(notified under document number C(2000) 511)

(Text with EEA relevance)

(2000/275/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

HAS ADOPTED THIS DECISION:

Having regard to the Treaty establishing the European Community,

Article 1

Having regard to Council Directive 91/439/EEC of 29 July 1991 on driving licences⁽¹⁾, as last amended by Directive 97/26/EC⁽²⁾, and in particular Article 1(2) and the first paragraph of Article 10 thereof,

This Decision shall apply to all valid driving licences issued in Member States which are still in circulation.

Whereas:

Article 2

(1) Directive 91/439/EEC provides that all driving licences issued by Member States, including those issued before the implementation of that Directive in national legislation, have to be mutually recognised.

Tables of equivalences between categories of driving licences, which have been issued in Member States before the implementation of Directive 91/439/EEC and the harmonised categories as defined in Article 3 of Directive 91/439/EEC are laid down in the Annex to this Decision.

(2) That the principle of mutual recognition of driving licences entails full recognition of all entitlements which have been granted to a licence holder in accordance with national provisions in force at the time.

Article 3

(3) Directive 91/439/EEC provides that the Member States are to establish equivalences between the categories of licences issued before the implementation of that Directive and those defined in Article 3 thereof. Those equivalences have to have the agreement of the Commission in a legally binding form,

1. Categories of driving licences which have been issued prior to the implementation of Directive 91/439/EEC entitle the holder to drive vehicles of the corresponding categories as described in the tables in the Annex to this Decision without restrictions, save as stated otherwise for the relevant entitlement.

⁽¹⁾ OJ L 237, 24.8.1991, p. 1.

⁽²⁾ OJ L 150, 7.6.1997, p. 41.

2. Codes which indicate the restriction of corresponding entitlements in the tables are harmonised Community codes as defined by Article 7(a) of Directive 91/439/EEC.

Article 4

This Decision is addressed to the Member States.

Done at Brussels, 21 March 2000.

3. On exchange of a driving licence to a Community model driving licence as described in Annexes I and I(a) to Directive 91/439/EEC in accordance with Article 8(1) of that Directive, the equivalent entitlements shall be granted as described in the Annex to this Decision.

MODELS ISSUED IN GERMANY

General remark: For all German models issued before 1.1.1999, further entitlements of a very specific and limited kind, which are not displayed in the tables, may emerge. In the rare circumstance that such a case does occur, German issuing authorities will have to be contacted in case of doubt about the scope of a particular entitlement.

Model Germany 1 (D1)

Issued in the Federal Republic of Germany until 1.4.1986 (in particular cases the date of issue may be after 1.4.1986)

Description: Grey, four pages. A variety of differences as regards colour and form of the model may occur in practice, since this model has been issued for over 40 years. Models issued in the *Land* of Saarland may have a different size and are bilingual (German and French).

Table of equivalences

Categories of model D1	Corresponding categories

3	B, BE, C1, C1E (see: 3, 4, 5)

(5)	----

Additional information:

1. If a 'Klasse 1' licence was obtained before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland), the holder is entitled to drive category B 79 ($\leq 700 \text{ cm}^3$) in addition, without having to exchange the licence. In case of exchange of such a licence, the holder is granted a full category B licence.
2. If the holder of a 'Klasse 2' entitlement has his 50th birthday before 31.12.1999, his entitlement ceases to be valid on 31.12.2000. Until 31.12.2000 this licence holder has to exchange his licence for a new model and the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for a new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

3. If a 'Klasse 2' or a 'Klasse 3' licence was obtained before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland), the holder is entitled to drive categories A1 and A 79 ($\leq 250 \text{ cm}^3$) in addition. In both cases, the holder is granted an unrestricted category A entitlement in case he exchanges the licence.

If a 'Klasse 2' or a 'Klasse 3' licence was obtained after the above dates but before 1.4.1980, it entitles the holder to drive category A1 in addition.

4. The holder of a 'Klasse 3' licence is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence, which is issued to him in exchange only at the explicit demand of the holder.

5. The holder of a vehicle of 'Klasse 3' is entitled to drive buses without passengers with a maximum weight of less than 7,5 t, also in international traffic, without the obligation to hold model D2. The holder of a vehicle of 'Klasse 2' is entitled to drive buses without passengers in international traffic without the obligation to hold model D2. After exchange of the models in Germany, the right to drive a bus without passengers is limited to German territory with application of a national code.

In order to be entitled to drive buses with passengers in international traffic, a licence holder of 'Klasse 2' needs to hold licence model D2 in addition. On exchange in another Member State, categories D1, D1E, D and DE only have to be granted to holders who are entitled to drive 'Klasse 2' and who hold model D2.

6. Where a 'Klasse 4' entitlement was granted before 1.12.1954 (before 1.10.1960 in the *Land* of Saarland) it is not a national category only but entitles the holder to drive the following categories:

A1, A 79 ($\leq 250 \text{ cm}^3$) and B 79 ($\leq 700 \text{ cm}^3$). In both cases the holder is granted an unrestricted category A entitlement when he exchanges the licence.

In case a 'Klasse 4' licence was issued after the above dates, but before 1.4.1980, it entitles the holder to drive category A1.

