the seeds must be accompanied by an official statement that:</p> <p>(a) <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> Davis et al. has not been known to occur on the farm or in its immediate vicinity since the beginning of the last 10 years;</p> <p>(b) either:</p> <p>(i) the crop belongs to a variety recognised as being highly resistant to <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> Davis et al.;</p> <p>(ii) it had not yet started its fourth complete cycle of vegetation from sowing when the seed was harvested, and there was not more than one preceding seed harvest from the crop; or</p> <p>(iii) the content of inert matter which has been determined in accordance with the rules applicable for the certification of seed marketed in the Community, does not exceed 0.1 % by weight;</p> <p>(c) no symptoms of <i>Clavibacter michiganensis</i> subsp.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>insidiosus Davis et al. have been observed at the place of production, or on any <i>Medicago sativa</i> L. crop adjacent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation; and</p> <p>(d) the crop has been grown on land on which no previous <i>Medicago sativa</i> L. crop has been present during the last three years prior to sowing.</p>
76.	Seeds of <i>Oryza sativa</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) they have been officially tested by appropriate nematological tests and have been found free from <i>Aphelenchoides besseyi</i> Christie; or</p> <p>(b) they have been subjected to an appropriate hot water treatment or other appropriate treatment against <i>Aphelenchoides besseyi</i> Christie.</p>
77.	Seeds of <i>Phaseolus</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p> <p>(a) they originate in a country known to be free from <i>Xanthomonas campestris</i> pv. <i>phaseoli</i> (Smith) Dye; or</p> <p>(b) a representative sample of the seeds has been tested and found free from <i>Xanthomonas campestris</i> pv. <i>phaseoli</i> (Smith) Dye.</p>
78.	Seeds of <i>Zea mais</i> L., originating in any third country	<p>The seeds must be accompanied by an official statement that:</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>(a) they originate in an area or areas known to be free from <i>Erwinia stewartii</i> (Smith) Dye; or</p> <p>(b) a representative sample of the seeds has been tested and found free from <i>Erwinia stewartii</i> (Smith) Dye.</p>
79.	<p>Seeds of the genera <i>Triticum</i>, <i>Secale</i> or <i>X Triticosecale</i> from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan, South Africa, the USA or Iran where <i>Tilletia indica</i> Mitra is known to occur</p>	<p>The seeds must be accompanied by an official statement that they originate in an area or areas where <i>Tilletia indica</i> Mitra is known not to occur. The name of the area or areas must be mentioned on the phytosanitary certificate or phytosanitary certificate for re-export.</p>
80.	<p>Grain of the genera <i>Triticum</i>, <i>Secale</i> or <i>X Triticosecale</i> from Afghanistan, India, Iraq, Mexico, Nepal, Pakistan, South Africa, the USA or Iran where <i>Tilletia indica</i> Mitra is known to occur</p>	<p>The grain must be accompanied by an official statement that:</p> <p>(a) it originates in an area or areas where <i>Tilletia indica</i> Mitra is known not to occur. The name of the area or areas must be mentioned on the phytosanitary certificate or phytosanitary certificate for re-export under the rubric “place or origin”; or</p> <p>(b) they originate in an area or areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr; or 3(b)no symptoms of <i>Cryphonectria parasitica</i> (Murrill) Barr have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

## PART B

Relevant material, from another part of the European Community, which may only be landed in or moved within Wales if special requirements are satisfied

(1) Item	(2) Description of relevant material	(3) Requirements of landing
1.	Plants, other than seeds, of <i>Pinus</i> L., intended for planting	Without prejudice to the requirements in item 2, the plants must be accompanied by an official statement that no symptoms of <i>Scirrhia pini</i> Funk and Parker have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
2.	Plants, other than seeds, of <i>Abies</i> Mill., <i>Larix</i> Mill., <i>Picea</i> A. Dietr., <i>Pinus</i> L., <i>Pseudotsuga</i> Carr. or <i>Tsuga</i> Carr., intended for planting	Without prejudice to the requirements in item 1, the plants must be accompanied by an official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
3.	Plants, other than seeds, of <i>Populus</i> L., intended for planting	The plants must be accompanied by an official statement that no symptoms of <i>Melampsora medusae</i> Thümen have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
4.	Plants, other than seeds, of <i>Castanea</i> Mill. or <i>Quercus</i> L., intended for planting	The plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li>(a) they originate in an area or areas known to be free from <i>Cryphonectria parasitica</i> (Murrill) Barr; or</li> <li>(b) no symptoms of <i>Cryphonectria parasitica</i> (Murrill) Barr have been observed at the place</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
5.	Plants, other than seeds, of <i>Platanus</i> L., intended for planting	The plants must be accompanied by an official statement that: (a) they originate in an area or areas known to be free from <i>Ceratocystis fimbriata</i> f.sp. platani Walter; or (b) no symptoms of <i>Ceratocystis fimbriata</i> f.sp. platani Walter have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.
