(2004/432/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 96/23/EC of 29 April 1996 on measures to monitor certain substances and residues thereof in live animals and animal products and repealing Directives 85/358/EEC and 86/469/EEC and Decisions 89/187/EEC and 91/664/EEC ⁽¹⁾, and in particular the fourth subparagraph of Article 29(1) thereof,

Whereas:

- (1) Under Directive 96/23/EC inclusion and retention on the lists of third countries, provided for in Community legislation, from which Member States are authorised to import animals and primary products of animal origin (the products) covered by that Directive are subject to submission by the third countries concerned of a plan setting out the guarantees which they offer as regards the monitoring of the groups of residues and substances referred to in that Directive. That Directive also lays down certain requirements concerning time limits for submission of plans.
- (2) Commission Decision 2000/159/EC of 8 February 2000 on the provisional approval of residue plans of third countries according to Council Directive 96/23/EC ⁽²⁾ lists provisionally the third countries which have submitted a residue monitoring plan, setting out the guarantees offered by them in compliance with the requirements of that Directive.
- (3) Due to the evaluations of those plans presented by the third countries listed provisionally in the Annex to Decision 2000/159/EC, the list of third countries complying with Directive 96/23/EC (the list) should no longer be considered as provisional.
- (4) Certain third countries have presented residue monitoring plans to the Commission for animals and products not listed in Decision 2000/159/EC. The evaluation of those plans and the additional information requested by the Commission provide sufficient guarantees on the residue monitoring in those countries for the concerned animals and products. Those animals and products should therefore be included in the list for those third countries.
- (5) Certain third countries have not presented residue monitoring plans or have presented insufficient guarantees in the area of residue monitoring for animals and products originally listed in Decision 2000/159/EC. Those animals and products should therefore no longer be included in the list of those third countries.
