INTERNATIONAL ACCOUNTING STANDARD 1 U.K.

Presentation of Financial Statements

OBJECT	TIVE
1 SCOPE	
2	
3	
4	
5	
6 DEFINI	ΓΙΟΝS
7	The following terms are used in this Standard with the meanings specified: U.K.
8	
8A	The following terms are described in IAS 32 <i>Financial Instruments: Presentation</i> and are used in this Standard with the meaning specified in IAS 32: U.K.
FINANC	CIAL STATEMENTS
Purpose	of financial statements
9	Financial statements are a structured representation of the financial position and financial performance of an entity. The objective of financial statements is to provide information about the financial position, financial performance and cash flows of an entity that is useful to a wide range of users in making economic decisions. Financial statements also show the results of the management's stewardship of the resources entrusted to it. To meet this objective, financial statements provide information about an entity's: U.K.
	e set of financial statements
	A complete set of financial statements comprises : IIK

10A	
11	
12	
13	Many entities present, outside the financial statements, a financial review by management that describes and explains the main features of the entity's financial performance and financial position, and the principal uncertainties it faces. Such a report may include a review of:
14 Genera	al features
Fair pı	resentation and compliance with IFRSs
15	
16	
17	In virtually all circumstances, an entity achieves a fair presentation by compliance with applicable IFRSs. A fair presentation also requires an entity: U.K.
18	
19	
20	When an entity departs from a requirement of an IFRS in accordance with paragraph 19, it shall disclose: U.K.
21	
22	
23	In the extremely rare circumstances in which management concludes that compliance with a requirement in an IFRS would be so misleading that it would conflict with the objective of financial statements set out in the <i>Conceptual Framework</i> , but the relevant regulatory framework prohibits departure from the requirement, the entity shall, to the maximum extent possible, reduce the perceived misleading aspects of compliance by disclosing: U.K.
24	For the purpose of paragraphs 19–23, an item of information would conflict with the objective of financial statements when it does not represent faithfully the transactions, other events and conditions that it either purports to represent or could reasonably be expected to represent and, consequently, it would be likely to influence economic decisions made by users of financial statements. When assessing whether complying with a specific requirement in an IFRS would be so misleading that it would conflict

	management considers: U.K.
Going of	concern
 25	
26 Accrua	l basis of accounting
27	
28 Materia	ality and aggregation
29	
30	
30A	
31 Offsetti	ing
32	
33	
34	IFRS 15 Revenue from Contracts with Customers requires an entity to measure revenue from contracts with customers at the amount of consideration to which the entity expects to be entitled in exchange for transferring promised goods or services. For example, the amount of revenue recognised reflects any trade discounts and volume rebates the entity allows. An entity undertakes, in the course of its ordinary activities, other transactions that do not generate revenue but are incidental to the main revenue-generating activities. An entity presents the results of such transactions, when this presentation reflects the substance of the transaction or other event, by netting any income with related expenses arising on the same transaction. For example: U.K.
35 Freque	ncy of reporting
36	An entity shall present a complete set of financial statements (including comparative information) at least annually. When an entity changes the end of its reporting period and presents financial statements for a period longer or shorter than one year, an entity shall disclose, in addition to the period covered by the financial statements:

37 Compa	arative information
Minim	um comparative information
38	
38A	
	onal comparative information
 38C	
38D	
39	An entity disclosing comparative information shall present, as a minimum, two statements of financial position, two of each of the other statements, and related notes. When an entity applies an accounting policy retrospectively or makes a retrospective restatement of items in its financial statements or when it reclassifies items in its financial statements, it shall present, as a minimum, three statements of financial position, two of each of the other statements, and related notes. An entity presents statements of financial position as at: U.K.
40	e in accounting policy, retrospective restatement or reclassification
40A	An entity shall present a third statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements required in paragraph 38A if:
40B	In the circumstances described in paragraph 40A, an entity shall present three statements of financial position as at: U.K.
40C	
40D	
41	If an entity changes the presentation or classification of items in its financial statements, it shall reclassify comparative amounts unless reclassification is impracticable. When an entity reclassifies comparative amounts, it shall disclose (including as at the beginning of the preceding period): U.K.

42	When it is impracticable to reclassify comparative amounts, an entity shall disclose: U.K.
43	
44 Consis	stency of presentation
45	An entity shall retain the presentation and classification of items in the financial statements from one period to the next unless: U.K.
46	CTURE AND CONTENT
Introd	uction
47	
48 Identif	fication of the financial statements
49	
50	
51	An entity shall clearly identify each financial statement and the notes. In addition, an entity shall display the following information prominently, and repeat it when necessary for the information presented to be understandable: U.K.
52	
53 Statem	nent of financial position
Inforn	nation to be presented in the statement of financial position
54	The statement of financial position shall include line items that present the following amounts: U.K.
55	

55A	When an entity presents subtotals in accordance with paragraph 55, those subtotals shall: U.K.
56	
57	This Standard does not prescribe the order or format in which an entity presents items. Paragraph 54 simply lists items that are sufficiently different in nature or function to warrant separate presentation in the statement of financial position. In addition: U.K.
58	An entity makes the judgement about whether to present additional items separately on the basis of an assessment of: U.K.
 59	
	nt/non-current distinction
60	
61	Whichever method of presentation is adopted, an entity shall disclose the amount expected to be recovered or settled after more than twelve months for each asset and liability line item that combines amounts expected to be recovered or settled: U.K.
62	
63	
64	
65 Currer	nt assets
66	An entity shall classify an asset as current when: U.K.
67	
68 Currer	nt liabilities
 69	An entity shall classify a liability as current when: U.K.
 70	
. •	

71	
72	An entity classifies its financial liabilities as current when they are due to be settled within twelve months after the reporting period, even if: U.K.
73	
74	
75	
76	In respect of loans classified as current liabilities, if the following events occur between the end of the reporting period and the date the financial statements are authorised for issue, those events are disclosed as non-adjusting events in accordance with IAS 10 <i>Events after the Reporting Period</i> : U.K.
Inform	nation to be presented either in the statement of financial position or in the notes
77	
78	The detail provided in subclassifications depends on the requirements of IFRSs and or the size, nature and function of the amounts involved. An entity also uses the factors set out in paragraph 58 to decide the basis of subclassification. The disclosures vary for each item, for example: U.K.
 79	An entity shall disclose the following, either in the statement of financial position of the statement of changes in equity, or in the notes:
80	
	TC
80A	If an entity has reclassified U.K.
Statem	nent of profit or loss and other comprehensive income
81	An entity shall present all items of income and expense recognised in a period: U.K.
81A	The statement of profit or loss and other comprehensive income (statement or comprehensive income) shall present, in addition to the profit or loss and other comprehensive income sections: U.K.
81B	An entity shall present the following items, in addition to the profit or loss and other comprehensive income sections, as allocation of profit or loss and other comprehensive income for the period: U.K.

Information to be presented in profit or loss section or the statement of profit or loss	
82	In addition to items required by other IFRSs, the profit or loss section or the statement of profit or loss shall include line items that present the following amounts for the period: U.K.
	ation to be presented in the other comprehensive income section
82A	The other comprehensive income section shall present line items for the amounts for the period of: U.K.
83	An entity shall disclose the following items in the statement of comprehensive income as allocations of profit or loss for the period: U.K.
84	
85	
85A	When an entity presents subtotals in accordance with paragraph 85, those subtotals shall:
85B	
86	
87 Profit o	or loss for the period
88	
	comprehensive income for the period
90	
	A contract of the contract of
91	An entity may present items of other comprehensive income either: U.K.
92	
93

95	
	ation to be presented in the statement(s) of profit or loss and other comprehensive income notes
97	
98	Circumstances that would give rise to the separate disclosure of items of income and expense include: U.K.
 99	
100	
101	
102	The first form of analysis is the 'nature of expense' method. An entity aggregates expenses within profit or loss according to their nature (for example, depreciation, purchases of materials, transport costs, employee benefits and advertising costs), and does not reallocate them among functions within the entity. This method may be simple to apply because no allocations of expenses to functional classifications are necessary. An example of a classification using the nature of expense method is as follows: U.K.
103	The second form of analysis is the 'function of expense' or 'cost of sales' method and classifies expenses according to their function as part of cost of sales or, for example, the costs of distribution or administrative activities. At a minimum, an entity discloses its cost of sales under this method separately from other expenses. This method can provide more relevant information to users than the classification of expenses by nature, but allocating costs to functions may require arbitrary allocations and involve considerable judgement. An example of a classification using the function of expense method is as follows: U.K.
104	
105 Statem	ent of changes in equity
Inform	ation to be presented in the statement of changes in equity
106	An entity shall present a statement of changes in equity as required by paragraph 10. The statement of changes in equity includes the following information: U.K.
 Inform	ation to be presented in the statement of changes in equity or in the notes

106A	
107	
108	
109	
110 Statem	ent of cash flows
111 Notes	
Structu	re
112	The notes shall: U.K.
113	
	Examples of systematic ordering or grouping of the notes include: U.K.
115	
116 Disclos	sure of accounting policies
	An entity shall disclose its significant accounting policies comprising: U.K.
118	
119	
120	
121	
122	
123	In the process of applying the entity's accounting policies, management makes various judgements, apart from those involving estimations, that can significantly affect the amounts it recognises in the financial statements. For example, management makes judgements in determining: U.K.
 124	

Sources	of estimation uncertainty
125	An entity shall disclose information about the assumptions it makes about the future, and other major sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year. In respect of those assets and liabilities, the notes shall include details of: U.K.
126	
127	
128	
129	An entity presents the disclosures in paragraph 125 in a manner that helps users of financial statements to understand the judgements that management makes about the future and about other sources of estimation uncertainty. The nature and extent of the information provided vary according to the nature of the assumption and other circumstances. Examples of the types of disclosures an entity makes are: U.K.
130	
131	
132	
133 Capital	
134	
135	To comply with paragraph 134, the entity discloses the following: U.K.
136 Puttable	financial instruments classified as equity
136A	For puttable financial instruments classified as equity instruments, an entity shall disclose (to the extent not disclosed elsewhere):
	sclosures
	An entity shall disclose in the notes: U.K.

INTERNATIONAL ACCOUNTING STANDARD 7 U.K.

Statement of Cash Flows

OBJE	CTIVE
SCOP	
1	
2	
3 BENE	FITS OF CASH FLOW INFORMATION
4	
5 DEFIN	NITIONS
	······
6	The following terms are used in this standard with the meanings specified: U.K.
Cash a	and cash equivalents
7	
8	
9 PRESI	ENTATION OF A STATEMENT OF A CASH FLOWS
 10	
11	
12	ting activities
13	
14	Cash flows from operating activities are primarily derived from the principal revenue-producing activities of the entity. Therefore, they generally result from the transactions and other events that enter into the determination of profit or loss. Examples of cash flows from operating activities are: U.K.

15 Invest	ing activities
16	The separate disclosure of cash flows arising from investing activities is important because the cash flows represent the extent to which expenditures have been made for resources intended to generate future income and cash flows. Only expenditures that result in a recognised asset in the statement of financial position are eligible for classification as investing activities. Examples of cash flows arising from investing activities are:
 Finan	cing activities
17	The separate disclosure of cash flows arising from financing activities is important because it is useful in predicting claims on future cash flows by providers of capital to the entity. Examples of cash flows arising from financing activities are: U.K.
REPC	ORTING CASH FLOWS FROM OPERATING ACTIVITIES
18	An entity shall report cash flows from operating activities using either: U.K.
19	Entities are encouraged to report cash flows from operating activities using the direct method. The direct method provides information which may be useful in estimating future cash flows and which is not available under the indirect method. Under the direct method, information about major classes of gross cash receipts and gross cash payments may be obtained either: U.K.
20	Under the indirect method, the net cash flow from operating activities is determined by adjusting profit or loss for the effects of: U.K.
	ORTING CASH FLOWS FROM INVESTING AND FINANCING ACTIVITIES
21 REPC	ORTING CASH FLOWS ON A NET BASIS
22	Cash flows arising from the following operating, investing or financing activities may be reported on a net basis: U.K.
23	Examples of cash receipts and payments referred to in paragraph 22(a) are: U.K.

40	An entity shall disclose, in aggregate, in respect of both obtaining and losing contro of subsidiaries or other businesses during the period each of the following: U.K.
40A	
41	
42	

42A	
42B NON-C	ASH TRANSACTIONS
43	
44	Many investing and financing activities do not have a direct impact on current cash flows although they do affect the capital and asset structure of an entity. The exclusion of non-cash transactions from the statement of cash flows is consistent with the objective of a statement of cash flows as these items do not involve cash flows in the current period. Examples of non-cash transactions are: U.K.
CHANG	GES IN LIABILITIES ARISING FROM FINANCING ACTIVITIES
44A	
44B	To the extent necessary to satisfy the requirement in paragraph 44A, an entity shall disclose the following changes in liabilities arising from financing activities: U.K.
44C	
44D	
44E COMPO	ONENTS OF CASH AND CASH EQUIVALENTS
45	
46	
47 OTHER	R DISCLOSURES
48	
49	
50	Additional information may be relevant to users in understanding the financial position and liquidity of an entity. Disclosure of this information, together with a commentary by management, is encouraged and may include: U.K.

Accounting policies, changes in accounting estimates and errors

OBJECT	
1	
2 SCOPE	
3	
4 Defini	TIONS
5	The following terms are used in this standard with the meanings specified: U.K.
6	NTING POLICIES
Selection	n and application of accounting policies
7	
8	
9	
10	In the absence of an IFRS that specifically applies to a transaction, other event or condition, management shall use its judgement in developing and applying an accounting policy that results in information that is: U.K.
11	In making the judgement described in paragraph 10, management shall refer to, and consider the applicability of, the following sources in descending order: U.K.
12 Consiste	ency of accounting policies
13 Changes	in accounting policies

14	An entity shall change an accounting policy only if the change: U.K.
15	
16	The following are not changes in accounting policies: U.K.
 17	
	g changes in accounting policies
19	Subject to paragraph 23: U.K.
20	
21 Retrospe	ective application
22	ons on retrospective application
23	
24	
25	
26	
27 Disclosu	ire
28	When initial application of an IFRS has an effect on the current period or any prior period, would have such an effect except that it is impracticable to determine the amount of the adjustment, or might have an effect on future periods, an entity shall disclose: U.K.
29	When a voluntary change in accounting policy has an effect on the current period or any prior period, would have an effect on that period except that it is impracticable to determine the amount of the adjustment, or might have an effect on future periods, an entity shall disclose: U.K.

30	When an entity has not applied a new IFRS that has been issued but is not yet effective, the entity shall disclose: U.K.
31	In complying with paragraph 30, an entity considers disclosing: U.K.
	IGES IN ACCOUNTING ESTIMATES
32	As a result of the uncertainties inherent in business activities, many items in financial statements cannot be measured with precision but can only be estimated. Estimation involves judgements based on the latest available, reliable information. For example, estimates may be required of: U.K.
33	
34	
35	
36	The effect of a change in an accounting estimate, other than a change to which paragraph 37 applies, shall be recognised prospectively by including it in profit or loss in: U.K.
37	
38 Disclo	sure
39	
40 ERRO	RS
41	
42	Subject to paragraph 43, an entity shall correct material prior period errors retrospectively in the first set of financial statements authorised for issue after their discovery by: U.K.
Limita	tions on retrospective restatement
43	
11

INTERNATIONAL ACCOUNTING STANDARD 11 U.K.

Construction contracts

OBJE	CTIVE
SCOF	PE
1	
2 DEFI	NITIONS
3	The following terms are used in this standard with the meanings specified: U.K.
4	
5	For the purposes of this standard, construction contracts include: U.K.
6	BINING AND SEGMENTING CONSTRUCTION CONTRACTS
 7	
8	When a contract covers a number of assets, the construction of each asset shall be treated as a separate construction contract when: U.K.
9	A group of contracts, whether with a single customer or with several customers, shall be treated as a single construction contract when: U.K.
10	A contract may provide for the construction of an additional asset at the option of the customer or may be amended to include the construction of an additional asset. The construction of the additional asset shall be treated as a separate construction contract when: U.K.
CON	TRACT REVENUE
11	Contract revenue shall comprise: U.K.

12	Contract revenue is measured at the fair value of the consideration received or receivable. The measurement of contract revenue is affected by a variety of uncertainties that depend on the outcome of future events. The estimates often need to be revised as events occur and uncertainties are resolved. Therefore, the amount of contract revenue may increase or decrease from one period to the next. For example: U.K.
13	A variation is an instruction by the customer for a change in the scope of the work to be performed under the contract. A variation may lead to an increase or a decrease in contract revenue. Examples of variations are changes in the specifications or design of the asset and changes in the duration of the contract. A variation is included in contract revenue when: U.K.
14	A claim is an amount that the contractor seeks to collect from the customer or another party as reimbursement for costs not included in the contract price. A claim may arise from, for example, customer caused delays, errors in specifications or design, and disputed variations in contract work. The measurement of the amounts of revenue arising from claims is subject to a high level of uncertainty and often depends on the outcome of negotiations. Therefore, claims are included in contract revenue only when: U.K.
15	Incentive payments are additional amounts paid to the contractor if specified performance standards are met or exceeded. For example, a contract may allow for an incentive payment to the contractor for early completion of the contract. Incentive payments are included in contract revenue when:
CONT	TRACT COSTS
16	Contract costs shall comprise: U.K.
17	Costs that relate directly to a specific contract include: U.K.
18	Costs that may be attributable to contract activity in general and can be allocated to specific contracts include: U.K.
19	
20	Costs that cannot be attributed to contract activity or cannot be allocated to a contract are excluded from the costs of a construction contract. Such costs include: U.K.
21	
	• • • • • • • • • • • • • • • • • • • •

RECC	OGNITION OF CONTRACT REVENUE AND EXPENSES
22	
23	In the case of a fixed price contract, the outcome of a construction contract can be estimated reliably when all the following conditions are satisfied: U.K.
24	In the case of a cost plus contract, the outcome of a construction contract can be estimated reliably when all the following conditions are satisfied: U.K.
25	
26	
27	
28	
29	An entity is generally able to make reliable estimates after it has agreed to a contract which establishes: U.K.
30	The stage of completion of a contract may be determined in a variety of ways. The entity uses the method that measures reliably the work performed. Depending on the nature of the contract, the methods may include: U.K.
31	When the stage of completion is determined by reference to the contract costs incurred to date, only those contract costs that reflect work performed are included in costs incurred to date. Examples of contract costs which are excluded are: U.K.
32	When the outcome of a construction contract cannot be estimated reliably: U.K.
33	
34	Contract costs that are not probable of being recovered are recognised as an expense immediately. Examples of circumstances in which the recoverability of contract costs incurred may not be probable and in which contract costs may need to be recognised as an expense immediately include contracts: U.K.

14 RECC	GNITION OF DEFERRED TAX LIABILITIES AND DEFERRED TAX ASSETS
TAXA	BLE TEMPORARY DIFFERENCES
15	except to the extent that the deferred tax liability arises from: U.K.
16 Exam	ple
17	Some temporary differences arise when income or expense is included in accounting profit in one period but is included in taxable profit in a different period. Such temporary differences are often described as timing differences. The following are examples of temporary differences of this kind which are taxable temporary differences and which therefore result in deferred tax liabilities: U.K.
18	Temporary differences also arise when: U.K.
	ess combinations
19 Assets	carried at fair value
20	IFRSs permit or require certain assets to be carried at fair value or to be revalued (see, for example, IAS 16 <i>Property, Plant and Equipment</i> , IAS 38 <i>Intangible Assets</i> , IAS 39 <i>Financial Instruments: Recognition and Measurement</i> , IAS 40 <i>Investment Property</i> and IFRS 16 <i>Leases</i>). In some jurisdictions, the revaluation or other

restatement of an asset to fair value affects taxable profit (tax loss) for the current period. As a result, the tax base of the asset is adjusted and no temporary difference arises. In other jurisdictions, the revaluation or restatement of an asset does not affect taxable profit in the period of the revaluation or restatement and, consequently, the

Deductible temporary differences

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

tax base of the asset is not adjusted. Nevertheless, the future recovery of the carrying amount will result in a taxable flow of economic benefits to the entity and the amount

that will be deductible for tax purposes will differ from the amount of those economic benefits. The difference between the carrying amount of a revalued asset and its tax base is a temporary difference and gives rise to a deferred tax liability or asset. This is true even if: U.K. Assets carried at fair value IFRSs permit or require certain assets to be carried at fair value or to be revalued (see, for example, IAS 16 Property, Plant and Equipment, IAS 38 Intangible Assets, IAS 40 Investment Property, IFRS 9 Financial Instruments and IFRS 16 Leases). In some jurisdictions, the revaluation or other restatement of an asset to fair value affects taxable profit (tax loss) for the current period. As a result, the tax base of the asset is adjusted and no temporary difference arises. In other jurisdictions, the revaluation or restatement of an asset does not affect taxable profit in the period of the revaluation or restatement and, consequently, the tax base of the asset is not adjusted. Nevertheless, the future recovery of the carrying amount will result in a taxable flow of economic benefits to the entity and the amount that will be deductible for tax purposes will differ from the amount of those economic benefits. The difference between the carrying amount of a revalued asset and its tax base is a temporary difference and gives rise to a deferred tax liability or asset. This is true even if: U.K. Goodwill Goodwill arising in a business combination is measured as the excess of (a) over (b) below: U.K. Initial recognition of an asset or liability A temporary difference may arise on initial recognition of an asset or liability, for example if part or all of the cost of an asset will not be deductible for tax purposes. The method of accounting for such a temporary difference depends on the nature of the transaction that led to the initial recognition of the asset or liability: U.K. Example illustrating paragraph 22(c)

24	A deferred tax asset shall be recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that: U.K.
25 Example	
26	The following are examples of deductible temporary differences which result in deferred tax assets: U.K.
•	illustrating paragraph 26(d)
27	
27A	
28	It is probable that taxable profit will be available against which a deductible temporary difference can be utilised when there are sufficient taxable temporary differences relating to the same taxation authority and the same taxable entity which are expected to reverse: U.K.
29	When there are insufficient taxable temporary differences relating to the same taxation authority and the same taxable entity, the deferred tax asset is recognised to the extent that: U.K.
29A	
30	Tax planning opportunities are actions that the entity would take in order to create or increase taxable income in a particular period before the expiry of a tax loss or tax credit carryforward. For example, in some jurisdictions, taxable profit may be created or increased by: U.K.
31	
32 Goodwil	
32A	cognition of an asset or liability

Unuse	ed tax losses and unused tax credits
34	
35	
36	An entity considers the following criteria in assessing the probability that taxable profit will be available against which the unused tax losses or unused tax credits can be utilised: U.K.
Reass	essment of unrecognised deferred tax assets
37	tments in subsidiaries, branches and associates and interests in joint arrangements
38	Temporary differences arise when the carrying amount of investments in subsidiaries, branches and associates or interests in joint arrangements (namely the parent or investor's share of the net assets of the subsidiary, branch, associate or investee, including the carrying amount of goodwill) becomes different from the tax base (which is often cost) of the investment or interest. Such differences may arise in a number of different circumstances, for example:
39	An entity shall recognise a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries, branches and associates, and interests in joint arrangements, except to the extent that both of the following conditions are satisfied: U.K.
40	
41	
42	
43	
44	An entity shall recognise a deferred tax asset for all deductible temporary differences arising from investments in subsidiaries, branches and associates, and interests in joint arrangements, to the extent that, and only to the extent that, it is probable that: U.K.

