

Commission Implementing Decision of 20 September 2011 amending Annex D to Council Directive 88/407/EEC as regards trade within the Union in semen of domestic animals of the bovine species dispatched from the semen collection and storage centres (notified under document C(2011) 6425) (Text with EEA relevance) (2011/629/EU)

COMMISSION IMPLEMENTING DECISION

of 20 September 2011

amending Annex D to Council Directive 88/407/EEC as regards trade within the Union in semen of domestic animals of the bovine species dispatched from the semen collection and storage centres

(notified under document C(2011) 6425)

(Text with EEA relevance)

(2011/629/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 88/407/EEC of 14 June 1988 laying down the animal health requirements applicable to intra-Community trade in and imports of semen of domestic animals of the bovine species<sup>(1)</sup>, and in particular the second paragraph of Article 17 thereof,

Whereas:

- (1) Directive 88/407/EEC lays down the animal health conditions applicable to, inter alia, trade within the Union of semen of domestic animals of bovine species and establishes the model animal health certificates for such trade in that commodity.
- (2) Directive 88/407/EEC, as amended by Council Directive 2008/73/EC<sup>(2)</sup>, introduces a simplified procedure for the listing of semen collection and storage centres in the Member States.
- (3) In addition, Directive 88/407/EEC provides that Member States are to make the admission of semen conditional upon submission of an animal health certificate drawn up by an official veterinarian of the Member State of collection in accordance with Annex D. That Annex sets out three different model animal health certificates, D1, D2 and D3, for trade within the Union in semen of domestic animal of the bovine species.
- (4) Annex D to Directive 88/407/EEC should therefore be amended to take account of the simplified procedure for the listing of semen collection and storage centres in the Member States.
- (5) Commission Decision 2010/470/EU<sup>(3)</sup> lays down model health certificates for trade within the Union in semen, ova and embryos of animals of the equine, ovine and caprine species and in ova and embryos of animals of the porcine species. That Decision aimed

---

**Changes to legislation:** Commission Implementing Decision of 20 September 2011 amending Annex D to Council Directive 88/407/EEC as regards trade within the Union in semen of domestic animals of the bovine species dispatched from the semen collection and storage centres (notified under document C(2011) 6425) (Text with EEA relevance) (2011/629/EU) is up to date with all changes known to be in force on or before 02 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

---

to ensure full traceability of the commodities concerned collected in a semen collection centre and dispatched from a semen storage centre, whether or not the latter constitute part of a semen collection centre approved under a different approval number.

- (6) In the interests of consistency of Union legislation, the structure of model health certificates set out in Decision 2010/470/EU should be taken into account in the model animal health certificates for trade within the Union in semen of domestic animals of bovine species.
- (7) In particular, the model animal health certificate in Annex D3 concerns trade within the Union in semen and stocks of semen of domestic animals of the bovine species dispatched from the semen collection and storage centres.
- (8) In order to ensure full traceability of the semen, the model animal health certificate in Annex D3 should be supplemented by additional certification requirements and only used for trade in semen collected in a semen collection centre and dispatched from a semen storage centre, whether or not the latter constitute part of a semen collection centre approved under a different approval number.
- (9) It is also necessary to adapt the dates in the titles of certificates in Annexes D2 and D3 related to the stocks of semen collected, processed and stored before 31 December 2004 to reflect the provisions of Article 2(1) and (2) of Council Directive 2003/43/EC of 26 May 2003 amending Directive 88/407/EEC laying down the animal health requirements applicable to intra-Community trade in and imports of semen of domestic animals of the bovine species<sup>(4)</sup>.
- (10) In addition, the model animal health certificates in Annexes D1 and D2 should be adapted to the structure of model health certificates set out in Decision 2010/470/EU.
- (11) Annex D to Directive 88/407/EEC should therefore be amended accordingly.
- (12) To avoid any disruption of trade, the use of animal health certificates issued in accordance with Annex D to Directive 88/407/EEC, applying until 31 October 2011, should be authorised during a transitional period subject to certain conditions.
- (13) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

*Article 1*

Annex D to Directive 88/407/EEC is replaced by the text in the Annex to this Decision.

*Article 2*

For a transitional period until 31 December 2011, Member States may authorise trade in semen and stocks of semen of domestic animals of the bovine species accompanied by an animal health certificate issued not later than 31 October 2011 in accordance with the models set out in Annex D to Directive 88/407/EEC, applying until 31 October 2011.

*Article 3*

This Decision shall apply from 1 November 2011.

**Changes to legislation:** Commission Implementing Decision of 20 September 2011 amending Annex D to Council Directive 88/407/EEC as regards trade within the Union in semen of domestic animals of the bovine species dispatched from the semen collection and storage centres (notified under document C(2011) 6425) (Text with EEA relevance) (2011/629/EU) is up to date with all changes known to be in force on or before 02 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) [View outstanding changes](#)

---

#### *Article 4*

This Decision is addressed to the Member States.

