

THE HIGH AUTHORITY

DECISION No 33-58

of 1 December 1958

supplementing Decision No 37-54 of 29 July 1954 on the publication of the price lists and conditions of sale applied by undertakings in the steel industry to the sale of special steels

THE HIGH AUTHORITY,

Having Regard to Article 60 (2) (a) of the Treaty and Annex III thereto;

Having regard to Decision No 37-54 of 29 July 1954 on the publication of price lists and conditions of sale applied by undertakings in the steel industry to the sale of special steels within the meaning of Annex III to the Treaty (*Official Journal of the Community* No 18 of 1 August 1954, pp. 470 *et seq.*);

Whereas pursuant to Decision No 37-54 undertakings in the steel industry are required to publish price lists and conditions of sale for the sale of certain special steels in the common market;

Whereas having regard to the special features of production and sale of special steels, publication of price lists was in the first place limited to certain special steels;

Whereas experience acquired in the meantime and study of the special steels for which publication of price lists has not hitherto been required have shown that the conditions warranting the publication of price lists for other products are likewise present;

Whereas the requirement to publish price lists must accordingly be extended to all alloy structural steels, steel for ball bearings and stainless and heat-resisting steels;

Whereas certain special steels are sold under trade marks and whereas the communication of prices and

conditions of sale to customers, which is the purpose of publication, is incomplete unless such trade marks are also published;

Whereas the chemical composition of the products must likewise be published since this is essential to the determination of their quality and comparability with other special steels;

After consulting the Consultative Committee;

DECIDES:
