COMMISSION

COMMISSION DECISION

of 14 April 1976

authorizing the Italian Republic not to apply Community treatment to certain pullovers of synthetic textile fibres falling within heading No ex 60.05 of the Common Customs Tariff, originating in the Republic of Korea and in free circulation in the other Member States

(Only the Italian text is authentic)

(76/528/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

Having regard to the application under the first paragraph of Article 115 of the Treaty, made on 5 April 1976 by the Italian Government to the Commission by telex from the office of its Permanent Representative to the European Communities, for authorization to apply protective measures in respect of imports of certain pullovers of synthetic textile fibres falling within heading No ex 60.05 of the Common Customs Tariff, originating in the Republic of Korea and in free circulation in France,

Whereas the importation into the Community of the products in question originating in the Republic of Korea is the subject of an Agreement negotiated between the Community and that country initialled on 28 November 1975;

Whereas, under the Agreement, the Republic of Korea has undertaken to take all necessary steps to limit its exports of certain textile products to the Community to certain ceilings allocated among the Member States;

Whereas for the products falling within heading No ex 60.05 of the Common Customs Tariff, the quota share allocated for 1976 to Italy is 450 000 items while that allocated to the French Republic in respect of the same products is 740 000 items;

Whereas the allocation of the voluntary restraint ceiling in question still involves certain disparities in the quota shares fixed for the various Member States in relation to the supply requirements of the markets concerned;

Whereas these disparities are likely to create a flow of indirect trade which could aggravate the difficult situation of the textile industry;

Whereas the quantity covered by the licence application on which the Italian Government's application is based (129 950 items equivalent to 17 % of the French quota share) is such as to justify operations of this kind;

Whereas, according to information supplied by the Italian Government, there are serious economic difficulties in the sector that manufactures the products in question resulting in a progressive decline of production and a constant reduction of the number of workers employed in that sector;

Whereas the indirect imports in question are likely to aggravate these economic difficulties;

Whereas it is not possible at the present time to set in motion the machinery for bringing about the necessary cooperation from France and the other Member States;

Whereas authorization should accordingly be given, for a limited period, for the application of protective measures, under the first paragraph of Article 115, subject to the conditions laid down by the Commission Decision of 12 May 1971⁽¹⁾, and in particular Article 1 thereof,

⁽¹⁾ OJ No L 121, 3. 6. 1971, p. 26.
