

Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC)

COMMISSION DECISION

of 12 December 2008

implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals

(notified under document number C(2008) 7905)

(Text with EEA relevance)

(2008/946/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 91/496/EEC of 15 July 1991 laying down the principles governing the organisation of veterinary checks on animals entering the Community from third countries and amending Directives 89/662/EEC, 90/425/EEC and 90/675/EEC⁽¹⁾, and in particular the second subparagraph of Article 10(3) and the first subparagraph of Article 10(4) thereof,

Having regard to Council Directive 2006/88/EC of 24 October 2006 on animal health requirements for aquaculture animals and products thereof, and on the prevention and control of certain diseases in aquatic animals⁽²⁾, and in particular Articles 25 and 61(3) thereof,

Whereas:

- (1) Pursuant to Article 16(1) of Directive 2006/88/EC aquaculture animals of species susceptible to diseases listed in Part II of Annex IV to that Directive which are to be introduced for farming or restocking into a Member State, zone or compartment declared free of a specific disease must originate from a Member State, zone or compartment also declared free of that disease. Pursuant to Article 44(4) of that Directive, the same is to apply to areas subject to a surveillance or eradication programme with regard to a specific disease.
- (2) Pursuant to Article 17(1) of Directive 2006/88/EC vector species to diseases listed in Part II of Annex IV to that Directive which are to be introduced for farming or restocking purposes into a Member State, zone or compartment declared free of a specific disease must either originate from another Member State, zone or compartment declared free of that disease or be held in quarantine in water free of the pathogen in question, for an appropriate period of time, where, in the light of the scientific data or practical experience provided, this proves to be sufficient to reduce the risk of transmission of the specific disease to a level acceptable for preventing the transmission of the disease

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- concerned. Pursuant to Article 44(4) of Directive 2006/88/EC, the same is to apply to areas subject to a surveillance or eradication programme with regard to a specific disease.
- (3) A list of possible vector species to the diseases listed in Part II of Annex IV to Directive 2006/88/EC, including the conditions under which those species are to be regarded as vectors for the purpose of Article 17 of that Directive, is set out in Annex I to Commission Regulation (EC) No 1251/2008 of 12 December 2008 implementing Directive 2006/88/EC as regards conditions and certification requirements for the placing on the market and the import into the Community of aquaculture animals and products thereof and laying down a list of vector species⁽³⁾.
 - (4) Article 20(1) of Directive 2006/88/EC provides, by way of derogation from Article 16 of that Directive, that the release of wild aquatic animals of species susceptible to diseases listed in Part II of Annex IV to that Directive, caught in a Member State, zone or compartment not declared free of a specific disease, in a Member State, zone or compartment declared free of that disease is subject to the placing of the wild aquatic animals in quarantine under the supervision of the competent authority in suitable facilities, for a period of time sufficient to reduce to an acceptable level the risk of transmission of the disease. Pursuant to Article 44(4) of Directive 2006/88/EC, the same is to apply to areas subject to a surveillance or eradication programme with regard to a specific disease.
 - (5) Pursuant to Articles 10 and 11 of Regulation (EC) No 1251/2008 animals of vector species and wild aquatic animals intended for farming, relaying areas, put and take fisheries and open ornamental facilities, and ornamental aquatic animals of susceptible species intended for closed ornamental facilities may be imported into a Member State, zone or compartment declared free of a specific disease or into areas subject to a surveillance or eradication programme with regard to a specific disease without having to originate from disease free areas if they have been subject to quarantine, as provided for in Directive 2006/88/EC, for an appropriate period of time. According to Article 10(1) first indent of Directive 91/496/EEC, the quarantine may be carried out in a third country.
 - (6) To ensure that the quarantine is carried out in a manner that reduces the risk of transmission of diseases listed in Part II of Annex IV to Directive 2006/88/EC to an acceptable level, detailed rules on quarantine should be laid down.
 - (7) Quarantine facilities in the Community are covered by the definition of ‘aquaculture production businesses’ in Article 3(1)(c) of Directive 2006/88/EC. In the interest of the animal health situation within the Community, quarantine facilities in third countries should comply with equivalent requirements as those laid down for aquaculture production businesses in Directive 2006/88/EC.
 - (8) When quarantine is carried out in the Community it is of vital importance that the transport of the consignments of aquaculture animals to the quarantine facility is monitored to ensure that the animals to be quarantined are transported directly to the quarantine facility in a safe manner.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- (9) Quarantine facilities should be constructed and managed in a manner that prevents the spread of diseases between quarantine units and between the quarantine facilities and other aquaculture production businesses.
- (10) Certain activities relating to quarantine in the Community fall within the definition of ‘official controls’ in Article 2(1) of Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules⁽⁴⁾. Costs relating to quarantine in the Community should therefore be covered by Article 27 of that Regulation, which provides that Member States may collect fees or charges to cover the cost occasioned by official controls.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