57	
57A	
Items rec	cognised in profit or loss

58	Current and deferred tax shall be recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from: U.K.
59	Most deferred tax liabilities and deferred tax assets arise where income or expense is included in accounting profit in one period, but is included in taxable profit (tax loss) in a different period. The resulting deferred tax is recognised in profit or loss. Examples are when:
60	The carrying amount of deferred tax assets and liabilities may change even though there is no change in the amount of the related temporary differences. This can result, for example, from: U.K.
Items	recognised outside profit or loss
61	
61A	Current tax and deferred tax shall be recognised outside profit or loss if the tax relates to items that are recognised, in the same or a different period, outside profit or loss. Therefore, current tax and deferred tax that relates to items that are recognised, in the same or a different period: U.K.
62	International Financial Reporting Standards require or permit particular items to be recognised in other comprehensive income. Examples of such items are: U.K.
62A	International Financial Reporting Standards require or permit particular items to be credited or charged directly to equity. Examples of such items are: U.K.
63	In exceptional circumstances it may be difficult to determine the amount of current and deferred tax that relates to items recognised outside profit or loss (either in other comprehensive income or directly in equity). This may be the case, for example, when: U.K.
64	
65	
65A Deferr	ed tax arising from a business combination
66	
67	

68	tax assets might not satisfy the criteria for separate recognition when a business combination is initially accounted for but might be realised subsequently. U.K.

30 Revalu	ation model
31	
32	
33	
34	
35	When an item of property, plant and equipment is revalued, the carrying amount of that asset is adjusted to the revalued amount. At the date of the revaluation, the asset is treated in one of the following ways: U.K.
36	
	A close of annual and and anniament is a consuming of accets of a similar actions and
37	A class of property, plant and equipment is a grouping of assets of a similar nature and use in an entity's operations. The following are examples of separate classes: U.K.
38	
39	
40	
41	
42 Deprec	iation
43	
44	
45	
46	
47	
48	
49 Deprec	riable amount and depreciation period
50	
51	

52	
53	
54	
55	
56	The future economic benefits embodied in an asset are consumed by an entity principally through its use. However, other factors, such as technical or commercial obsolescence and wear and tear while an asset remains idle, often result in the diminution of the economic benefits that might have been obtained from the asset. Consequently, all the following factors are considered in determining the useful life of an asset: U.K.
57	
58	
59 Deprec	ciation method
60	
61	
62	
62A Impair	ment
63	
64	
_	ensation for impairment
65	
66	Impairments or losses of items of property, plant and equipment, related claims for or payments of compensation from third parties and any subsequent purchase or construction of replacement assets are separate economic events and are accounted for separately as follows: U.K.
DERE	COGNITION
67	The carrying amount of an item of property, plant and equipment shall be derecognised: U.K.

68	
68A	
69	
70	
71	
72 DISCL	OSURE
73	The financial statements shall disclose, for each class of property, plant and equipment: U.K.
74	The financial statements shall also disclose: U.K.
75	Selection of the depreciation method and estimation of the useful life of assets are matters of judgement. Therefore, disclosure of the methods adopted and the estimated useful lives or depreciation rates provides users of financial statements with information that allows them to review the policies selected by management and enables comparisons to be made with other entities. For similar reasons, it is necessary to disclose: U.K.
76	In accordance with IAS 8 an entity discloses the nature and effect of a change in an accounting estimate that has an effect in the current period or is expected to have an effect in subsequent periods. For property, plant and equipment, such disclosure may arise from changes in estimates with respect to: U.K.
77	If items of property, plant and equipment are stated at revalued amounts, the following shall be disclosed in addition to the disclosures required by IFRS 13: U.K.
78	
79	Users of financial statements may also find the following information relevant to their needs: U.K.

INTERNATIONAL ACCOUNTING STANDARD 18 U.K.

Revenue **OBJECTIVE** SCOPE This standard shall be applied in accounting for revenue arising from the following transactions and events: U.K. 2 3 4 The use by others of entity assets gives rise to revenue in the form of: U.K. 5 This standard does not deal with revenue arising from: U.K. 6 **DEFINITIONS** The following terms are used in this standard with the meanings specified: U.K. MEASUREMENT OF REVENUE 9 10

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. For example, an entity may provide interest free credit to the buyer or accept a note receivable bearing a below-market interest rate from the buyer as consideration for the sale of goods. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

12			
13 SALE	13 SALE OF GOODS		
14	Revenue from the sale of goods shall be recognised when all the following conditions have been satisfied: U.K.		
15			
16	If the entity retains significant risks of ownership, the transaction is not a sale and revenue is not recognised. An entity may retain a significant risk of ownership in a number of ways. Examples of situations in which the entity may retain the significant risks and rewards of ownership are: U.K.		
17			
18			
19 RENI	DERING OF SERVICES		
20	When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction shall be recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied: U.K.		
21			
22			
23	An entity is generally able to make reliable estimates after it has agreed to the following with the other parties to the transaction: U.K.		
24	The stage of completion of a transaction may be determined by a variety of methods. An entity uses the method that measures reliably the services performed. Depending on the nature of the transaction, the methods may include: U.K.		
25

INTERNATIONAL ACCOUNTING STANDARD 19 U.K.

Employee Benefits

OBJECT	TIVE
1	The objective of this Standard is to prescribe the accounting and disclosure for employee benefits. The Standard requires an entity to recognise: U.K.
SCOPE	
2	
3	
4	The employee benefits to which this Standard applies include those provided: U.K.
5	Employee benefits include: U.K.
6	
7 DEFINI	
8	The following terms are used in this Standard with the meanings specified: U.K.
SHORT-	TERM EMPLOYEE BENEFITS
9	Short-term employee benefits include items such as the following, if expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related services: U.K.
10 Recogni	tion and measurement
All shor	t-term employee benefits
11	When an employee has rendered service to an entity during an accounting period the entity shall recognise the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service: U.K.

accounting...
ANNEX

Document Generated: 2024-04-09

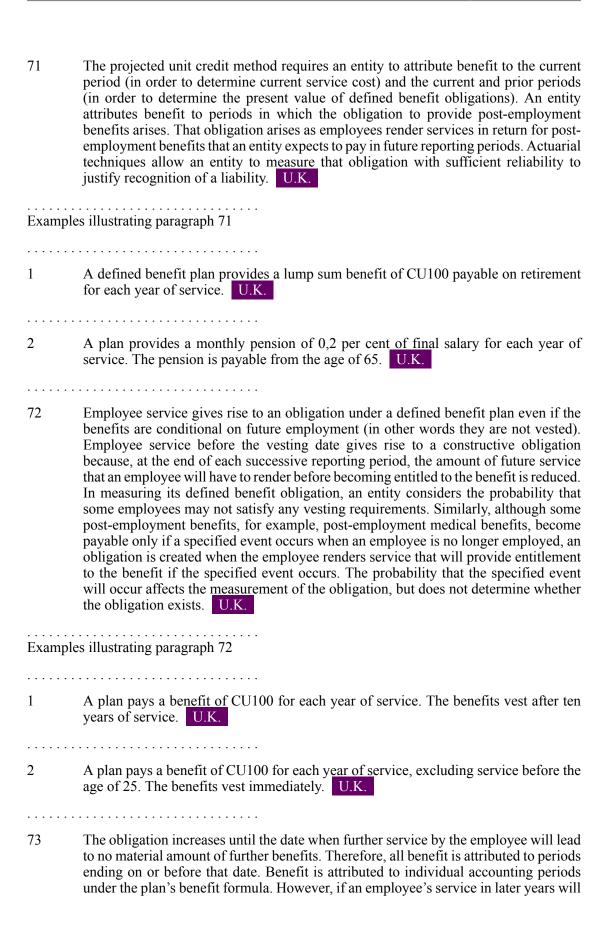

12		
Short-ter	rm paid absences	
13	An entity shall recognise the expected cost of short-term employee benefits in the form of paid absences under paragraph 11 as follows: U.K.	
14	An entity may pay employees for absence for various reasons including holidays, sickness and short-term disability, maternity or paternity, jury service and military service. Entitlement to paid absences falls into two categories: U.K.	
15		
16		
17	The method specified in the previous paragraph measures the obligation at the amount of the additional payments that are expected to arise solely from the fact that the benefit accumulates. In many cases, an entity may not need to make detailed computations to estimate that there is no material obligation for unused paid absences. For example a sick leave obligation is likely to be material only if there is a formal or informat understanding that unused paid sick leave may be taken as paid annual leave. U.K.	
Example	e illustrating paragraphs 16 and 17	
18	aring and bonus plans	
110110 51	and conde plane	
19	An entity shall recognise the expected cost of profit-sharing and bonus payments under paragraph 11 when, and only when: U.K.	
20	Under some profit-sharing plans, employees receive a share of the profit only if they remain with the entity for a specified period. Such plans create a constructive obligation as employees render service that increases the amount to be paid if they remain in service until the end of the specified period. The measurement of such constructive obligations reflects the possibility that some employees may leave without receiving profit-sharing payments.	
Evample	: illustrating paragraph 20	
Example	musuamig paragraph 20	
21		

22	An entity can make a reliable estimate of its legal or constructive obligation under a profit-sharing or bonus plan when, and only when: U.K.
23	
24 Discl	osure
	G-EMPLOYMENT BENEFITS: DISTINCTION BETWEEN DEFINED TRIBUTION PLANS AND DEFINED BENEFIT PLANS
26	Post-employment benefits include items such as the following: U.K.
27	
28	
29	Examples of cases where an entity's obligation is not limited to the amount that it agrees to contribute to the fund are when the entity has a legal or constructive obligation through: U.K.
30	Under defined benefit plans: U.K.
31 Multi	-employer plans
32	
33	If an entity participates in a multi-employer defined benefit plan, unless paragraph 34 applies, it shall: U.K.
34	When sufficient information is not available to use defined benefit accounting for a multi-employer defined benefit plan, an entity shall: U.K.
35	One example of a multi-employer defined benefit plan is one where: U.K.
36	Where sufficient information is available about a multi-employer defined benefit plan, an entity accounts for its proportionate share of the defined benefit obligation, plan assets and post-employment cost associated with the plan in the same way as for any

	other defined benefit plan. However, an entity may not be able to identify its share of the underlying financial position and performance of the plan with sufficient reliability for accounting purposes. This may occur if:
37	There may be a contractual agreement between the multi-employer plan and its participants that determines how the surplus in the plan will be distributed to the participants (or the deficit funded). A participant in a multi-employer plan with such an agreement that accounts for the plan as a defined contribution plan in accordance with paragraph 34 shall recognise the asset or liability that arises from the contractual agreement and the resulting income or expense in profit or loss.
Exam	aple illustrating paragraph 37
38	
39 Defin	ed benefit plans that share risks between entities under common control
40	
41	
42 State	plans
43	
44	
45 Insur	ed benefits
46	An entity may pay insurance premiums to fund a post-employment benefit plan. The entity shall treat such a plan as a defined contribution plan unless the entity will have (either directly, or indirectly through the plan) a legal or constructive obligation either: U.K.
47	
48	Where an entity funds a post-employment benefit obligation by contributing to an insurance policy under which the entity (either directly, indirectly through the plan, through the mechanism for setting future premiums or through a related party relationship with the insurer) retains a legal or constructive obligation, the payment of the premiums does not amount to a defined contribution arrangement. It follows that the entity:

49	
POST	E-EMPLOYMENT BENEFITS: DEFINED CONTRIBUTION PLANS
50 Recog	gnition and measurement
51	When an employee has rendered service to an entity during a period, the entity shall recognise the contribution payable to a defined contribution plan in exchange for that service: U.K.
52 Disclo	osure
53	
54 POST	E-EMPLOYMENT BENEFITS: DEFINED BENEFIT PLANS
55 Recog	gnition and measurement
 56	
57	Accounting by an entity for defined benefit plans involves the following steps: U.K.
58	
59	
60 Accou	unting for the constructive obligation
61	
62 Staten	nent of financial position
63	
64	When an entity has a surplus in a defined benefit plan, it shall measure the net defined benefit asset at the lower of: U.K.

65	A net defined benefit asset may arise where a defined benefit plan has been overfunded or where actuarial gains have arisen. An entity recognises a net defined benefit asset in such cases because: U.K.		
Recogr cost	ition and measurement: present value of defined benefit obligations and current service		
66	The ultimate cost of a defined benefit plan may be influenced by many variables such as final salaries, employee turnover and mortality, employee contributions and medical cost trends. The ultimate cost of the plan is uncertain and this uncertainty is likely to persist over a long period of time. In order to measure the present value of the post-employment benefit obligations and the related current service cost, it is necessary: U.K.		
Actuari	al valuation method		
67			
68	The projected unit credit method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement (see paragraphs 70-74) and measures each unit separately to build up the final obligation (see paragraphs 75–98).		
Examp	le illustrating paragraph 68		
Note:			
1			
2			
3			
69 Attribu	ting benefit to periods of service		
70	In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, an entity shall attribute benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, an entity shall attribute benefit on a straight-line basis from: U.K.		

ANNEX

Document Generated: 2024-04-09

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

lead to a materially higher level of benefit than in earlier years, an entity attributes benefit on a straight-line basis until the date when further service by the employee will lead to no material amount of further benefits. That is because the employee's service throughout the entire period will ultimately lead to benefit at that higher level. U.K.

Examples illustrating paragraph 73	
1	A plan pays a lump sum benefit of CU1,000 that vests after ten years of service. The plan provides no further benefit for subsequent service.
2	A plan pays a lump sum retirement benefit of CU2,000 to all employees who are still employed at the age of 55 after twenty years of service, or who are still employed at the age of 65, regardless of their length of service.
3	A post-employment medical plan reimburses 40 per cent of an employee's post-employment medical costs if the employee leaves after more than ten and less than twenty years of service and 50 per cent of those costs if the employee leaves after twenty or more years of service. U.K.
4	A post-employment medical plan reimburses 10 per cent of an employee's post-employment medical costs if the employee leaves after more than ten and less than twenty years of service and 50 per cent of those costs if the employee leaves after twenty or more years of service. U.K.
74	Where the amount of a benefit is a constant proportion of final salary for each year of service, future salary increases will affect the amount required to settle the obligation that exists for service before the end of the reporting period, but do not create an additional obligation. Therefore: U.K.
Exam	ple illustrating paragraph 74
Actua	rial assumptions
 75	
76	Actuarial assumptions are an entity's best estimates of the variables that will determine the ultimate cost of providing post-employment benefits. Actuarial assumptions comprise: U.K.
 77	
78	

79	
	assumptions: mortality
82 Actuarial	assumptions: discount rate
83	
84	
85	
86 Actuarial	assumptions: salaries, benefits and medical costs
87	An entity shall measure its defined benefit obligations on a basis that reflects: U.K.
	Actuarial assumptions reflect future benefit changes that are set out in the formal terms
	of a plan (or a constructive obligation that goes beyond those terms) at the end of the reporting period. This is the case if, for example: U.K.
89	Actuarial assumptions do not reflect future benefit changes that are not set out in the formal terms of the plan (or a constructive obligation) at the end of the reporting period Such changes will result in: U.K.
90	
91	Some defined benefit plans limit the contributions that an entity is required to pay The ultimate cost of the benefits takes account of the effect of a limit on contributions The effect of a limit on contributions is determined over the shorter of: U.K.
	Contributions from employees or third parties set out in the formal terms of the plane either reduce service cost (if they are linked to service), or affect remeasurements of the net defined benefit liability (asset) (if they are not linked to service). An example of contributions that are not linked to service is when (the contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses). It contributions from employees or third parties are linked to service, those contributions reduce the service cost as follows: U.K.

94	For contributions from employees or third parties that are attributed to periods of service in accordance with paragraph 93(a), changes in the contributions result in: U.K.
95	
96	
97	
98	ervice cost and gains and losses on settlement
99	When determining past service cost, or a gain or loss on settlement, an entity shall remeasure the net defined benefit liability (asset) using the current fair value of plan assets and current actuarial assumptions, (including current market interest rates and other current market prices), reflecting:
100	
101	
	ervice cost
102	
103	An entity shall recognise past service cost as an expense at the earlier of the following dates: U.K.
104	
104	
105	
106	
107	
108	Past service cost excludes: U.K.
Gains	and losses on settlement
109	The gain or loss on a settlement is the difference between: U.K.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

123A	To determine net interest in accordance with paragraph 123, an entity shall use
123	
122A Net inte	erest on the net defined benefit liability (asset)
122 Current	service cost
121	
120	An entity shall recognise the components of defined benefit cost, except to the extent that another IFRS requires or permits their inclusion in the cost of an asset, as follows: U.K.
119 Compoi	nents of defined benefit cost
118	
117	
116	When, and only when, it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, an entity shall: U.K.
115 Reimbu	rsements
114	
113	
Fair val	ue of plan assets
112 Recogn	ition and measurement: plan assets
111	
110	

To determine net interest in accordance with paragraph 123, an entity shall use the net defined benefit liability (asset) and the discount rate determined at the start of the annual reporting period. However, if an entity remeasures the net defined benefit liability (asset) in accordance with paragraph 99, the entity shall

U.K.

ANNEX

	determine net interest for the remainder of the annual reporting period after the plan amendment, curtailment or settlement using: U.K.
 124	
125	
126 Remea	surements of the net defined benefit liability (asset)
127	
128	Actuarial gains and losses result from increases or decreases in the present value of the defined benefit obligation because of changes in actuarial assumptions and experience adjustments. Causes of actuarial gains and losses include, for example: U.K.
 129	
130 Presen	
Offset	
131	An entity shall offset an asset relating to one plan against a liability relating to another plan when, and only when, the entity: U.K.
132	t/non-current distinction
133 Compo	onents of defined benefit cost
134 Disclo	sure
135	An entity shall disclose information that: U.K.
 136	To meet the objectives in paragraph 135, an entity shall consider all the following:

137	If the disclosures provided in accordance with the requirements in this Standard and other IFRSs are insufficient to meet the objectives in paragraph 135, an entity shall disclose additional information necessary to meet those objectives. For example, an entity may present an analysis of the present value of the defined benefit obligation that distinguishes the nature, characteristics and risks of the obligation. Such a disclosure could distinguish: U.K.
138	An entity shall assess whether all or some disclosures should be disaggregated to distinguish plans or groups of plans with materially different risks. For example, an entity may disaggregate disclosure about plans showing one or more of the following features: U.K.
Charac	eteristics of defined benefit plans and risks associated with them
139	An entity shall disclose: U.K.
Explar	nation of amounts in the financial statements
140	An entity shall provide a reconciliation from the opening balance to the closing balance for each of the following, if applicable: U.K.
141	Each reconciliation listed in paragraph 140 shall show each of the following, if applicable: U.K.
142	An entity shall disaggregate the fair value of the plan assets into classes that distinguish the nature and risks of those assets, subdividing each class of plan asset into those that have a quoted market price in an active market (as defined in IFRS 13 <i>Fair Value Measurement</i>) and those that do not. For example, and considering the level of disclosure discussed in paragraph 136, an entity could distinguish between: U.K.
1.42	
143	
	nt, timing and uncertainty of future cash flows
145	An entity shall disclose: U.K.
146	

147	To provide an indication of the effect of the defined benefit plan on the entity's future cash flows, an entity shall disclose: U.K.
	mployer plans
148	If an entity participates in a multi-employer defined benefit plan, it shall disclose: U.K.
Defined	d benefit plans that share risks between entities under common control
149	If an entity participates in a defined benefit plan that shares risks between entities under common control, it shall disclose: U.K.
150	The information required by paragraph 149(c) and (d) can be disclosed by cross-reference to disclosures in another group entity's financial statements if: U.K.
Disclos	ure requirements in other IFRSs
151	Where required by IAS 24 an entity discloses information about: U.K.
152 OTHER	R LONG-TERM EMPLOYEE BENEFITS
153	Other long-term employee benefits include items such as the following, if not expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service: U.K.
154	ition and measurement
155	
155	
156	For other long-term employee benefits, an entity shall recognise the net total of the following amounts in profit or loss, except to the extent that another IFRS requires or permits their inclusion in the cost of an asset: U.K.
157	
Disclos	ure

158 TERM	IINATION BENEFITS
159	
160	
161	The form of the employee benefit does not determine whether it is provided in exchange for service or in exchange for termination of the employee's employment. Termination benefits are typically lump sum payments, but sometimes also include: U.K.
162	Indicators that an employee benefit is provided in exchange for services include the following: U.K.
163	
164 Recog	nition
165	An entity shall recognise a liability and expense for termination benefits at the earlier of the following dates: U.K.
166	For termination benefits payable as a result of an employee's decision to accept an offer of benefits in exchange for the termination of employment, the time when an entity can no longer withdraw the offer of termination benefits is the earlier of: U.K.
167	For termination benefits payable as a result of an entity's decision to terminate an employee's employment, the entity can no longer withdraw the offer when the entity has communicated to the affected employees a plan of termination meeting all of the following criteria:
168 Measu	rement
169	An entity shall measure termination benefits on initial recognition, and shall measure and recognise subsequent changes, in accordance with the nature of the employee benefit, provided that if the termination benefits are an enhancement to post-employment benefits, the entity shall apply the requirements for post-employment benefits. Otherwise:

170	Because termination benefits are not provided in exchange for service, paragraphs 70–74 relating to the attribution of the benefit to periods of service are not relevant. U.K.

