

Commission Decision of 15 June 1979 laying down detailed rules for the implementation of Council Decision 77/706/EEC (79/639/EEC) (repealed)

*Article 1*

- 1 For the purposes of this Decision the definitions contained in Article 1 (a), (b), (c) and (d) respectively of Commission Decision 78/890/EEC shall apply in respect of:
  - a 'normal consumption of crude oil and petroleum products',
  - b 'base period',
  - c 'supply shortfall', and
  - d 'normal supply'.
- 2 For the purposes of this Decision:
  - a 'normal energy consumption' means the average daily consumption recorded over a base period, i.e.:
    - domestic production of primary fuels,
    - plus imports,
    - plus deliveries from Community countries,
    - minus exports,
    - minus deliveries to Community countries,
    - plus or minus variations in stocks.Seagoing ships' bunkers shall be regarded as exports;
  - b 'substitutable petroleum products' means all fuel oil consumed in electricity generation, and, as appropriate, in other sectors of industry, including autoproducers, as calculated pursuant to Article 2(2);
  - c 'substitutable energy' means all energy consumed in electricity generation and, where appropriate, in other sectors of industry, including autoproducers, as calculated pursuant to Article 2 (2).
