For the period 1 January to 31 December 1998, in accordance with the provisions of Association Council Decision No 9/97, imports into the Community of certain iron and steel products covered by the ECSC and EC Treaties originating in Slovakia, as listed in Annex I, shall be subject to the presentation of a surveillance document issued by the authorities in the Community.

2. The surveillance document shall be made out on a form corresponding to the model set out in Annex II.

3. The classification of the products covered by this Regulation is based on the tariff and statistical nomenclature of the Community (hereinafter called the 'Combined Nomenclature', or in abbreviated form 'CN'). The origin of the products covered by this Regulation shall be determined in accordance with the rules in force in the Community.

4. For the period 1 January to 31 December 1998, imports into the Community of the products listed in Annex I shall, in addition, be subject to the issue of an export document issued by the competent Slovak authorities. Presentation by the importer of the original of the export document must be effected not later than 31 March of the year following that in which the goods covered by the document were shipped.

5. Shipment is considered to have taken place on the date of loading on to the exporting means of transport.

6. The export document shall conform to the model shown in Annex III. It shall be valid for exports throughout the customs territory of the Community.