CHAPTER I

SUBJECT MATTER, SCOPE AND DEFINITIONS

Article 1

Subject matter and scope

This Decision lays down the requirements for the quarantine, which is provided for in:

- (a) [^{F1}Part 3A of the Aquatic Animal Health Regulations;]
- (b) Chapter IV of Regulation (EC) No 1251/2008 ^{F2}....

Textual Amendments

- F1** Art. 1(a) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(2)(a)**
- F2** Words in Art. 1(b) omitted (E.W.S.) (31.12.2020) by virtue of [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(2)(b)**

Article 2

Definitions

For the purposes of this Decision, the following definitions shall apply:

1. ‘quarantine facility’ means a facility:
 - (a) in which quarantine of aquaculture animals is carried out;

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- (b) which contains one or more quarantine units; and
 - (c) which is authorised and registered by a competent authority, within the meaning of [^{F3}Article 3(4) of Regulation (EU) 2017/625 of the European Parliament and of the Council on official controls and other official activities performed to ensure the application of food and feed law, rules on animal health and welfare, plant health and plant protection products], as a quarantine facility ^{F4}... and which complies with the minimum conditions for quarantine facilities set out in Annex I to this Decision;
2. ‘quarantine unit’ means an operationally and physically separated unit of a quarantine facility, which only contains aquaculture animals of the same consignment, with the same health status, and, when appropriate, sentinel aquaculture animals;
 3. ‘sentinel aquaculture animals’ means aquaculture animals which are to be used as a diagnostic aid during quarantine;
 4. ‘listed diseases’ means the diseases listed in [^{F5}Annex 1A to Regulation 1251/2008];
 5. ‘approved qualified aquatic animal health professional’ means a qualified aquatic animal health professional designated by the competent authority to carry out specific official controls on quarantine facilities on its behalf.
 6. [^{F6}“the appropriate authority” means:
 - (a) in relation to England, the Secretary of State;
 - (b) in relation to Wales, the Welsh Ministers;
 - (c) in relation to Scotland, the Scottish Ministers;
 but the appropriate authority is the Secretary of State if consent is given:
 - (a) in relation to Wales, the Welsh Ministers;
 - (b) in relation to Wales, the Welsh Ministers;
 7. “the Aquatic Animal Health Regulations” means—
 - (a) in relation to England and Wales, the Aquatic Animal Health (England and Wales) Regulations 2009;
 - (b) in relation to Scotland, the Aquatic Animal Health (Scotland) Regulations 2009;
 8. “constituent GB territory” means England, Wales or Scotland as the case may be;
 9. “Regulation (EC) No 1251/2008” means [Commission Regulation \(EC\) No 1251/2008](#) implementing Council [Directive 2006/88/EC](#) as regards conditions and certification requirements for the placing on the market and the import into the Community of aquaculture animals and products thereof and laying down a list of vector species;
 10. “third country” means any country or territory other than the British Islands..]
 11. [^{F7}“susceptible species”, in relation to a disease, means a species listed in a document published by the appropriate authority under Article 3a(1) of Regulation (EC) No [1251/2008](#) as susceptible to that disease;

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

12. “vector species”, in relation to a disease, means a species listed as a vector of that disease in a document published by the appropriate authority under Article 3(1) of Regulation (EC) No 1251/2008 that fulfils the conditions set out in that document.]

Textual Amendments

- F3** Words in Art. 2(1)(c) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(3)(a)(i)**
- F4** Words in Art. 2(1)(c) omitted (E.W.S.) (31.12.2020) by virtue of [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(3)(a)(ii)**
- F5** Words in Art. 2(4) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(3)(b)**
- F6** Art. 2(6)-(10) inserted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(3)(c)**
- F7** Art. 2(11)(12) inserted (15.8.2022) by [The Aquatic Animal Health \(Amendment\) Regulations 2022 \(S.I. 2022/835\)](#), regs. 1(2), **4**

CHAPTER II

QUARANTINE OF AQUACULTURE ANIMALS IN THIRD COUNTRIES

Article 3

Conditions for imports

Where quarantine is a condition for imports into [^{F8}Great Britain] of consignments of aquaculture animals in accordance with Chapter IV of Regulation (EC) No 1251/2008, such consignments shall only be imported into [^{F8}Great Britain] if the conditions laid down in this Chapter are complied with.