The effects of changes in foreign exchange rates

OBJECT	
1	
2 SCOPE	
3	This Standard shall be applied: U.K.
4	
5	
6	
7 DEFINI	TIONS
8	The following terms are used in this standard with the meanings specified: U.K.
	ion on the definitions
	nal currency
9	The primary economic environment in which an entity operates is normally the one in which it primarily generates and expends cash. An entity considers the following factors in determining its functional currency: U.K.
10	The following factors may also provide evidence of an entity's functional currency: U.K.
11	The following additional factors are considered in determining the functional currency of a foreign operation, and whether its functional currency is the same as that of the reporting entity (the reporting entity, in this context, being the entity that has the foreign operation as its subsidiary, branch, associate or joint arrangement): U.K.
12	

13	
	restment in a foreign operation
15	
15A Moneta	ary items
16 SUMM	IARY OF THE APPROACH REQUIRED BY THIS STANDARD
17	
18	
19 REPOI CURRI	RTING FOREIGN CURRENCY TRANSACTIONS IN THE FUNCTIONAL ENCY
 Initial r	recognition
20	A foreign currency transaction is a transaction that is denominated or requires settlement in a foreign currency, including transactions arising when an entity: U.K.
21	
22 Reporti	ing at the ends of subsequent reporting periods
23	At the end of each reporting period: U.K.
24	
25	The carrying amount of some items is determined by comparing two or more amounts. For example, the carrying amount of inventories is the lower of cost and net realisable value in accordance with IAS 2 <i>Inventories</i> . Similarly, in accordance with IAS 36 <i>Impairment of assets</i> , the carrying amount of an asset for which there is an indication of impairment is the lower of its carrying amount before considering possible impairment losses and its recoverable amount. When such an asset is non-monetary and is measured in a foreign currency, the carrying amount is determined by comparing:

INTERNATIONAL ACCOUNTING STANDARD 28 U.K.

Investments in Associates and Joint Ventures

OBJE	CTIVE
1 SCOP	E
2	NITIONS
3	The following terms are used in this Standard with the meanings specified:
4	The following terms are defined in paragraph 4 of IAS 27 Separate Financial Statements and in Appendix A of IFRS 10 Consolidated Financial Statements and are used in this Standard with the meanings specified in the IFRSs in which they are defined: U.K.
SIGNI	FICANT INFLUENCE
5	
6	The existence of significant influence by an entity is usually evidenced in one or more of the following ways: U.K.
8	
9 EQUI	ΓΥ METHOD
10	
11	
12	
13	
14	
14A	

	ICATION OF THE EQUITY METHOD
16	ptions from applying the equity method
17	An entity need not apply the equity method to its investment in an associate or a joint venture if the entity is a parent that is exempt from preparing consolidated financial statements by the scope exception in paragraph 4(a) of IFRS 10 or if all the following apply: U.K.
18	
19 Classi	fication as held for sale
20	
21 Disco	ntinuing the use of the equity method
22	An entity shall discontinue the use of the equity method from the date when its investment ceases to be an associate or a joint venture as follows: U.K.
23	
24 Chang	ges in ownership interest
25	y method procedures
 26	
27	
28	
29	
30	
31	

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

32	An investment is accounted for using the equity method from the date on which it becomes an associate or a joint venture. On acquisition of the investment, any difference between the cost of the investment and the entity's share of the net fair value of the investee's identifiable assets and liabilities is accounted for as follows: U.K.
33	
34	
35	
36	
36A	
37	
38	
39 Impair	ment losses
40	
41	
41A	The net investment in an associate or joint venture is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated. It may not be possible to identify a single, discrete event that caused the impairment. Rather the combined effect of several events may have caused the impairment. Losses expected as a result of future events, no matter how likely, are not recognised. Objective evidence that the net investment is impaired includes observable data that comes to the attention of the entity about the following loss events:
41B	
41C	
42	Because goodwill that forms part of the carrying amount of the net investment in an associate or a joint venture is not separately recognised, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 <i>Impairment of Assets</i> . Instead, the entire carrying amount of the investment is tested for impairment in accordance with IAS 36 as a single asset, by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount whenever application of paragraphs 41A–41C indicates that the net

investment may be impaired. An impairment loss recognised in those circumstances is not allocated to any asset, including goodwill, that forms part of the carrying amount of the net investment in the associate or joint venture. Accordingly, any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the

INTERNATIONAL ACCOUNTING STANDARD 31 U.K.

Interests in joint ventures

SCOI	PE
1	This Standard shall be applied in accounting for interests in joint ventures and the reporting of joint venture assets, liabilities, income and expenses in the financial statements of venturers and investors, regardless of the structures or forms under which the joint venture activities take place. However, it does not apply to venturers' interests in jointly controlled entities held by: U.K.
2	A venturer with an interest in a jointly controlled entity is exempted from paragraphs 30 (proportionate consolidation) and 38 (equity method) when it meets the following conditions: U.K.
DEFI	NITIONS
3	The following terms are used in this standard with the meanings specified: U.K.
4	
5	
6 Form	s of joint venture
7	Joint ventures take many different forms and structures. This standard identifies three broad types — jointly controlled operations, jointly controlled assets and jointly controlled entities — that are commonly described as, and meet the definition of, joint ventures. The following characteristics are common to all joint ventures: U.K.
 Joint	control
8 Contr	ractual arrangement
9	
10	The contractual arrangement may be evidenced in a number of ways, for example by a contract between the venturers or minutes of discussions between the venturers. In

some cases, the arrangement is incorporated in the articles or other by-laws of the joint

	venture. Whatever its form, the contractual arrangement is usually in writing and deals with such matters as: U.K.
11	
12 JOINTL	Y CONTROLLED OPERATIONS
13	
14	
15	In respect of its interests in jointly controlled operations, a venturer shall recognise in its financial statements: U.K.
16	
	Y CONTROLLED ASSETS
18	
19	
20	
21	In respect of its interest in jointly controlled assets, a venturer shall recognise in its
	financial statements: U.K.
22	In respect of its interest in jointly controlled assets, each venturer includes in its accounting records and recognises in its financial statements: U.K.
23 JOINTL	Y CONTROLLED ENTITIES

INTERNATIONAL ACCOUNTING STANDARD 32 U.K.

Financial instruments: presentation

OBJECTIVE	
1	
2	
3 SCOPE	
4	This Standard shall be applied by all entities to all types of financial instruments except: U.K.
5-7	
8	
9	There are various ways in which a contract to buy or sell a non-financial item can be settled net in cash or another financial instrument or by exchanging financial instruments. These include: U.K.
10 DEFINI	ΓΙΟΝS (SEE ALSO PARAGRAPHS AG3-AG23)
11	The following terms are used in this standard with the meanings specified: U.K.
12	The following terms are defined in Appendix A of IFRS 9 or paragraph 9 of IAS 39 <i>Financial Instruments: Recognition and Measurement</i> and are used in this Standard with the meaning specified in IAS 39 and IFRS 9. U.K.
13	
14 PRESEN	NTATION
Liabilitie	es and equity (see also paragraphs AG13-AG14J and AG25–AG29A)
15	

16	When an issuer applies the definitions in paragraph 11 to determine whether a financial instrument is an equity instrument rather than a financial liability, the instrument is an equity instrument if, and only if, both conditions (a) and (b) below are met. U.K.
	le instruments
16A	A puttable financial instrument includes a contractual obligation for the issuer to repurchase or redeem that instrument for cash or another financial asset on exercise of the put. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has all the following features: U.K.
16B	For an instrument to be classified as an equity instrument, in addition to the instrument having all the above features, the issuer must have no other financial instrument or contract that has: U.K.
	ments, or components of instruments, that impose on the entity an obligation to deliver to r party a pro rata share of the net assets of the entity only on liquidation
16C	Some financial instruments include a contractual obligation for the issuing entity to deliver to another entity a pro rata share of its net assets only on liquidation. The obligation arises because liquidation either is certain to occur and outside the control of the entity (for example, a limited life entity) or is uncertain to occur but is at the option of the instrument holder. As an exception to the definition of a financial liability an instrument that includes such an obligation is classified as an equity instrument if it has all the following features:
16D	For an instrument to be classified as an equity instrument, in addition to the instrument having all the above features, the issuer must have no other financial instrument or contract that has: U.K.
	sification of puttable instruments and instruments that impose on the entity an obligation ver to another party a pro rata share of the net assets of the entity only on liquidation
16E	
16F	An entity shall account as follows for the reclassification of an instrument in accordance with paragraph 16E: U.K.
No coi	ntractual obligation to deliver cash or another financial asset (paragraph 16(a))
17	

18	The substance of a financial instrument, rather than its legal form, governs its classification in the entity's statement of financial position. Substance and legal form are commonly consistent, but not always. Some financial instruments take the legal form of equity but are liabilities in substance and others may combine features associated with equity instruments and features associated with financial liabilities. For example:
19	If an entity does not have an unconditional right to avoid delivering cash or another financial asset to settle a contractual obligation, the obligation meets the definition of a financial liability, except for those instruments classified as equity instruments in accordance with paragraphs 16A and 16B or paragraphs 16C and 16D. For example: U.K.
	•••••
20	A financial instrument that does not explicitly establish a contractual obligation to deliver cash or another financial asset may establish an obligation indirectly through its terms and conditions. For example: U.K.
Settleme	ent in the entity's own equity instruments (paragraph 16(b))
21	
22	
22A	
23	
24 Continge	ent settlement provisions
25	A financial instrument may require the entity to deliver cash or another financial asset, or otherwise to settle it in such a way that it would be a financial liability, in the event of the occurrence or non-occurrence of uncertain future events (or on the outcome of uncertain circumstances) that are beyond the control of both the issuer and the holder of the instrument, such as a change in a stock market index, consumer price index, interest rate or taxation requirements, or the issuer's future revenues, net income or debt-to-equity ratio. The issuer of such an instrument does not have the unconditional right to avoid delivering cash or another financial asset (or otherwise to settle it in such a way that it would be a financial liability). Therefore, it is a financial liability of the issuer unless:

INTERNATIONAL ACCOUNTING STANDARD 33 U.K.

Earnings per share

OBJECT	ΠVE
1 SCOPE	
2	This standard shall apply to: U.K.
3	
4	
4A DEFINI	
5	The following terms are used in this standard with the meanings specified: U.K.
6	
7	Examples of potential ordinary shares are: U.K.
8 MEASU	UREMENT
Basic ea	rnings per share
9	
10	
11 Earnings	
12	For the purpose of calculating basic earnings per share, the amounts attributable to ordinary equity holders of the parent entity in respect of: U.K.
13	

14	The after-tax amount of preference dividends that is deducted from profit or loss is: U.K.
15	
16	
17	
18 Shares	
19	
20	
21	Shares are usually included in the weighted average number of shares from the date consideration is receivable (which is generally the date of their issue), for example: U.K.
22	
23	
24	
25	
26	
27	Ordinary shares may be issued, or the number of ordinary shares outstanding may be reduced, without a corresponding change in resources. Examples include: U.K.
28	
29 Diluted 6	earnings per share
30	
31	
32	The objective of diluted earnings per share is consistent with that of basic earnings per share — to provide a measure of the interest of each ordinary share in the performance of an entity — while giving effect to all dilutive potential ordinary shares outstanding during the period. As a result: U.K.
Earnings	······································

Document Generated: 2024-04-09

33	For the purpose of calculating diluted earnings per share, an entity shall adjust profit or loss attributable to ordinary equity holders of the parent entity, as calculated in accordance with paragraph 12, by the after-tax effect of: U.K.
34	
35 Shares	
36	
37	
38	
39	
40 Dilutive	potential ordinary shares
41	
42	
43	
44 Options,	warrants and their equivalents
45	
46	Options and warrants are dilutive when they would result in the issue of ordinary shares for less than the average market price of ordinary shares during the period. The amount of the dilution is the average market price of ordinary shares during the period minus the issue price. Therefore, to calculate diluted earnings per share, potential ordinary shares are treated as consisting of both the following: U.K.
47	
47A	
48 Convert	ible instruments
49	
50	

	gently issuable shares
52	
53	
54	
55	
56	
57	Contingently issuable potential ordinary shares (other than those covered by a contingent share agreement, such as contingently issuable convertible instruments) are included in the diluted earnings per share calculation as follows: U.K.
	ts that may be settled in ordinary shares or cash
58	
59	
60	
61 Purchas	ed options
62 Written	put options
63	Contracts that require the entity to repurchase its own shares, such as written puroptions and forward purchase contracts, are reflected in the calculation of diluted earnings per share if the effect is dilutive. If these contracts are 'in the money' during the period (i.e. the exercise or settlement price is above the average market price for that period), the potential dilutive effect on earnings per share shall be calculated as follows: U.K.
RETRO	DSPECTIVE ADJUSTMENTS
64	
65 PRESE	NTATION
66	

Document Generated: 2024-04-09

67	
67A	
68	
68A

APPLICATION GUIDANCE

PROFIT OR LOSS ATTRIBUTABLE TO THE PARENT ENTITY		
A1 RIGHT	A1	
A2	The issue of ordinary shares at the time of exercise or conversion of potential ordinary shares does not usually give rise to a bonus element. This is because the potential ordinary shares are usually issued for fair value, resulting in a proportionate change in the resources available to the entity. In a rights issue, however, the exercise price is often less than the fair value of the shares. Therefore, as noted in paragraph 27(b), such a rights issue includes a bonus element. If a rights issue is offered to all existing shareholders, the number of ordinary shares to be used in calculating basic and diluted earnings per share for all periods before the rights issue is the number of ordinary shares outstanding before the issue, multiplied by the following factor:	
CONT	ROL NUMBER	
	AGE MARKET PRICE OF ORDINARY SHARES

INTERNATIONAL ACCOUNTING STANDARD 34 U.K.

Interim financial reporting

OBJECT	ΓIVE
SCOPE	
1	This standard does not mandate which entities should be required to publish interim financial reports, how frequently, or how soon after the end of an interim period However, governments, securities regulators, stock exchanges, and accountancy bodies often require entities whose debt or equity securities are publicly traded to publish interim financial reports. This standard applies if an entity is required or elects to publish an interim financial report in accordance with international financial reporting standards. The International Accounting Standards Committee encourages publicly traded entities to provide interim financial reports that conform to the recognition, measurement, and disclosure principles set out in this standard Specifically, publicly traded entities are encouraged: U.K.
2	
3 DEFINI	TIONS
	NT OF AN INTERIM FINANCIAL REPORT IAS 1 defines a complete set of financial statements as including the following components: U.K.
	······
6	
7 Minimu	m components of an interim financial report
8	An interim financial report shall include, at a minimum, the following components U.K.
8A	d content of interim financial statements

15	
15A	
15B	The following is a list of events and transactions for which disclosures would be required if they are significant: the list is not exhaustive. U.K.
15C	
16	An entity shall include the following information, as a minimum, in the notes to its interim financial statements, if material and if not disclosed elsewhere in the interim financial report. The information shall normally be reported on a financial year-to-date basis. However, the entity shall also disclose any events or transactions that are material to an understanding of the current interim period: U.K.
Other of	disclosures
16A	In addition to disclosing significant events and transactions in accordance with paragraphs 15–15C, an entity shall include the following information, in the notes to its interim financial statements, if not disclosed elsewhere in the interim financial report. The information shall normally be reported on a financial year-to-date basis. U.K.
17	Examples of the kinds of disclosures that are required by paragraph 16 are set out below. Individual IFRSs provide guidance regarding disclosures for many of these items: U.K.
18 Disclos	sure of compliance with IFRSs

INTERNATIONAL ACCOUNTING STANDARD 36 U.K.

Impairment of assets

	CTIVE
1 SCOP	
2	This Standard shall be applied in accounting for the impairment of all assets, other than: U.K.
3	
4	This Standard applies to financial assets classified as: U.K.
5	This Standard does not apply to financial assets within the scope of IFRS 9, investment property measured at fair value within the scope of IAS 40, or biological assets related to agricultural activity measured at fair value less costs to sell within the scope of IAS 41. However, this Standard applies to assets that are carried at revalued amount (ie fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses) in accordance with other IFRSs, such as the revaluation model in IAS 16 <i>Property, Plant and Equipment</i> and IAS 38 <i>Intangible Assets</i> . The only difference between an asset's fair value and its fair value less costs of disposal is the direct incremental costs attributable to the disposal of the asset.
DEFII	NITIONS
6	The following terms are used in this Standard with the meanings specified: U.K.
 IDEN	TIFYING AN ASSET THAT MAY BE IMPAIRED
7	Paragraphs 8-17 specify when recoverable amount shall be determined. These requirements use the term 'an asset' but apply equally to an individual asset or a cashgenerating unit. The remainder of this standard is structured as follows: U.K.
8	
9	

Document Generated: 2024-04-09

10	Irrespective of whether there is any indication of impairment, an entity shall also: U.K.
 11	
12	In assessing whether there is any indication that an asset may be impaired, an entity shall consider, as a minimum, the following indications: U.K.
13	
14	Evidence from internal reporting that indicates that an asset may be impaired includes the existence of: U.K.
 15	
16	As an illustration of paragraph 15, if market interest rates or other market rates of return on investments have increased during the period, an entity is not required to make a formal estimate of an asset's recoverable amount in the following cases: U.K.
	SURING RECOVERABLE AMOUNT
18	
19	
20	
21	
22	Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the cash-generating unit to which the asset belongs (see paragraphs 65-103), unless either: U.K.
23	
	uring the recoverable amount of an intangible asset with an indefinite useful life
24	Paragraph 10 requires an intangible asset with an indefinite useful life to be tested for impairment annually by comparing its carrying amount with its recoverable amount, irrespective of whether there is any indication that it may be impaired. However, the most recent detailed calculation of such an asset's recoverable amount made in a preceding period may be used in the impairment test for that asset in the current period, provided all of the following criteria are met:

	ue less costs of disposal
26	
27	
28	
29	
Value ii	
30	The following elements shall be reflected in the calculation of an asset's value in use: U.K.
31	Estimating the value in use of an asset involves the following steps: U.K.
32 Basis fo	or estimates of future cash flows
33	In measuring value in use an entity shall: U.K.
34	
35	
36	
37	
38 Compo	sition of estimates of future cash flows
39	Estimates of future cash flows shall include: U.K.
40	
41	
42	
43	To avoid double-counting, estimates of future cash flows do not include: U.K.

44	Future cash flows shall be estimated for the asset in its current condition. Estimates of future cash flows shall not include estimated future cash inflows or outflows that are expected to arise from: U.K.
45	Because future cash flows are estimated for the asset in its current condition, value in use does not reflect: U.K.
 46	
47	When an entity becomes committed to a restructuring, some assets are likely to be affected by this restructuring. Once the entity is committed to the restructuring: U.K.
40	
48	
49	
50	Estimates of future cash flows shall not include: U.K.
51	
52	
53	The estimate of net cash flows to be received (or paid) for the disposal of an asset at the end of its useful life is determined in a similar way to an asset's fair value less costs of disposal, except that, in estimating those net cash flows: U.K.
53A	Fair value differs from value in use. Fair value reflects the assumptions market participants would use when pricing the asset. In contrast, value in use reflects the
	effects of factors that may be specific to the entity and not applicable to entities in general. For example, fair value does not reflect any of the following factors to the extent that they would not be generally available to market participants:
Foreig	n currency future cash flows
54 Discou	unt rate
55	The discount rate (rates) shall be a pre-tax rate (rates) that reflect(s) current market assessments of: U.K.
56

Allocat	ing goodwill to cash-generating units
80	For the purpose of impairment testing, goodwill acquired in a business combination shall, from the acquisition date, be allocated to each of the acquirer's cash-generating units, or groups of cash-generating units, that is expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units. Each unit or group of units to which the goodwill is so allocated shall:
81	
82	
83	
84	
85	In accordance with IFRS 3 <i>Business Combinations</i> , if the initial accounting for a business combination can be determined only provisionally by the end of the period in which the combination is effected, the acquirer: U.K.
86	If goodwill has been allocated to a cash-generating unit and the entity disposes of an operation within that unit, the goodwill associated with the operation disposed of shall be: U.K.
Exampl	le
87 Exampl	
Testing	cash-generating units with goodwill for impairment

88			
89			
90 Minorit	ty interest		
91	In accordance with IFRS 3, goodwill recognised in a business combination represents the goodwill acquired by a parent based on the parent's ownership interest, rather than the amount of goodwill controlled by the parent as a result of the business combination. Therefore, goodwill attributable to a minority interest is not recognised in the parent's consolidated financial statements. Accordingly, if there is a minority interest in a cashgenerating unit to which goodwill has been allocated, the carrying amount of that unit comprises: U.K.		
92			
93			
94			
95 Timing	of impairment tests		
96			
97			
98			
99	The most recent detailed calculation made in a preceding period of the recoverable amount of a cash-generating unit to which goodwill has been allocated may be used in the impairment test of that unit in the current period provided all of the following criteria are met: U.K.		
Corpora	ate assets		
100			
101			
102	In testing a cash-generating unit for impairment, an entity shall identify all the		
102	corporate assets that relate to the cash-generating unit under review. If a portion of the carrying amount of a corporate asset: U.K.		
103 Impairr	ment loss for a cash-generating unit		

104	An impairment loss shall be recognised for a cash-generating unit (the smallest group of cash-generating units to which goodwill or a corporate asset has been allocated) if, and only if, the recoverable amount of the unit (group of units) is less than the carrying amount of the unit (group of units). The impairment loss shall be allocated to reduce the carrying amount of the assets of the unit (group of units) in the following order: U.K.
105	In allocating an impairment loss in accordance with paragraph 104, an entity shall not reduce the carrying amount of an asset below the highest of: U.K.
106	
107	If the recoverable amount of an individual asset cannot be determined (see paragraph 67): U.K.
Examp	
108 REVEI	RSING AN IMPAIRMENT LOSS
109	
110	
111	In assessing whether there is any indication that an impairment loss recognised in prior periods for an asset other than goodwill may no longer exist or may have decreased, an entity shall consider, as a minimum, the following indications: U.K.
112	
113	
114	
115	A reversal of an impairment loss reflects an increase in the estimated service potential of an asset, either from use or from sale, since the date when an entity last recognised an impairment loss for that asset. Paragraph 130 requires an entity to identify the change in estimates that causes the increase in estimated service potential. Examples of changes in estimates include: U.K.
116 Revers	ing an impairment loss for an individual asset

117	
118	
119	
120	
121 Reversir	ng an impairment loss for a cash-generating unit
122	
123	In allocating a reversal of an impairment loss for a cash-generating unit in accordance with paragraph 122, the carrying amount of an asset shall not be increased above the lower of: U.K.
Reversir	ng an impairment loss for goodwill
124	
125 DISCLO	
126	An entity shall disclose the following for each class of assets: U.K.
	••••••
127	
128	
129	An entity that reports segment information in accordance with IFRS 8 shall disclose the following for each reportable segment: U.K.
130	An entity shall disclose the following for an individual asset (including goodwill) or a cash-generating unit, for which an impairment loss has been recognised or reversed during the period: U.K.
131	An entity shall disclose the following information for the aggregate impairment losses and the aggregate reversals of impairment losses recognised during the period for which no information is disclosed in accordance with paragraph 130: U.K.
132	
133

Appendix A U.K.

