The presence of regulated non-quarantine pests (RNQPs) on vegetable propagating and planting material that is marketed shall, at least upon visual inspection, not exceed the respective thresholds set out in the Annex.

The vegetable propagating and planting material shall upon visual inspection be found to be practically free from any pests, other than the pests listed in the Annex with regard to the respective propagating and planting material, which reduce the usefulness and quality of the vegetable propagating and planting material.

⁽¹⁾ OJ No L 26, 31. 1. 1977, p. 20.