Textual Amendments

- F8** Words in Art. 3 substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(4)**

Article 4

Quarantine conditions in third countries

- 1 The quarantine must have been carried out in a quarantine facility as referred to in Article 2(1)(c).
- 2 The quarantine facility must be under the control of the competent authority and that authority must:

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- a visit the premises of the quarantine facility at least once a year;
 - b ensure that the quarantine facility meets the conditions set out in this Decision;
 - c audit the activity of the approved qualified aquatic animal health professional; and
 - d verify that the conditions under which the authorisation was granted remain fulfilled.
- 3 The aquaculture animals must have been subject to the quarantine provisions laid down in the following Articles:
- a in the case of susceptible species, Articles 13, 14 and 15;
 - b in the case of vector species, Articles 16 and 17.
- 4 The aquaculture animals must only be released from quarantine on written authorisation by the competent authority.

Article 5

Authorisation of quarantine facilities in third countries

- 1 In order to be authorised by the competent authority, quarantine facilities must comply with:
- [^{F9}a provisions which are at least equivalent to the authorisation conditions laid down in—
 - i if the consignment is intended for a destination in England or Wales, Part 2 of the Aquatic Animal Health (England and Wales) Regulations) 2009;
 - ii if the consignment is intended for a destination in Scotland, Part 2 of the Aquatic Animal Health (Scotland) Regulations 2009.]
 - b the minimum conditions for quarantine facilities set out in Annex I to this Decision.
- 2 Each authorised quarantine facility must be assigned a registration number.
- 3 A list of authorised quarantine facilities must be drawn up [^{F10}by the competent authority] and communicated to [^{F11}the appropriate authority].

Textual Amendments

- F9** Art. 5(1)(a) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(5)(a)**
- F10** Words in Art. 5(3) inserted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(5)(b)(i)**
- F11** Words in Art. 5(3) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(5)(b)(ii)**

Article 6

Suspension and withdrawal of authorisation of quarantine facilities in third countries

- 1 Where the competent authority has received notification that the presence of listed disease(s) is suspected in a quarantine facility, it must:
- a immediately suspend the authorisation of that facility;

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- b ensure that the measures necessary to confirm or rule out the suspicion are taken in accordance with point 3 of Annex II.
- 2 A suspension pursuant to paragraph 1 must not be removed until:
 - a the suspicion of the relevant listed disease(s) has been officially ruled out; or
 - b the eradication of the relevant listed disease(s) in the quarantine facility is successfully completed and the relevant quarantine units are cleansed and disinfected.
 - 3 The authorisation of a quarantine facility must be immediately withdrawn by the competent authority where the facility no longer complies with the conditions set out in Article 5(1).

The [^{F12}appropriate authority to which the competent authority communicated the list referred to in Article 5(3)] must be immediately informed thereof.

Textual Amendments

F12 Words in Art. 6(3) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(6)**

^{F13}Article 7

Lists of quarantine facilities

The appropriate authority which receives a new or updated list of quarantine facilities in accordance with Article 5(3) must provide a copy to each other authority which in relation to any constituent part of Great Britain is the appropriate authority and make the list available to the public.]

Textual Amendments

F13 Art. 7 substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(7)**

CHAPTER III

QUARANTINE OF AQUACULTURE ANIMALS IN [^{F14}GREAT BRITAIN]

Article 8

Attestation

1 Where consignments of aquaculture animals imported [^{F15}from a third country] are intended for quarantine in [^{F16}Great Britain], the importer or his agent shall provide a written attestation signed by the person responsible for the quarantine facility confirming that the aquaculture animals will be accepted for quarantine.

2 The attestation provided for in paragraph 1 shall:

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- [^{F17}a be drawn up in English or, where drawn up in another language, accompanied by a translation into English;]
- b include the registration number of the quarantine facility.
- 3 The attestation provided for in paragraph 1 shall:
- a reach the border inspection post before the arrival of the consignment; or
- b be presented to the border inspection post by the importer or his agent before the aquaculture animals are released from that post.

