
CORRIGENDA

Corrigendum to Council Regulation (EEC) No 3626/82 of 3 December 1982 on the implementation in the Community of the Convention on international trade in endangered species of wild fauna and flora

(Official Journal of the European Communities No L 384 of 31 December 1982)

After Annex C the following statement shall be added :

'Statement on Article 2

The Council and the Commission state that, in view of the predominantly cultural nature of the making of certain handicraft articles in Greenland from specimens of cetacea and of the low volume of such activity, it shall not be regarded as predominantly commercial, and that the granting of appropriate export and import licences may therefore be regarded as consistent with the relevant provisions of the Regulation.

The management authorities in Denmark will, in consultation with the Commission, monitor such exports and imports, which must not significantly exceed the present low level.'