USING PRESENT VALUE TECHNIQUES TO MEASURE VALUE IN USE

The components of a present value measurement	
A1	The following elements together capture the economic differences between assets: U.K.
A2	al principles
A3	The techniques used to estimate future cash flows and interest rates will vary from one situation to another depending on the circumstances surrounding the asset in question. However, the following general principles govern any application of present value techniques in measuring assets: U.K.
 Tradit	ional and expected cash flow approaches to present value
 Tradit	ional approach
A4	
A5	
A6	However, the traditional approach may not appropriately address some complex measurement problems, such as the measurement of non-financial assets for which no market for the item or a comparable item exists. A proper search for 'the rate commensurate with the risk' requires analysis of at least two items — an asset that exists in the marketplace and has an observed interest rate and the asset being measured. The appropriate discount rate for the cash flows being measured must be inferred from the observable rate of interest in that other asset. To draw that inference, the characteristics of the other asset's cash flows must be similar to those of the asset being measured. Therefore, the measurer must do the following: U.K.
Expec	ted cash flow approach
A7	
A8	The expected cash flow approach also allows use of present value techniques when the timing of cash flows is uncertain. For example, a cash flow of CU1 000 may be received in one year, two years or three years with probabilities of 10 per cent, 60 per cent and 30 per cent, respectively. The example below shows the computation of

expected present value in that situation. U.K.

A9		
A10		
A11	Many estimates developed in current practice already incorporate the element of expected cash flows informally. In addition, accountants often face the neto measure an asset using limited information about the probabilities of possible cash flows. For example, an accountant might be confronted with the following situations: U.K.	
A12		
A13		
A14 Discour	nt rate	
A15		
A16	When an asset-specific rate is not directly available from the market, an entity uses surrogates to estimate the discount rate. The purpose is to estimate, as far as possible, a market assessment of: U.K.	
A17	As a starting point in making such an estimate, the entity might take into account the following rates: U.K.	
A18	However, these rates must be adjusted: U.K.	
A19		
A20		
A21

INTERNATIONAL ACCOUNTING STANDARD 37 U.K.

Provisions, contingent liabilities and contingent assets

OBJECTIVE		
SCOPE	SCOPE	
1	This standard shall be applied by all entities in accounting for provisions, contingent liabilities and contingent assets, except: U.K.	
2		
3		
4		
5	When another Standard deals with a specific type of provision, contingent liability or contingent asset, an entity applies that Standard instead of this Standard. For example, some types of provisions are addressed in Standards on: U.K.	
6		
7		
8		
9 DEFINI	TIONS	
10	The following terms are used in this standard with the meanings specified: U.K.	
	ns and other liabilities	
11	Provisions can be distinguished from other liabilities such as trade payables and accruals because there is uncertainty about the timing or amount of the future expenditure required in settlement. By contrast: U.K.	
Relation	ship between provisions and contingent liabilities	
12	······ <u>·</u>	
13	This standard distinguishes between: U.K.	

Document Generated: 2024-04-09

RECOGNITION		
	Provisions	
14	A provision shall be recognised when: U.K.	
	nt obligation	
15		
16	In almost all cases it will be clear whether a past event has given rise to a present obligation. In rare cases, for example in a law suit, it may be disputed either whether certain events have occurred or whether those events result in a present obligation. In such a case, an entity determines whether a present obligation exists at the end of the reporting period by taking account of all available evidence, including, for example, the opinion of experts. The evidence considered includes any additional evidence provided by events after the reporting period. On the basis of such evidence: U.K.	
Past e	vent	
17	A past event that leads to a present obligation is called an obligating event. For an event to be an obligating event, it is necessary that the entity has no realistic alternative to settling the obligation created by the event. This is the case only: U.K.	
18		
19		
20		
21		
22 Proba	ble outflow of resources embodying economic benefits

68	
69 Restructuring	
70	The following are examples of events that may fall under the definition of restructuring: U.K.
71	
72	A constructive obligation to restructure arises only when an entity: U.K.
73	
74	
75	A management or board decision to restructure taken before the end of the reporting period does not give rise to a constructive obligation at the end of the reporting period unless the entity has, before the end of the reporting period: U.K.
76	
77	
78	
79	
80	A restructuring provision shall include only the direct expenditures arising from the restructuring, which are those that are both: U.K.
81	A restructuring provision does not include such costs as: U.K.
82	
83 DISCLO	OSURE
84	For each class of provision, an entity shall disclose: U.K.
85	An entity shall disclose the following for each class of provision: U.K.

17	DGNITION AND MEASUREMENT
18	The recognition of an item as an intangible asset requires an entity to demonstrate that the item meets: U.K.
 19	
20	
21	An intangible asset shall be recognised if, and only if: U.K.
22	
23	
24 Separ	ate acquisition
25	
26	
27	The cost of a separately acquired intangible asset comprises: U.K.
28	Examples of directly attributable costs are: U.K.
29	Examples of expenditures that are not part of the cost of an intangible asset are: U.K.
30	Recognition of costs in the carrying amount of an intangible asset ceases when the asset is in the condition necessary for it to be capable of operating in the manner intended by management. Therefore, costs incurred in using or redeploying an intangible asset are not included in the carrying amount of that asset. For example, the following costs are not included in the carrying amount of an intangible asset: U.K.
31	

32 Acqui	Acquisition as part of a business combination	
33		
34	In accordance with this Standard and IFRS 3 (as revised by the International Accounting Standards Board in 2008), an acquirer recognises at the acquisition date, separately from goodwill, an intangible asset of the acquiree, irrespective of whether the asset had been recognised by the acquiree before the business combination. This means that the acquirer recognises as an asset separately from goodwill an in-process research and development project of the acquiree if the project meets the definition of an intangible asset. An acquiree's in-process research and development project meets the definition of an intangible asset when it:	
Intang	gible asset acquired in a business combination	
35		
36		
37		
38	The only circumstances in which it might not be possible to measure reliably the fair value of an intangible asset acquired in a business combination are when the intangible asset arises from legal or other contractual rights and either: U.K.	
 39		
40		
41	Entities that are involved in the purchase and sale of intangible assets may have developed techniques for estimating their fair values indirectly. These techniques may be used for initial measurement of an intangible asset acquired in a business combination if their objective is to estimate fair value and if they reflect current transactions and practices in the industry to which the asset belongs. These techniques include, for example: U.K.	
Subse	equent expenditure on an acquired in-process research and development project	
42	Research or development expenditure that: U.K.	
43	Applying the requirements in paragraphs 54-62 means that subsequent expenditure on an in-process research or development project acquired separately or in a business combination and recognised as an intangible asset is: U.K.	

Document Generated: 2024-04-09

Acquisition by way of a government grant		
44	44 Exchanges of assets	
45		
46	An entity determines whether an exchange transaction has commercial substance by considering the extent to which its future cash flows are expected to change as a result of the transaction. An exchange transaction has commercial substance if: U.K.	
47 Interna	ally generated goodwill	
48		
49		
50 Interna	ally generated intangible assets	
51	It is sometimes difficult to assess whether an internally generated intangible asset qualifies for recognition because of problems in: U.K.	
52	To assess whether an internally generated intangible asset meets the criteria for recognition, an entity classifies the generation of the asset into: U.K.	
53 Resear	rch phase	
54		
55		
56	Examples of research activities are: U.K.	
	opment phase	
57	An intangible asset arising from development (or from the development phase of an internal project) shall be recognised if, and only if, an entity can demonstrate all of the following: U.K.	

58	
59	Examples of development activities are: U.K.
60	
61	
62	
63	
64 Cost o	f an internally generated intangible asset
65	
66	The cost of an internally generated intangible asset comprises all directly attributable costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by management. Examples of directly attributable costs are: U.K.
67	The following are not components of the cost of an internally generated intangible asset: U.K.
Examp	ble illustrating paragraph 65
RECO	GNITION OF AN EXPENSE
68	Expenditure on an intangible item shall be recognised as an expense when it is incurred unless: U.K.
69	In some cases, expenditure is incurred to provide future economic benefits to an entity, but no intangible asset or other asset is acquired or created that can be recognised. In the case of the supply of goods, the entity recognises such expenditure as an expense when it has a right to access those goods. In the case of the supply of services, the entity recognises the expenditure as an expense when it receives the services. For example, expenditure on research is recognised as an expense when it is incurred (see paragraph 54), except when it is acquired as part of a business combination. Other examples of expenditure that is recognised as an expense when it is incurred include:
69A	
70	

Document Generated: 2024-04-09

_	enses not to be recognised as an asset
71 MEASU	REMENT AFTER RECOGNITION
72	
73 Cost mod	del
74 Revaluat	ion model
75	
76	The revaluation model does not allow: U.K.
77	
78	
79	
80	When an intangible asset is revalued, the carrying amount of that asset is adjusted to the revalued amount. At the date of the revaluation, the asset is treated in one of the following ways: U.K.
81	
82	
83	
84	
85	
86	
87 USEFUI	LIFE
88	
89	
90	Many factors are considered in determining the useful life of an intangible asset including: U.K.

01	
91	
92	
93	
94	
95	
96	Existence of the following factors, among others, indicates that an entity would be able to renew the contractual or other legal rights without significant cost: U.K.
INTANG	SIBLE ASSETS WITH FINITE USEFUL LIVES
Amortisa	ation period and amortisation method
97	
98	
98A	There is a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate. The revenue generated by an activity that includes the use of an intangible asset typically reflects factors that are not directly linked to the consumption of the economic benefits embodied in the intangible asset. For example, revenue is affected by other inputs and processes, selling activities and changes in sales volumes and prices. The price component of revenue may be affected by inflation, which has no bearing upon the way in which an asset is consumed. This presumption can be overcome only in the limited circumstances: U.K.
98B	
98C	
99 Residual	value
100	The residual value of an intangible asset with a finite useful life shall be assumed to be zero unless: U.K.
101	
102	
103 Review o	of amortisation period and amortisation method

104	
105	
106 INTAN	GIBLE ASSETS WITH INDEFINITE USEFUL LIVES
107	
108	In accordance with IAS 36, an entity is required to test an intangible asset with an indefinite useful life for impairment by comparing its recoverable amount with its carrying amount: U.K.
 Review	of useful life assessment
 109	
110 RECOV	/ERABILITY OF THE CARRYING AMOUNT — IMPAIRMENT LOSSES
111	EMENTS AND DISPOSALS
112	An intangible asset shall be derecognised: U.K.
113	
114	
115	
115A	
116	
117 DISCL	OSURE
General	
118	An entity shall disclose the following for each class of intangible assets, distinguishing between internally generated intangible assets and other intangible assets: U.K.

119	A class of intangible assets is a grouping of assets of a similar nature and use in an entity's operations. Examples of separate classes may include: U.K.
120	
121	IAS 8 requires an entity to disclose the nature and amount of a change in an accounting estimate that has a material effect in the current period or is expected to have a material effect in subsequent periods. Such disclosure may arise from changes in: U.K.
122	An entity shall also disclose: U.K.
123	
	ble assets measured after recognition using the revaluation model
124	If intangible assets are accounted for at revalued amounts, an entity shall disclose the following: U.K.
	ch and development expenditure
126	
127 Other is	nformation
128	An entity is encouraged, but not required, to disclose the following information: U.K.
	SITIONAL PROVISIONS AND EFFECTIVE DATE
129	
130	An entity shall apply this Standard: U.K.

INTERNATIONAL ACCOUNTING STANDARD 39 U.K.

Financial instruments: recognition and measurement

OBJECT	
1 SCOPE	
2	This Standard shall be applied by all entities to all financial instruments within the scope of IFRS 9 Financial Instruments if, and to the extent that: U.K.
2A	
3	
4–7 DEFINI	ΓΙΟΝΣ
8	The terms defined in IFRS 13, IFRS 9 and IAS 32 are used in this Standard with the meanings specified in Appendix A of IFRS 13, Appendix A of IFRS 9 and paragraph 11 of IAS 32. IFRS 13, IFRS 9 and IAS 32 define the following terms: U.K.
9	on of a derivative
Definition	ons of four categories of financial instruments
Definition	on of a financial guarantee contract
Definition	ons relating to recognition and measurement
	ons relating to hedge accounting
EMBED	DED DERIVATIVES
10	
11	An embedded derivative shall be separated from the host contract and accounted for as a derivative under this standard if, and only if: U.K.

11A	Notwithstanding paragraph 11, if a contract contains one or more embedded derivatives, an entity may designate the entire hybrid (combined) contract as a financial asset or financial liability at fair value through profit or loss unless: U.K.
12	
13 RECC	OGNITION AND DERECOGNITION
Initial	recognition
14	ognition of a financial asset
15	
16	Before evaluating whether, and to what extent, derecognition is appropriate under paragraphs 17-23, an entity determines whether those paragraphs should be applied to a part of a financial asset (or a part of a group of similar financial assets) or a financial asset (or a group of similar financial assets) in its entirety, as follows. U.K.
17	An entity shall derecognise a financial asset when, and only when: U.K.
18	An entity transfers a financial asset if, and only if, it either: U.K.
19	When an entity retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), the entity treats the transaction as a transfer of a financial asset if, and only if, all of the following three conditions are met. U.K.
20	When an entity transfers a financial asset (see paragraph 18), it shall evaluate the extento which it retains the risks and rewards of ownership of the financial asset. In this case: U.K.
21	
22	
23 Transf	fers that qualify for derecognition (see paragraph 20(a) and (c)(i))

accounting...
ANNEX

Document Generated: 2024-04-09

24	
25	
26	On derecognition of a financial asset in its entirety, the difference between: U.K.
27	If the transferred asset is part of a larger financial asset (e.g. when an entity transfers interest cash flows that are part of a debt instrument, see paragraph 16(a)) and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset shall be allocated between the part that continues to be recognised and the part that is derecognised, based on the relative fair values of those parts on the date of the transfer. For this purpose, a retained servicing asset shall be treated as a part that continues to be recognised. The difference between:
 28 Trans	fers that do not qualify for derecognition (see paragraph 20(b))
mans.	ters that do not quarry for derecognition (see paragraph 20(0))
29 Conti	nuing involvement in transferred assets (see paragraph 20(c)(ii))
30	If an entity neither transfers nor retains substantially all the risks and rewards of ownership of a transferred asset, and retains control of the transferred asset, the entity continues to recognise the transferred asset to the extent of its continuing involvement. The extent of the entity's continuing involvement in the transferred asset is the extent to which it is exposed to changes in the value of the transferred asset. For example: U.K.
31	When an entity continues to recognise an asset to the extent of its continuing involvement, the entity also recognises an associated liability. Despite the other measurement requirements in this standard, the transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the entity has retained. The associated liability is measured in such a way that the net carrying amount of the transferred asset and the associated liability is: U.K.
32	
33	
34	If an entity's continuing involvement is in only a part of a financial asset (e.g. when an entity retains an option to repurchase part of a transferred asset, or retains a residual interest that does not result in the retention of substantially all the risks and rewards of ownership and the entity retains control), the entity allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative

Document Generated: 2024-04-09

	fair values of those parts on the date of the transfer. For this purpose, the requirements of paragraph 28 apply. The difference between: U.K.
35 All traı	
36	••••••
37	If a transferor provides non-cash collateral (such as debt or equity instruments) to the transferee, the accounting for the collateral by the transferor and the transferee depends on whether the transferee has the right to sell or repledge the collateral and on whether the transferor has defaulted. The transferor and transferee shall account for the collateral as follows: U.K.
	r way purchase or sale of a financial asset
38	gnition of a financial liability
39	
40	
41	
42 MEAS	UREMENT
Initial	measurement of financial assets and financial liabilities
 43	
43A	
44	
44A Subseq	quent measurement of financial assets
 45	For the purpose of measuring a financial asset after initial recognition, this standard classifies financial assets into the following four categories defined in paragraph 9: U.K.

46	After initial recognition, an entity shall measure financial assets, including derivatives that are assets, at their fair values, without any deduction for transaction costs it may incur on sale or other disposal, except for the following financial assets: U.K.
Subseq	uent measurement of financial liabilities
47	After initial recognition, an entity shall measure all financial liabilities at amortised cost using the effective interest method, except for: U.K.
Fair va	lue measurement considerations
48	
48A	
49 Reclass	sifications
	<u></u>
50	An entity: U.K.
50A	The following changes in circumstances are not reclassifications for the purposes of paragraph 50: U.K.
50B	
50C	
50D	
50E	
50F	
51	
52	
53	
54	If, as a result of a change in intention or ability or in the rare circumstance that a reliable measure of fair value is no longer available (see paragraphs 46(c) and 47) or because the 'two preceding financial years' referred to in paragraph 9 have passed, it becomes appropriate to carry a financial asset or financial liability at cost or amortised cost rather than at fair value, the fair value carrying amount of the financial asset or the financial liability on that date becomes its new cost or amortised cost, as applicable. Any previous gain or loss on that asset that has been recognised in other

	comprehensive income in accordance with paragraph 55(b) shall be accounted for as follows: U.K.
Gains and	d losses
55	A gain or loss arising from a change in the fair value of a financial asset or financial liability that is not part of a hedging relationship (see paragraphs 89–102), shall be recognised, as follows.
	Dividends are recognised in profit or loss only when: U.K.
56	
57 Impairme	ent and uncollectability of financial assets
58	
59	A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. It may not be possible to identify a single, discrete event that caused the impairment. Rather the combined effect of several events may have caused the impairment. Losses expected as a result of future events, no matter how likely, are not recognised. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the holder of the asset about the following loss events:
60	
61	
62 Financial	assets carried at amortised cost
63	
64	
65 Financial	assets carried at cost
66 Available	e-for-sale financial assets

67	
68	
69	
70 HEDG	ING
71 Hedgin	instruments
	ving instruments
72	
73 Design	ation of hedging instruments
74	There is normally a single fair value measure for a hedging instrument in its entirety, and the factors that cause changes in fair value are co-dependent. Thus, a hedging relationship is designated by an entity for a hedging instrument in its entirety. The only exceptions permitted are: U.K.
75	
76	
77 Hedged	d items
	ving items
78	
79	
80 Design	ation of financial items as hedged items
81	
81A Design	ation of non-financial items as hedged items

Document Generated: 2024-04-09

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

82	
	nation of groups of items as hedged items
83	
84	
	accounting
85	
86	Hedging relationships are of three types: U.K.
00	Treaging relationships are of times types.
87	
88	A hedging relationship qualifies for hedge accounting under paragraphs 89–102 if, and only if, all of the following conditions are met. U.K.
	if, and only if, an of the following conditions are met.
Fair va	alue hedges
90	
89	If a fair value hedge meets the conditions in paragraph 88 during the period, it shall be accounted for as follows: U.K.
89A	For a fair value hedge of the interest rate exposure of a portion of a portfolio of
0)11	financial assets or financial liabilities (and only in such a hedge), the requirement in
	paragraph 89(b) may be met by presenting the gain or loss attributable to the hedged item either: U.K.
	item etilet.
90	
91	An entity shall discontinue prospectively the hedge accounting specified in paragraph 89 if: U.K.
	paragraph 67 II. O.K.
92	
93	
94	:
Cash f	low hedges
95	If a cash flow hedge meets the conditions in paragraph 88 during the period, it shall

be accounted for as follows: U.K.

96	More specifically, a cash flow hedge is accounted for as follows: U.K.
 97	
98	If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, or a forecast transaction for a non-financial asset or non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, then the entity shall adopt (a) or (b) below: U.K.
 99	
100	
101	In any of the following circumstances an entity shall discontinue prospectively the hedge accounting specified in paragraphs 95–100: U.K.
	s of a net investment
102	Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment (see IAS 21), shall be accounted for similarly to cash flow hedges: U.K.
Tempo	orary exceptions from applying specific hedge accounting requirements
102A	An entity shall apply paragraphs 102D–102N and 108G to all hedging relationships directly affected by interest rate benchmark reform. These paragraphs apply only to such hedging relationships. A hedging relationship is directly affected by interest rate benchmark reform only if the reform gives rise to uncertainties about: U.K.
102B	
102C Highly	probable requirement for cash flow hedges
	sifying the cumulative gain or loss recognised in other comprehensive income
102E	
Effecti	veness assessment

102F	
_	ing financial items as hedged items
102H	
	pplication
102J	An entity shall prospectively cease applying paragraph 102D to a hedged item at the earlier of: U.K.
102K	An entity shall prospectively cease applying paragraph 102E at the earlier of: U.K.
102L	An entity shall prospectively cease applying paragraph 102F: U.K.
102M	An entity shall prospectively cease applying paragraph 102G to a hedging relationship at the earlier of: U.K.