Model Germany 2 (D2)

Issued in Germany until 31.12.1998

Description: Yellow model consisting of four pages.

Additional information:

This model is not valid as such. In order to be entitled to drive the categories mentioned in the tables of equivalences, the holder of this model at the same time has to be the holder of one of the following models: D1, D3, D4, D5 or D6.

5	A1, B, BE, C1, C1E, C, CE (see: 1, 3, 4)

Additional information:

A statutory amendment, which took effect on 1.4.1957, changed the scope and the definitions of categories. Hence two tables of equivalences are required for this model.

1. If the holder of a 'Klasse 2' entitlement issued before 1.4.1957 or of a 'Klasse 5' entitlement issued after 31.3.1957 has his 50th birthday before 31.12.1999, his entitlement ceases to be valid on 31.12.2000. Until 31.12.2000 this licence holder has to exchange his licence for a new model and the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for a new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

2. The holder of a 'Klasse 3' licence issued before 1.4.1957 and of a 'Klasse 4' licence issued after 31.3.1957 is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence, which is issued to him in exchange only at the explicit demand of the holder.

3. The holder of a vehicle of 'Klasse 3' issued before 1.4.1957 (D3a) or 'Klasse 4' issued after 31.3.1957 (D3b), is entitled to drive buses without passengers with a maximum weight of less than 7,5 t, also in international traffic without the obligation to hold model D2.

The holder of a vehicle of 'Klasse 2' issued before 1.4.1957 (D3a) or 'Klasse 5' issued after 31.3.1957 (D3b), is entitled to drive buses without passengers in international traffic without the obligation to hold model D2.

After exchange of the models in Germany, the right to drive a bus without passengers is limited to German territory with application of a national code.

In order to be entitled to drive buses with passengers in international traffic, the holder of a licence model D3 is required to hold licence model D2 in addition. On exchange in another Member State, categories D1, D1E, D and DE only have to be granted to holders who are entitled to drive 'Klasse 2' (D3a) or 'Klasse 5' (D3b) and who hold model D2.

4. A holder of a 'Klasse 2', 'Klasse 3' or 'Klasse 4' licence of model D3a or of a 'Klasse 2', 'Klasse 4' or 'Klasse 5' licence of model D3b, which has been issued before 1.12.1954, is entitled to drive unrestricted category A only after exchange of the licence. Without exchanging the licence, the model entitles the holder to drive A 79 ($\leq 250 \text{ cm}^3$) only.
5. Without exchange of the document, the following applies:

Where a 'Klasse 1' or 'Klasse 4' licence was issued before 1.12.1954, the holder is entitled to drive B 79 ($\leq 700 \text{ cm}^3$) only. In case a 'Klasse 1' or 'Klasse 4' was issued after that date and before 1.4.1957, or a 'Klasse 2' licence was issued after 31.3.1957, the holder is entitled to drive B 79 ($\leq 250 \text{ cm}^3$) only.

In the case of exchange of the document for a new licence, the holder is granted a full B.

Additional information:

1. If the holder of a 'Klasse 5' entitlement has his 50th birthday before 31.12.1999, his entitlement ceases to be valid on 31.12.2000. Until 31.12.2000 this licence holder has to exchange his licence for a new model and the period of validity and the periodicity of medical examination for the new model applies. If a holder turns 50 after 31.12.1999, he has to exchange his licence for new model on his 50th birthday and thereafter a period of validity of five years applies.

Where such a licence holder establishes his normal residence in another Member State without being in compliance with the above rules, his 'Klasse 2' entitlement should not be recognised (unless he has changed his normal residence before the above rules apply to him).

2. The holder of a 'Klasse 4' licence is also entitled to drive the following vehicle: CE 79 (> 12 t, but not more than three axles in total).

This entitlement has to figure on a new licence, which is issued to him in exchange only at the explicit demand of the holder.

3. The holder of a vehicle of 'Klasse 4' is entitled to drive empty buses with a maximum weight of up to 7,5 t, also in international traffic without having to hold model D2. After exchange of the models in Germany, the right to drive an empty bus is limited to German territory with application of a national code.

On exchange in another Member State, categories D1, D1E, D and DE only have to be granted to holders who are entitled to drive 'Klasse 5' and who hold model D2.

4. A holder of a 'Klasse 2', '3' or '5' licence, which has originally been issued before 1.12.1954, is entitled to drive unrestricted category A only after exchange of the licence. Without exchanging the licence, the model entitles the holder to drive A 79 ($\leq 250 \text{ cm}^3$) only.
5. Without exchange of the document, the following applies:

Where a 'Klasse 1' licence was issued before 1.12.1954, the holder is entitled to drive B 79 ($\leq 700 \text{ cm}^3$). Where a 'Klasse 1' was issued after that date and before 1.4.1957, or a 'Klasse 2' licence was issued after 1.4.1957, the holder is only entitled to drive B 79 ($\leq 250 \text{ cm}^3$).

Where the document is exchanged for a new licence, the holder is granted a full B.

6. Where a holder of 'Klasse 2', '3', '4' or '5', or according to § 6 StVZO or § 85 StVZO, has obtained his licence before 1.4.1980, he is entitled to drive category A1 in addition. In this case 'Klasse 3' is not only a national category.
