

Commission Decision of 12 December 2008 adopting, pursuant to Council Directive 92/43/EEC, a first updated list of sites of Community importance for the Pannonian biogeographical region (notified under document number C(2008) 7918) (2009/90/EC)

COMMISSION DECISION

of 12 December 2008

adopting, pursuant to Council Directive 92/43/EEC, a first updated list of sites of Community importance for the Pannonian biogeographical region

(notified under document number C(2008) 7918)

(2009/90/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora⁽¹⁾ and in particular the third subparagraph of Article 4(2) thereof,

Whereas:

- (1) The Pannonian biogeographical region referred to in Article 1(c)(iii) of Directive 92/43/EEC comprises parts of the territories of the Czech Republic, Slovakia and Romania, and the territory of Hungary as specified in the biogeographical map approved on 20 April 2005 by the Committee set up by Article 20 of that Directive, hereinafter ‘the Habitats Committee’.
- (2) It is necessary in the context of a process which was initiated in 1995 to make further progress in the actual establishment of the Natura 2000 network, which is an essential element of the protection of biodiversity in the Community.
- (3) An initial list of sites of Community importance for the Pannonian biogeographical region, within the meaning of Directive 92/43/EEC, was adopted by Commission Decision 2008/26/EC⁽²⁾. On the basis of Articles 4(4) and 6(1) of Directive 92/43/EEC, the Member State concerned shall designate the sites included in the list of sites of Community importance for the Pannonian biogeographical region as special areas of conservation as soon as possible and within six years at most, establishing conservation priorities and the necessary conservation measures.
- (4) In the context of a dynamic adaptation of the Natura 2000 network, the lists of sites of Community importance are reviewed. A first update of that initial list is therefore necessary.
- (5) On the one hand, the update of the initial list of sites of Community importance for the Pannonian biogeographical region is necessary in order to include additional sites that

Changes to legislation: *Commission Decision of 12 December 2008 adopting, pursuant to Council Directive 92/43/EEC, a first updated list of sites of Community importance for the Pannonian biogeographical region (notified under document number C(2008) 7918) (2009/90/EC) is up to date with all changes known to be in force on or before 03 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes*

have been proposed since September 2006 by the Member States as sites of Community importance for the Pannonian biogeographical region within the meaning of Article 1 of Directive 92/43/EEC. The obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC are applicable as soon as possible and within six years at most from the adoption of the first updated list of sites of Community importance for the Pannonian biogeographical region.

- (6) On the other hand, the update of the initial list of sites of Community importance for the Pannonian biogeographical region is necessary in order and to reflect any changes in site related information submitted by the Member States following the adoption of the initial Community list. In that sense, the first updated list of sites of Community importance for the Pannonian biogeographical region constitutes a consolidated version of the list of sites of Community importance for the Pannonian biogeographical region. However, it should be stressed that the obligations resulting from Articles 4(4) and 6(1) of Directive 92/43/EEC are applicable as soon as possible and within six years at most from the adoption of the initial list of sites of Community importance for the Pannonian biogeographical region.
- (7) For the Pannonian biogeographical region, lists of sites proposed as sites of Community importance within the meaning of Article 1 of Directive 92/43/EEC have been transmitted to the Commission between May 2004 and December 2007, in accordance with Article 4(1) of that Directive, by the Czech Republic, Hungary, Romania and Slovakia.
- (8) The lists of proposed sites were accompanied by information on each site, supplied in the format established by Commission Decision 97/266/EC of 18 December 1996 concerning a site information format for proposed Natura 2000 sites⁽³⁾.
- (9) That information includes the most recent and definitive map of the site transmitted by the Member States concerned, name, location and extent of the site, and the data yielded by application of the criteria specified in Annex III to Directive 92/43/EEC.
- (10) On the basis of the draft list drawn up by the Commission in agreement with each of the Member States concerned, which also identifies sites hosting priority natural habitat types or priority species, a first updated list of sites selected as sites of Community importance for the Pannonian biogeographical region should be adopted.
- (11) Knowledge of the existence and distribution of the natural habitat types and species is constantly evolving, as a result of the surveillance in accordance with Article 11 of Directive 92/43/EEC. Therefore, the evaluation and selection of sites at Community level was done using the best available information at present.
- (12) Certain Member States have not proposed sufficient sites to meet the requirements of Directive 92/43/EEC for certain habitat types and species. For those habitat types and species it can therefore not be concluded that the network is complete. Taking into account the delay in receiving the information and reaching agreement with the Member States, it is necessary to adopt a first updated list of sites, which will need to be revised in accordance with Article 4 of Directive 92/43/EEC.

Changes to legislation: *Commission Decision of 12 December 2008 adopting, pursuant to Council Directive 92/43/EEC, a first updated list of sites of Community importance for the Pannonian biogeographical region (notified under document number C(2008) 7918) (2009/90/EC) is up to date with all changes known to be in force on or before 03 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes*

- (13) Given that knowledge on the existence and distribution of some of the natural habitat types of Annex I and species of Annex II to Directive 92/43/EEC remains incomplete, it should not be concluded that the network is either complete or incomplete. The list should be revised, if necessary, in accordance with Article 4 of Directive 92/43/EEC.
- (14) In the interests of clarity and transparency Decision 2008/26/EC should be replaced.
- (15) The measures provided for in this Decision are in accordance with the opinion of the Habitats Committee,

HAS ADOPTED THIS DECISION:

Article 1

The first updated list of sites of Community importance for the Pannonian biogeographical region in accordance with the third subparagraph of Article 4(2) of Directive 92/43/EEC is set out in the Annex to this Decision.

Article 2

Decision 2008/26/EC is repealed.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 12 December 2008.

For the Commission

Stavros DIMAS

Member of the Commission

Changes to legislation: Commission Decision of 12 December 2008 adopting, pursuant to Council Directive 92/43/EEC, a first updated list of sites of Community importance for the Pannonian biogeographical region (notified under document number C(2008) 7918) (2009/90/EC) is up to date with all changes known to be in force on or before 03 December 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. ANNEX

First updated list of sites of Community importance for the Pannonian biogeographical region

Each site of Community importance (SCI) is identified by the information supplied in the Natura 2000 format, including the corresponding map. This has been transmitted by the competent national authorities in accordance with the second subparagraph of Article 4(1) of Directive 92/43/EEC.

The table below gives the following information:

- A : SCI code comprising nine characters, the first two being the ISO code for the Member State;
- B : name of SCI;
- C : * = presence on the SCI of at least one priority natural habitat type and/or species within the meaning of Article 1 of Directive 92/43/EEC;
- D : surface area of SCI in hectares or length in km;
- E : geographical coordinates of SCI (latitude and longitude).

All the information given in the Community list below is based on the data proposed, transmitted and validated by the Czech Republic, Hungary, Romania and Slovakia.

A SCI code	B Name of SCI	C *	D		E
