

Council Decision 2012/422/CFSP of 23 July 2012 in support of
a process leading to the establishment of a zone free of nuclear
weapons and all other weapons of mass destruction in the Middle East

COUNCIL DECISION 2012/422/CFSP
of 23 July 2012

in support of a process leading to the establishment of a zone free of nuclear
weapons and all other weapons of mass destruction in the Middle East

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on European Union, and in particular Article 28 and Article 31(1) thereof;

Having regard to the proposal from the High Representative of the Union for Foreign Affairs and Security Policy;

Whereas:

- (1) The Union is actively implementing the EU Strategy against Proliferation of Weapons of Mass Destruction (WMD) of 12 December 2003, and giving effect to the measures listed in Chapter III thereof, such as rendering multilateralism more effective and promoting a stable international and regional environment.
- (2) The Union is committed to the multilateral treaty system, which provides the legal and normative basis for all non-proliferation efforts. The Union's policy is to pursue the implementation and universalisation of the existing disarmament and non-proliferation norms. The Union assists third countries in the fulfilment of their obligations under multilateral conventions and regimes.
- (3) The Joint Declaration of the Paris Summit for the Mediterranean of 13 July 2008, establishing the Union for the Mediterranean, reaffirmed the common aspiration to achieve peace as well as regional security as set out in the Barcelona Declaration adopted at the Euro-Mediterranean Conference of 27-28 November 1995, which, inter alia, promotes regional security by acting in favour of nuclear, chemical and biological non-proliferation through adherence to and compliance with a combination of international and regional non-proliferation regimes and arms control and disarmament agreements such as the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), the Chemical Weapons Convention, the Biological and Toxin Weapons Convention, the Comprehensive Nuclear Test-Ban Treaty, and/or regional arrangements such as zones free of nuclear weapons, including their verification regimes, as well as by fulfilling in good faith their commitments under arms control, disarmament and non-proliferation conventions.
- (4) The parties to the Union for the Mediterranean will pursue a mutually and effectively verifiable Middle East zone free of WMD — nuclear, chemical and biological — and their delivery systems. Furthermore the parties will consider practical steps, inter alia,

to prevent the proliferation of nuclear, chemical and biological weapons as well as the excessive accumulation of conventional arms.

- (5) On 19-20 June 2008, the European Union organised a seminar in Paris on 'Middle East Security, WMD Non-Proliferation and Disarmament', which brought together representatives of States of the region and Union Member States as well as academics and national nuclear energy agencies. Participants encouraged the Union to promote the continuation of the debate in various fora, and to gradually move to a more formal format that would include discussions among government officials, building on the Barcelona Framework, but doing so in a geographically more inclusive format.
- (6) The 2010 NPT Review Conference emphasised the importance of a process leading to full implementation of its 1995 Resolution on the Middle East (the 1995 Resolution). To that end, the Conference endorsed practical steps, inter alia, consideration of all offers aimed at supporting the implementation of the 1995 Resolution, including the offer of the Union to host a follow-up seminar related to the one organised in June 2008.
- (7) The 2010 NPT Review Conference further recognised the important role played by civil society in contributing to the implementation of the 1995 Resolution and encouraged all efforts in this regard.
- (8) On 6-7 July 2011, the Union organised a seminar in Brussels to 'promote confidence building and in support of a process aimed at establishing a zone free of WMD and means of delivery in the Middle East', which brought together senior representatives of States of the region, the three NPT depositary States, the Union Member States, other interested States, as well as academics and official representatives of the major regional and international organizations. Participants strongly encouraged the Union to continue to facilitate the process towards the establishment of a zone free of WMD in the Middle East, including through further similar initiatives prior to the 2012 Conference to be convened by the UNSG and the co-sponsors of the 1995 Resolution.
- (9) On 14 October 2011, the Secretary-General of the United Nations and the Governments of the Russian Federation, the United Kingdom and the United States, as co-sponsors of the 1995 NPT Resolution on the Middle East and depositary States of the Treaty, in consultation with the States of the region, appointed Under-Secretary of State Jaakko Laajava as Facilitator, and designated Finland as the host Government, for the 2012 Conference on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction.
- (10) Since November 2011, the Union has been in close consultation with the Facilitator and his team in order to provide further support to the process aimed at establishing a zone free of nuclear weapons and all other weapons of mass destruction in the Middle East,