6.	Plants, other than seeds, of <i>Amelanchier</i> Med., <i>Chaenomeles</i> Lindl., <i>Cotoneaster</i> Ehrh., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Photinia davidiana</i> (Dcne.) Cardot, <i>Pyracantha</i> Roem., <i>Pyrus</i> L. or <i>Sorbus</i> L., intended for planting	Without prejudice to the requirements in items 10 and 12, the plants must be accompanied by an official statement that: (a) they originate in zones recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. et al.; or (b) the plants in the field of production or in its immediate vicinity, which have shown symptoms of <i>Erwinia amylovora</i> (Burr.) Winsl. et al., have been rogued out.
7.	Plants, other than fruit or seeds, of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf.	The plants must be accompanied by an official statement that: (a) they originate in an area or areas known to be free from <i>Spiroplasma citri</i> Saglio et al., <i>Phoma tracheiphila</i> (Petri) Kanchaveli and

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>Gikashvili, <i>Citrus</i> vein enation woody gall and <i>Citrus tristeza</i> virus (European strains);</p> <p>(b) they derive from a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and has been subjected to official individual testing for, a and <i>Citrus</i> vein enation woody gall, and have been growing permanently in an insect proof glasshouse or in an isolated cage on which no symptoms of <i>Spiroplasma citri</i> Saglio et al., <i>Phoma tracheiphila</i> (Petri) Kanchaveli and Gikashvili, <i>Citrus tristeza</i> virus (European strains) and <i>Citrus</i> vein enation woody gall have been observed; or</p> <p>(c) they:</p> <p>(i) have been derived from a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and has been subjected to official individual testing for, at least, <i>Citrus</i> vein enation woody gall and <i>Citrus tristeza</i> virus (European strains), and has been found free from <i>Citrus tristeza</i> virus (European strains),</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>and certified free from, at least, <i>Citrus tristeza</i> virus (European strains) in official individual tests, and</p> <p>(ii) have been inspected and no symptoms of <i>Spiroplasma citri</i> Saglio et al., <i>Phoma tracheiphila</i> (Petri) Kanchaveli and Gikashvili, <i>Citrus</i> vein enation woody gall or <i>Citrus tristeza</i> virus have been observed since the beginning of the last complete cycle of vegetation.</p>
8.	<p>Plants of <i>Araceae</i>, <i>Marantaceae</i>, <i>Musaceae</i>, <i>Persea</i> subsp. or <i>Strelitziaceae</i>, rooted or with growing medium attached or which appear to have been in contact with growing medium</p>	<p>The plants must be accompanied by an official statement that:</p> <p>(a) no contamination by <i>Radopholus similis</i> (Cobb) Thorne has been observed at the place of production, since the beginning of the last complete cycle of vegetation; or</p> <p>(b) soil and roots from suspected plants have been subjected since the beginning of the last complete cycle of vegetation to official nematological testing for at least <i>Radopholus similis</i> (Cobb) Thorne and have been found free from that plant pest.</p>
9.	<p>Plants, other than seeds, of <i>Fragaria</i> L., <i>Prunus</i> L. or <i>Rubus</i> L., intended for planting</p>	<p>Without prejudice to the requirements in items 11 and 13, the plants must be accompanied by an official statement that:</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
10.	Plants, other than seeds, of <i>Cydonia</i> Mill. or <i>Pyrus</i> L., intended for planting	<p>(a) they originate in an area or areas known to be free from the following plant pests—</p> <ul style="list-style-type: none"> <li>(i) on <i>Fragaria</i> L.: <ul style="list-style-type: none"> <li>— <i>Phytophthora fragariae</i> Hickman var. <i>fragariae</i>,</li> <li>— Arabis mosaic virus,</li> <li>— Raspberry ringspot virus,</li> <li>— Strawberry crinkle virus,</li> <li>— Strawberry latent ringspot virus,</li> <li>— Strawberry mild yellow edge virus,</li> <li>— Tomato black ring virus,</li> <li>— <i>Xanthomonas fragariae</i> Kennedy and King;</li> </ul> </li> <li>(ii) on <i>Prunus</i> L.: <ul style="list-style-type: none"> <li>— Apricot chlorotic leaf roll mycoplasma,</li> <li>— <i>Xanthomonas campestris</i> pv. <i>pruni</i> (Smith) Dye;</li> </ul> </li> <li>(iii) on <i>Prunus persica</i> (L.) Batsch: <ul style="list-style-type: none"> <li>— <i>Pseudomonas syringae</i> pv. <i>persicae</i> (Prunier et al.) Young et al.; and</li> </ul> </li> <li>(iv) on <i>Rubus</i> L.: <ul style="list-style-type: none"> <li>— Arabis mosaic virus,</li> <li>— Raspberry ringspot virus,</li> <li>— Strawberry latent ringspot virus,</li> <li>— Tomato black ring virus;</li> </ul> </li> </ul> <p>or</p> <p>(b) no symptoms of diseases caused by the plant pests in sub-paragraph (a) have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
