of 20 December 2010

amending Decision 2005/1/EC authorising methods for grading pig carcasses in the Czech Republic as regards the presentation of such carcasses

(notified under document C(2010) 9187)

(2010/793/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EC) No 1234/2007 of 22 October 2007 establishing a common organisation of agricultural markets and on specific provisions for certain agricultural products (Single CMO Regulation)<sup>(1)</sup>, and in particular Article 43(m), in conjunction with Article 4 thereof,

Whereas:

- (1) By Commission Decision 2005/1/EC<sup>(2)</sup>, the use of six methods for grading pig carcasses was authorised in the Czech Republic.
- (2) On 23 February 2010, the Czech Republic requested the Commission to be authorised to provide for a presentation of pig carcasses different from the standard presentation defined in the first paragraph of point B.III of Annex V to Regulation (EC) No 1234/2007.
- (3) In accordance with the second paragraph of point B.III of Annex V to Regulation (EC) No 1234/2007, Member States may be authorised to provide for a presentation of pig carcasses different from the standard presentation defined in the first paragraph of that point, where normal commercial practice in their territory differs from that standard presentation. In its request, the Czech Republic specified that in its territory it is commercial practice that carcasses can be presented without the flare fat being removed. This presentation that differs from the standard presentation should therefore be authorised in the Czech Republic.
- (4) In order to establish quotations for pig carcasses on a comparable basis, this different presentation should be taken into account by adjusting the weight recorded in such cases in relation to the weight for standard presentation.