HAS ADOPTED THIS DECISION:

ANNEX

Projects in support of a process leading to the establishment of a zone free of nuclear weapons and all other weapons of mass destruction in the Middle East

1. OBJECTIVES

In the Barcelona Declaration adopted at the Euro-Mediterranean Conference of 27-28 November 1995, the Union and its Mediterranean Partners agreed to pursue an effectively verifiable Middle East zone free of weapons of mass destruction (WMD) and their delivery systems. In 2008, the Joint Declaration of the Paris Summit for the Mediterranean confirmed the Union's readiness to consider and work out practical steps to prepare the proper ground for full implementation of the NPT Review Conference's 1995 Resolution on the Middle East (the 1995 Resolution) and the creation of such a zone. Such practical steps were first examined during the EU Seminar on 'Middle East Security, WMD Non-Proliferation and Disarmament', held in Paris in June 2008, and were subsequently identified in the EU Seminar to 'promote confidence building and in support of a process aimed at establishing a zone free of WMD and means of delivery in the Middle East', held in Brussels in July 2011.

In the Union's view, practical steps should, inter alia, promote universal adherence to and compliance with all multilateral agreements and instruments in the field of non-proliferation, arms control and disarmament, such as the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), the Chemical Weapons Convention, the Biological and Toxin Weapons Convention, the Comprehensive Nuclear Test-Ban Treaty and the Hague Code of Conduct against Ballistic Missile Proliferation as well as the IAEA Comprehensive Safeguards Agreements and the Additional Protocol. The start of negotiations on a Fissile Material Cut-off Treaty would be another crucial step in this context. Such steps could constitute an important regional confidence-building measure with a view to the establishment of a verifiable zone free of WMD and their delivery systems.

The Union wishes to continue and intensify political and security dialogue among the relevant partners of the Union for the Mediterranean and all other countries in the Middle East on issues related to the establishment of a zone free of WMD. The European Union believes that elaboration and implementation of concrete confidence-building measures could facilitate progress towards a zone free of WMD.

Against the background of increasing interest in the development of peaceful uses of nuclear energy in the region, efforts should also be carried out in order to ensure that the development of peaceful uses take place in accordance with the best safety, security and non-proliferation standards. The Union continues to support the decisions and the resolution on the Middle East adopted at the 1995 NPT Review and Extension Conference as well as the Final Documents of the 2000 NPT Review Conference and of the 2010 NPT Review Conference. The 2010 NPT Review Conference endorsed several practical steps, which include, inter alia, the convening of a 2012 Conference on the establishment of a Middle East zone free of nuclear weapons and all other weapons of mass destruction as well as consideration of all offers aimed at supporting the implementation of the 1995 Resolution.

Following the success of the EU seminar of July 2011, the Union believes that these objectives could be furthered through another seminar in support of the 2012 Conference.

The Union wishes to support the above-mentioned objectives, as follows:

- through the organisation of a follow-up seminar to be held before the 2012 Conference;
- through providing means for the preparation of background policy papers commissioned to experts from the region and beyond in order to support the follow-up seminar;

- through providing means for the creation of a dedicated page on the website of the EU Non-Proliferation Consortium (www.non-proliferation.eu);
- through providing means for the participation of non-governmental experts from the Union, when necessary and in close coordination with the EEAS, to relevant official, non governmental and track-2 initiatives, such as the Amman Framework.

2.2.3. *Description of the project*

The project provides for the preparation of up to twenty background papers of five to ten pages each. The background papers will be prepared or commissioned by the EU Non-Proliferation Consortium and do not necessarily represent the views of the Unions Institutions or the Member States. A call for papers aimed at encouraging the participation of experts from the region will be organised by the EU non-proliferation consortium.

The background papers will cover the topics discussed by the seminar in support of a process leading to the establishment of a zone free of nuclear weapons and all other weapons of mass destruction in the Middle East. Every paper will frame political/and or operational policy options.

The background papers will be submitted to seminar participants, relevant bodies in the Union and the Member States, all Middle East countries, other interested countries, and competent international organisations.
