(92/438/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 43 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament⁽¹⁾,Whereas, since the adoption of Council Decision 88/192/EEC of 28 March 1988 on a system for health control of imports from third countries at frontier inspection posts (Shift project)⁽²⁾, considerable progress has been made on harmonization in the veterinary field;Whereas, in particular, the Council has adopted Directive 90/675/EEC of 10 December 1990 laying down the principles governing the organization of veterinary checks on products entering the Community from third countries⁽³⁾, Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organization of veterinary checks on animals entering the Community from third countries⁽⁴⁾ and Directive 91/628/EEC of 19 November 1991 on the protection of animals during transport⁽⁵⁾;

Whereas, in the light of the favourable trend in harmonization in the veterinary sector, it is appropriate to lay down fresh provisions on computerization of veterinary import procedures and therefore to repeal Decision 88/192/EEC;

Whereas these fresh provisions must help protect public and animal health while permitting attainment of the internal market for animals and animal products;

Whereas these new provisions are all the more necessary in that inspection at internal frontiers is to be discontinued;

Whereas computerization of veterinary import procedures must provide an efficient way for an official veterinarian rejecting a consignment at a border inspection post to pass on relevant information and also data bases detailing import requirements and imports of animals and animal products;

Whereas Directives 90/675/EEC, 91/496/EEC and 91/628/EEC should be amended accordingly;

Whereas provision should be made in Council Decision 90/424/EEC of 26 June 1990 on expenditure in the veterinary field⁽⁶⁾ for the Community to contribute financially to implementation of the new measures relating to the computerization of veterinary import procedures;

Whereas the Commission should be entrusted with the task of adopting the necessary implementing rules,

⁽¹⁾ Opinion delivered on 10 July 1992 (not yet published in the Official Journal).⁽²⁾ OJ No L 89, 6. 4. 1988, p. 32.⁽³⁾ OJ No L 373, 31. 12. 1990, p. 1; Directive as amended by Directive 91/496/EEC (OJ No L 268, 24. 9. 1991, p. 56).⁽⁴⁾ OJ No L 268, 24. 9. 1991, p. 56; Directive as amended by Directive 91/628/EEC (OJ No L 340, 12. 12. 1991, p. 17).⁽⁵⁾ OJ No L 340, 11. 12. 1991, p. 17.⁽⁶⁾ OJ No L 224, 18. 8. 1990, p. 19. Decision as last amended by Regulation (EEC) No 3763/91 (OJ No L 356, 24. 12. 1991, p. 1).

Article 14

The provisions of this Decision shall be reviewed before 1 July 1995, in order to take account of technological developments and to make the necessary improvements especially in view of any developments which may already be recorded in the most advanced Member States.

Article 15

This Decision is addressed to the Member States.

▼B*ANNEX I*

1. The basic principle of the system is that each relevant authority (border inspection post; central authority of the Member State; Commission) will have random access to a computerized file of consignments of animals or products re-dispatched under Article 12 (1) (c) of Directive 91/496/EEC or Article 16 (1) (a) of Directive 90/675/EEC.
2. This file will be updated by the competent authorities of the Member States. Information must be conveyed with all speed via the public packet-switching network.
3. The Commission shall be responsible for the network. The operator shall be selected and the overall technical specifications of the network determined in accordance with the procedure laid down in Article 13 of this Decision.
4. The reasons for re-dispatching a consignment shall be entered in the file. The rules for applying this paragraph shall be adopted in accordance with the procedure provided for in Article 13.

▼B*ANNEX II*

1. The Commission shall establish a data base of the Community requirements for importation of live animals and products and shall make it available to each Member State and each border inspection post.
2. Each Member State shall establish a data base of national requirements (not covered by paragraph 1) for importation of live animals and products into its territory. Each will make this available to the other Member States, the Commission and all Community border inspection posts.
3. Each Member State shall determine how its border inspection posts are to have access to the data bases indicated in paragraphs 1 and 2.
4. The Commission shall be responsible for updating the data base indicated in paragraph 1. The Member States shall be individually responsible for updating the data bases indicated in paragraph 2.
5. The technical requirements for harmonization of the data bases and for their updating shall be determined in accordance with the procedure laid down in Article 13.

▼B*ANNEX III*

1. Each Member State shall set up a data base covering the animals and products brought into its territory.
2. Each Member State shall transmit to the Commission, at a frequency or frequencies to be determined in accordance with the procedure laid down in Article 13, information extracted from the data bases indicated in paragraph 1.
3. The technical requirements for harmonization of the data bases and for transmission of information to the Commission shall be determined in accordance with the procedure laid down in Article 13.