11.	Plants, other than seeds, of <i>Fragaria</i> L., intended for planting	<p>(a) they originate in an area or areas known to be free from Pear decline mycoplasma; or</p> <p>(b) the plants at the place of production and its immediate vicinity, which have shown symptoms giving rise to the suspicion of contamination by Pear decline mycoplasma, have been rogued out at that place within the last three complete cycles of vegetation.</p> <p>Without prejudice to the requirements in item 9, the plants must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas known to be free from <i>Aphelenchoides besseyi</i> Christie;</p> <p>(b) no symptoms of <i>Aphelenchoides besseyi</i> Christie have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation; or</p> <p>(c) in the case of plants in tissue culture, the plants have been derived from plants complying with sub-paragraph (b) or have been officially tested by appropriate nematological methods and have been found free from <i>Aphelenchoides besseyi</i> Christie.</p>
12.	Plants, other than seeds, of <i>Malus</i> Mill., intended for planting	<p>Without prejudice to the requirements in item 6, the plants must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas known to be free</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Description of relevant material</i>	<i>(3)</i> <i>Requirements of landing</i>
		<p>from Apple proliferation mycoplasma; or</p> <p>(b) other than those raised from seed, the plants:</p> <p>(i) have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least Apple proliferation mycoplasma using appropriate indicators or equivalent methods and has been found free from that plant pest; or</p> <p>(ii) have been derived in direct line from material which is maintained under appropriate conditions and has been subjected, at least once, within the last six complete cycles of vegetation, to official testing for, at least, Apple proliferation mycoplasma using appropriate indicators or equivalent methods and has been found free from that plant pest; and</p> <p>(c) no symptoms of diseases caused by Apple proliferation mycoplasma have been observed on plants at the place</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
13.	<p>Plants, other than seeds, of the following species of <i>Prunus</i> L., intended for planting:</p> <ul style="list-style-type: none"> <li>— <i>Prunus amygdalus</i> Batsch,</li> <li>— <i>Prunus armeniaca</i> L.,</li> <li>— <i>Prunus blireiana</i> Andre,</li> <li>— <i>Prunus brigantina</i> Vill.,</li> <li>— <i>Prunus cerasifera</i> Ehrh.,</li> <li>— <i>Prunus cistena</i> Hansen,</li> <li>— <i>Prunus curdica</i> Fenzl and Fritsch.,</li> <li>— <i>Prunus domestica</i> subsp. <i>domestica</i> L.,</li> <li>— <i>Prunus domestica</i> <i>insititia</i> (L.) C K Schneid,</li> <li>— <i>Prunus domestica</i> subsp. <i>italica</i> (Borkh.) Hegi.,</li> <li>— <i>Prunus glandulosa</i> Thunb.,</li> <li>— <i>Prunus holosericea</i> Batal.,</li> <li>— <i>Prunus hortulana</i> Bailey,</li> <li>— <i>Prunus japonica</i> Thunb.,</li> <li>— <i>Prunus mandshurica</i> (Maxim) Koehne,</li> <li>— <i>Prunus maritima</i> Marsh.,</li> <li>— <i>Prunus mume</i> Sieb. and Zucc.,</li> <li>— <i>Prunus nigra</i> Ait.,</li> <li>— <i>Prunus persica</i> (L) Batsch,</li> <li>— <i>Prunus salicina</i> L.,</li> <li>— <i>Prunus sibirica</i> L.,</li> <li>— <i>Prunus simonii</i> Carr.,</li> <li>— <i>Prunus spinosa</i> L.,</li> <li>— <i>Prunus tomentosa</i> Thunb.,</li> <li>— <i>Prunus triloba</i> Lindl., or</li> <li>— other species of <i>Prunus</i> L. susceptible to Plum pox virus</li> </ul>	<p>of production, or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation.