THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 89/662/EEC of 11 December 1989 concerning veterinary checks in intra-Community trade with a view to the completion of the internal market⁽¹⁾, and in particular Article 9(3) thereof,

Whereas:

- (1) Commission Decision 2006/415/EC of 14 June 2006 concerning certain protection measures in relation to highly pathogenic avian influenza of the subtype H5N1 in poultry in the Community and repealing Decision 2006/135/EC⁽³⁾ lays down certain protection measures to be applied in order to prevent the spread of that disease, including the establishment of areas A and B following a suspected or confirmed outbreak of the disease.
- (2) Romania has notified the Commission of an outbreak of highly pathogenic avian influenza of subtype H5N1 in a backyard holding on its territory in the County of Tulcea and has taken the appropriate measures as provided for in Decision 2006/415/EC, including the establishment of areas A and B as provided for in Article 4 of that Decision.
- (3) The Commission has examined those measures in collaboration with Romania, and is satisfied that the borders of areas A and B established by the competent authority in that Member State are at a sufficient distance to the actual location of the outbreak. areas A and B in Romania can therefore be confirmed and the duration of that regionalisation fixed.
