

Directive 2012/34/EU of the European Parliament and of the Council of 21 November 2012 establishing a single European railway area (recast) (Text with EEA relevance)

CHAPTER II

DEVELOPMENT OF THE UNION RAILWAYS

SECTION 2

Separation of infrastructure management and transport operations and of different types of transport operations

[^{F1}Article 7c

Outsourcing and sharing the infrastructure manager's functions

1 Provided that no conflicts of interest arise and that the confidentiality of commercially sensitive information is guaranteed, the infrastructure manager may:

- a outsource functions to a different entity, provided the latter is not a railway undertaking, does not control a railway undertaking, or is not controlled by a railway undertaking. Within a vertically integrated undertaking, essential functions shall not be outsourced to any other entity of the vertically integrated undertaking, unless such entity exclusively performs essential functions;
- b outsource the execution of works and related tasks on development, maintenance and renewal of the railway infrastructure to railway undertakings or companies which control the railway undertaking, or are controlled by the railway undertaking.

The infrastructure manager shall retain the supervisory power over, and bear ultimate responsibility for, the exercise of the functions described in Article 3(2). Any entity carrying out essential functions shall comply with Articles 7, 7a, 7b and 7d.

2 By way of derogation from Article 7(1), infrastructure management functions may be performed by different infrastructure managers, including parties to public-private partnership arrangements provided that they all fulfil the requirements of Article 7(2) to (6) and Articles 7a, 7b and 7d and assume full responsibility for the exercise of the functions concerned.

3 Where essential functions are not assigned to a power supply operator, it shall be exempted from the rules applicable to infrastructure managers, provided that compliance with the relevant provisions concerning development of the network, in particular Article 8, is ensured.

4 Subject to supervision by the regulatory body or any other independent competent body determined by the Member States, an infrastructure manager may conclude cooperation agreements with one or more railway undertakings in a non-discriminatory way and with a view to delivering benefits to customers such as reduced costs or improved performance on the part of the network covered by the agreement.

That body shall monitor the execution of such agreements and may, where justified, advise that they should be terminated.]

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

Textual Amendments

- F1** Inserted by Directive (EU) 2016/2370 of the European Parliament and of the Council of 14 December 2016 amending Directive 2012/34/EU as regards the opening of the market for domestic passenger transport services by rail and the governance of the railway infrastructure (Text with EEA relevance).