</p> <p>Without prejudice to the requirements in item 9, the plants must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in an area or areas known to be free from Plum pox virus, or</li> <li>(b) other than those raised from seed, the plants: <ul style="list-style-type: none"> <li>(i) have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for, at least, Plum pox virus using appropriate indicators or equivalent methods and has been found free from that plant pest; or</li> <li>(ii) have been derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least Plum pox virus using appropriate indicators or</li> </ul> </li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>equivalent methods and has been found free from that plant pest;</p> <p>(c) no symptoms of disease caused by Plum pox virus have been observed on plants at the place of production or on susceptible plants in its immediate vicinity, since the beginning of the last three complete cycles of vegetation; and</p> <p>(d) plants at the place of production which have shown symptoms of disease caused by other viruses or virus-like pathogens, have been rogued out.</p>
14.	Plants, other than fruit or seeds, of <i>Vitis</i> L.	The plants must be accompanied by an official statement that no symptoms of Grapevine flavescence dorée MLO or <i>Xylophilus ampelinus</i> (Panagopoulos) Willems et al. have been observed on the mother-stock plants at the place of production since the beginning of the last two complete cycles of vegetation.
15.	Tubers of <i>Solanum tuberosum</i> L., intended for planting	<p>Without prejudice to the requirements in item 16, the tubers must be accompanied by an official statement that:</p> <p>(a) the Community provisions to combat <i>Synchytrium endobioticum</i> (Schilbersky) Percival have been complied with;</p> <p>(b) they originate in an area or areas known to be free from <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i> (Spieckermann and Kotthoff) Davis et al.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>or the Community provisions to combat <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i> (Spieckermann and Kotthoff) Davis et al. have been complied with;</p> <p>(c) they originate from a field known to be free from <i>Globodera rostochiensis</i> (Wollenweber) Behrens and <i>Globodera pallida</i> (Stone) Behrens;</p> <p>(d) they originate in an area or areas in which <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al.:</p> <p>(i) is known not to occur; or</p> <p>(ii) is known to occur, and the tubers originate from a place of production found free from <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. or considered to be free of <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. as a consequence of the implementation of an appropriate procedure aimed at eradicating <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al.; and</p> <p>(e) they originate in an area or areas in which <i>Meloidogyne chitwoodi</i> Golden et al. (all populations) and <i>Meloidogyne fallax</i></p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>Karssen are known not to occur, or in an area or areas where <i>Meloidogyne chitwoodi</i> Golden et al. (all populations) and <i>Meloidogyne fallax</i> Karssen are known to occur and:</p> <p>(i) they originate from a place of production which has been found free from <i>Meloidogyne chitwoodi</i> Golden et al. (all populations) and <i>Meloidogyne fallax</i> Karssen based on an annual survey of host crops by visual inspection of host plants at appropriate times and by visual inspection both externally and by cutting of tubers after harvest from potato crops grown at the place of production; or</p> <p>(ii) the tubers after harvest have been randomly sampled, and either checked for the presence of symptoms after an appropriate method to induce symptoms or laboratory tested, as well as inspected visually both externally and by cutting the tubers, at appropriate times and in all cases at the time of sealing of the packages or containers</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		before marketing according to the provisions on sealing in Council Directive <a href="#">2002/56/EC</a> on the marketing of seed potatoes <sup>(2)</sup> , and no symptoms of <i>Meloidogyne chitwoodi</i> Golden et al. (all populations) or <i>Meloidogyne fallax</i> Karssen have been found.