Textual Amendments

- F15** Words in Art. 8(1) substituted (E.W.S.) (31.12.2020) by The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds (Amendment) (EU Exit) Regulations 2020 (S.I. 2020/1388), regs. 1(2)(c), **8(9)(a)(i)**
- F16** Words in Art. 8(1) substituted (E.W.S.) (31.12.2020) by The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds (Amendment) (EU Exit) Regulations 2020 (S.I. 2020/1388), regs. 1(2)(c), **8(9)(a)(ii)**
- F17** Art. 8(2)(a) substituted (E.W.S.) (31.12.2020) by The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds (Amendment) (EU Exit) Regulations 2020 (S.I. 2020/1388), regs. 1(2)(c), **8(9)(b)**

Article 9

Direct transport of aquaculture animals to quarantine facilities

Where consignments of aquaculture animals imported [^{F18}from a third country] are intended for quarantine in [^{F19}Great Britain], they shall be transported directly from the border inspection post to the quarantine facility.

When vehicles are used for that transport they shall be sealed by the official veterinarian of the border inspection post with a tamper proof seal.

Textual Amendments

- F18** Words in Art. 9 substituted (E.W.S.) (31.12.2020) by The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds (Amendment) (EU Exit) Regulations 2020 (S.I. 2020/1388), regs. 1(2)(c), **8(10)(a)**
- F19** Words in Art. 9 substituted (E.W.S.) (31.12.2020) by The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds (Amendment) (EU Exit) Regulations 2020 (S.I. 2020/1388), regs. 1(2)(c), **8(10)(b)**

Article 10

Monitoring of transport of aquaculture animals

1 Where consignments of aquaculture animals imported [^{F20}from a third country] are intended for quarantine in [^{F21}Great Britain]:

- a the official veterinarian of the border inspection post shall notify the competent authority of the quarantine facility within one working day of the date of arrival of the consignment at the border inspection post, of the place of origin and the place

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- of destination of the consignment via the [F22 appropriate computerised information management system];
- b the person responsible for the quarantine facility shall notify, within one working day of the date of arrival of the consignment at the quarantine facility, the competent authority of that facility of the arrival of the consignment;
- c the competent authority of the quarantine facility shall notify via the [F23 appropriate computerised information management system], within three working days of the date of arrival of the consignment at that facility, the official veterinarian of the border inspection post which notified it of the shipment of the consignment as referred to in point (a), of the arrival of the consignment.
- 2 If confirmation is provided to the competent authority of the border inspection post, that the aquaculture animals declared as being intended for a quarantine facility in [F24 Great Britain] have not arrived at their destination within three working days of the estimated date of arrival, the competent authority shall take appropriate measures.

Textual Amendments

- F20** Words in Art. 10(1) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(11)(a)(i)(aa)**
- F21** Words in Art. 10(1) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(11)(a)(i)(bb)**
- F22** Words in Art. 10(1)(a) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(11)(a)(ii)**
- F23** Words in Art. 10(1)(c) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(11)(a)(iii)**
- F24** Words in Art. 10(2) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(11)(b)**

Article 11

Quarantine conditions in [F25 Great Britain]

Where quarantine in [F26 Great Britain] is a condition for the placing on the market of consignments of aquaculture animals in accordance with [F27 Part 3A of the Aquatic Animal Health Regulations] or for imports of such consignments into [F26 Great Britain] in accordance with Chapter IV of Regulation (EC) No 1251/2008, the consignments shall comply with the following conditions:

- (a) the quarantine period must be carried out in the same quarantine facility in [F28 Great Britain];
- (b) the aquaculture animals must be subject to the quarantine provisions laid down in the following Articles:
- (i) in the case of susceptible species, Articles 13, 14 and 15;
- (ii) in the case of vector species, Articles 16 and 17;

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

- (c) the aquaculture animals must only be released from quarantine on written authorisation by the competent authority.

Textual Amendments

- F25** Words in Art. 11 heading substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(12)(a)**
- F26** Words in Art. 11 substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(12)(b)(i)**
- F27** Words in Art. 11 substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(12)(b)(ii)**
- F28** Words in Art. 11(a) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(12)(c)**

Article 12

Measures in case of suspicion or confirmation of listed disease(s)

- 1 If during quarantine, the presence of disease(s) is suspected in the quarantine facility, the competent authority shall:
- take and analyse appropriate samples in accordance with point 3 of Annex II;
 - ensure that, pending the laboratorial results, no aquaculture animals are moved into or out of the quarantine facility.
- 2 If during quarantine, the presence of the relevant listed disease(s) is confirmed, the competent authority shall ensure that:
- all aquaculture animals in the quarantine units concerned are removed and disposed of, taking into account the risk of spreading the relevant listed disease(s);
 - the quarantine units concerned are cleansed and disinfected;
 - no aquaculture animals are moved into the quarantine units concerned during a period of 15 days following the final cleansing and disinfection;
 - water in the quarantine units concerned is treated in a manner that effectively inactivates the infectious agent responsible for the relevant listed disease(s).
- 3 By way of derogation from paragraph 2(a), the competent authority may authorise the placing on the market of the aquaculture animals kept in the quarantine facility and products thereof provided that the health status of the aquatic animals at the place of destination with regard to the relevant listed disease(s) is not jeopardised.

