

Commission Implementing Directive 2014/98/EU of 15 October 2014 implementing Council Directive 2008/90/EC as regards specific requirements for the genus and species of fruit plants referred to in Annex I thereto, specific requirements to be met by suppliers and detailed rules concerning official inspections

### CHAPTER 3

## **SPECIFIC REQUIREMENTS FOR SUPPLIERS ENGAGED IN THE PRODUCTION OR REPRODUCTION OF PROPAGATING MATERIAL AND FRUIT PLANTS**

### *Article 28*

#### **Plan to identify and monitor critical points in the production process**

During the production of propagating material and fruit plants, Member States shall ensure that suppliers have in place, as appropriate for the relevant genera or species, a plan to identify and monitor critical points in the production process. That plan shall at least concern the following elements:

- (a) location and number of plants;
- (b) timing of their cultivation;
- (c) propagation operations;
- (d) packaging, storage and transportation operations.

### *Article 29*

#### **Keeping information on the monitoring available for examination**

1 Member States shall ensure that the suppliers keep records with information on the monitoring of the critical points as referred to in Article 6(1) of Directive 2008/90/EC and, when requested, make them available for examination.

2 Those records shall remain available for a period of at least three years since the production of the material concerned.

3 Member States shall ensure that suppliers keep records of field inspections, sampling and testing as long as the respective propagating material and fruit plants are under their control, and for a period of at least three years after that propagating material and those fruit plants have been removed or marketed.