16.	Tubers of <i>Solanum tuberosum</i> L., intended for planting, other than tubers of those varieties accepted in one or more member States pursuant to Council Directive <a href="#">2002/53/EC</a> on the common catalogue of varieties of agricultural plant species <sup>(3)</sup>	Without prejudice to the requirements in item 15, the tubers must be accompanied by an official statement that they: <ul style="list-style-type: none"> <li>(a) belong to advanced selections such a statement being indicated in an appropriate way on the document accompanying the relevant tubers;</li> <li>(b) have been produced within the Community; and</li> <li>(c) have been derived in direct line from material which has been maintained under appropriate conditions and has been subjected within the Community to official quarantine testing in accordance with appropriate methods and has been found, in these tests, free from harmful organisms.</li> </ul>

(3) OJ No. L 193, 20.7.2002, p.1; amended by the Act concerning the Conditions of Accession of the Czech Republic, the Republic of Estonia, the Republic of Cyprus, the Republic of Latvia, the Republic of Lithuania, the Republic of Hungary, the Republic of Malta, the Republic of Poland, the Republic of Slovenia and the Slovak Republic and the adjustments to the Treaties on which the European Union is founded, OJ No. L 236, 23.9.2003, p 820, 828 and 910; there are other amending instruments which are not relevant.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

<i>(1)</i> <i>Item</i>	<i>(2)</i> <i>Description of relevant material</i>	<i>(3)</i> <i>Requirements of landing</i>
17.	Plants of stolon- or tuber-forming species of <i>Solanum</i> L., intended for planting, other than those tubers of <i>Solanum tuberosum</i> L. specified in column 2 of items 15 and 16, and other than culture maintenance material being stored in gene banks or genetic stock collections in item 18	<p>Without prejudice to the requirements in item 20:</p> <p>(a) the plants must have been held under quarantine conditions and must have been found free of any plant pests in quarantine testing which must:</p> <p>(i) be supervised by the responsible official body of the member State concerned and executed by scientifically trained staff of that organisation or of any officially approved body;</p> <p>(ii) be executed at a site provided with appropriate facilities sufficient to contain plant pests and maintain the material including indicator plants in such a way as to eliminate any risk of spreading plant pests;</p> <p>(iii) be executed on each unit of the material:</p> <p>(aa) by visual examination at regular intervals during the full length of at least one vegetative cycle, having regard to the type of material and its stage of development</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>during the testing programme, for symptoms caused by any plant pests; and</p> <p>(bb) by testing:—</p> <p>in the case of all potato material at least for</p> <ul style="list-style-type: none"> <li>— Andean potato latent virus,—</li> <li>Arracacha virus B. oca strain,</li> <li>— Potato black ringspot virus,</li> <li>— Potato spindle tuber viroid,</li> <li>— Potato virus T,</li> <li>— Andean potato mottle virus,</li> <li>— common potato viruses A, M, S, V, X and Y (including Y<sup>o</sup>, Y<sub>n</sub> and Y<sub>c</sub>) and Potato leaf roll virus,</li> <li>— <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i> (Spieckermann and Kotthoff) Davis et al.,</li> <li>— <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al.;</li> <li>— in the case of true seed of potato at least for the viruses and viroid listed above; and</li> </ul> <p>(iv) by appropriate testing on any other symptom observed in the visual examination in order to identify the plant pests having caused such symptoms;</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>(b) material, if any, which has not been found free, under the testing referred to in sub-paragraph (a) from plant pests specified in that sub-paragraph shall be immediately destroyed or subjected to procedures which eliminate the plant pest or pests; and</p> <p>(c) each organisation or research body holding this material shall inform their official Member State Plant Protection Organisation of the material held.</p>
18.	Plants of stolon, or tuber-forming species of <i>Solanum</i> L., intended for planting, being stored in gene banks or genetic stock collections	Each organisation or research body holding such material shall inform their official Member State Plant Protection Organisation of the material held.
