## ANNEX

### FINANCIAL GUIDELINES FOR MANAGING THE ASSETS OF THE ECSC IN LIQUIDATION AND, ON COMPLETION OF THE LIQUIDATION, THE ASSETS OF THE RESEARCH FUND FOR COAL AND STEEL

#### 1. USE OF FUNDS

- (a) The assets of the ECSC in liquidation, including both its loan portfolio and its investments, shall be used as necessary to meet the remaining obligations of the ECSC, in terms of its outstanding borrowings, of its commitments resulting from previous operating budgets, and of any unforeseeable liability.
- (b) To the extent that the assets of the ECSC in liquidation are not needed to meet obligations as described in (a), they shall be invested so as to provide income to be used to fund the continuation of research in the sectors related to the coal and steel industry.
- (c) The Assets of the Research Fund for Coal and Steel shall be invested so as to provide income to be used to fund the continuation of research in the sectors related to the coal and steel industry.

#### 2. ALLOCATION OF ASSETS

Pursuant to point 1, the Commission will allocate the assets between the following three categories:

- (a) reserves needed to provide an assurance to the creditors of the ECSC that all of its outstanding borrowings and the interest thereon will be paid in full on their due date, thus enabling the obligor to maintain its 'AAA' rating or its equivalent;
- (b) funds needed to guarantee the disbursement of all amounts legally engaged under the Operating Budget of the ECSC prior to the end of the ECSC Treaty;
- (c) to the extent that funds are no longer needed for the above purposes (due either to the reimbursement of borrowings or payment of interest without call on the reserves or the eventual cancellation of budgetary obligations) such funds will be allocated to investment categories.

#### 3. INVESTMENT CATEGORIES

The assets referred to in point 2 are to be invested in such a way as to ensure that funds are available as and when needed, while still generating the highest return available, consistent with maintaining a high degree of security and stability over the long-term.

- (a) To obtain these objectives, investment in the following asset categories only shall be permitted:
  - (i) term deposits with authorised banks;
  - (ii) money market instruments, with a final maturity of less than one year, issued by authorised banks or by other categories of authorised issuers;
  - (iii) [F<sup>1</sup>fixed and floating rate bonds with a maturity or, in the case of asset-backed securities, an expected maturity not exceeding a remaining life of 10 years and six months from the payment date, provided that they are issued by any of the categories of authorised issuers;]

*Status: Point in time view as at 24/09/2008.*

**Changes to legislation:** *There are currently no known outstanding effects for the Council Decision of 1 February 2003 laying down multiannual financial guidelines for managing the assets of the ECSC in liquidation and, on completion of the liquidation, the Assets of the Research Fund for Coal and Steel (2003/77/EC). (See end of Document for details)*

- (iv) equity shareholdings in authorised collective investment funds, provided that such investments are limited to funds whose aim is to respond to the performance of a financial index and only for the investments referred to in point 2(c).
- (b) The Commission may also make use of the following operations in respect of the asset categories set out in (a):
  - i) [<sup>F1</sup>repurchase and reverse repurchase agreements, provided the counterparts are authorised for such transactions, and provided that the Commission remains in a position to repurchase equivalent securities that it may have sold at the contractual deadline. Equivalent securities are securities (i) issued by the same issuer, (ii) which form part of the same issue, and (iii) are of an identical type, nominal value, description and amount as the securities lent out except where subject to a corporate action or redenomination;]
  - (ii) bond lending operations, but only under the conditions and procedures laid down by recognised clearing systems such as Clearstream and Euroclear, or by leading financial institutions specialising in this type of operations, subject to prudential rules considered as being equivalent to Community rules.
- (c) ‘Authorised’ counterparts, as the term is used in these guidelines are those selected by the Commission under its rules and procedures referred to in point 7.
