

Commission Directive 2012/32/EU of 25 October 2012 amending Council Directive 96/98/EC on marine equipment (Text with EEA relevance) (repealed)

COMMISSION DIRECTIVE 2012/32/EU

of 25 October 2012

amending Council Directive 96/98/EC on marine equipment

(Text with EEA relevance) (repealed)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Directive 96/98/EC of 20 December 1996 on marine equipment⁽¹⁾, and in particular Article 17 thereof,

Whereas:

- (1) For the purposes of Directive 96/98/EC, the international conventions and testing standards should apply in their up-to-date versions.
- (2) A number of amendments to the international conventions and applicable testing standards have entered into force since the adoption of the last amending act to Directive 96/98/EC. Those amendments should be incorporated into Directive 96/98/EC.
- (3) In the same period the International Maritime Organisation and the European standardisation organisations have also adopted standards, including detailed testing standards, for a number of items of equipment which are listed in Annex A.2 to Directive 96/98/EC or which, albeit not listed, are considered relevant for the purpose of that Directive. Therefore such items of equipment should be included in Annex A.1 or transferred from Annex A.2 to Annex A.1, as appropriate.
- (4) Directive 96/98/EC should therefore be amended accordingly.
- (5) It is reasonable to allow equipment newly subject to harmonised requirements under this Directive and manufactured before the expiry of the time limit for the implementation of this Directive to be placed on the market and on board a Community ship during a transitional period.
- (6) The measures provided for in this Directive are in accordance with the opinion of the Committee on Safe Seas and the Prevention of Pollution from Ships (COSS),

HAS ADOPTED THIS DIRECTIVE:

Article 1

Annex A to Directive 96/98/EC is replaced by the text in the Annex to this Directive.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After
IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Article 2

Equipment listed in column 1 of Annex A.1 as ‘new item’ or as having been transferred from Annex A.2 which was manufactured before 30 November 2013 in conformity with procedures for type-approval already in force before that date within the territory of a Member State may continue to be placed on the market and on board a Community ship until 30 November 2015.

Article 3

1 Member States shall adopt and publish, by 30 November 2013 at the latest, the laws, regulations and administrative provisions necessary to comply with this Directive. They shall forthwith communicate to the Commission the text of those provisions.

They shall apply those provisions from 30 November 2013.

When Member States adopt those provisions, they shall contain a reference to this Directive or be accompanied by such a reference on the occasion of their official publication. Member States shall determine how such reference is to be made.

2 Member States shall communicate to the Commission the text of the main provisions of national law which they adopt in the field covered by this Directive.

Article 4

This Directive shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

Article 5

This Directive is addressed to the Member States.

Done at Brussels, 25 October 2012.

For the Commission

The President

José Manuel BARROSO

ANNEX

ANNEX General note for Annex A: SOLAS Regulations refer to SOLAS consolidated version A 2009.

General note for Annex A: Within certain item designations, column 5 shows some possible product variants under the same item designation. Product variants are independently provisioned and separated by a dotted lined from each other. For certification purpose only the relevant product variant shall be chosen, as appropriate (Example: A.1/3.3).

List of acronyms used:

A.1, Amendment 1 concerning standard documents other than IMO.
A.2, Amendment 2 concerning standard documents other than IMO.
AC, Amending Corrigendum concerning standard documents other than IMO.
CAT, Category for radar equipment as defined in Section 1.3 of IEC 62388 (2007).
Circ., Circular.
Colreg, International Regulations for Preventing Collisions at Sea.
Comsar, IMO's Sub-Committee on Radiocommunications and Search and Rescue.
EN, European Standard.
ETSI, European Telecommunication Standardisation Institute.
FSS, International Code for Fire Safety Systems.
FTP, International Code for Application of Fire Test Procedures.
HSC, High-speed Craft Code.
IBC, International Bulk Chemical Code.
ICAO, International Civil Aviation Organisation.
IEC, International Electro-technical Commission.
IGC, International Code for the Construction and Equipment of Ships Carrying Liquefied Gases in Bulk.
IMO, International Maritime Organisation.
ISO, International Standardisation Organisation.
ITU, International Telecommunication Union.
LSA, Life-saving appliance.
Marpol, International Convention for the Prevention of Pollution from Ships.
MEPC, Marine Environment Protection Committee.
MSC, Maritime Safety Committee.
NO_x, Nitrogen oxides.
SOLAS, International Convention for the Safety of Life at Sea.
SO_x, Sulphur oxides.
Reg., Regulation.
Res., Resolution.

