

Commission Decision of 17 April 2008 on the allocation of quantities of controlled substances allowed for essential uses in the Community in 2008 under Regulation (EC) No 2037/2000 of the European Parliament and of the Council (notified under document number C(2008) 1403) (Only the Danish, Dutch, English, Estonian, French, German, Italian, Slovenian and Spanish texts are authentic) (Text with EEA relevance) (2008/409/EC)

## COMMISSION DECISION

of 17 April 2008

on the allocation of quantities of controlled substances allowed for essential uses in the Community in 2008 under Regulation (EC) No 2037/2000 of the European Parliament and of the Council

(notified under document number C(2008) 1403)

(Only the Danish, Dutch, English, Estonian, French, German, Italian, Slovenian and Spanish texts are authentic)

(Text with EEA relevance)

(2008/409/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Regulation (EC) No 2037/2000 of the European Parliament and of the Council of 29 June 2000 on substances that deplete the ozone layer<sup>(1)</sup>, and in particular Article 3(1) thereof,

Whereas:

- (1) The Community has already phased out the production and consumption of chlorofluorocarbons, other fully halogenated chlorofluorocarbons, halons, carbon tetrachloride, 1,1,1-trichloroethane, hydrobromofluorocarbon and bromochloromethane.
- (2) Each year the Commission is required to determine essential uses for these controlled substances, the quantities that may be used and the companies that may use them.
- (3) Decision IV/25 of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer, hereinafter 'the Montreal Protocol', sets out the criteria used by the Commission for determining any essential uses and authorises the production and consumption necessary to satisfy essential uses of controlled substances in each Party.
- (4) Decision XIX/13 of the Parties to the Montreal Protocol authorises the production in the European Community of 200 tonnes of chlorofluorocarbons (CFCs) in 2008 for the

---

**Changes to legislation:** There are currently no known outstanding effects for the Commission Decision of 17 April 2008 on the allocation of quantities of controlled substances allowed for essential uses in the Community in 2008 under Regulation (EC) No 2037/2000 of the European Parliament and of the Council (notified under document number C(2008) 1403) (Only the Danish, Dutch, English, Estonian, French, German, Italian, Slovenian and Spanish texts are authentic) (Text with EEA relevance) (2008/409/EC). (See end of Document for details)

---

manufacturing and use of Metered-Dose Inhalers (MDIs) qualifying for essential uses of CFCs as defined in Decision IV/25.

- (5) Decision XIX/18 of the Parties to the Montreal Protocol authorises the production and consumption necessary to satisfy essential uses of controlled substances listed in Annexes A, B and C (Group II and III substances) of the Montreal Protocol for laboratory and analytical uses as listed in Annex IV to the report of the Seventh Meeting of the Parties, subject to the conditions set out in Annex II to the report of the Sixth Meeting of the Parties, as well as Decisions VII/11, XI/15 and XV/5 of the Parties to the Montreal Protocol. Decision XVII/10 of the Parties to the Montreal Protocol authorises the production and consumption of the controlled substance listed in Annex E of the Montreal Protocol necessary to satisfy laboratory and analytical uses of methyl bromide.
- (6) Pursuant to paragraph 3 of Decision XII/2 of the Parties to the Montreal Protocol on measures to facilitate the transition to chlorofluorocarbon-free MDIs, all Member States have notified<sup>(2)</sup> the United Nations Environment Programme the active ingredients for which chlorofluorocarbons (CFCs) are no longer essential for the manufacture of CFC-MDIs for placing on the market of the European Community.
- (7) Article 4(4)(i)(b) of Regulation (EC) No 2037/2000 prevents CFCs from being used and placed on the market unless they are considered essential under the conditions described in Article 3(1) of that Regulation. These non-essentiality determinations have therefore reduced the demand for CFCs used in MDIs that are placed on the market of the European Community. In addition, Article 4(6) of Regulation (EC) No 2037/2000 prevents CFC-MDI products being imported and placed on the market unless the CFCs in these products are considered essential under the conditions described in Article 3(1).
- (8) The Commission has published a Notice<sup>(3)</sup> on the 18 July 2007 to those companies in the Community of 27 Member States that request consideration by the Commission for the use of controlled substances for essential uses in the Community in 2008 and has received declarations on intended essential uses of controlled substances for 2008.
- (9) For the purpose of ensuring that interested companies and operators may continue to benefit in due time from the licensing system, it is appropriate that the present decision shall apply from 1 January 2008.
- (10) The measures provided for in this Decision are in accordance with the opinion of the Management Committee established by Article 18(1) of Regulation (EC) No 2037/2000,

HAS ADOPTED THIS DECISION:

*Article 1*

1 The quantity of controlled substances of Group I (chlorofluorocarbons 11, 12, 113, 114 and 115) subject to Regulation (EC) No 2037/2000 which may be used for essential medical uses in the Community in 2008 shall be 155 460,0 ozone-depleting potential (ODP) kilograms.