Application guidance

SCOPE	(paragraphs 2-7)
AG1	
AG2	
AG3	
AG3A	
AG4	Financial guarantee contracts may have various legal forms, such as a guarantee, some types of letter of credit, a credit default contract or an insurance contract. Their accounting treatment does not depend on their legal form. The following are examples of the appropriate treatment (see paragraph 2(e)): U.K.
AG4A	TIONS (paragraphs 8 and 9)
	tion as at fair value through profit or loss
AG4B	
	ph 9(b)(i): Designation eliminates or significantly reduces a measurement or recognition stency that would otherwise arise
AG4D	
AG4E	The following examples show when this condition could be met. In all cases, an entity may use this condition to designate financial assets or financial liabilities as at fair value through profit or loss only if it meets the principle in paragraph 9(b)(i). U.K.
AG4F	
its perfe	ph 9(b)(ii): A group of financial assets, financial liabilities or both is managed and ormance is evaluated on a fair value basis, in accordance with a documented risk ment or investment strategy
AG4H	

AG4I	The following examples show when this condition could be met. In all cases, an entity may use this condition to designate financial assets or financial liabilities as at fair value through profit or loss only if it meets the principle in paragraph 9(b)(ii). U.K.
AG4J	
AG4K Effective	e interest rate
AG5	
AG6	
AG7	
AG8	
AG8A	
AG8B	Fees that are an integral part of the effective interest rate of a financial instrument include: U.K.
AG8C	Fees that are not an integral part of the effective interest rate of a financial instrument and are accounted for in accordance with IFRS 15 include: U.K.
Derivativ	ves
AG9	
AG10	
AG11	
AG12	
AG12A Transact	ion costs
AG13 Financia	l assets and financial liabilities held for trading
AG14	
AG15	Financial liabilities held for trading include: U.K.
Held-to-	maturity investments

AG16	An entity does not have a positive intention to hold to maturity an investment in a financial asset with a fixed maturity if: U.K.
AG17	
AG18	
AG19	
AG20	
AG21	
AG22	Sales before maturity could satisfy the condition in paragraph 9 — and therefore not raise a question about the entity's intention to hold other investments to maturity — if they are attributable to any of the following: U.K.
AG23	An entity does not have a demonstrated ability to hold to maturity an investment in a financial asset with a fixed maturity if: U.K.
AG24	
	and receivables
AG26 EMBEI	DDED DERIVATIVES (paragraphs 10-13)
AG27	
AG28	
AG29	
AG30	The economic characteristics and risks of an embedded derivative are not closely related to the host contract (paragraph 11(a)) in the following examples. In these examples, assuming the conditions in paragraph 11(b) and (c) are met, an entity accounts for the embedded derivative separately from the host contract. U.K.
AG31	
AG32	
AG33	The economic characteristics and risks of an embedded derivative are closely related to the economic characteristics and risks of the host contract in the following examples. In these examples, an entity does not account for the embedded derivative separately from the host contract. U.K.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

	ents containing embedded derivatives
	GNITION AND DERECOGNITION (paragraphs 14-42)
Initial re	ecognition (paragraph 14)
AG34	
AG35	The following are examples of applying the principle in paragraph 14: U.K.
Derecog	gnition of a financial asset (paragraphs 15-37)
AG36	The following flow chart illustrates the evaluation of whether and to what extent a financial asset is derecognised. U.K.
a financ	ements under which an entity retains the contractual rights to receive the cash flows of cial asset, but assumes a contractual obligation to pay the cash flows to one or more ts (paragraph 18(b))
AG38 Evaluati	ion of the transfer of risks and rewards of ownership (paragraph 20)
AG39	Examples of when an entity has transferred substantially all the risks and rewards of ownership are: U.K.
AG40	Examples of when an entity has retained substantially all the risks and rewards of ownership are: U.K.
AG41	ion of the transfer of control
AG43	The transferee has the practical ability to sell the transferred asset only if the transferee

can sell the transferred asset in its entirety to an unrelated third party and is able to

Document Generated: 2024-04-09

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

exercise that ability unilaterally and without imposing additional restrictions on the transfer. The critical question is what the transferee is able to do in practice, not what contractual rights the transferee has concerning what it can do with the transferred asset or what contractual prohibitions exist. In particular: U.K.

AG44 Transfers that qualify for derecognition
AG45
AG46 Transfers that do not qualify for derecognition
AG47
AG48All assets
Assets measured at amortised cost
Assets measured at fair value
All transfers
AG49
AG50Examples
AG51 The following examples illustrate the application of the derecognition principles of this standard. U.K.
AG52 This paragraph illustrates the application of the continuing involvement approach when the entity's continuing involvement is in a part of a financial asset. U.K.
Regular way purchase or sale of a financial asset (paragraph 38)
AG53

AG54	
AG55	
AG56	
	gnition of a financial liability (paragraphs 39-42)
AG57	A financial liability (or part of it) is extinguished when the debtor either: U.K.
AG58	
AG59	
AG60	
AG61	
AG62	
AG63	In some cases, a creditor releases a debtor from its present obligation to make payments, but the debtor assumes a guarantee obligation to pay if the party assuming primary responsibility defaults. In this circumstance the debtor:
MEASU	UREMENT (paragraphs 43-70)
 Initial n	measurement of financial assets and financial liabilities (paragraph 43)
AG64	
AG65 Subsequ	uent measurement of financial assets (paragraphs 45 and 46)
AG66	
AG67	
AG68 Fair val	lue measurement considerations (paragraphs 48-49)
AG69	
AG70 Active	market: quoted price
AG71	
AG72	

AG73 No activ	e market: valuation technique
AG74	
AG75	
AG76	The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price (ie the fair value of the consideration given or received see also IFRS 13). If an entity determines that the fair value at initial recognition differs from the transaction price as mentioned in paragraph 43A, the entity shall account for that instrument at that date as follows: U.K.
AG76A	
AG77	
AG78	
	e market: equity instruments
AG80	
AG81 Inputs to	valuation techniques
AG82	An appropriate technique for estimating the fair value of a particular financia instrument would incorporate observable market data about the market conditions and other factors that are likely to affect the instrument's fair value. The fair value of a financial instrument will be based on one or more of the following factors (and perhaps others). U.K.
	nd losses (paragraphs 55-57)
AG83 Impairm	ent and uncollectability of financial assets (paragraphs 58-70)
Financia	l assets carried at amortised cost (paragraphs 63-65)
AG84	
AG85	
AG86	

AG87	
AG88	
AG89	
AG90	
AG91	
	ncome after impairment recognition
AG93	NG (paragraphs 71-102)
	instruments (paragraphs 72-77)
Qualifyir	ng instruments (paragraphs 72 and 73)
AG94	
AG95	
AG96	
AG97 Hedged i	tems (paragraphs 78-84)
Qualifyir	ng items (paragraphs 78-80)
AG98	
AG99	
AG99A	
AG99B	
AG99BA Designat	ion of financial items as hedged items (paragraphs 81 and 81A)
AG99C	
AG99D	
AG99E	Paragraph 81 permits an entity to designate something other than the entire fair value change or cash flow variability of a financial instrument. For example: U.K.

AG99F	To be eligible for hedge accounting, the designated risks and portions must be separately identifiable components of the financial instrument, and changes in the cash flows or fair value of the entire financial instrument arising from changes in the designated risks and portions must be reliably measurable. For example: U.K.
Designat	tion of non-financial items as hedged items (paragraph 82)
Designat	tion of groups of items as hedged items (paragraphs 83 and 84)
AG101 Hedge a	ccounting (paragraphs 85-102)
AG102	
AG103	
	g hedge effectiveness
AG105	A hedge is regarded as highly effective only if both of the following conditions are met: U.K.
AG106	
AG107	
AG107A	\
AG108	If the principal terms of the hedging instrument and of the hedged asset, liability, firm commitment or highly probable forecast transaction are the same, the changes in fair value and cash flows attributable to the risk being hedged may be likely to offset each other fully, both when the hedge is entered into and afterwards. For example, an interest rate swap is likely to be an effective hedge if the notional and principal amounts, term, repricing dates, dates of interest and principal receipts and payments, and basis for measuring interest rates are the same for the hedging instrument and the hedged item. In addition, a hedge of a highly probable forecast purchase of a commodity with a forward contract is likely to be highly effective if: U.K.
AG109	
AG110	
AG110A	.
AG110B	

AG111	
AG112	
AG113	
AG113/ Fair valu	A
	For a fair value hedge of interest rate risk associated with a portfolio of financial assets or financial liabilities, an entity would meet the requirements of this Standard if it complies with the procedures set out in (a)–(i) and paragraphs AG115–AG132 below. U.K.
AG116	
AG117	
AG118	
AG119	The entity also complies with the other designation and documentation requirements set out in paragraph 88(a). For a portfolio hedge of interest rate risk, this designation and documentation specifies the entity's policy for all of the variables that are used to identify the amount that is hedged and how effectiveness is measured, including the following: U.K.
AG123	
AG124	Paragraph AG114(i) notes that ineffectiveness arises to the extent that the change in the fair value of the hedged item that is attributable to the hedged risk differs from the change in the fair value of the hedging derivative. Such a difference may arise for a number of reasons, including: U.K.
AG125	Generally, the effectiveness of the hedge will be improved: U.K.
AG128	
AG129

INTERNATIONAL FINANCIAL REPORTING STANDARD 1 U.K.

First-time Adoption of International Financial Reporting Standards

OBJECT	TIVE
1	The objective of this IFRS is to ensure that an entity's <i>first IFRS financial statements</i> , and its interim financial reports for part of the period covered by those financial statements, contain high quality information that:
SCOPE	
2	An entity shall apply this IFRS in: U.K.
3	An entity's first IFRS financial statements are the first annual financial statements in which the entity adopts IFRSs, by an explicit and unreserved statement in those financial statements of compliance with IFRSs. Financial statements in accordance with IFRSs are an entity's first IFRS financial statements if, for example, the entity:
	U.K.
4	This IFRS applies when an entity first adopts IFRSs. It does not apply when, for example, an entity: U.K.
4A	
4B	
5	This IFRS does not apply to changes in accounting policies made by an entity that already applies IFRSs. Such changes are the subject of: U.K.
RECOG	NITION AND MEASUREMENT
Opening	IFRS statement of financial position
6 A account	······································
Account	ing policies
7	A six I II a I I'M a six I I'M
8	An entity shall not apply different versions of IFRSs that were effective at earlier dates. An entity may apply a new IFRS that is not yet mandatory if that IFRS permits early application.

Example	:: Consistent application of latest version of IFRSs
Backgro	und
Applicat	ion of requirements
9	
10	Except as described in paragraphs 13–19 and Appendices B–E, an entity shall, in its opening IFRS statement of financial position: U.K.
11	
12	This IFRS establishes two categories of exceptions to the principle that an entity's opening IFRS statement of financial position shall comply with each IFRS: U.K.
Exceptio	ons to the retrospective application of other IFRSs
13 Estimate	S
14	
15	
16	
17 Exemption	ons from other IFRSs
18	
19 PRESEN	WTATION AND DISCLOSURE
20 Compara	ative information
21 Non-IFR	S comparative information and historical summaries

22

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

Some entities present historical summaries of selected data for periods before the

	first period for which they present full comparative information in accordance with IFRSs. This IFRS does not require such summaries to comply with the recognition and measurement requirements of IFRSs. Furthermore, some entities present comparative information in accordance with previous GAAP as well as the comparative information required by IAS 1. In any financial statements containing historical summaries or comparative information in accordance with previous GAAP, an entity shall: U.K.
Explana	tion of transition to IFRSs
23	
23A	An entity that has applied IFRSs in a previous period, as described in paragraph 4A, shall disclose: U.K.
23B Reconci	
24	To comply with paragraph 23, an entity's first IFRS financial statements shall include: U.K.
26	
27	
27A	
	tion of financial assets or financial liabilities
29	
29A Use of f	air value as deemed cost
30	If an entity uses fair value in its opening IFRS statement of financial position as <i>deemed cost</i> for an item of property, plant and equipment, an investment property, an intangible asset or a right-of-use asset (see paragraphs D5 and D7), the entity's first IFRS financial statements shall disclose, for each line item in the opening IFRS statement of financial position: U.K.

Use of deemed cost for investments in subsidiaries, joint ventures and associates

31	Similarly, if an entity uses a deemed cost in its opening IFRS statement of financial position for an investment in a subsidiary, joint venture or associate in its separate financial statements (see paragraph D15), the entity's first IFRS separate financial statements shall disclose: U.K.								
Use of	deemed cost for oil and gas assets								
31A Use of	deemed cost for operations subject to rate regulation								
31B Use of	deemed cost after severe hyperinflation								
31C	If an entity elects to measure assets and liabilities at fair value and to use that fair value as the deemed cost in its opening IFRS statement of financial position because of severe hyperinflation (see paragraphs D26–D30), the entity's first IFRS financial statements shall disclose an explanation of how, and why, the entity had, and then ceased to have, a functional currency that has both of the following characteristics: U.K.								
Interim	financial reports								
32	To comply with paragraph 23, if an entity presents an interim financial report in accordance with IAS 34 for part of the period covered by its first IFRS financial statements, the entity shall satisfy the following requirements in addition to the requirements of IAS 34: U.K.								
33 EFFEC	CTIVE DATE

Document Generated: 2024-04-09

Exemp	Appendix C U.K. ptions for business combinations
C1	
C2	
C3	An entity may apply IAS 21 retrospectively to fair value adjustments and goodwill arising in either: U.K.
C4	If a first-time adopter does not apply IFRS 3 retrospectively to a past business combination, this has the following consequences for that business combination: U.K.
C5	

Exempt	Appendix D U.K.
D1	An entity may elect to use one or more of the following exemptions: U.K.
Share-b	ased payment transactions
D2	
D3 Insuran	ce contracts
D4	ue or revaluation as deemed cost
D5	
D6	A first-time adopter may elect to use a previous GAAP revaluation of an item of property, plant and equipment at, or before, the date of transition to IFRSs as deemed cost at the date of the revaluation, if the revaluation was, at the date of the revaluation, broadly comparable to: U.K.
D7	The elections in paragraphs D5 and D6 are also available for: U.K.
D8	A first-time adopter may have established a deemed cost in accordance with previous GAAP for some or all of its assets and liabilities by measuring them at their fair value at one particular date because of an event such as a privatisation or initial public offering. U.K.
Deemed	d cost
D8A	Under some national accounting requirements exploration and development costs for oil and gas properties in the development or production phases are accounted for in cost centres that include all properties in a large geographical area. A first-time adopter using such accounting under previous GAAP may elect to measure oil and gas assets at the date of transition to IFRSs on the following basis: U.K.
D8B Leases	

D9	
D9A	
D9B	When a first-time adopter that is a lessee recognises lease liabilities and right-of-use assets, it may apply the following approach to all of its leases (subject to the practical expedients described in paragraph D9D):
 D9C	
D9D	A first-time adopter that is a lessee may do one or more of the following at the date of transition to IFRSs, applied on a lease-by-lease basis: U.K.
D9E Employ	vee benefits
D10	
D11 Cumula	ative translation differences
	IAS 21 requires an entity: U.K.
D13	However, a first-time adopter need not comply with these requirements for cumulative translation differences that existed at the date of transition to IFRSs. If a first-time adopter uses this exemption: U.K.
Investn	nents in subsidiaries, joint ventures and associates
D14	When an entity prepares separate financial statements, IAS 27 requires it to account for its investments in subsidiaries, joint ventures and associates either: U.K.
D15	27, it shall measure that investment at one of the following amounts in its separate opening IFRS statement of financial position: U.K.
D15A	If a first-time adopter accounts for such an investment using the equity method procedures as described in IAS 28: U.K.
Assets	and liabilities of subsidiaries, associates and joint ventures

Document Generated: 2024-04-09

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

D16	If a subsidiary becomes a first-time adopter later than its parent, the subsidiary shall, in its financial statements, measure its assets and liabilities at either: U.K.
-	and financial instruments
D18 Designa	tion of previously recognised financial instruments
D19	
D19A	
D19B	
D19C Fair valu	ue measurement of financial assets or financial liabilities at initial recognition
D20 Decomn	nissioning liabilities included in the cost of property, plant and equipment
D21	IFRIC 1 Changes in Existing Decommissioning, Restoration and Similar Liabilities requires specified changes in a decommissioning, restoration or similar liability to be added to or deducted from the cost of the asset to which it relates; the adjusted depreciable amount of the asset is then depreciated prospectively over its remaining useful life. A first-time adopter need not comply with these requirements for changes in such liabilities that occurred before the date of transition to IFRSs. If a first-time adopter uses this exemption, it shall: U.K.
D21A	An entity that uses the exemption in paragraph D8A(b) (for oil and gas assets in the development or production phases accounted for in cost centres that include all properties in a large geographical area under previous GAAP) shall, instead of applying paragraph D21 or IFRIC 1: U.K.
Financia	al assets or intangible assets accounted for in accordance with IFRIC 12
D22 Borrowi	ng costs
D23	A first-time adopter can elect to apply the requirements of IAS 23 from the date of

transition or from an earlier date as permitted by paragraph 28 of IAS 23. From the

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

<u>date on</u> which an entity that applies this exemption begins to apply IAS 23, the entity:

Transfers of assets from customers Extinguishing financial liabilities with equity instruments D25 Severe hyperinflation D26 D27 The currency of a hyperinflationary economy is subject to severe hyperinflation if it has both of the following characteristics: U.K. D28 D29 D30 Joint arrangements A first-time adopter may apply the transition provisions in IFRS 11 with the following D31 exceptions: U.K. Stripping costs in the production phase of a surface mine Designation of contracts to buy or sell a non-financial item D33 Revenue D34 Foreign Currency Transactions and Advance Consideration D36

14	
15	If the equity instruments granted do not vest until the counterparty completes a specified period of service, the entity shall presume that the services to be rendered by the counterparty as consideration for those equity instruments will be received in the future, during the <i>vesting period</i> . The entity shall account for those services as they are rendered by the counterparty during the vesting period, with a corresponding increase in equity. For example:
Transa	actions measured by reference to the fair value of the equity instruments granted
Detern	nining the fair value of equity instruments granted
16	
17	
18 Treatn	nent of vesting conditions
19	
20	
21 Treatn	nent of non-vesting conditions
21A	nent of a reload feature
	vesting date
23	fair value of the equity instruments cannot be estimated reliably
24	The requirements in mercaronles 16.22 combination the entity is required to measure
24	The requirements in paragraphs 16-23 apply when the entity is required to measure a share-based payment transaction by reference to the fair value of the equity instruments granted. In rare cases, the entity may be unable to estimate reliably the fair value of the equity instruments granted at the measurement date, in accordance with the requirements in paragraphs 16-22. In these rare cases only, the entity shall instead: U.K.

25	If an entity applies paragraph 24, it is not necessary to apply paragraphs 26-29, because any modifications to the terms and conditions on which the equity instruments were granted will be taken into account when applying the intrinsic value method set out in paragraph 24. However, if an entity settles a grant of equity instruments to which paragraph 24 has been applied: U.K.
Modifi	ications to the terms and conditions on which equity instruments were granted, including lations and settlements
26	
27	
28	If a grant of equity instruments is cancelled or settled during the vesting period (other than a grant cancelled by forfeiture when the vesting conditions are not satisfied) U.K.
28A	
29 CASH	-SETTLED SHARE-BASED PAYMENT TRANSACTIONS
30	
31	
32	
33 TREA	TMENT OF VESTING AND NON-VESTING CONDITIONS
33A	
33A	
33C	
33D SHAR	E-BASED PAYMENT TRANSACTIONS WITH A NET SETTLEMENT FEATURE VITHHOLDING TAX OBLIGATIONS
33E	
33F 33G	
33H	The exception in paragraph 33F does not apply to: U.K.
2211	The exception in paragraph 331 does not apply to.

SHARE-BASED PAYMENT TRANSACTIONS WITH CASH ALTERNATIVES	
34	
Share-ba	ased payment transactions in which the terms of the arrangement provide the arrangement with a choice of settlement
35	
36	
37	
38	
39	
	ased payment transactions in which the terms of the arrangement provide the entity with of settlement
41	
42	
43	If no such obligation exists, the entity shall account for the transaction in accordance with the requirements applying to equity-settled share-based payment transactions, in paragraphs 10-29. Upon settlement: U.K.
	-BASED PAYMENT TRANSACTIONS AMONG GROUP ENTITIES (2009 DMENTS)
43A	For share-based payment transactions among group entities, in its separate or individual financial statements, the entity receiving the goods or services shall measure the goods or services received as either an equity-settled or a cash-settled share-based payment transaction by assessing: U.K.
43B	The entity receiving the goods or services shall measure the goods or services received as an equity-settled share-based payment transaction when: U.K.
43C	
43D DISCLO	OSURES

44	
45	To give effect to the principle in paragraph 44, the entity shall disclose at least the following: U.K.
46	
47	If the entity has measured the fair value of goods or services received as consideration for equity instruments of the entity indirectly, by reference to the fair value of the equity instruments granted, to give effect to the principle in paragraph 46, the entity shall disclose at least the following: U.K.
40	
48	
49	
50	
51	To give effect to the principle in paragraph 50, the entity shall disclose at least the following: U.K.
	ISITIONAL PROVISIONS
53	
54	
55	
56	
57	
58	
59	
59A	An entity shall apply the amendments in paragraphs 30-31, 33-33H and B44A-B44C as set out below. Prior periods shall not be restated. U.K.
59B EFFE	CTIVE DATE
60	
61	

Document Generated: 2024-04-09

62	An entity shall apply the following amendments retrospectively in annual periods beginning on or after 1 January 2009 : U.K.
63	An entity shall apply the following amendments made by <i>Group Cash-settled Share-based Payment Transactions</i> issued in June 2009 retrospectively, subject to the transitional provisions in paragraphs 53-59, in accordance with IAS 8 for annual periods beginning on or after 1 January 2010:
63A	
63B	
63C	
63D WITHDI	RAWAL OF INTERPRETATIONS
64	Group Cash-settled Share-based Payment Transactions issued in June 2009 supersedes IFRIC 8 Scope of IFRS 2 and IFRIC 11 IFRS 2 — Group and Treasury Share Transactions . The amendments made by that document incorporated the previous requirements set out in IFRIC 8 and IFRIC 11 as follows: U.K.

