

Commission Implementing Decision of 1 March 2012 on imports into the Union of semen of domestic animals of the porcine species (notified under document C(2012) 1148) (Text with EEA relevance) (2012/137/EU)

COMMISSION IMPLEMENTING DECISION

of 1 March 2012

on imports into the Union of semen of domestic animals of the porcine species

(notified under document C(2012) 1148)

(Text with EEA relevance)

(2012/137/EU)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 90/429/EEC of 26 June 1990 laying down the animal health requirements applicable to intra-Community trade in and imports of semen of domestic animals of the porcine species⁽¹⁾, and in particular Article 7(1), Article 9(2) and (3) and Article 10(2) thereof,

Whereas:

- (1) Directive 90/429/EEC lays down the animal health conditions applicable to intra-Union trade in and imports from third countries of semen of domestic animals of the porcine species. It provides that Member States may authorise importation of such semen only from those third countries which appear on a list drawn up in accordance with the procedure laid down therein and accompanied by an animal health certificate, the model of which must correspond to a specimen drawn up in accordance with that Directive. The animal health certificate is to certify that the semen comes from approved semen collection centres offering the guarantees provided for in Article 8(1) of that Directive.
- (2) Commission Decision 2009/893/EC of 30 November 2009 on importation of semen of domestic animals of the porcine species into the Community as regards lists of third countries and of semen collection centres, and certification requirements⁽²⁾ sets out a list of third countries from which Member States are to authorise imports of semen. That list is established on the basis of the animal health status of those third countries.
- (3) Directive 90/429/EEC, as amended by Commission Implementing Regulation (EU) No 176/2012⁽³⁾, provides for revised animal health requirements for donor animals of the porcine species and semen as regards brucellosis and Aujeszky's disease.
- (4) Council Directive 2002/60/EC of 27 June 2002 laying down specific provisions for the control of African swine fever and amending Directive 92/119/EEC as regards Teschen disease and African swine fever⁽⁴⁾ deleted Teschen disease (porcine enterovirus encephalomyelitis) from the list of diseases laid down in Annex I to Council Directive

Changes to legislation: Commission Implementing Decision of 1 March 2012 on imports into the Union of semen of domestic animals of the porcine species (notified under document C(2012) 1148) (Text with EEA relevance) (2012/137/EU) is up to date with all changes known to be in force on or before 16 October 2023. There are changes that may be brought into force at a future date. Changes that have been made appear in the content and are referenced with annotations. (See end of Document for details) View outstanding changes

92/119/EEC of 17 December 1992 introducing general Community measures for the control of certain animal diseases and specific measures relating to swine vesicular disease⁽⁵⁾ and consequently by Commission Decision 2008/650/EC of 30 July 2008 amending Council Directive 82/894/EEC on the notification of animal diseases within the Community to include certain diseases in the list of notifiable diseases and to delete porcine enterovirus encephalomyelitis from that list⁽⁶⁾ that disease was deleted from the list of the compulsorily notifiable diseases within the Union.

- (5) In addition, it is necessary to align certain animal health requirements for imports into the Union of semen of domestic animals of the porcine species to the Terrestrial Animal Health Code of the World Organisation for Animal Health (OIE) in particular as regards country freedom of swine vesicular disease and semen collection centre freedom of tuberculosis and rabies.
- (6) Accordingly, the model animal health certificate set out in Part 1 of Annex II to Decision 2009/893/EC should be amended to take account of those amendments made to Directive 90/429/EEC and to delete all references to Teschen disease (porcine enterovirus encephalomyelitis), country freedom of swine vesicular disease and semen collection centre freedom of tuberculosis and rabies.
- (7) There are bilateral agreements concluded between the Union and certain third countries containing specific conditions for the imports into the Union of semen of domestic animals of the porcine species. Therefore, where the bilateral agreements contain specific conditions and model animal health certificates for imports, those conditions and models should apply instead of the conditions and the model set out in this Decision.
- (8) Switzerland is a third country with an animal health status equivalent to that of the Member States. It is therefore appropriate that semen of domestic animals of the porcine species imported into the Union from Switzerland is accompanied by an animal health certificate drawn up in accordance with the models used for intra-Union trade in such semen set out in Annex D to Directive 90/429/EEC, with the adaptations set out in point 3 of Chapter VIII(B) of Appendix 2 of Annex 11 to the Agreement between the European Community and the Swiss Confederation on Trade in Agricultural Products, as approved by Decision 2002/309/EC, Euratom of the Council, and of the Commission as regards the Agreement on Scientific and Technological Cooperation, of 4 April 2002 on the conclusion of seven Agreements with the Swiss Confederation⁽⁷⁾.
- (9) In the interest of clarity and consistency of Union legislation, Decision 2009/893/EC should be repealed and replaced by this Decision.
- (10) To avoid any disruption of trade, the use of animal health certificates issued in accordance with Decision 2009/893/EC should be authorised during a transitional period.
- (11) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Changes to legislation: Commission Implementing Decision of 1 March 2012 on imports into the Union of semen of domestic animals of the porcine species (notified under document C(2012) 1148) (Text with EEA relevance) (2012/137/EU) is up to date with all changes known to be in force on or before 16 October 2023.
