

Commission Decision of 21 February 2003 authorising Member States to take decisions under Directive 1999/105/EC on forest reproductive material produced in third countries (notified under document number C(2003) 580) (2003/122/EC)

COMMISSION DECISION

of 21 February 2003

authorising Member States to take decisions under Directive 1999/105/EC on forest reproductive material produced in third countries

(notified under document number C(2003) 580)

(2003/122/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to the Council Directive 1999/105/EC of 22 December 1999 on the marketing of forest reproductive material<sup>(1)</sup>, and in particular Article 19(3) thereof,

Whereas:

- (1) Pursuant to Article 19(1) of Directive 1999/105/EC, the Council on a proposal from the Commission is to determine whether forest reproductive material produced in a third country affords the same assurances as regards the approval of its basic material and the measures taken for its production with a view to marketing as does forest reproductive material produced within the Community and complying with the provisions of that Directive.
- (2) However, the information presently available on the conditions applying in third countries is still not sufficient to enable the Community to make any such decision in respect of any third country.
- (3) Therefore, in order to prevent trade patterns from being disrupted, Member States should be authorised to take such decisions. Such authorisation aims to ensure that the material imported offers equivalent guarantees to those applicable to forest reproductive material produced in the Community in accordance with that Directive.
- (4) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry,

HAS ADOPTED THIS DECISION:

*Article 1*

Member States are authorised to take decisions under Article 19(3) of Directive 1999/105/EC with regard to forest reproductive material produced in third countries listed in the Annex, and in respect of the species, types of basic material and categories set out therein.

---

**Status:** Point in time view as at 01/05/2004.