ANNEX A.1

EQUIPMENT FOR WHICH DETAILED TESTING STANDARDS ALREADY EXIST IN INTERNATIONAL INSTRUMENTS

Notes applicable to the whole of Annex A.1

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After
IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (a) General: in addition to the testing standards specifically mentioned, a number of provisions, which must be checked during type-examination (type approval) as referred to in the modules for conformity assessment in Annex B, are to be found in the applicable requirements of the international conventions and the relevant resolutions and circulars of the IMO.
- (b) Column 1: Article 2 of Commission Directive 2010/68/EU⁽²⁾ may apply (6th amendment of MED Annex A).
- (c) Column 1: Article 2 of Commission Directive 2011/75/EU⁽³⁾ may apply (7th amendment of MED Annex A).
- (d) Column 2: When the term “systems components” is used it may be that a single component, a group of components or a whole system needs to be tested to ensure that the international requirements are fulfilled.
- (e) Column 5: Where IMO Resolutions are cited, only the testing standards contained in relevant parts of the Annexes to the Resolutions are applicable and exclude the provisions of the Resolutions themselves.
- (f) Column 5: International conventions and testing standards apply in their up-to-date version. For the purpose of identifying correctly the relevant standards, test reports, certificates of conformity and declarations of conformity shall identify the specific testing standard applied and its version.
- (g) Column 5: Where two sets of identifying standards are separated by “or”, each set fulfils all the testing requirements to meet IMO performance standards; thus testing to one of these sets is sufficient to demonstrate compliance with the requirements of the relevant international instruments. Conversely, when other separators (comma) are used all the listed references apply.
- (h) Column 6: Where module H appears, module H plus design-examination certificate is to be understood.
- (i) The requirements laid down in this Annex shall be without prejudice to carriage requirements in the international conventions.

1. Life-saving appliances

Column 4: IMO MSC/Circular 980 shall apply except when superseded by the specific instruments referred to in Column 4.

No	Item designation	Regulation SOLAS 74, as amended, where “type approval” is required	Regulations of SOLAS 74, as amended, and the relevant resolutions and circulars of the IMO, as applicable	Testing standards	Modules for conformity assessment

5. Radiocommunication equipment

Notes applicable to Section 5: Radiocommunication equipment.

Column 5: In case of conflicting requirements between IMO MSC/Circ.862 and the product testing standards, the IMO MSC/Circ.862 requirements shall take precedence.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After
IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Column 5:

IEC 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems — Digital interfaces:

- (a) IEC 61162-1 ed4.0 (2010-11) — Part 1: Single talker and multiple listeners
- (b) IEC 61162-2 ed1.0 (1998-09) — Part 2: Single talker and multiple listeners, high-speed transmission
- (c) IEC 61162-3 ed1.1 Consol. with am1 (2010-11) — Part 3: Serial data instrument network
 - IEC 61162-3 ed1.0 (2008-05) — Part 3: Serial data instrument network
 - IEC 61162-3-am1 ed1.0 (2010-06) Amendment 1 — Part 3: Serial data instrument network
- (d) IEC 61162-400 ed1.0 (2001-11) — Part 400: Multiple talkers and multiple listeners — Ship systems interconnection — Introduction and general principles
 - IEC 61162-401 ed1.0 (2001-11) — Part 401: Multiple talkers and multiple listeners — Ship systems interconnection — Application profile
 - IEC 61162-402 ed1.0 (2005-09) — Part 402: Multiple talkers and multiple listeners — Ship systems interconnection — Documentation and test requirements
 - IEC 61162-410 ed1.0 (2001-11) — Part 410: Multiple talkers and multiple listeners — Ship systems interconnection — Transport profile requirements and basic transport profile
 - IEC 61162-420 ed1.0 (2001-11) — Part 420: Multiple talkers and multiple listeners — Ship systems interconnection — Companion standard requirements and basic companion standards
 - IEC 61162-450 ed1.0 (2011-06) — Part 450: Multiple talkers and multiple listeners — Ethernet interconnection