19.	Tubers of <i>Solanum tuberosum</i> L., other than those mentioned in column 2 of items 15 to 18	<p>There must be evidence by a registration number put on the packaging, or in the case of loose loaded potatoes transported in bulk, on the vehicle transporting the potatoes, that the potatoes have been grown by an officially registered producer, or originate from officially registered collective storage or dispatching centres located in the area of production, indicating that the tubers are free from <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. and that:</p> <p>(a) the Community provisions to</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
20.	Plants, other than seeds, of <i>Solanaceae</i> , intended for planting, other than plants mentioned in column 2 of items 18 or 19	<p>combat <i>Synchytrium endobioticum</i> (Schilbersky) Percival; and</p> <p>(b) where appropriate, the Community provisions to combat <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i> (Spieckermann and Kotthoff) Davis et al. are complied with.</p> <p>Without prejudice to the requirements in items 15 to 17, 21 and 31, the plants must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas known to be free from Potato stolbur mycoplasma; or</p> <p>(b) no symptoms of Potato stolbur mycoplasma have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.</p>
21.	Plants, other than seeds, of <i>Capsicum annuum</i> L., <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., <i>Musa</i> L., <i>Nicotiana</i> L. or <i>Solanum melongena</i> L., intended for planting	<p>Without prejudice to the requirements in item 20, the plants must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas which have been found free from <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al.; or</p> <p>(b) no symptoms of <i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al. have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
22.	Plants, other than seeds, of <i>Humulus lupulus</i> L. intended for planting	The plants must be accompanied by an official statement that no symptoms of <i>Verticillium albo-atrum</i> Reinke and Berthold or <i>Verticillium dahliae</i> Klebahn have been observed on hops at the place of production since the beginning of the last complete cycle of vegetation.
23.	Plants, other than seeds, of <i>Dendranthema</i> (DC) Des Moul., <i>Dianthus</i> L. or <i>Pelargonium</i> l'Hérit ex Ait., intended for planting	Without prejudice to the requirements in items 24, 25 and 27, the plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li data-bbox="986 947 1348 1238">(a) no signs of <i>Heliothis armigera</i> Hubner, or <i>Spodoptera littoralis</i> (Boisd.) have been observed at the place of production since the beginning of the last complete cycle of vegetation; or</li> <li data-bbox="986 1238 1348 1373">(b) they have undergone appropriate treatment to protect them from these pests.</li> </ul>
24.	Plants, other than seeds, of <i>Dendranthema</i> (DC) Des Moul., intended for planting	Without prejudice to the requirements in items 23 and 27, the plants must be accompanied by an official statement that: <ul style="list-style-type: none"> <li data-bbox="986 1541 1348 2016">(a) they are no more than third generation stock derived from material which has been found to be free from <i>Chrysanthemum stunt viroid</i> during virological tests, or are directly derived from material of which a representative sample of at least 10% has been found to be free from <i>Chrysanthemum stunt viroid</i> during an official inspection</li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>carried out at the time of flowering;</p> <p>(b) they or cuttings have come from premises:</p> <p>(i) which have been officially inspected at least monthly, during the three months prior to dispatch and on which no symptoms of <i>Puccinia horiana</i> Hennings have been observed during that period, and in the immediate vicinity of which no symptoms of <i>Puccinia horiana</i> Hennings have been known to have occurred during the three months prior to marketing; or</p> <p>(ii) the consignment has undergone appropriate treatment against <i>Puccinia horiana</i> Hennings; and</p> <p>(c) in the case of unrooted cuttings no symptoms of <i>Didymella ligulicola</i> (Baker, Dimock and Davis) v. Arx were observed either on the cuttings or on the plants from which the cuttings were derived, or that, in the case of rooted cuttings, no symptoms of <i>Didymella ligulicola</i> (Baker, Dimock and Davis) v. Arx were observed either on the cuttings or the rooting bed.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
25.	Plants, other than seeds, of <i>Dianthus</i> L., intended for planting	<p>Without prejudice to the requirements in items 23 and 27, the plants must be accompanied by an official statement that:</p> <p>(a) they have been derived in direct line from mother plants which have been found free from <i>Erwinia chrysanthemi</i> pv. <i>dianthicola</i> (Hellmers) Dickey, <i>Pseudomonas caryophylli</i> (Burkholder) Starr and Burkholder and <i>Phialophora cinerescens</i> (Wollenw.) van Beyma on officially approved tests carried out at least once within the two previous years; and</p> <p>(b) no symptoms of these plants pests have been observed on the plants.</p>
26.	Bulbs of <i>Tulipa</i> L. or <i>Narcissus</i> L., other than those for which there is evidence from their packaging, or from other means, that they are intended for sale to final consumers not involved in professional cut flower production	The bulbs must be accompanied by an official statement that no symptoms of <i>Ditylenchus dipsaci</i> (Kühn) Filipjev have been observed on the plants since the beginning of the last complete cycle of vegetation.