INTERNATIONAL FINANCIAL REPORTING STANDARD 3 U.K.

Business Combinations

OBJECTIVE	
1.	The objective of this IFRS is to improve the relevance, reliability and comparability of the information that a reporting entity provides in its financial statements about a <i>business combination</i> and its effects. To accomplish that, this IFRS establishes principles and requirements for how the <i>acquirer</i> : U.K.
SCOP	E
2.	combination. This IFRS does not apply to: U.K.
2A. IDEN	TIFYING A BUSINESS COMBINATION
3.	ACQUISITION METHOD
4.	
	Applying the acquisition method requires: U.K.
Identi	fying the acquirer
 6.	
7. Detern	nining the acquisition date
8.	
	nising and measuring the identifiable assets acquired, the liabilities assumed and any non- lling interest in the acquiree
Recog	nition principle

	nition conditions
 11.	
12.	
13.	
	fying or designating identifiable assets acquired and liabilities assumed in a business nation
15.	
16.	In some situations, IFRSs provide for different accounting depending on how an entity classifies or designates a particular asset or liability. Examples of classifications or designations that the acquirer shall make on the basis of the pertinent conditions as they exist at the acquisition date include but are not limited to: U.K.
17.	This IFRS provides two exceptions to the principle in paragraph 15: U.K.
	arement principle
18.	
19.	For each business combination, the acquirer shall measure at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation at either: U.K.
2 0. Ехсер	tions to the recognition or measurement principles
21.	This IFRS provides limited exceptions to its recognition and measurement principles. Paragraphs 22–31 specify both the particular items for which exceptions are provided and the nature of those exceptions. The acquirer shall account for those items by applying the requirements in paragraphs 22–31, which will result in some items being: U.K.
Excep	tion to the recognition principle
 Contir	ngent liabilities

22.	IAS 37 <i>Provisions, Contingent Liabilities and Contingent Assets</i> defines a contingent liability as: U.K.
23.	ons to both the recognition and measurement principles
Income	taxes
24.	
25. Employe	ee benefits
	fication assets
27.	
28. Leases i	n which the acquiree is the lessee
28A.	The acquirer shall recognise right-of-use assets and lease liabilities for leases identified in accordance with IFRS 16 in which the acquiree is the lessee. The acquirer is not required to recognise right-of-use assets and lease liabilities for: U.K.
28B. Exception	ons to the measurement principle
Reacqui	red rights
29. Share-ba	ased payment transactions
30. Assets h	eld for sale
31. Recogni	sing and measuring goodwill or a gain from a bargain purchase

32.	The acquirer shall recognise goodwill as of the acquisition date measured as the excess of (a) over (b) below: U.K.	
33.	purchases	
34.		
35.		
36.	Before recognising a gain on a bargain purchase, the acquirer shall reassess whether it has correctly identified all of the assets acquired and all of the liabilities assumed and shall recognise any additional assets or liabilities that are identified in that review. The acquirer shall then review the procedures used to measure the amounts this IFRS requires to be recognised at the acquisition date for all of the following: U.K.	
	ation transferred	
2=		
38.	ent consideration	
39.		
40. Additionate	al guidance for applying the acquisition method to particular types of business tions	
A busine	ss combination achieved in stages	
41.		
42.		
42A. A busine	ss combination achieved without the transfer of consideration	
43.	An acquirer sometimes obtains control of an acquiree without transferring consideration. The acquisition method of accounting for a business combination applies to those combinations. Such circumstances include: U.K.	

Document Generated: 2024-04-09

44. Measu	rement period
45.	
46.	The measurement period is the period after the acquisition date during which the acquirer may adjust the provisional amounts recognised for a business combination. The measurement period provides the acquirer with a reasonable time to obtain the information necessary to identify and measure the following as of the acquisition date in accordance with the requirements of this IFRS:
47.	
48.	
49.	
50. Detern	nining what is part of the business combination transaction
51.	
52.	A transaction entered into by or on behalf of the acquirer or primarily for the benefit of the acquirer or the combined entity, rather than primarily for the benefit of the acquirer (or its former owners) before the combination, is likely to be a separate transaction. The following are examples of separate transactions that are not to be included in applying the acquisition method: U.K.
Acquis	sition-related costs
53. SUBS	EQUENT MEASUREMENT AND ACCOUNTING
54.	In general, an acquirer shall subsequently measure and account for assets acquired, liabilities assumed or incurred and equity instruments issued in a business combination in accordance with other applicable IFRSs for those items, depending on their nature. However, this IFRS provides guidance on subsequently measuring and accounting for the following assets acquired liabilities assumed or incurred and equity instruments issued in a business combination:
Reacq	uired rights
55	
55.	

Contin	Contingent liabilities	
56.	After initial recognition and until the liability is settled, cancelled or expires, the acquirer shall measure a contingent liability recognised in a business combination at the higher of: U.K.	
Indem	nification assets	
57. Contin	agent consideration	
58.	Some changes in the fair value of contingent consideration that the acquirer recognises after the acquisition date may be the result of additional information that the acquirer obtained after that date about facts and circumstances that existed at the acquisition date. Such changes are measurement period adjustments in accordance with paragraphs 45–49. However, changes resulting from events after the acquisition date, such as meeting an earnings target, reaching a specified share price or reaching a milestone on a research and development project, are not measurement period adjustments. The acquirer shall account for changes in the fair value of contingent consideration that are not measurement period adjustments as follows:	
DISCI	LOSURES	
59.	The acquirer shall disclose information that enables users of its financial statements to evaluate the nature and financial effect of a business combination that occurs either:

Document Generated: 2024-04-09

Applica	Appendix B U.K.
	ESS COMBINATIONS OF ENTITIES UNDER COMMON CONTROL ICATION OF PARAGRAPH 2(c))
 B1	
B2	
В3	
B4 IDENT	IFYING A BUSINESS COMBINATION (APPLICATION OF PARAGRAPH 3)
B5	This IFRS defines a business combination as a transaction or other event in which an acquirer obtains control of one or more businesses. An acquirer might obtain control of an acquiree in a variety of ways, for example:
В6	A business combination may be structured in a variety of ways for legal, taxation or other reasons, which include but are not limited to: U.K.
DEFIN	ITION OF A BUSINESS (APPLICATION OF PARAGRAPH 3)
B7	A business consists of inputs and processes applied to those inputs that have the ability to contribute to the creation of outputs. The three elements of a business are defined as follows (see paragraphs B8–B12D for guidance on the elements of a business): U.K.
Option	al test to identify concentration of fair value
B7A	Paragraph B7B sets out an optional test (the concentration test) to permit a simplified assessment of whether an acquired set of activities and assets is not a business. An entity may elect to apply, or not apply, the test. An entity may make such an election separately for each transaction or other event. The concentration test has the following consequences: U.K.
В7В	The concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets. For the concentration test: U.K.
B7C	ts of a business

B8	
B8A	
B9	
B10	
B11 Assessin	g whether an acquired process is substantive
B12	
B12A	
B12B	If a set of activities and assets does not have outputs at the acquisition date, an acquired process (or group of processes) shall be considered substantive only if: U.K.
B12C	If a set of activities and assets has outputs at the acquisition date, an acquired process (or group of processes) shall be considered substantive if, when applied to an acquired input or inputs, it: U.K.
B12D	The following additional discussion supports both paragraphs B12B and B12C: U.K.
IDENTII	FYING THE ACQUIRER (APPLICATION OF PARAGRAPHS 6 AND 7)
B13	
B14	
B15	In a business combination effected primarily by exchanging equity interests, the acquirer is usually the entity that issues its equity interests. However, in some business combinations, commonly called 'reverse acquisitions' the issuing entity is the acquiree. Paragraphs B19–B27 provide guidance on accounting for reverse acquisitions. Other pertinent facts and circumstances shall also be considered in identifying the acquirer in a business combination effected by exchanging equity interests, including: U.K.
B16	
B17	
B18 REVERS	SE ACQUISITIONS

B19

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

A reverse acquisition occurs when the entity that issues securities (the legal acquirer)

is identified as the acquiree for accounting purposes on the basis of the guidance in paragraphs B13-B18. The entity whose equity interests are acquired (the legal acquiree) must be the acquirer for accounting purposes for the transaction to be considered a reverse acquisition. For example, reverse acquisitions sometimes occur when a private operating entity wants to become a public entity but does not want to register its equity shares. To accomplish that, the private entity will arrange for a public entity to acquire its equity interests in exchange for the equity interests of the public entity. In this example, the public entity is the legal acquirer because it issued its equity interests, and the private entity is the legal acquiree because its equity interests were acquired. However, application of the guidance in paragraphs B13–B18 results in identifying: U.K. Measuring the consideration transferred Preparation and presentation of consolidated financial statements B21 B22 Because the consolidated financial statements represent the continuation of the financial statements of the legal subsidiary except for its capital structure, the consolidated financial statements reflect: U.K. Non-controlling interest B23 B24 Earnings per share B25 **B26** In calculating the weighted average number of ordinary shares outstanding (the denominator of the earnings per share calculation) during the period in which the reverse acquisition occurs: U.K. B27 The basic earnings per share for each comparative period before the acquisition date presented in the consolidated financial statements following a reverse acquisition shall be calculated by dividing: U.K. RECOGNISING PARTICULAR ASSETS ACQUIRED AND LIABILITIES ASSUMED (APPLICATION OF PARAGRAPHS 10–13)

Operat	ting leases	
B28		
B29		
B30 Intang	ible assets	
B31		
B32	An intangible asset that meets the contractual-legal criterion is identifiable even in the asset is not transferable or separable from the acquiree or from other rights and obligations. For example: U.K.	
В33		
B34	An intangible asset that is not individually separable from the acquiree or combined entity meets the separability criterion if it is separable in combination with a related contract, identifiable asset or liability. For example: U.K.	
Reacq	uired rights	
B35		
B36 Assem	abled workforce and other items that are not identifiable	
 В37		
B38		
B39		
B40 MEAS	SURING THE FAIR VALUE OF PARTICULAR IDENTIFIABLE ASSETS AND A CONTROLLING INTEREST IN AN ACQUIREE (APPLICATION OF PARAGRAPHS	
Assets	with uncertain cash flows (valuation allowances)	
B41	subject to operating leases in which the acquiree is the lessor	

Document Generated: 2024-04-09

Assets that the acquirer intends not to use or to use in a way that is different from the way other market participants would use them	
B43	ntrolling interest in an acquiree
B44	
B45 MEASI	URING GOODWILL OR A GAIN FROM A BARGAIN PURCHASE
	ing the acquisition-date fair value of the acquirer's interest in the acquiree using on techniques (application of paragraph 33)
	considerations in applying the acquisition method to combinations of mutual entities ation of paragraph 33)
B47	
B48	
	RMINING WHAT IS PART OF THE BUSINESS COMBINATION TRANSACTION ICATION OF PARAGRAPHS 51 AND 52)
B50	The acquirer should consider the following factors, which are neither mutually exclusive nor individually conclusive, to determine whether a transaction is part of the exchange for the acquiree or whether the transaction is separate from the business combination: U.K.
Effective busines	ve settlement of a pre-existing relationship between the acquirer and acquiree in a s combination (application of paragraph 52(a))
B51	
B52	If the business combination in effect settles a <u>pre-existing</u> relationship, the acquirer
D32	recognises a gain or loss, measured as follows: U.K.
paragra	ements for contingent payments to employees or selling shareholders (application of ph 52(b))

B54	
B55	If it is not clear whether an arrangement for payments to employees or selling shareholders is part of the exchange for the acquiree or is a transaction separate from the business combination, the acquirer should consider the following indicators: U.K.
	r share-based payment awards exchanged for awards held by the acquiree's employees tion of paragraph 52(b))
B56	An acquirer may exchange its share-based payment awards (replacement awards) for awards held by employees of the acquiree. Exchanges of share options or other share-based payment awards in conjunction with a business combination are accounted for as modifications of share-based payment awards in accordance with IFRS 2 <i>Share-based Payment</i> . If the acquirer replaces the acquiree awards, either all or a portion of the market-based measure of the acquirer's replacement awards shall be included in measuring the consideration transferred in the business combination. Paragraphs B57–B62 provide guidance on how to allocate the market-based measure.
B57	
B58	
B59	
B60	
B61	
B62 Equity-s	settled share-based payment transactions of the acquiree
B62A	
	IFRSS THAT PROVIDE GUIDANCE ON SUBSEQUENT MEASUREMENT AND INTING (APPLICATION OF PARAGRAPH 54)
В63	Examples of other IFRSs that provide guidance on subsequently measuring and accounting for assets acquired and liabilities assumed or incurred in a business combination include: U.K.
 DISCLO	DSURES (APPLICATION OF PARAGRAPHS 59 AND 61)

B64	information for each business combination that occurs during the reporting period: U.K.
B65	
B66	
B67	To meet the objective in paragraph 61, the acquirer shall disclose the following information for each material business combination or in the aggregate for individually immaterial business combinations that are material collectively: U.K.
	SITIONAL PROVISIONS FOR BUSINESS COMBINATIONS INVOLVING ONLY AL ENTITIES OR BY CONTRACT ALONE (APPLICATION OF PARAGRAPH 66)
B68	
B69	The requirement to apply this IFRS prospectively has the following effect for a business combination involving only mutual entities or by contract alone if the acquisition date for that business combination is before the application of this IFRS: U.K.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

INTERNATIONAL FINANCIAL REPORTING STANDARD 4 U.K.

Insurance contracts

OBJEC	OBJECTIVE	
1	The objective of this IFRS is to specify the financial reporting for <i>insurance contracts</i> by any entity that issues such contracts (described in this IFRS as an <i>insurer</i>) until the Board completes the second phase of its project on insurance contracts. In particular this IFRS requires: U.K.	
SCOPE		
2	An entity shall apply this IFRS to: U.K.	
3	This IFRS does not address other aspects of accounting by insurers, such as accounting for financial assets held by insurers and financial liabilities issued by insurers (see IAS 32 Financial Instruments: Presentation , IFRS 7 and IFRS 9 Financial Instruments), except: U.K.	
4	An entity shall not apply this IFRS to: U.K.	
5		
6 Embede	ded derivatives	
7		
8		
9 Unbund	dling of deposit components	
10	Some insurance contracts contain both an insurance component and a <i>deposi</i> component. In some cases, an insurer is required or permitted to <i>unbundle</i> those components:	
 11		
	To unbundle a contract on incurar shall:	
12	To unbundle a contract, an insurer shall: U.K.	

RECO	RECOGNITION AND MEASUREMENT		
	Temporary exemption from some other IFRSs		
13	Paragraphs 10-12 of IAS 8 Accounting policies, changes in accounting estimates and errors specify criteria for an entity to use in developing an accounting policy if no IFRS applies specifically to an item. However, this IFRS exempts an insurer from applying those criteria to its accounting policies for: U.K.		
14	Nevertheless, this IFRS does not exempt an insurer from some implications of the criteria in paragraphs 10-12 of IAS 8. Specifically, an insurer: U.K.		
	ty adequacy test		
 15			
16	If an insurer applies a liability adequacy test that meets specified minimum requirements, this IFRS imposes no further requirements. The minimum requirements are the following: U.K.		
 17	If an insurer's accounting policies do not require a liability adequacy test that meets the minimum requirements of paragraph 16, the insurer shall: U.K.		
18			
19	ment of reinsurance assets		
20	If a cedant's reinsurance asset is impaired, the cedant shall reduce its carrying amount accordingly and recognise that impairment loss in profit or loss. A reinsurance asset is impaired if, and only if: U.K.		
Tempo	orary exemption from IFRS 9		
20A	IFRS 9 addresses the accounting for financial instruments and is effective for annual periods beginning on or after 1 January 2018. However, for an insurer that meets the criteria in paragraph 20B, this IFRS provides a temporary exemption that permits, but does not require, the insurer to apply IAS 39 Financial Instruments: Recognition and Measurement rather than IFRS 9 for annual periods beginning before 1 January 2021. An insurer that applies the temporary exemption from IFRS 9 shall: U.K.		

20B	An insurer may apply the temporary exemption from IFRS 9 if, and only if: U.K.
20C	
20D	An insurer's activities are predominantly connected with insurance if, and only if: U.K.
20E	For the purposes of applying paragraph 20D(b), liabilities connected with insurance comprise: U.K.
20F	In assessing whether it engages in a significant activity unconnected with insurance for the purposes of applying paragraph 20D(b)(ii), an insurer shall consider: U.K.
20G	Paragraph 20B(b) requires an entity to assess whether it qualifies for the temporary exemption from IFRS 9 at its annual reporting date that immediately precedes 1 April 2016. After that date:
20H	For the purposes of applying paragraph 20G, a change in an entity's activities is a change that: U.K.
20I	A change in an entity's activities, as described in paragraph 20H, is expected to be very infrequent. The following are not changes in an entity's activities for the purposes of applying paragraph 20G: U.K.

20L	
20M	
20N Tempo	rary exemption from specific requirements in IAS 28
200	Paragraphs 35–36 of IAS 28 <i>Investments in Associates and Joint Ventures</i> require an entity to apply uniform accounting policies when using the equity method. Nevertheless, for annual periods beginning before 1 January 2021, an entity is

	permitted, but not required, to retain the relevant accounting policies applied by the associate or joint venture as follows: U.K.
20P	When an entity uses the equity method to account for its investment in an associate or joint venture: U.K.
20Q	ges in accounting policies
21	
22	
23	To justify changing its accounting policies for insurance contracts, an insurer shall show that the change brings its financial statements closer to meeting the criteria in IAS 8, but the change need not achieve full compliance with those criteria. The following specific issues are discussed below: U.K.
Curre	nt market interest rates
	nuation of existing practices
25	An insurer may continue the following practices, but the introduction of any of them does not satisfy paragraph 22: U.K.
Prude	nce
26	
Future	e investment margins
27	An insurer need not change its accounting policies for insurance contracts to eliminate future investment margins. However, there is a rebuttable presumption that an insurer's financial statements will become less relevant and reliable if it introduces an accounting policy that reflects future investment margins in the measurement of insurance contracts, unless those margins affect the contractual payments. Two examples of accounting policies that reflect those margins are: U.K.
28	An insurer may overcome the rebuttable presumption described in paragraph 27 if, and only if, the other components of a change in accounting policies increase the relevance and reliability of its financial statements sufficiently to outweigh the decrease in

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

relevance and reliability caused by the inclusion of future investment margins. For example, suppose that an insurer's existing accounting policies for insurance contracts involve excessively prudent assumptions set at inception and a discount rate prescribed by a regulator without direct reference to market conditions, and ignore some embedded options and guarantees. The insurer might make its financial statements more relevant and no less reliable by switching to a comprehensive investor-oriented basis of accounting that is widely used and involves: U.K.

29 Shadow accounting
30
To comply with IFRS 3, an insurer shall, at the acquisition date, measure at fair value the insurance liabilities assumed and <i>insurance assets</i> acquired in a business combination. However, an insurer is permitted, but not required, to use an expanded presentation that splits the fair value of acquired insurance contracts into two components: U.K.
32
33 Discretionary participation features
Discretionary participation features in insurance contracts
Some insurance contracts contain a discretionary participation feature as well as a guaranteed element. The issuer of such a contract: U.K.
Discretionary participation features in financial instruments
The requirements in paragraph 34 also apply to a financial instrument that contains a discretionary participation feature. In addition: U.K.
35A PRESENTATION
The overlay approach

35B	An insurer is permitted, but not required, to apply the overlay approach to designated financial assets. An insurer that applies the overlay approach shall: U.K.
35C	An insurer may elect to apply the overlay approach described in paragraph 35B only when it first applies IFRS 9, including when it first applies IFRS 9 after previously applying: U.K.
35D	An insurer shall present the amount reclassified between profit or loss and other comprehensive income applying the overlay approach: U.K.
35E	A financial asset is eligible for designation for the overlay approach if, and only if, the following criteria are met: U.K.
35F	An insurer may designate an eligible financial asset for the overlay approach when it elects to apply the overlay approach (see paragraph 35C). Subsequently, it may designate an eligible financial asset for the overlay approach when, and only when: U.K.
35G	
35H	When relevant, for the purposes of applying the overlay approach to a newly designated financial asset applying paragraph 35F(b): U.K.
35I	An entity shall continue to apply the overlay approach to a designated financial asset until that financial asset is derecognised. However, an entity: U.K.

Explanation of recognised amounts	
36	
37	To comply with paragraph 36, an insurer shall disclose: U.K.
 Nature	and extent of risks arising from insurance contracts
38	
39	To comply with paragraph 38, an insurer shall disclose: U.K.
39A	To comply with paragraph 39(c)(i), an insurer shall disclose either (a) or (b) as follows: U.K.
 Disclo	sures about the temporary exemption from IFRS 9
39B	An insurer that elects to apply the temporary exemption from IFRS 9 shall disclose information to enable users of financial statements: U.K.
39C	To comply with paragraph 39B(a), an insurer shall disclose the fact that it is applying the temporary exemption from IFRS 9 and how the insurer concluded on the date specified in paragraph 20B(b) that it qualifies for the temporary exemption from IFRS 9, including: U.K.
39D	If, applying paragraph 20G(a), an entity concludes that its activities are no longer predominantly connected with insurance, it shall disclose the following information in each reporting period before it begins to apply IFRS 9:
39E	To comply with paragraph 39B(b), an insurer shall disclose the fair value at the end of the reporting period and the amount of change in the fair value during that period for the following two groups of financial assets separately: U.K.
 39F	When disclosing the information in paragraph 39E, the insurer: U.K.
39G	To comply with paragraph 39B(b), an insurer shall disclose information about the credit risk exposure, including significant credit risk concentrations, inherent in the financial assets described in paragraph 39E(a). At a minimum, an insurer shall disclose the following information for those financial assets at the end of the reporting period:

39H	
39I	
39J	If an entity applied the temporary exemption from IFRS 9 when accounting for its investment in an associate or joint venture using the equity method (for example, see paragraph 20O(a)), the entity shall disclose the following, in addition to the information required by IFRS 12 <i>Disclosure of Interests in Other Entities</i> : U.K.
Disclos	sures about the overlay approach
39K	users of financial statements to understand: U.K.
39L	To comply with paragraph 39K, an insurer shall disclose: U.K.
39M	If an entity applied the overlay approach when accounting for its investment in an associate or joint venture using the equity method, the entity shall disclose the following, in addition to the information required by IFRS 12: U.K.

