

## COUNCIL REGULATION (EEC) No 3929/90

of 20 December 1990

laying down for 1991 certain measures for the conservation and management of fishery resources applicable to vessels flying the flag of Sweden

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources <sup>(1)</sup>, as amended by the Act of Accession of Spain and Portugal <sup>(2)</sup>, and in particular Article 11 thereof,

Having regard to the proposal from the Commission,

Whereas, in accordance with the procedure provided for in the Fisheries Agreement between the European Economic Community and the Government of Sweden <sup>(3)</sup>, and in particular Articles 2 and 6 thereof, the Community and Sweden have held consultations concerning their mutual fishing rights for 1991 and the management of common biological resources;

Whereas, in the course of these consultations, the delegations agreed to recommend to their respective authorities that certain catch quotas for 1991 should be fixed for the vessels of the other Party;

Whereas the Agreement comprises an exchange, for 1991, of certain supplementary catch quotas, as a consequence of the German unification, the Community being the legal successor to the German Democratic Republic with respect to the Agreement between the Government of the German Democratic Republic and the Government of Sweden on Fisheries;

Whereas, under the terms of Article 3 of Regulation (EEC) No 170/83, it is for the Council to fix the total catches allocated to third countries and to lay down the specific conditions under which such catches must be taken;

Whereas the fishing activities covered by this Regulation are subject to the control measures provided for by Council Regulation (EEC) No 2241/87 of 23 July 1987 establishing certain control measures for fishing

activities <sup>(4)</sup>, as amended by Regulation (EEC) No 3483/88 <sup>(5)</sup>;

Whereas Article 3 (2) of Commission Regulation (EEC) No 1381/87 of 20 May 1987 establishing detailed rules concerning the marking and documentation of fishing vessels <sup>(6)</sup> provides that all vessels with chilled or refrigerated sea-water tanks are to keep on board a document certified by a competent authority and specifying the calibration of the tanks in cubic metres at 10-centimetre intervals;

Whereas the Agreement of 19 December 1966 between Denmark, Norway and Sweden on mutual access to fishing in the Skagerrak and Kattegat provides that each Party is to grant fishing vessels of the other Parties access to its fishing zone in the Skagerrak and part of the Kattegat up to four nautical miles from the baselines, without any quantitative limitation;

Whereas the Convention of 31 December 1932 between Denmark and Sweden concerning fishing conditions in the maritime waters bordering on both Parties provides that each Party shall grant fishing vessels of the other Party access to its fishing zone in the Kattegat up to three nautical miles from the coast and in certain parts of the Øresund and the Baltic Sea up to the baselines, without any quantitative limitation,

HAS ADOPTED THIS REGULATION:
