COUNCIL REGULATION (EC) No 3675/93
of 20 December 1993

on the conclusion of the Agreement in the form of exchanges of letters between the European Community and the Government of Canada concerning fisheries relations

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 43 in conjunction with Article 228, paragraph 3, first subparagraph thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament,

Whereas Canada is a major partner of the European Community, with whom sound relations should be maintained in the fisheries sector; whereas a framework should accordingly be established for mutual cooperation with a view to fostering effective conservation and to introducing the exploitation of fishery resources in the north-west Atlantic on a lasting basis; whereas in that connection the two Parties have agreed on the aspects to be covered by their relations in the fisheries sector;

Whereas the Agreement in the form of exchanges of letters between the European Community and the Government of Canada concerning fisheries relations should be approved;

Whereas the two Parties intend implementing the specific cooperation measures provided for in the memorandum of understanding appended to the exchange of letters pursuant to the United Nations Convention on the Law of the Sea, to which they are signatories, and pursuant to the Convention on Future Multilateral Cooperation in the North-west Atlantic Fisheries, to which they are Contracting Parties; whereas it should accordingly be made clear that the Commission is authorized to conduct the consultations provided for to that end in accordance with the negotiating directives decided upon on 15 December 1992;

Whereas the relations between the two Parties in the fisheries sector are based, in particular, on access to surplus resources in Canadian waters;

Whereas specific provisions should be laid down for terminating cooperation if the Community is unable to maintain it owing to special circumstances,
