

Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC (Text with EEA relevance)

CHAPTER 3

BALANCE SHEET AND PROFIT AND LOSS ACCOUNT

Article 9

General provisions concerning the balance sheet and the profit and loss account

1 The layout of the balance sheet and of the profit and loss account shall not be changed from one financial year to the next. Departures from that principle shall, however, be permitted in exceptional cases in order to give a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss. Any such departure and the reasons therefor shall be disclosed in the notes to the financial statements.

2 In the balance sheet and in the profit and loss account the items set out in Annexes III to VI shall be shown separately in the order indicated. Member States shall permit a more detailed subdivision of those items, subject to adherence to the prescribed layouts. Member States shall permit the addition of subtotals and of new items, provided that the contents of such new items are not covered by any of the items in the prescribed layouts. Member States may require such subdivision or subtotals or new items.

3 The layout, nomenclature and terminology of items in the balance sheet and profit and loss account that are preceded by arabic numerals shall be adapted where the special nature of an undertaking so requires. Member States may require such adaptations for undertakings which form part of a particular economic sector.

Member States may permit or require balance sheet and profit and loss account items that are preceded by arabic numerals to be combined where they are immaterial in amount for the purposes of giving a true and fair view of the undertaking's assets, liabilities, financial position and profit or loss or where such combination makes for greater clarity, provided that the items so combined are dealt with separately in the notes to the financial statements.

4 By way of derogation from paragraphs 2 and 3 of this Article, Member States may limit the undertaking's ability to depart from the layouts set out in Annexes III to VI to the extent that this is necessary in order for the financial statements to be filed electronically.

5 In respect of each balance sheet and profit and loss account item, the figure for the financial year to which the balance sheet and the profit and loss account relate and the figure relating to the corresponding item for the preceding financial year shall be shown. Where those figures are not comparable, Member States may require the figure for the preceding financial year to be adjusted. Any case of non-comparability or any adjustment of the figures shall be disclosed, with explanations, in the notes to the financial statements.

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

6 Member States may permit or require adaptation of the layout of the balance sheet and profit and loss account in order to include the appropriation of profit or the treatment of loss.

7 In respect of the treatment of participating interests in annual financial statements:

- a Member States may permit or require participating interests to be accounted for using the equity method as provided for in Article 27, taking account of the essential adjustments resulting from the particular characteristics of annual financial statements as compared to consolidated financial statements;
- b Member States may permit or require that the proportion of the profit or loss attributable to the participating interest be recognised in the profit and loss account only to the extent of the amount corresponding to dividends already received or the payment of which can be claimed; and
- c where the profit attributable to the participating interest and recognised in the profit and loss account exceeds the amount of dividends already received or the payment of which can be claimed, the amount of the difference shall be placed in a reserve which cannot be distributed to shareholders.

Article 10

Presentation of the balance sheet

For the presentation of the balance sheet, Member States shall prescribe one or both of the layouts set out in Annexes III and IV. If a Member State prescribes both layouts, it shall permit undertakings to choose which of the prescribed layouts to adopt.

Article 11

Alternative presentation of the balance sheet

Member States may permit or require undertakings, or certain classes of undertaking, to present items on the basis of a distinction between current and non-current items in a different layout from that set out in Annexes III and IV, provided that the information given is at least equivalent to that otherwise to be provided in accordance with Annexes III and IV.

Article 12

Special provisions relating to certain balance sheet items

1 Where an asset or liability relates to more than one layout item, its relationship to other items shall be disclosed either under the item where it appears or in the notes to the financial statements.

2 Own shares and shares in affiliated undertakings shall be shown only under the items prescribed for that purpose.

3 Whether particular assets are to be shown as fixed assets or current assets shall depend upon the purpose for which they are intended.

4 Rights to immovables and other similar rights as defined by national law shall be shown under 'Land and buildings'.

5 The purchase price or production cost or revalued amount, where Article 7(1) applies, of fixed assets with limited useful economic lives shall be reduced by value adjustments calculated to write off the value of such assets systematically over their useful economic lives.

