

Directive 2005/35/EC of the European Parliament and of the Council of 7 September 2005 on ship-source pollution and on the introduction of penalties for infringements

Article 12

Reporting

Every three years, Member States shall transmit a report to the Commission on the application of this Directive by the competent authorities. On the basis of these reports, the Commission shall submit a Community report to the European Parliament and the Council. In this report, the Commission shall assess, *inter alia*, the desirability of revising or extending the scope of this Directive. It shall also describe the evolution of relevant case-law in the Member States and shall consider the possibility of creating a public database containing such relevant case-law.