F²⁹4

Textual Amendments

- F29** Art. 12(4) omitted (31.12.2020) by virtue of [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(13)**

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

Textual Amendments

- F14** Words in Ch. 3 heading substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(8)**

CHAPTER IV

QUARANTINE PROVISIONS

SECTION 1

Susceptible species

Article 13

Duration of quarantine for susceptible species

- 1 Fish shall be quarantined for at least 60 days.
- 2 Crustaceans shall be quarantined for at least 40 days.
- 3 Molluscs shall be quarantined for at least 90 days.

Article 14

Examination, sampling, testing and diagnosis

- 1 To demonstrate the absence of the relevant listed disease(s), the examination, sampling, testing and diagnosis referred to in Annex II shall be carried out with negative results.
- 2 Sentinel aquaculture animals may be used for the examination, sampling, testing and diagnosis, except where species susceptible to infection with *Marteilia refringens* are quarantined.
- 3 The competent authority shall determine the number of sentinel aquaculture animals to be used, taking into account the number of aquaculture animals kept, the size of the quarantine unit, and the characteristics of the relevant listed disease(s) and species.
- 4 Sentinel aquaculture animals shall be:
 - a of species susceptible to the relevant listed disease(s) and, where possible and taking into account their living conditions, being at the most susceptible life stages;
 - b sourced from a [^{F30}a constituent GB territory], zone or compartment, or from a third country or part thereof declared free of the relevant listed disease(s);
 - c unvaccinated against the relevant listed disease(s);
 - d placed in the quarantine unit immediately before or upon arrival of the aquaculture animals to be quarantined and kept in contact with those animals and under the same zootechnical and environmental conditions.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

Textual Amendments

F30 Words in Art. 14(4)(b) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(14)**

Article 15

Inspection

The competent authority shall inspect the conditions of the quarantine at least at the beginning and the end of the quarantine period of each consignment of aquaculture animals.

When the competent authority carries out such inspections, it shall:

- (a) ensure that the environmental conditions conducive to the laboratorial detection of the relevant listed disease(s) are present;
- (b) examine the mortality records during the quarantine;
- (c) where relevant, check the aquaculture animals in the quarantine units.

SECTION 2

Vector species

Article 16

Quarantine provisions applicable to vector species

- 1 Vector species shall be quarantined for at least 30 days.
- 2 The water of the quarantine unit shall be exchanged at least once a day.

Article 17

Inspection

The competent authority shall inspect the conditions of the quarantine at least at the beginning and the end of the quarantine period of each consignment of aquaculture animals.

When the competent authority carries out such inspections, it shall:

- (a) examine the mortality records during the quarantine;
- (b) where relevant, check the aquaculture animals in the quarantine units.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

F³¹CHAPTER V

FINAL PROVISIONS

.....

Textual Amendments

F31 Ch. 5 omitted (E.W.S.) (31.12.2020) by virtue of [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(15)**

Done at Brussels, 12 December 2008.

For the Commission

Androulla VASSILIOU

Member of the Commission

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

ANNEX I

Minimum conditions for quarantine facilities

PART A

Construction and equipment conditions

1. The quarantine facility must be a premise which is separated from other quarantine facilities, other farms or other mollusc farming areas, by a distance specified by the competent authority on the basis of a risk assessment which takes into account the epidemiology of the relevant listed disease(s). However, a quarantine facility may be located within a farm or mollusc farming area.
2. The quarantine units must be constructed in such a way that water exchanges amongst them are not possible. In addition, the water outlet system of each quarantine unit must be designed to prevent any possible cross-contamination amongst quarantine units or other units of the same farm or mollusc farming area.
3. The water supply of the quarantine units must be free of the relevant listed disease(s).
4. When the draining system of the quarantine units is located in [^{F32}a constituent GB territory] zone, compartment or third country or part thereof declared free of a listed disease(s) or subject to a surveillance or eradication programme with regard to a listed disease(s), it must have an effluent treatment system approved by the competent authority. The effluent treatment system must:
 - (a) treat all effluents and wastes generated within the quarantine unit in a manner that effectively inactivates the infectious agent responsible for the relevant listed disease(s);
 - (b) be equipped with fail-safe backup mechanisms to ensure continuous operation and complete containment.

