

Commission Decision of 11 April 1997 mending Decisions 95/160/EC, 95/161/EC and 95/168/EC concerning the methods to be used for microbiological testing (Text with EEA relevance) (97/278/EC)

Article 1

In Annex I to Decision 95/160/EC, point 3 is replaced by the following:

3. **Microbiological test for examination of the samples**
 - Microbiological testing of the samples for salmonella should be carried out to the standard of the International Organization for Standardization ISO 6579:1993 or revised editions, or by the method described by the Nordic Committee on Food Analysis (NMKL method No 71, fourth edition, 1991) or revised editions.
 - Where the results of analysis are contested between Member States the standard of the International Organization for Standardization ISO 6579:1993 or revised editions should be regarded as the reference method.

Changes to legislation:

There are currently no known outstanding effects for the Commission Decision of 11 April 1997 mending Decisions 95/160/EC, 95/161/EC and 95/168/EC concerning the methods to be used for microbiological testing (Text with EEA relevance) (97/278/EC), Article 1.