2 The quantity of controlled substances of Group I (chlorofluorocarbons 11, 12, 113, 114 and 115) and Group II (other fully halogenated chlorofluorocarbons) subject to Regulation

---

**Changes to legislation:** There are currently no known outstanding effects for the Commission Decision of 17 April 2008 on the allocation of quantities of controlled substances allowed for essential uses in the Community in 2008 under Regulation (EC) No 2037/2000 of the European Parliament and of the Council (notified under document number C(2008) 1403) (Only the Danish, Dutch, English, Estonian, French, German, Italian, Slovenian and Spanish texts are authentic) (Text with EEA relevance) (2008/409/EC). (See end of Document for details)

---

(EC) No 2037/2000 which may be used for essential laboratory uses in the Community in 2008 shall be 56 213,6 ODP kilograms.

3 The quantity of controlled substances of Group III (halons) subject to Regulation (EC) No 2037/2000 that may be used for essential laboratory use in the Community in 2008 shall be 418,7 ODP kilograms.

4 The quantity of controlled substances of Group IV (carbon tetrachloride) subject to Regulation (EC) No 2037/2000 that may be used for essential laboratory uses in the Community in 2008 shall be 150 832,836 ODP kilograms.

5 The quantity of controlled substances of Group V (1,1,1-trichloroethane) subject to Regulation (EC) No 2037/2000 that may be used for essential laboratory uses in the European Union in 2008 shall be 381,5 ODP kilograms.

6 The quantity of controlled substances of Group VI (methyl bromide) subject to Regulation (EC) No 2037/2000 that may be used for laboratory and analytical uses in the Community in 2008 shall be 150,00 ODP kilograms.

7 The quantity of controlled substances of Group VII (hydrobromofluorocarbons) subject to Regulation (EC) No 2037/2000 that may be used for essential laboratory uses in the Community in 2008 shall be 0,96 ODP kilograms.

8 The quantity of controlled substances of group IX (bromochloromethane) subject to Regulation (EC) No 2037/2000 that may be used for essential laboratory uses in the Community in 2008 shall be 13,368 ODP kilograms.

#### *Article 2*

The chlorofluorocarbon metered-dose inhalers listed in Annex I shall not be placed on markets where the Competent Authority has determined chlorofluorocarbons for metered-dose inhalers on those markets to be non-essential.

#### *Article 3*

During the period 1 January to 31 December 2008 the following rules shall apply:

1. The allocation of essential medical use quotas for chlorofluorocarbons 11, 12, 113, 114 and 115 shall be to the companies indicated in Annex II.
2. The allocation of essential laboratory use quotas for chlorofluorocarbons 11, 12, 113, 114 and 115 and other fully halogenated chlorofluorocarbons shall be to the companies indicated in Annex III.
3. The allocation of essential laboratory use quotas for halons shall be to the companies indicated in Annex IV.
4. The allocation of essential laboratory use quotas for carbon tetrachloride shall be to the companies indicated in Annex V.
5. The allocation of essential laboratory use quotas for 1,1,1-trichloroethane shall be to the companies indicated in Annex VI.
6. The allocation of laboratory and analytical critical use quotas for methyl bromide shall be to the companies indicated in Annex VII.
7. The allocation of essential laboratory use quotas for hydrobromofluorocarbons shall be to the companies indicated in Annex VIII.

---

**Changes to legislation:** There are currently no known outstanding effects for the Commission Decision of 17 April 2008 on the allocation of quantities of controlled substances allowed for essential uses in the Community in 2008 under Regulation (EC) No 2037/2000 of the European Parliament and of the Council (notified under document number C(2008) 1403) (Only the Danish, Dutch, English, Estonian, French, German, Italian, Slovenian and Spanish texts are authentic) (Text with EEA relevance) (2008/409/EC). (See end of Document for details)

---

8. The allocation of essential laboratory use quotas for bromochloromethane shall be to the companies indicated in Annex IX.
9. The essential use quotas for chlorofluorocarbons 11, 12, 113, 114 and 115, other fully halogenated chlorofluorocarbons, carbon tetrachloride, 1,1,1-trichloroethane, hydrobromofluorocarbons and bromochloromethane shall be as set out in Annex X.

*Article 4*

This Decision shall apply from 1 January 2008 and shall expire on 31 December 2008.

*Article 5*

- Sanolabor (SI)
- Sigma Aldrich Chimie (FR)
- Sigma Aldrich Company (UK)
- Sigma Aldrich Logistik (DE)
- Tazzetti Fluids (IT)
- VWR ISAS (FR)

### ANNEX IV

#### ESSENTIAL LABORATORY USES

Quota of controlled substances of Group III that may be used for laboratory and analytical uses are allocated to:

- Airbus France (FR)
- Eras Labo (FR)
- Ineos Fluor (UK)
- Ministry of Defence (NL)

### ANNEX V

#### ESSENTIAL LABORATORY USES

Quota of controlled substances of Group IV that may be used for laboratory and analytical uses, are allocated to:

- Acros Organics (BE)
- Bie & Berntsen (DK)
- Carlo Erba Reactifs-SDS (FR)
- Health Protection Inspectorate-Laboratories (EE)

---

**Changes to legislation:** There are currently no known outstanding effects for the Commission Decision of 17 April 2008 on the allocation of quantities of controlled substances allowed for essential uses in the Community in 2008 under Regulation (EC) No 2037/2000 of the European Parliament and of the Council (notified under document number C(2008) 1403) (Only the Danish, Dutch, English, Estonian, French, German, Italian, Slovenian and Spanish texts are authentic) (Text with EEA relevance) (2008/409/EC).