Non-current assets held for sale and discontinued operations

OBJECTIVE		
1	The objective of this IFRS is to specify the accounting for assets held for sale, and the presentation and disclosure of <i>discontinued operations</i> . In particular, the IFRS requires: U.K.	
SCOPE		
2		
3		
4		
5	The measurement provisions of this IFRS do not apply to the following assets, which are covered by the IFRSs listed, either as individual assets or as part of a disposal group: U.K.	
5A		
5B	This IFRS specifies the disclosures required in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations. Disclosures in other IFRSs do not apply to such assets (or disposal groups) unless those IFRSs require: U.K.	
	FICATION OF NON-CURRENT ASSETS (OR DISPOSAL GROUPS) AS HELD LE OR AS HELD FOR DISTRIBUTION TO OWNERS

19 Recogn	nition of impairment losses and reversals
20	
21	
22	An entity shall recognise a gain for any subsequent increase in fair value less costs to sell of a disposal group: U.K.
23	
24	A gain or loss not previously recognised by the date of the sale of a non-current asset (or disposal group) shall be recognised at the date of derecognition. Requirements relating to derecognition are set out in: U.K.
25 Chang	es to a plan of sale or to a plan of distribution to owners
26	
26A	If an entity reclassifies an asset (or disposal group) directly from being held for sale to being held for distribution to owners, or directly from being held for distribution to owners to being held for sale, then the change in classification is considered a continuation of the original plan of disposal. The entity: U.K.
 27	The entity shall measure a non-current asset (or disposal group) that ceases to be classified as held for sale or as held for distribution to owners (or ceases to be included

	in a disposal group classified as held for sale or as held for distribution to owners) at the lower of: U.K.
28	
29 PRESE	ENTATION AND DISCLOSURE
30	ting discontinued operations
 31	
32	A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale, and: U.K.
33	An entity shall disclose: U.K.
33A	
34	
35	Adjustments in the current period to amounts previously presented in discontinued operations that are directly related to the disposal of a discontinued operation in a prior period shall be classified separately in discontinued operations. The nature and amount of such adjustments shall be disclosed. Examples of circumstances in which these adjustments may arise include the following: U.K.
36	
36A Gains c	or losses relating to continuing operations
37 Present	ration of a non-current asset or disposal group classified as held for sale
38

Application supplement

EXTENSION OF THE PERIOD REQUIRED TO COMPLETE A SALE B1 As noted in paragraph 9, an extension of the period required to complete a sale does not preclude an asset (or disposal group) from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset (or disposal group). An exception to the one-year requirement in paragraph 8 shall therefore apply in the following situations in which such events or circumstances arise: U.K.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

INTERNATIONAL FINANCIAL REPORTING STANDARD 7 U.K.

Financial instruments: disclosures

OBJECT	OBJECTIVE	
1	The objective of this IFRS is to require entities to provide disclosures in their financial statements that enable users to evaluate: U.K.	
2 SCOPE		
3	This IFRS shall be applied by all entities to all types of financial instruments, except:	
4		
5		
5A CLASSI	ES OF FINANCIAL INSTRUMENTS AND LEVEL OF DISCLOSURE	
6 SIGNIF PERFOI	CANCE OF FINANCIAL INSTRUMENTS FOR FINANCIAL POSITION AND RMANCE	
7	nt of financial position	
Categori	es of financial assets and financial liabilities	
8	The carrying amounts of each of the following categories, as specified in IFRS 9, shall be disclosed either in the statement of financial position or in the notes: U.K.	
Financia	al assets or financial liabilities at fair value through profit or loss	
9	If the entity has designated as measured at fair value through profit or loss a financial asset (or group of financial assets) that would otherwise be measured at fair value through other comprehensive income or amortised cost, it shall disclose: U.K.	

10	If the entity has designated a financial liability as at fair value through profit or loss in accordance with paragraph 4.2.2 of IFRS 9 and is required to present the effects of changes in that liability's credit risk in other comprehensive income (see paragraph 5.7.7 of IFRS 9), it shall disclose: U.K.
10A	If an entity has designated a financial liability as at fair value through profit or loss in accordance with paragraph 4.2.2 of IFRS 9 and is required to present all changes in the fair value of that liability (including the effects of changes in the credit risk of the liability) in profit or loss (see paragraphs 5.7.7 and 5.7.8 of IFRS 9), it shall disclose: U.K.
11	The entity shall also disclose: U.K.
Investme	ents in equity instruments designated at fair value through other comprehensive income
11A	If an entity has designated investments in equity instruments to be measured at fair value through other comprehensive income, as permitted by paragraph 5.7.5 of IFRS 9, it shall disclose: U.K.
11B	If an entity derecognised investments in equity instruments measured at fair value through other comprehensive income during the reporting period, it shall disclose: U.K.
Reclassi	fication
12-12A	
12B	An entity shall disclose if, in the current or previous reporting periods, it has reclassified any financial assets in accordance with paragraph 4.4.1 of IFRS 9. For each such event, an entity shall disclose: U.K.
12C	For each reporting period following reclassification until derecognition, an entity shall disclose for assets reclassified out of the fair value through profit or loss category so that they are measured at amortised cost or fair value through other comprehensive income in accordance with paragraph 4.4.1 of IFRS 9: U.K.
12D	If, since its last annual reporting date, an entity has reclassified financial assets out of the fair value through other comprehensive income category so that they are measured at amortised cost or out of the fair value through profit or loss category so that they are measured at amortised cost or fair value through other comprehensive income it shall disclose: U.K.

Derecog	
13	An entity may have transferred financial assets in such a way that part or all of the financial assets do not qualify for derecognition (see paragraphs 15-37 of IAS 39). The entity shall disclose for each class of such financial assets:
	ng financial assets and financial liabilities
13A	
13B	
13C	To meet the objective in paragraph 13B, an entity shall disclose, at the end of the reporting period, the following quantitative information separately for recognised financial assets and recognised financial liabilities that are within the scope of paragraph 13A: U.K.
 13D	
13E	•••••
13F Collatera	al
14	An entity shall disclose: U.K.
15	When an entity holds collateral (of financial or non-financial assets) and is permitted to sell or repledge the collateral in the absence of default by the owner of the collateral, it shall disclose: U.K.
Allowan	ce account for credit losses
16	
16A Compou	nd financial instruments with multiple embedded derivatives
17 Defaults	and breaches

18	For <i>loans payable</i> recognised at the end of the reporting period, an entity shall disclose: U.K.
19 Statem	ent of comprehensive income
	f income, expense, gains or losses
20	An entity shall disclose the following items of income, expense, gains or losses either in the statement of comprehensive income or in the notes: U.K.
20A Other o	disclosures
	nting policies
21 Hedge	accounting
21A	An entity shall apply the disclosure requirements in paragraphs 21B–24F for those risk exposures that an entity hedges and for which it elects to apply hedge accounting. Hedge accounting disclosures shall provide information about: U.K.
21B	
21C	
21D The ris	k management strategy
 22	
22A	An entity shall explain its risk management strategy for each risk category of risk exposures that it decides to hedge and for which hedge accounting is applied. This explanation should enable users of financial statements to evaluate (for example): U.K.
22B	To meet the requirements in paragraph 22A, the information should include (but is not limited to) a description of: U.K.

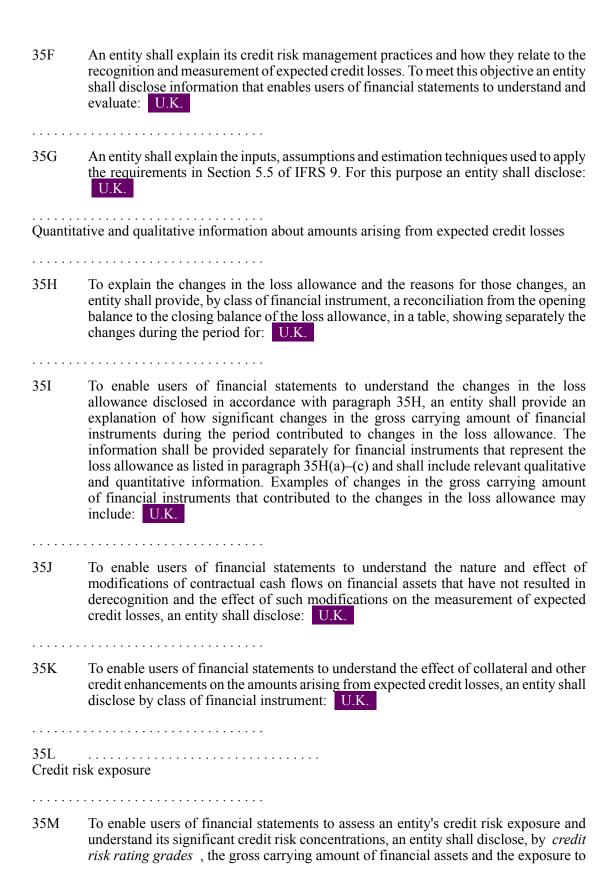

22C	When an entity designates a specific risk component as a hedged item (see paragraph 6.3.7 of IFRS 9) it shall provide, in addition to the disclosures required by paragraphs 22A and 22B, qualitative or quantitative information about:
The an	nount, timing and uncertainty of future cash flows
23	
23A	
23B	To meet the requirement in paragraph 23A, an entity shall provide a breakdown that discloses: U.K.
23C	In situations in which an entity frequently resets (ie discontinues and restarts) hedging relationships because both the hedging instrument and the hedged item frequently change (ie the entity uses a dynamic process in which both the exposure and the hedging instruments used to manage that exposure do not remain the same for long—such as in the example in paragraph B6.5.24(b) of IFRS 9) the entity:
23D	
23E	
	fects of hedge accounting on financial position and performance
24	
24A	An entity shall disclose, in a tabular format, the following amounts related to items designated as hedging instruments separately by risk category for each type of hedge (fair value hedge, cash flow hedge or hedge of a net investment in a foreign operation): U.K.
24B	An entity shall disclose, in a tabular format, the following amounts related to hedged items separately by risk category for the types of hedges as follows: U.K.
24C	An entity shall disclose, in a tabular format, the following amounts separately by risk category for the types of hedges as follows:
24D	
24E	An entity shall provide a reconciliation of each component of equity and an analysis
27L	of other comprehensive income in accordance with IAS 1 that, taken together: U.K.

24F Option	to designate a credit exposure as measured at fair value through profit or loss
24G	If an entity designated a financial instrument, or a proportion of it, as measured at fair value through profit or loss because it uses a credit derivative to manage the credit risk of that financial instrument it shall disclose: U.K.
Uncerta	inty arising from interest rate benchmark reform
24H	For hedging relationships to which an entity applies the exceptions set out in paragraphs 6.8.4–6.8.12 of IFRS 9 or paragraphs 102D–102N of IAS 39, an entity shall disclose: U.K.
Fair val	ue
25	
26	
27	
27A	To make the disclosures required by paragraph 27B an entity shall classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy shall have the following levels: U.K.
27B	For fair value measurements recognised in the statement of financial position an entity shall disclose for each class of financial instruments: U.K.
28	In some cases, an entity does not recognise a gain or loss on initial recognition of a financial asset or financial liability because the fair value is neither evidenced by a quoted price in an active market for an identical asset or liability (ie a Level 1 input) nor based on a valuation technique that uses only data from observable markets (see paragraph B5.1.2 A of IFRS 9). In such cases, the entity shall disclose by class of financial asset or financial liability: U.K.
29	Disclosures of fair value are not required: U.K.
30	In the case described in paragraph 29(c), an entity shall disclose information to help users of the financial statements make their own judgements about the extent of

	possible differences between the carrying amount of those contracts and their fair value, including: U.K.
NATUR	E AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS
31	
32	
32A Qualitat	ive disclosures
33	For each type of risk arising from financial instruments, an entity shall disclose: U.K.
Quantita	ative disclosures
34	For each type of risk arising from financial instruments, an entity shall disclose: U.K.
35 Credit ri	isk nd objectives
35A	An entity shall apply the disclosure requirements in paragraphs 35F–35N to financial instruments to which the impairment requirements in IFRS 9 are applied. However: U.K.
35B	The credit risk disclosures made in accordance with paragraphs 35F–35N shall enable users of financial statements to understand the effect of credit risk on the amount, timing and uncertainty of future cash flows. To achieve this objective, credit risk disclosures shall provide: U.K.
35C	
35D	
35E The cred	dit risk management practices

ANNEX

Document Generated: 2024-04-09

	credit risk on loan commitments and financial guarantee contracts. This information shall be provided separately for financial instruments: U.K.
35N	
36	For all financial instruments within the scope of this IFRS, but to which the impairment requirements in IFRS 9 are not applied, an entity shall disclose by class of financial instrument: U.K.
	ial assets that are either past due or impaired
37	eral and other credit enhancements obtained
38	When an entity obtains financial or non-financial assets during the period by taking possession of collateral it holds as security or calling on other credit enhancements (eg guarantees), and such assets meet the recognition criteria in other IFRSs, an entity shall disclose for such assets held at the reporting date:
 Liquid	ity risk
	An entity shall disclose: U.K.
 Marke	t risk
	vity analysis
40	Unless an entity complies with paragraph 41, it shall disclose: U.K.
41	If an entity prepares a sensitivity analysis, such as value-at-risk, that reflects interdependencies between risk variables (e.g. interest rates and exchange rates) and uses it to manage financial risks, it may use that sensitivity analysis in place of the analysis specified in paragraph 40. The entity shall also disclose: U.K.
Other 1	market risk disclosures
42 TRAN	SFERS OF FINANCIAL ASSETS

42A	The disclosure requirements in paragraphs 42B–42H relating to transfers of financial assets supplement the other disclosure requirements of this IFRS. An entity shall present the disclosures required by paragraphs 42B–42H in a single note in its financial statements. An entity shall provide the required disclosures for all transferred financial assets that are not derecognised and for any continuing involvement in a transferred asset, existing at the reporting date, irrespective of when the related transfer transaction occurred. For the purposes of applying the disclosure requirements in those paragraphs, an entity transfers all or a part of a financial asset (the transferred financial asset), if, and only if, it either:
42B	An entity shall disclose information that enables users of its financial statements: U.K.
42C	For the purposes of applying the disclosure requirements in paragraphs 42E–42H, an entity has continuing involvement in a transferred financial asset if, as part of the transfer, the entity retains any of the contractual rights or obligations inherent in the transferred financial asset or obtains any new contractual rights or obligations relating to the transferred financial asset. For the purposes of applying the disclosure requirements in paragraphs 42E–42H, the following do not constitute continuing involvement:
Transfe	erred financial assets that are not derecognised in their entirety
42D	An entity may have transferred financial assets in such a way that part or all of the transferred financial assets do not qualify for derecognition. To meet the objectives set out in paragraph 42B(a), the entity shall disclose at each reporting date for each class of transferred financial assets that are not derecognised in their entirety: U.K.
Transfe	erred financial assets that are derecognised in their entirety
42E	To meet the objectives set out in paragraph 42B(b), when an entity derecognises transferred financial assets in their entirety (see paragraph 3.2.6(a) and (c)(i) of IFRS 9) but has continuing involvement in them, the entity shall disclose, as a minimum, for each type of continuing involvement at each reporting date: U.K.
42F 42G	In addition, an entity shall disclose for each type of continuing involvement: U.K.
	mentary information
Supple	mentary information
42H	

INITIA	AL APPLICATION OF IFRS 9
42I	In the reporting period that includes the date of initial application of IFRS 9, the entity shall disclose the following information for each class of financial assets and financial liabilities as at the date of initial application:
42J	In the reporting period that includes the date of initial application of IFRS 9, an entity shall disclose qualitative information to enable users to understand: U.K.
42K	
42L	When required by paragraph 42K, an entity shall disclose the changes in the classifications of financial assets and financial liabilities as at the date of initial application of IFRS 9, showing separately: U.K.
42M	When required by paragraph 42K, an entity shall disclose the following for financial assets and financial liabilities that have been reclassified so that they are measured a amortised cost and, in the case of financial assets, that have been reclassified out of fair value through profit or loss so that they are measured at fair value through other comprehensive income, as a result of the transition to IFRS 9:
42N	When required by paragraph 42K, an entity shall disclose the following for financial assets and financial liabilities that have been reclassified out of the fair value through profit or loss category as a result of the transition to IFRS 9: U.K.
420	When an entity presents the disclosures set out in paragraphs 42K–42N, those disclosures, and the disclosures in paragraph 25 of this IFRS, must permit reconciliation between: U.K.
42P	
42Q	In the reporting period that includes the date of initial application of IFRS 9, an entity is not required to disclose the line item amounts that would have been reported in accordance with the classification and measurement requirements (which includes the requirements related to amortised cost measurement of financial assets and impairment in Sections 5.4 and 5.5 of IFRS 9) of: U.K.

Appendix B U.K.

Application Guidance

Application Guidance	
CLASSES OF FINANCIAL INSTRUMENTS AND LEVEL OF DISCLOSI (PARAGRAPH 6)	JRE
B1	
B2 In determining classes of financial instrument, an entity shall, at a minimum:	K.
B3	ND
Financial liabilities at fair value through profit or loss (paragraphs 10 and 11)	
B4	
Paragraph 21 requires disclosure of the measurement basis (or bases) used in preparathe financial statements and the other accounting policies used that are relevant to understanding of the financial statements. For financial instruments, such disclosure of the measurement basis (or bases) used in preparathe understanding of the financial statements. For financial instruments, such disclosure of the measurement basis (or bases) used in preparathe understanding of the financial statements.	o an
NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUME (PARAGRAPHS 31-42)	NTS
B6	
B7	
Paragraph 34(c) requires disclosures about concentrations of risk. Concentration of risk arise from financial instruments that have similar characteristics and affected similarly by changes in economic or other conditions. The identification concentrations of risk requires judgement taking into account the circumstances of entity. Disclosure of concentrations of risk shall include: U.K.	are
Credit risk management practices (paragraphs 35F–35G)	

B8A	Paragraph 35F(b) requires the disclosure of information about how an entity has defined default for different financial instruments and the reasons for selecting those definitions. In accordance with paragraph 5.5.9 of IFRS 9, the determination of whether lifetime expected credit losses should be recognised is based on the increase in the risk of a default occurring since initial recognition. Information about an entity's definitions of default that will assist users of financial statements in understanding how an entity has applied the expected credit loss requirements in IFRS 9 may include: U.K.
B8B	
B8C Changes	in the loss allowance (paragraph 35H)
B8D	In accordance with paragraph 35H, an entity is required to explain the reasons for the changes in the loss allowance during the period. In addition to the reconciliation from the opening balance to the closing balance of the loss allowance, it may be necessary to provide a narrative explanation of the changes. This narrative explanation may include an analysis of the reasons for changes in the loss allowance during the period, including: U.K.
B8E Collatera	al (paragraph 35K)
B8F	
B8G	A narrative description of collateral and its effect on amounts of expected credit losses might include information about: U.K.
	sk exposure (paragraphs 35M–35N)
B8H	
B8I	
B8J Maximu	m credit risk exposure (paragraph 36(a))
В9	Paragraphs 35K(a) and 36(a) require disclosure of the amount that best represents the entity's maximum exposure to credit risk. For a financial asset, this is typically the gross carrying amount, net of:

B10	Activities that give rise to credit risk and the associated maximum exposure to credit risk include, but are not limited to: U.K.
Quantit	ative liquidity risk disclosures (paragraphs 34(a) and 39(a) and (b))
B10A	In accordance with paragraph 34(a) an entity discloses summary quantitative data about its exposure to liquidity risk on the basis of the information provided internally to key management personnel. An entity shall explain how those data are determined. If the outflows of cash (or another financial asset) included in those data could either: U.K.
B11	In preparing the maturity analyses required by paragraph 39(a) and (b) an entity uses its judgement to determine an appropriate number of time bands. For example, an entity might determine that the following time bands are appropriate: U.K.
B11A	
B11B	Paragraph 39(b) requires an entity to disclose a quantitative maturity analysis for derivative financial liabilities that shows remaining contractual maturities if the contractual maturities are essential for an understanding of the timing of the cash flows. For example, this would be the case for: U.K.
B11C	Paragraph 39(a) and (b) requires an entity to disclose maturity analyses for financial liabilities that show the remaining contractual maturities for some financial liabilities. In this disclosure: U.K.
B11D	The contractual amounts disclosed in the maturity analyses as required by paragraph 39(a) and (b) are the contractual undiscounted cash flows, for example: U.K.
B11E	
B11F	Other factors that an entity might consider in providing the disclosure required in paragraph 39(c) include, but are not limited to, whether the entity: U.K.
B12	
B13	
B14	The amounts disclosed in the maturity analysis are the contractual undiscounted cash flows, for example: U.K.
 R15	

B16 Market	risk — sensitivity analysis (paragraphs 40 and 41)
B17	Paragraph 40(a) requires a sensitivity analysis for each type of market risk to which the entity is exposed. In accordance with paragraph B3, an entity decides how it aggregates information to display the overall picture without combining information with different characteristics about exposures to risks from significantly different economic environments. For example: U.K.
B18	Paragraph 40(a) requires the sensitivity analysis to show the effect on profit or loss and equity of reasonably possible changes in the relevant risk variable (e.g. prevailing market interest rates, currency rates, equity prices or commodity prices). For this purpose: U.K.
B19	In determining what a reasonably possible change in the relevant risk variable is, an entity should consider: U.K.
B20	
B21 Interest	rate risk
B22 Currence	y risk
B23	
B24 Other pr	rice risk
B25	
B26	
B27	
B28 DEREC	OGNITION (PARAGRAPHS 42C–42H)
Continu	ing involvement (paragraph 42C)
B29	

B30	
B30A	
B31 Transfer	red financial assets that are not derecognised in their entirety
B32 Types of	continuing involvement (paragraphs 42E–42H)
B33 Maturity 42E(e))	analysis for undiscounted cash outflows to repurchase transferred assets (paragraph
B34	
B35	An entity shall use its judgement to determine an appropriate number of time bands in preparing the maturity analysis required by paragraph 42E(e). For example, an entity might determine that the following maturity time bands are appropriate: U.K.
B36 Qualitati	ve information (paragraph 42E(f))
B37	The qualitative information required by paragraph 42E(f) includes a description of the derecognised financial assets and the nature and purpose of the continuing involvement retained after transferring those assets. It also includes a description of the risks to which an entity is exposed, including: U.K.
Gain or l	loss on derecognition (paragraph 42G(a))
B38 Supplem	entary information (paragraph 42H)

INTERNATIONAL FINANCIAL REPORTING STANDARD 8 U.K.