EN 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems — Digital interfaces:

- (a) EN 61162-1 (2011) — Part 1: Single talker and multiple listeners
- (b) EN 61162-2 (1998) — Part 2: Single talker and multiple listeners, high-speed transmission
- (c) EN 61162-3 (2008) — Part 3: Serial data instrument network
 - EN 61162-3-am1 (2010) Amendment 1 — Part 3: Serial data instrument network
- (d) EN 61162-400 (2002) — Part 400: Multiple talkers and multiple listeners — Ship systems interconnection — Introduction and general principles
 - EN 61162-401 (2002) — Part 401: Multiple talkers and multiple listeners — Ship systems interconnection — Application profile
 - EN 61162-402 (2005) — Part 402: Multiple talkers and multiple listeners — Ship systems interconnection — Documentation and test requirements

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- EN 61162-410 (2002) — Part 410: Multiple talkers and multiple listeners — Ship systems interconnection — Transport profile requirements and basic transport profile
- EN 61162-420 (2002) — Part 420: Multiple talkers and multiple listeners — Ship systems interconnection — Companion standard requirements and basic companion standards
- EN 61162-450 (2011) — Part 450: Multiple talkers and multiple listeners — Ethernet interconnection

A.2/3.28	Medium expansion foam fire extinguishing systems components — Fixed deck foam for tankers	Moved to A.1/3.57			
A.2/3.29	Fixed low expansion foam fire extinguishing systems components for machinery spaces and tanker deck protection	Moved to A.1/3.58			
A.2/3.30	Expansion foam for fixed fire extinguishing systems for chemical tankers	Moved to A.1/3.59			
A.2/3.31	Water spraying hand-operated system	—	Reg. II-2/10.	—	Reg. II-2/10.
A.2/3.32	Dry chemical powder extinguishing systems	Moved to A.1/3.62			

4. Navigation equipment

Notes applicable to Section 4: Navigation equipment

Columns 3 and 4: References to SOLAS Chapter V are to SOLAS 1974 as amended by MSC 73 and entering into force on 1 July 2002.

Column 5:

IEC 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems — Digital interfaces:

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After
IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (a) IEC 61162-1 ed4.0 (2010-11) — Part 1: Single talker and multiple listeners
- (b) IEC 61162-2 ed1.0 (1998-09) — Part 2: Single talker and multiple listeners, high-speed transmission
- (c) IEC 61162-3 ed1.1 Consol. with am1 (2010-11) — Part 3: Serial data instrument network
 - IEC 61162-3 ed1.0 (2008-05) — Part 3: Serial data instrument network
 - IEC 61162-3-am1 ed1.0 (2010-06) Amendment 1 — Part 3: Serial data instrument network
- (d) IEC 61162-400 ed1.0 (2001-11) — Part 400: Multiple talkers and multiple listeners — Ship systems interconnection — Introduction and general principles
 - IEC 61162-401 ed1.0 (2001-11) — Part 401: Multiple talkers and multiple listeners — Ship systems interconnection — Application profile
 - IEC 61162-402 ed1.0 (2005-09) — Part 402: Multiple talkers and multiple listeners — Ship systems interconnection — Documentation and test requirements
 - IEC 61162-410 ed1.0 (2001-11) — Part 410: Multiple talkers and multiple listeners — Ship systems interconnection — Transport profile requirements and basic transport profile
 - IEC 61162-420 ed1.0 (2001-11) — Part 420: Multiple talkers and multiple listeners — Ship systems interconnection — Companion standard requirements and basic companion standards
 - IEC 61162-450 ed1.0 (2011-06) — Part 450: Multiple talkers and multiple listeners — Ethernet interconnection

EN 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems — Digital interfaces:

- (a) EN 61162-1 (2011) — Part 1: Single talker and multiple listeners
- (b) EN 61162-2 (1998) — Part 2: Single talker and multiple listeners, high-speed transmission
- (c) EN 61162-3 (2008) — Part 3: Serial data instrument network
 - EN 61162-3-am1 (2010) Amendment 1 — Part 3: Serial data instrument network
- (d) EN 61162-400 (2002) — Part 400: Multiple talkers and multiple listeners — Ship systems interconnection — Introduction and general principles
 - EN 61162-401 (2002) — Part 401: Multiple talkers and multiple listeners — Ship systems interconnection — Application profile
 - EN 61162-402 (2005) — Part 402: Multiple talkers and multiple listeners — Ship systems interconnection — Documentation and test requirements
 - EN 61162-410 (2002) — Part 410: Multiple talkers and multiple listeners — Ship systems interconnection — Transport profile requirements and basic transport profile

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- EN 61162-420 (2002) — Part 420: Multiple talkers and multiple listeners — Ship systems interconnection — Companion standard requirements and basic companion standards
- EN 61162-450 (2011) — Part 450: Multiple talkers and multiple listeners — Ethernet interconnection

No	Item designation	Regulation SOLAS 74, as amended, where “type approval” is required	Regulations of SOLAS 74, as amended, and the relevant resolutions and circulars of the IMO, as applicable	Testing standards	Modules for conformity assessment

IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

- (c) IEC 61162-3 ed1.1 Consol. with am1 (2010-11) — Part 3: Serial data instrument network
 - IEC 61162-3 ed1.0 (2008-05) — Part 3: Serial data instrument network
 - IEC 61162-3-am1 ed1.0 (2010-06) Amendment 1 — Part 3: Serial data instrument network
- (d) IEC 61162-400 ed1.0 (2001-11) — Part 400: Multiple talkers and multiple listeners — Ship systems interconnection — Introduction and general principles
 - IEC 61162-401 ed1.0 (2001-11) — Part 401: Multiple talkers and multiple listeners — Ship systems interconnection — Application profile
 - IEC 61162-402 ed1.0 (2005-09) — Part 402: Multiple talkers and multiple listeners — Ship systems interconnection — Documentation and test requirements
 - IEC 61162-410 ed1.0 (2001-11) — Part 410: Multiple talkers and multiple listeners — Ship systems interconnection — Transport profile requirements and basic transport profile
 - IEC 61162-420 ed1.0 (2001-11) — Part 420: Multiple talkers and multiple listeners — Ship systems interconnection — Companion standard requirements and basic companion standards
 - IEC 61162-450 ed1.0 (2011-06) — Part 450: Multiple talkers and multiple listeners — Ethernet interconnection

EN 61162 series refer to the following reference standards for Maritime navigation and radiocommunication equipment and systems — Digital interfaces:

- (a) EN 61162-1 (2011) — Part 1: Single talker and multiple listeners
- (b) EN 61162-2 (1998) — Part 2: Single talker and multiple listeners, high-speed transmission
- (c) EN 61162-3 (2008) — Part 3: Serial data instrument network
 - EN 61162-3-am1 (2010) Amendment 1 — Part 3: Serial data instrument network
- (d) EN 61162-400 (2002) — Part 400: Multiple talkers and multiple listeners — Ship systems interconnection — Introduction and general principles
 - EN 61162-401 (2002) — Part 401: Multiple talkers and multiple listeners — Ship systems interconnection — Application profile
 - EN 61162-402 (2005) — Part 402: Multiple talkers and multiple listeners — Ship systems interconnection — Documentation and test requirements
 - EN 61162-410 (2002) — Part 410: Multiple talkers and multiple listeners — Ship systems interconnection — Transport profile requirements and basic transport profile
 - EN 61162-420 (2002) — Part 420: Multiple talkers and multiple listeners — Ship systems interconnection — Companion standard requirements and basic companion standards
 - EN 61162-450 (2011) — Part 450: Multiple talkers and multiple listeners — Ethernet interconnection

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

No	Item designation	Regulation SOLAS 74, as amended, where “type approval” is required	Regulations of SOLAS 74, as amended, and the relevant resolutions and circulars of the IMO, as applicable	Testing standards	Modules for conformity assessment