27.	<p>Plants of herbaceous species intended for planting, other than: that:</p> <ul style="list-style-type: none"> <li>— bulbs,</li> <li>— corms,</li> <li>— plants of the family <i>Gramineae</i></li> <li>— rhizomes,</li> <li>— seeds, or</li> <li>— tubers</li> </ul>	<p>Without prejudice to the requirements in items 23 to 25 and 31, the plants must be accompanied by an official statement</p> <p>(a) they originate in an area or areas known to be free from <i>Liriomyza huidobrensis</i> (Blanchard) and <i>Liriomyza trifolii</i> (Burgess);</p> <p>(b) no signs of <i>Liriomyza huidobrensis</i> (Blanchard) or <i>Liriomyza trifolii</i> (Burgess) have been observed at the place of production, on official</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>inspections carried out at least monthly during the three months prior to harvesting; or</p> <p>(c) immediately prior to marketing, the plants have been officially inspected and found free from <i>Liriomyza huidobrensis</i> (Blanchard) and <i>Liriomyza trifolii</i> (Burgess) and have been subjected to an appropriate treatment against <i>Liriomyza huidobrensis</i> (Blanchard) and <i>Liriomyza trifolii</i> (Burgess).</p>
28.	Plants with roots, planted or intended for planting, grown in the open air	<p>There must be evidence that the place of production is known to be free from <i>Clavibacter michiganensis</i> subsp. <i>sepedonicus</i> (Spieckermann and Kotthoff) Davis et al., <i>Globodera pallida</i> (Stone) Behrens, <i>Globodera rostochiensis</i> (Wollenweber) Behrens and <i>Synchytrium endobioticum</i> (Schilbersky) Percival.</p>
29.	Plants, other than seeds, of <i>Beta vulgaris</i> L., intended for planting	<p>The plants must be accompanied by an official statement that:</p> <p>(a) they originate in area or areas known to be free from Beet leaf curl virus; or</p> <p>(b) Beet leaf curl virus has not been known to occur in the area of production and no symptoms of Beet leaf curl virus have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation.</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
30.	Seeds of <i>Helianthus annuus</i> L.	<p>The seeds must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in areas known to be free from <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni; or</li> <li>(b) other than those seeds that have been produced on varieties resistant to all races of <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni present in the area of production, they have been subjected to an appropriate treatment against <i>Plasmopara halstedii</i> (Farlow) Berl. and de Toni.</li> </ul>
31.	Plants, other than seeds, of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw., intended for planting	<p>Without prejudice to the requirements in items 20 and 27, the plants must be accompanied by an official statement that:</p> <ul style="list-style-type: none"> <li>(a) they originate in areas known to be free from Tomato yellow leaf curl virus;</li> <li>(b) no symptoms of Tomato yellow leaf curl virus have been observed on the plants, and: <ul style="list-style-type: none"> <li>(i) the plants originate in an area or areas known to be free from <i>Bemisiatabaci</i> Genn.; or</li> <li>(ii) the place of production has been found free from <i>Bemisiatabaci</i> Genn. on official inspections carried out at least monthly during the three months prior to export; or</li> </ul> </li> </ul>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
32.	Seeds of <i>Lycopersicon lycopersicum</i> (L.) Karsten ex Farw.	<p>(c) no symptoms of Tomato yellow leaf curl virus have been observed at the place of production and the place of production has been subjected to an appropriate treatment and monitoring regime to ensure freedom from <i>Bemisiatabaci</i> Genn.</p> <p>The seeds must be accompanied by an official statement that they have been obtained by means of an appropriate acid extraction method, and:</p> <p>(a) the seeds originate in an area or areas where <i>Clavibacter michiganensis</i> subsp. <i>michiganensis</i> (Smith) Davis et al. or <i>Xanthomonas campestris</i> pv. <i>vesicatoria</i> (Doidge) Dye are not known to occur;</p> <p>(b) no symptoms of diseases caused by those plant pests have been observed on the plants at the place of production during their last complete cycle of vegetation; or</p> <p>(c) the seeds have been subjected to official testing for at least those plant pests, on a representative sample and using appropriate methods, and have been found to be free from those plant pests.</p>
