the Council of 26 February 2014 on public procurement and
repealing Directive 2004/18/EC (Text with EEA relevance)

TITLE II

RULES ON PUBLIC CONTRACTS

CHAPTER III

Conduct of the procedure

Section 3

Choice of participants and award of contracts

Subsection 1

Criteria for qualitative selection

Article 62

Quality assurance standards and environmental management standards

1 Contracting authorities shall, where they require the production of certificates drawn up by independent bodies attesting that the economic operator complies with certain quality assurance standards, including on accessibility for disabled persons, refer to quality assurance systems based on the relevant European standards series certified by accredited bodies. They shall recognise equivalent certificates from bodies established in other Member States. They shall also accept other evidence of equivalent quality assurance measures where the economic operator concerned had no possibility of obtaining such certificates within the relevant time limits for reasons that are not attributable to that economic operator provided that the economic operator proves that the proposed quality assurance measures comply with the required quality assurance standards.

2 Where contracting authorities require the production of certificates drawn up by independent bodies attesting that the economic operator complies with certain environmental management systems or standards, they shall refer to the Eco-Management and Audit Scheme (EMAS) of the Union or to other environmental management systems as recognised in accordance with Article 45 of Regulation (EC) No 1221/2009 or other environmental management standards based on the relevant European or international standards by accredited bodies. They shall recognise equivalent certificates from bodies established in other Member States.

Where an economic operator had demonstrably no access to such certificates, or no possibility of obtaining them within the relevant time limits for reasons that are not attributable to that economic operator, the contracting authority shall also accept

other evidence of environmental management measures, provided that the economic operator proves that these measures are equivalent to those required under the applicable environmental management system or standard.

3 Upon request, Member States shall make available to other Member States, in accordance with Article 86, any information relating to the documents produced as evidence of compliance with quality and environmental standards referred to in paragraphs 1 and 2.