Done at Brussels, 20 September 2011.

*For the Commission*

John DALLI

*Member of the Commission*

**Changes to legislation:** Commission Implementing Decision of 20 September 2011 amending Annex D to Council Directive 88/407/EEC as regards trade within the Union in semen of domestic animals of the bovine species dispatched from the semen collection and storage centres (notified under document C(2011) 6425) (Text with EEA relevance) (2011/629/EU) is up to date with all changes known to be in force on or before 02 October 2023. Bovine semen — D2

	II. Health information	II.a. Certificate reference No	II.b.
Part II: Certification	<b>II.1 Animal Health Attestation</b>		
		I, the undersigned official veterinarian, hereby certify that:	
	<b>II.1.1</b>	The semen described above was collected before the date of 31 December 2004 on a semen collection centre which:	
		(a) was approved under conditions laid down in Chapter I of Annex A to Directive 88/407/EEC;	
		(b) was operated and supervised under conditions laid down in Chapter II of Annex A to Directive 88/407/EEC.	
	<b>II.1.2</b>	At the time the semen described above was collected, all bovine animals at the semen collection centre:	
		(a) came from herds and/or were born to dams which satisfy the conditions of points 1(b) and (c) in Chapter I of Annex B to Directive 88/407/EEC;	
		(b) have, within the 30 days preceding the quarantine isolation period, undergone, with negative results:	
		<ul style="list-style-type: none"> <li>— the tests referred to in points 1(d)(i), (ii) and (iii) of Chapter I of Annex B to Directive 88/407/EEC, and,</li> <li>— a serum neutralisation test or ELISA test for infectious bovine <i>rhinotracheitis/infectious pustular vulvovaginitis</i>, and,</li> <li>— a virus isolation test (fluorescent antibody test or immunoperoxidase test) for bovine viral diarrhoea, which in the case of an animal less than 6 months of age has been deferred until that age was reached,</li> </ul>	
		(c) have satisfied the quarantine isolation period of 30 days and have been subjected with the required negative results to the following health tests:	
	<ul style="list-style-type: none"> <li>— a serological test for brucellosis carried out in accordance with the procedure described in Annex C to Directive 64/432/EEC,</li> <li>— either an immunofluorescent antibody test or a culture test for <i>Campylobacter fetus</i> infection on a sample of preputial material or artificial vagina washings, or, in the case of a female animal, a vaginal mucus agglutination test,</li> <li>— a microscopic examination and culture test for <i>Trichomonas foetus</i> on a sample of preputial material or artificial vagina washings, or in case of a female animal a vaginal mucus agglutination test,</li> </ul>		
	(d) have undergone, at least once a year, with negative results, the routine tests referred to in points 1(a), (b) and (c) in Chapter II of Annex B to Directive 88/407/EEC.		
<b>II.1.3</b>	At the time the semen described above was collected,		
	(a) all female bovine animals in the centre have undergone, at least once a year, a vaginal mucus agglutination test for <i>Campylobacter fetus</i> infection with negative results, and		
	(b) all bulls used for semen production have undergone with negative result either an immunofluorescent antibody test or a culture test for <i>Campylobacter fetus</i> infection on a sample of preputial material or artificial vagina washings carried out within 12 months prior to collection.		
<b>II.1.4</b>	The semen described above was collected from bulls standing in a semen collection centre in which:		
	<sup>(1)</sup> <i>either</i> [all bovine animals have not been vaccinated against infectious bovine <i>rhinotracheitis</i> and have undergone at least once a year with negative result a serum neutralisation test or an ELISA test for infectious bovine <i>rhinotracheitis/infectious pustular vulvovaginitis</i> ];		
	<sup>(1)</sup> <i>or</i> [bovine animals not vaccinated against infectious bovine <i>rhinotracheitis</i> have undergone, at least once a year, with negative result a serum neutralisation test or ELISA test for infectious bovine <i>rhinotracheitis/infectious pustular vulvovaginitis</i> , and testing for infectious bovine <i>rhinotracheitis</i> is not carried out on bulls which have received a first vaccination against infectious bovine <i>rhinotracheitis</i> at the insemination centre after they have been tested with negative result in a serum neutralisation test or ELISA test for infectious bovine <i>rhinotracheitis/infectious pustular vulvovaginitis</i> and which since the first vaccination have been regularly re-vaccinated with an interval of not more than 6 months];		

**Changes to legislation:** Commission Implementing Decision of 20 September 2011 amending Annex D to Council Directive 88/407/EEC as regards trade within the Union in semen of domestic animals of the bovine species dispatched from the semen collection and storage centres (notified under document C(2011) 6425) (Text with EEA relevance) (2011/629/EU) is up to date with all changes known to be in force on or before 02 October 2023.