33.	Seeds of <i>Medicago sativa</i> L.	<p>Without prejudice to the requirements in item 34, the seeds must be accompanied by an official statement that:</p> <p>(a) no symptoms of <i>Ditylenchus dipsaci</i> (Kühn) Filipjev have</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
34.	Seeds of <i>Medicago sativa</i> L.	<p>been observed at the place of production since the beginning of the last complete cycle of vegetation and that no <i>Ditylenchus dipsaci</i> (Kühn) Filipjev has been revealed by laboratory tests on a representative sample; or</p> <p>(b) fumigation has taken place prior to marketing.</p> <p>Without prejudice to the requirements in item 33, the seeds must be accompanied by an official statement:</p> <p>(a) that they originate in an area or areas known to be free from <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> (McCulloch) Davis et al.; or</p> <p>(b) that:</p> <p>(i) <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> (McCulloch) Davis et al. has not been known to occur on the farm or in the immediate vicinity since the beginning of the past 10 years, and</p> <p>(aa) the crop belongs to a variety recognised as being highly resistant to <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> (McCulloch) Davis et al.,</p> <p>(bb) it had not yet started its fourth</p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
		<p>complete cycle of vegetation from sowing when the seed was harvested, and there was not more than one preceding seed harvest from the crop;</p> <p>or</p> <p>(cc) the content of inert matter which has been determined in accordance with the rules applicable for certification of seed marketed in the Community, does not exceed 0.1 % by weight ;</p> <p>(ii) no symptoms of <i>Clavibacter michiganensis</i> subsp. <i>insidiosus</i> (McCulloch) Davis et al. have been observed at the place of production or on any <i>Medicago sativa</i> L. crop adjacent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation; and</p> <p>(iii) the crop has been grown on land on which no previous <i>Medicago sativa</i></p>

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Item	(2) Description of relevant material	(3) Requirements of landing
35.	Seeds of <i>Phaseolus</i> L.	<p>L. crop has been present during the last three years prior to sowing.</p> <p>The seeds must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas known to be free from <i>Xanthomonas campestris</i> pv. <i>phaseoli</i> (Smith) Dye; or</p> <p>(b) a representative sample of the seeds has been tested and found free from <i>Xanthomonas campestris</i> pv. <i>phaseoli</i> (Smith) Dye.</p>
36.	Fruits of <i>Citrus</i> L., <i>Fortunella</i> Swingle or <i>Poncirus</i> Raf.	The packaging, any label attached to the packaging or any document normally used for trade purposes which accompanies the consignment must bear an appropriate origin mark (which may be a reference to the name of the country of origin).

## PART C

Relevant material which may only be landed in or moved within Wales (as a protected zone) if special requirements are satisfied

(1) Item	(2) Description of relevant material	(3) Requirements of landing
1.	Unrooted cuttings of <i>Euphorbia pulcherrima</i> Willd., intended for planting	<p>The cuttings must be accompanied by an official statement that:</p> <p>(a) they originate in an area or areas known to be free from <i>Bemisiatabaci</i> Genn. (European populations);</p> <p>(b) no signs of <i>Bemisiatabaci</i> Genn. (European populations)</p>
