

## ANNEX II

### [<sup>F1</sup>METHODS OF DETERMINING THE DIMENSIONS OF PROJECTIONS AND GAPS]

#### Textual Amendments

- F1** Substituted by [Commission Directive of 18 April 1979 adapting to technical progress Council Directive 74/483/EEC on the approximation of the laws of the Member States relating to the external projections of motor vehicles \(79/488/EEC\)](#).

### [<sup>F12</sup>. METHOD OF DETERMINING THE DIMENSION OF THE PROJECTION OF A COMPONENT MOUNTED ON THE EXTERNA SURFACE

- 2.1. The dimension of the projection of a component which is mounted on a convex surface may be determined either directly or by reference to a drawing of an appropriate section of this component in its installed condition.
- 2.2. If the dimension of the projection of a component which is mounted on a surface other than convex cannot be determined by simple measurement, it shall be determined by the maximum variation of the distance of the centre of a 100 mm diameter sphere from the nominal line of the panel when the sphere is moved over and is in constant contact with that component. Figure 3 shows an example of the use of this procedure.]

#### Textual Amendments

- F1** Inserted by [Commission Directive of 18 April 1979 adapting to technical progress Council Directive 74/483/EEC on the approximation of the laws of the Member States relating to the external projections of motor vehicles \(79/488/EEC\)](#).
