

ANNEX

FRAMEWORK

Assessment and verification requirements

The specific assessment and verification requirements are indicated within each criterion.

Where possible, testing should be performed by appropriately accredited laboratories or laboratories that meet the requirements expressed in standard EN ISO 17025 and are competent to perform the relevant tests.

Where appropriate, competent bodies may require supporting documentation and may carry out independent verifications.

The competent bodies are recommended to take into account the implementation of recognised environmental management schemes, such as EMAS or ISO 14001, when assessing applications and monitoring compliance with the criteria (*note*: it is not required to implement such management schemes).
