

Commission Decision of 25 November 2010 amending Decision 2004/4/EC authorising Member States temporarily to take emergency measures against the dissemination of *Pseudomonas solanacearum* (Smith) Smith as regards Egypt (notified under document C(2010) 8185) (2010/714/EU) (repealed)

COMMISSION DECISION

of 25 November 2010

amending Decision 2004/4/EC authorising Member States temporarily to take emergency measures against the dissemination of *Pseudomonas solanacearum* (Smith) Smith as regards Egypt

(notified under document C(2010) 8185)

(2010/714/EU) (repealed)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community<sup>(1)</sup>, and in particular Article 16(3) thereof,

Whereas:

- (1) Under Commission Decision 2004/4/EC<sup>(2)</sup>, tubers of *Solanum tuberosum* L., originating in Egypt, must not in principle be introduced into the Union. In line with a possibility to derogate from that Decision, the entry of such tubers into the Union was permitted from 'pest-free areas' and subject to specific conditions in previous years, including the 2009/2010 import season.
- (2) During the 2009/2010 import season, only one interception of *Pseudomonas solanacearum* (Smith) Smith was recorded in the Union.
- (3) As requested by Egypt, and in the light of the information provided by it, the Commission has established that the risk of spreading *Pseudomonas solanacearum* (Smith) Smith with the entry into the Union of tubers of *Solanum tuberosum* L. from 'pest-free areas' of Egypt has been sufficiently mitigated, provided that the specific conditions indicated in Decision 2004/4/EC are satisfied.
- (4) The entry into the Union of tubers of *Solanum tuberosum* L., originating in 'pest-free areas' of Egypt, should therefore be permitted for the 2010/2011 import season.
- (5) Decision 2004/4/EC established that it had to be reviewed by 30 September 2010. In light of the above findings, the deadline for the review should be extended.
- (6) Decision 2004/4/EC should be therefore amended accordingly.

- (7) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plant Health,

HAS ADOPTED THIS DECISION:

*Article 1*