6 Value adjustments to fixed assets shall be subject to the following:

- a Member States may permit or require value adjustments to be made in respect of financial fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date;
- b value adjustments shall be made in respect of fixed assets, whether their useful economic lives are limited or not, so that they are valued at the lower figure to be attributed to them at the balance sheet date if it is expected that the reduction in their value will be permanent;
- c the value adjustments referred to in points (a) and (b) shall be charged to the profit and loss account and disclosed separately in the notes to the financial statements if they have not been shown separately in the profit and loss account;
- d measurement at the lower of the values provided for in points (a) and (b) may not continue if the reasons for which the value adjustments were made have ceased to apply; this provision shall not apply to value adjustments made in respect of goodwill.

7 Value adjustments shall be made in respect of current assets with a view to showing them at the lower market value or, in particular circumstances, another lower value to be attributed to them at the balance sheet date.

Measurement at the lower value provided for in the first subparagraph may not continue if the reasons for which the value adjustments were made no longer apply.

8 Member States may permit or require that interest on capital borrowed to finance the production of fixed or current assets be included within production costs, to the extent that it relates to the period of production. Any application of this provision shall be disclosed in the notes to the financial statements.

9 Member States may permit the purchase price or production cost of stocks of goods of the same category and all fungible items including investments to be calculated either on the basis of weighted average prices, on the basis of the 'first in, first out' (FIFO) method, the 'last in, first out' (LIFO) method, or a method reflecting generally accepted best practice.

10 Where the amount repayable on account of any debt is greater than the amount received, Member States may permit or require that the difference be shown as an asset. It shall be shown separately in the balance sheet or in the notes to the financial statements. The amount of that difference shall be written off by a reasonable amount each year and completely written off no later than at the time of repayment of the debt.

11 Intangible assets shall be written off over the useful economic life of the intangible asset.

In exceptional cases where the useful life of goodwill and development costs cannot be reliably estimated, such assets shall be written off within a maximum period set by the Member State. That maximum period shall not be shorter than five years and shall not exceed 10 years. An explanation of the period over which goodwill is written off shall be provided within the notes to the financial statements.

Where national law authorises the inclusion of costs of development under 'Assets' and the costs of development have not been completely written off, Member States shall require that no distribution of profits take place unless the amount of the reserves

Status: EU Directives are being published on this site to aid cross referencing from UK legislation. After IP completion day (31 December 2020 11pm) no further amendments will be applied to this version.

available for distribution and profits brought forward is at least equal to that of the costs not written off.

Where national law authorises the inclusion of formation expenses under ‘Assets’, they shall be written off within a period of maximum five years. In that case, Member States shall require that the third subparagraph apply *mutatis mutandis* to formation expenses.

In exceptional cases, the Member States may permit derogations from the third and fourth subparagraphs. Such derogations and the reasons therefor shall be disclosed in the notes to the financial statements.

12 Provisions shall cover liabilities the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

The Member States may also authorise the creation of provisions intended to cover expenses the nature of which is clearly defined and which at the balance sheet date are either likely to be incurred or certain to be incurred, but uncertain as to their amount or as to the date on which they will arise.

At the balance sheet date, a provision shall represent the best estimate of the expenses likely to be incurred or, in the case of a liability, of the amount required to meet that liability. Provisions shall not be used to adjust the values of assets.

Article 13

Presentation of the profit and loss account

1 For the presentation of the profit and loss account, Member States shall prescribe one or both of the layouts set out in Annexes V and VI. If a Member State prescribes both layouts, it may permit undertakings to choose which of the prescribed layouts to adopt.

2 By way of derogation from Article 4(1), Member States may permit or require all undertakings, or any classes of undertaking, to present a statement of their performance instead of the presentation of profit and loss items in accordance with Annexes V and VI, provided that the information given is at least equivalent to that otherwise required by Annexes V and VI.

Article 14

Simplifications for small and medium-sized undertakings

1 Member States may permit small undertakings to draw up abridged balance sheets showing only those items in Annexes III and IV preceded by letters and roman numerals, disclosing separately:

- a the information required in brackets in D (II) under ‘Assets’ and C under ‘Capital, reserves and liabilities’ of Annex III, but in the aggregate for each; or
- b the information required in brackets in D (II) of Annex IV.

2 Member States may permit small and medium-sized undertakings to draw up abridged profit and loss accounts within the following limits:

- a in Annex V, items 1 to 5 may be combined under one item called ‘Gross profit or loss’;
- b in Annex VI, items 1, 2, 3 and 6 may be combined under one item called ‘Gross profit or loss’.