Textual Amendments

F32 Words in Annex 1 Pt. A para. 4 substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(16)(a)**

5. The quarantine units must be constructed in such a way that the contact with other animals likely to spread the relevant listed disease(s) is prevented.
6. All equipment must be constructed in such a way that it can be cleansed and disinfected and appropriate equipment must be available for cleansing and disinfection.
7. Hygiene barriers have to be installed at all entrances/exits to the quarantine facility and to its different units.
8. Each quarantine unit of the quarantine facility must have its own equipment in order to avoid cross contamination amongst the different quarantine units.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

PART B

Management conditions

1. The aquaculture production business operator of the quarantine facility must secure, by contract or legal instrument, the services of an approved qualified aquatic animal health professional.
2. For each consignment of aquaculture animals quarantined:
 - (a) the quarantine unit must be cleansed and disinfected and then kept free from aquaculture animals for at least seven days before the introduction of a new consignment;
 - (b) the quarantine period shall only start when the last aquaculture animals of the consignment are introduced.
3. Appropriate measures shall be taken to prevent cross-contamination between incoming and outgoing consignments.
4. No unauthorised persons may enter the quarantine facility.
5. Persons entering the quarantine facility must wear protective clothing including footwear.
6. No contacts between personnel or equipment, which may cause contamination between quarantine facilities or quarantine units or between quarantine facilities and farms or mollusc farming areas, shall take place.
7. Upon receipt, transport vehicles and equipment, including tanks, containers and water must be treated in a manner that effectively inactivates the infectious agent responsible for the relevant listed disease(s).
8. Dead aquaculture animals and aquaculture animals showing clinical signs of disease must be clinically inspected by an approved qualified aquatic animal health professional and a representative selection of dead aquaculture animals and aquaculture animals showing clinical signs of disease must be examined in a laboratory designated by the competent authority.
9. The necessary examination, sampling and diagnostic methods must be carried out in consultation with and under the control of the competent authority.
10. In addition to the recording obligations provided for in [F33regulation 6 of the Aquatic Animal Health Regulations], the quarantine facility must keep a record of:
 - (a) entry/exit time of personnel;
 - (b) treatment of incoming water and of effluent water as appropriate;
 - (c) any abnormal conditions affecting quarantine operation (power cuts, building damage or serious weather conditions);
 - (d) dates and results of samples submitted for testing.

Changes to legislation: There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC). (See end of Document for details)

Textual Amendments

F33 Words in [Annex 1 Pt. B para. 10](#) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(16)(b)**

ANNEX II

Examination, sampling, testing and diagnosis of aquaculture animals

1. The examination, sampling, testing and diagnosis of aquaculture animals shall be carried out ensuring that the environmental conditions conducive to the laboratorial detection of the relevant listed disease(s) are present in the quarantine facility during the whole quarantine period.
2. During quarantine, the following aquaculture animals shall be sampled within 15 days before date of the expiry of the quarantine period:
 - (a) when sentinel aquaculture animals are used, samples from all of them must be taken;
 - (b) when sentinel aquaculture animals are not used, samples must be taken from a relevant number of aquaculture animals ensuring the detection of the relevant listed disease(s) with a 95 % confidence if the design prevalence is 10 % (never less than 10 animals).
3. Subject to Article 18, testing of samples taken during quarantine must be carried out in laboratories designated by the competent authority using the diagnostic methods [^{F34}in Commission Implementing Decision (EU) 2015/1554 laying down rules for the application of [Directive 2006/88/EC](#) as regards requirements for surveillance and diagnostic methods].

Textual Amendments

F34 Words in [Annex 2 para. 3](#) substituted (E.W.S.) (31.12.2020) by [The Animals, Aquatic Animal Health, Invasive Alien Species, Plant Propagating Material and Seeds \(Amendment\) \(EU Exit\) Regulations 2020 \(S.I. 2020/1388\)](#), regs. 1(2)(c), **8(17)**

Changes to legislation: *There are currently no known outstanding effects for the Commission Decision of 12 December 2008 implementing Council Directive 2006/88/EC as regards requirements for quarantine of aquaculture animals (notified under document number C(2008) 7905) (Text with EEA relevance) (2008/946/EC).