Operating segments

CORI	E PRINCIPLE
1 SCOF	PE
2	This IFRS shall apply to: U.K.
3	
4 OPER	AATING SEGMENTS
5	An operating segment is a component of an entity: U.K.
 6	
7	
8	
9	
10 REPC	ORTABLE SEGMENTS
11	An entity shall report separately information about each operating segment that: U.K.
Aggre	egation criteria
12	Operating segments often exhibit similar long-term financial performance if they have similar economic characteristics. For example, similar long-term average gross margins for two operating segments would be expected if their economic characteristics were similar. Two or more operating segments may be aggregated into a single operating segment if aggregation is consistent with the core principle of this IFRS, the segments have similar economic characteristics, and the segments are similar in each of the following respects: U.K.
Quant	itative thresholds

13	An entity shall report separately information about an operating segment that meets any of the following quantitative thresholds: U.K.	
14		
15		
16		
17		
18		
19 DISCLO	OSURE	
20		
21	To give effect to the principle in paragraph 20, an entity shall disclose the following for each period for which a statement of comprehensive income is presented: U.K.	
General information		
	······	
22	An entity shall disclose the following general information: U.K.	
Information about profit or loss, assets and liabilities		
23	An entity shall report a measure of profit or loss for each reportable segment. An entity shall report a measure of total assets and liabilities for each reportable segment if such amounts are regularly provided to the chief operating decision maker. An entity shall also disclose the following about each reportable segment if the specified amounts are included in the measure of segment profit or loss reviewed by the chief operating decision maker, or are otherwise regularly provided to the chief operating decision maker even if not included in that measure of segment profit or loss: U.K.	
24	An entity shall disclose the following about each reportable segment if the specified amounts are included in the measure of segment assets reviewed by the chief operating decision maker or are otherwise regularly provided to the chief operating decision maker, even if not included in the measure of segment assets: U.K.	
MEASUREMENT		
25		

26	
27	An entity shall provide an explanation of the measurements of segment profit or loss segment assets and segment liabilities for each reportable segment. At a minimum, are entity shall disclose the following: U.K.
Reconci	liations
28	An entity shall provide reconciliations of all of the following: U.K.
	nent of previously reported information
 29	
	Y-WIDE DISCLOSURES
31 Informat	tion about products and services
32 Informat	tion about geographical areas
33	An entity shall report the following geographical information, unless the necessary information is not available and the cost to develop it would be excessive: U.K.
Informat	tion about major customers

INTERNATIONAL FINANCIAL REPORTING STANDARD 9 U.K.

Financial Instruments

	CHAPTER 1 U.K.
	Objective
1.1.	
	CHAPTER 2 U.K.
	Scope
2.1.	
2.2.	
2.3.	
2.4.	
2.5.	
2.6.	
2.7.	
	CHAPTER 3 U.K.
	Recognition and derecognition
3.1	INITIAL RECOGNITION U.K.
3.1.1. Regula	r way purchase or sale of financial assets
3.1.2.	
3.1.2.	DERECOGNITION OF FINANCIAL ASSETS U.K.
	DERECOGNITION OF FINANCIAL ASSETS U.K.
3.2.1.	
3.2.2.	Before evaluating whether, and to what extent, derecognition is appropriate
	under paragraphs 3.2.3–3.2.9, an entity determines whether those paragraphs should be applied to a part of a financial asset (or a part of a group of similar financial assets) or a financial asset (or a group of similar financial assets) in its entirety, as follows. U.K.

3.2.3.	An entity shall derecognise a financial asset when, and only when: U.K.
3.2.4.	
3.2.5.	When an entity retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), the entity treats the transaction as a transfer of a financial asset if, and only if, all of the following three conditions are met. U.K.
3.2.6.	When an entity transfers a financial asset (see paragraph 3.2.4), it shall evaluate the extent to which it retains the risks and rewards of ownership of the financial asset. In this case: U.K.
3.2.7.	
3.2.8.	
3.2.9. Transfer	rs that qualify for derecognition
3.2.10.	
3.2.11.	
3.2.12.	On derecognition of a financial asset in its entirety, the difference between: U.K.
3.2.13.	If the transferred asset is part of a larger financial asset (eg when an entity transfers interest cash flows that are part of a debt instrument, see paragraph 3.2.2(a)) and the part transferred qualifies for derecognition in its entirety, the previous carrying amount of the larger financial asset shall be allocated between the part that continues to be recognised and the part that is derecognised, on the basis of the relative fair values of those parts on the date of the transfer. For this purpose, a retained servicing asset shall be treated as a part that continues to be recognised. The difference between: U.K.
3.2.14.	rs that do not qualify for derecognition
3.2.15. Continu	ing involvement in transferred assets

ANNEX CHAPTER 3
Document Generated: 2024-04-09

3.2.16.	If an entity neither transfers nor retains substantially all the risks and rewards of ownership of a transferred asset, and retains control of the transferred asset, the entity continues to recognise the transferred asset to the extent of its continuing involvement. The extent of the entity's continuing involvement in the transferred asset is the extent to which it is exposed to changes in the value of the transferred asset. For example: U.K.
3.2.17.	When an entity continues to recognise an asset to the extent of its continuing involvement, the entity also recognises an associated liability. Despite the other measurement requirements in this Standard, the transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the entity has retained. The associated liability is measured in such a way that the net carrying amount of the transferred asset and the associated liability is: U.K.
3.2.18.	
3.2.19.	
3.2.20.	If an entity's continuing involvement is in only a part of a financial asset (eg when an entity retains an option to repurchase part of a transferred asset, or retains a residual interest that does not result in the retention of substantially all the risks and rewards of ownership and the entity retains control), the entity allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. For this purpose, the requirements of paragraph 3.2.14 apply. The difference between:
3.2.21. All trans	rfers
3.2.22.	
3.2.23.	If a transferor provides non-cash collateral (such as debt or equity instruments) to the transferee, the accounting for the collateral by the transferor and the transferee depends on whether the transferee has the right to sell or repledge the collateral and on whether the transferor has defaulted. The transferor and transferee shall account for the collateral as follows: U.K.
3.3	DERECOGNITION OF FINANCIAL LIABILITIES U.K.
3.3.1.	

ANNEX CHAPTER 4

Document Generated: 2024-04-09

3.3.2.	
3.3.3.	
3.3.4.	
	CHAPTER 4 U.K.
	Classification
4.1	CLASSIFICATION OF FINANCIAL ASSETS U.K.
	Unless paragraph 4.1.5 applies, an entity shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:
	A financial asset shall be measured at amortised cost if both of the following conditions are met:
4.1.2 A	A financial asset shall be measured at fair value through other comprehensive income if both of the following conditions are met: U.K.
4.1.3.	For the purpose of applying paragraphs 4.1.2(b) and 4.1.2 A(b): U.K.
4.1.4.	to designate a financial asset at fair value through profit or loss
115	
4.2	CLASSIFICATION OF FINANCIAL LIABILITIES U.K.
4.2.1.	An entity shall classify all financial liabilities as subsequently measured at amortised cost, except for: U.K.
	to designate a financial liability at fair value through profit or loss
	An entity may, at initial recognition, irrevocably designate a financial liability as measured at fair value through profit or loss when permitted by paragraph 4.3.5, or when doing so results in more relevant information, because either: U.K.

4.3	EMBEDDED DERIVATIVES U.K.
•	contracts with financial asset hosts
4.3.2.	ybrid contracts
	If a hybrid contract contains a host that is not an asset within the scope of this Standard, an embedded derivative shall be separated from the host and accounted for as a derivative under this Standard if, and only if: U.K.
4.3.4.	
4.3.5.	Despite paragraphs 4.3.3 and 4.3.4, if a contract contains one or more embedded derivatives and the host is not an asset within the scope of this Standard, an entity may designate the entire hybrid contract as at fair value through profit or loss unless: U.K.
4.3.6.	
4.3.7.	
4.4	RECLASSIFICATION U.K.
4.4.1.	
4.4.2.	
4.4.3.	The following changes in circumstances are not reclassifications for the purposes of paragraphs 4.4.1–4.4.2: U.K.
	CHAPTER 5 U.K.
	Measurement
	INITIAL MEASUREMENT U.K.
5.1.1.	
5.1.1 A	

5.1.2.	
5.1.3.	
5.2	SUBSEQUENT MEASUREMENT OF FINANCIAL ASSETS U.K.
5.2.1.	After initial recognition, an entity shall measure a financial asset in accordance with paragraphs 4.1.1–4.1.5 at:
5.2.2.	
5.2.3.	
5.3	SUBSEQUENT MEASUREMENT OF FINANCIAL LIABILITIES U.K.
5.3.2.	
5.4	AMORTISED COST MEASUREMENT U.K.
	al assets
Effectiv	re interest method
	Interest revenue shall be calculated by using the <i>effective interest method</i> (see Appendix A and paragraphs B5.4.1–B5.4.7). This shall be calculated by applying the <i>effective interest rate</i> to the <i>gross carrying amount of a financial asset</i> except for: U.K.
5.4.2. Modific	eation of contractual cash flows
5.4.3. Write-o	ff
5.4.4.	
	IMPAIRMENT U.K.
Recogn	ition of expected credit losses

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

General approach	
5.5.1.	
5.5.2.	
5.5.3.	
5.5.4.	
5.5.5.	
5.5.6.	
5.5.7.	
	ning significant increases in credit risk
5.5.9.	
5.5.10.	
	d financial assets
5.5.12.	If the contractual cash flows on a financial asset have been renegotiated or modified and the financial asset was not derecognised, an entity shall assess whether there has been a significant increase in the credit risk of the financial instrument in accordance with paragraph 5.5.3 by comparing: U.K.
Purchase	ed or originated credit-impaired financial assets
5.5.13.	
1	ed approach for trade receivables, contract assets and lease receivables
	Despite paragraphs 5.5.3 and 5.5.5, an entity shall always measure the loss allowance at an amount equal to lifetime expected credit losses for: U.K.
	ment of expected credit losses
	An entity shall measure expected credit losses of a financial instrument in a way

that reflects: U.K.

5.5.18.	
5.5.19.	
5.5.20.	
5.6	RECLASSIFICATION OF FINANCIAL ASSETS U.K.
5.6.1.	
5.6.2.	
5.6.3.	
5.6.4.	
5.6.5.	
5.6.6.	
5.6.7.	
	GAINS AND LOSSES U.K.
5.7.1.	A gain or loss on a financial asset or financial liability that is measured at fair value shall be recognised in profit or loss unless: U.K.
	Dividends are recognised in profit or loss only when: U.K.
5.7.2.	
5.7.3.	
5.7.4. Investm	ents in equity instruments
5.7.5.	
5.7.6. Liabiliti	es designated as at fair value through profit or loss
	An entity shall present a gain or loss on a financial liability that is designated as at fair value through profit or loss in accordance with paragraph 4.2.2 or paragraph 4.3.5 as follows:

ANNEX CHAPTER 6
Document Generated: 2024-04-09

5.7.9. Assets n	neasured at fair value through other comprehensive income
5.7.10.	
5.7.11.	
	CHAPTER 6 U.K.
	Hedge accounting
6.1	OBJECTIVE AND SCOPE OF HEDGE ACCOUNTING U.K.
6.1.1.	
6.1.2.	
6.1.3.	
6.2	HEDGING INSTRUMENTS U.K.
	ng instruments
6.2.1.	
6.2.2.	
6.2.3. Designa	tion of hedging instruments
6.2.4.	A qualifying instrument must be designated in its entirety as a hedging instrument The only exceptions permitted are: U.K.
6.2.5.	An entity may view in combination, and jointly designate as the hedging instrument any combination of the following (including those circumstances in which the risk orisks arising from some hedging instruments offset those arising from others): U.K.
6.2.6.	
6.3	HEDGED ITEMS U.K.
	ng items

6.3.1.	A hedged item can be a recognised asset or liability, an unrecognised <i>firm</i> commitment, a forecast transaction or a net investment in a foreign operation. The hedged item can be: U.K.
6.3.2.	
6.3.3.	
6.3.4.	
6.3.5.	
6.3.6. Design	ation of hedged items
6.3.7.	An entity may designate an item in its entirety or a component of an item as the hedged item in a hedging relationship. An entire item comprises all changes in the cash flows or fair value of an item. A component comprises less than the entire fair value change or cash flow variability of an item. In that case, an entity may designate only the following types of components (including combinations) as hedged items:
6.4	
6.4.1.	
6.5	· · · · · · · · · · · · · · · · · · ·
6.5.1.	
6.5.2.	There are three types of hedging relationships: U.K.
6.5.3.	
6.5.4.	
6.5.5.	
6.5.6.	An entity shall discontinue hedge accounting prospectively only when the hedging relationship (or a part of a hedging relationship) ceases to meet the qualifying criteria (after taking into account any rebalancing of the hedging relationship, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised. For this purpose, the replacement or rollover of a hedging instrument into another hedging instrument is not an expiration or termination if such a replacement or rollover is part of, and consistent with, the

ANNEX CHAPTER 6
Document Generated: 2024-04-09

	entity's documented risk management objective. Additionally, for this purpose there is not an expiration or termination of the hedging instrument if: U.K.
	·····
6.5.7.	An entity shall apply: U.K.
Fair val	ue hedges
6.5.8.	As long as a fair value hedge meets the qualifying criteria in paragraph 6.4.1, the hedging relationship shall be accounted for as follows: U.K.
6.5.9.	
	ow hedges
6.5.11.	As long as a cash flow hedge meets the qualifying criteria in paragraph 6.4.1, the hedging relationship shall be accounted for as follows: U.K.
6.5.12.	When an entity discontinues hedge accounting for a cash flow hedge (see paragraphs 6.5.6 and 6.5.7(b)) it shall account for the amount that has been accumulated in the cash flow hedge reserve in accordance with paragraph 6.5.11(a) as follows: U.K.
	of a net investment in a foreign operation
	Hedges of a net investment in a foreign operation, including a hedge of a monetary item that is accounted for as part of the net investment (see IAS 21), shall be accounted for similarly to cash flow hedges: U.K.
6.5.14. Accoun	ting for the time value of options
	When an entity separates the intrinsic value and time value of an option contract and
0.3.13.	designates as the hedging instrument only the change in intrinsic value of the option (see paragraph 6.2.4(a)), it shall account for the time value of the option as follows (see paragraphs B6.5.29–B6.5.33): U.K.
	ting for the forward element of forward contracts and foreign currency basis spreads of l instruments

6.5.16.	
6.6	HEDGES OF A GROUP OF ITEMS U.K.
Eligibili	ty of a group of items as the hedged item
6.6.1.	A group of items (including a group of items that constitute a net position; see paragraphs B6.6.1–B6.6.8) is an eligible hedged item only if: U.K.
Designa	tion of a component of a nominal amount
6.6.2.	
6.6.3.	A layer component of an overall group of items (for example, a bottom layer) is eligible for hedge accounting only if: U.K.
Presenta	ation
6.6.5. Nil net _J	positions
6.6.6.	When the hedged item is a group that is a nil net position (ie the hedged items among themselves fully offset the risk that is managed on a group basis), an entity is permitted to designate it in a hedging relationship that does not include a hedging instrument, provided that: U.K.
6.7	OPTION TO DESIGNATE A CREDIT EXPOSURE AS MEASURED AT FAIR VALUE THROUGH PROFIT OR LOSS U.K.
 Eligibili	ty of credit exposures for designation at fair value through profit or loss
	If an entity uses a credit derivative that is measured at fair value through profit or loss to manage the credit risk of all, or a part of, a financial instrument (credit exposure) it may designate that financial instrument to the extent that it is so managed (ie all or a proportion of it) as measured at fair value through profit or loss if:
Accoun	ting for credit exposures designated at fair value through profit or loss

6.7.2.	
6.7.3.	An entity shall discontinue measuring the financial instrument that gave rise to the credit risk, or a proportion of that financial instrument, at fair value through profit or loss if: U.K.
6.7.4.	
6.8	TEMPORARY EXCEPTIONS FROM APPLYING SPECIFIC HEDGE ACCOUNTING REQUIREMENTS U.K.
6.8.1.	An entity shall apply paragraphs 6.8.4–6.8.12 and paragraphs 7.1.8 and 7.2.26(d) to all hedging relationships directly affected by interest rate benchmark reform. These paragraphs apply only to such hedging relationships. A hedging relationship is directly affected by interest rate benchmark reform only if the reform gives rise to uncertainties about: U.K.
6.8.2.	
6.8.3. Highly	probable requirement for cash flow hedges
6.8.4.	
Reclass	ifying the amount accumulated in the cash flow hedge reserve
6.8.5. Assessi	ng the economic relationship between the hedged item and the hedging instrument
6.8.6.	ating a component of an item as a hedged item
6.8.7.	
6.8.8. End of	application
6.8.9.	An entity shall prospectively cease applying paragraph 6.8.4 to a hedged item at the earlier of: U.K.
	An entity shall prospectively cease applying paragraph 6.8.5 at the earlier of: U.K.

	An entity shall prospectively cease applying paragraph 6.8.6: U.K

Defined terms		

Application guidance U.K.	
	(CHAPTER 2)
B2.1	
B2.2	
B2.3	
B2.4	
B2.5	Financial guarantee contracts may have various legal forms, such as a guarantee, some types of letter of credit, a credit default contract or an insurance contract. Their accounting treatment does not depend on their legal form. The following are examples of the appropriate treatment (see paragraph 2.1(e)):
B2.6 RECOG	NITION AND DERECOGNITION (CHAPTER 3)
Initial re	cognition (Section 3.1)
B3.1.1	
B3.1.2	The following are examples of applying the principle in paragraph 3.1.1: U.K.
	way purchase or sale of financial assets
B3.1.3	
B3.1.4	
B3.1.5	
B3.1.6 Derecogn	nition of financial assets (Section 3.2)
B3.2.1	The following flow chart illustrates the evaluation of whether and to what extent a financial asset is derecognised. U.K.
a financi	ments under which an entity retains the contractual rights to receive the cash flows of al asset, but assumes a contractual obligation to pay the cash flows to one or more s (paragraph 3.2.4(b))

B3.2.2	
B3.2.3 Evaluation	on of the transfer of risks and rewards of ownership (paragraph 3.2.6)
B3.2.4	Examples of when an entity has transferred substantially all the risks and rewards of ownership are: U.K.
B3.2.5	Examples of when an entity has retained substantially all the risks and rewards of ownership are: U.K.
B3.2.6 Evaluation	on of the transfer of control
B3.2.7	
B3.2.8	The transferee has the practical ability to sell the transferred asset only if the transferee can sell the transferred asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer. The critical question is what the transferee is able to do in practice, not what contractual rights the transferee has concerning what it can do with the transferred asset or what contractual prohibitions exist. In particular: U.K.
B3.2.9 Transfers	s that qualify for derecognition
	s that do not qualify for derecognition
B3.2.12 Continui	ng involvement in transferred assets
B3.2.13 All asset	s
(a)	
Assets m	easured at amortised cost

(b) Assets m	neasured at fair value
(c)	
(d)	
(e) All trans	fers
B3.2.15 Example	es
	The following examples illustrate the application of the derecognition principles of this Standard. U.K.
	This paragraph illustrates the application of the continuing involvement approach when the entity's continuing involvement is in a part of a financial asset. U.K.
	nition of financial liabilities (Section 3.3)

B3.3.7	In some cases, a creditor releases a debtor from its present obligation to make payments, but the debtor assumes a guarantee obligation to pay if the party assuming primary responsibility defaults. In these circumstances the debtor: U.K.
CLASSI	FICATION (CHAPTER 4)
Classific	ation of financial assets (Section 4.1)

	cy's business model for managing financial assets
B4.1.2	
B4.1.2 A	
B4.1.2B	An entity's business model for managing financial assets is a matter of fact and not merely an assertion. It is typically observable through the activities that the entity undertakes to achieve the objective of the business model. An entity will need to use judgement when it assesses its business model for managing financial assets and that assessment is not determined by a single factor or activity. Instead, the entity must consider all relevant evidence that is available at the date of the assessment. Such relevant evidence includes, but is not limited to:
A busine	ess model whose objective is to hold assets in order to collect contractual cash flows
B4.1.3	
B4.1.3 A	
B4.1.3B	
	ess model whose objective is achieved by both collecting contractual cash flows and nancial assets
B4.1.4 A	
B4.1.4B	
B4.1.4C Other bu	siness models
B4.1.5	
B4.1.6 Contract outstand	ual cash flows that are solely payments of principal and interest on the principal amounting

B4.1.9C	
B4.1.9D	
	ual terms that change the timing or amount of contractual cash flows
B4.1.10	
B4.1.11	The following are examples of contractual terms that result in contractual cash flows that are solely payments of principal and interest on the principal amount outstanding: U.K.
B4.1.12	Despite paragraph B4.1.10, a financial asset that would otherwise meet the condition in paragraphs 4.1.2(b) and 4.1.2 A(b) but does not do so only as a result of a contractual term that permits (or requires) the issuer to prepay a debt instrument or permits (or requires) the holder to put a debt instrument back to the issuer before maturity is eligible to be measured at amortised cost or fair value through other comprehensive income (subject to meeting the condition in paragraph 4.1.2(a) or the condition in paragraph 4.1.2 A(a)) if:
B4.1.12	A
B4.1.13	
B4.1.14	
B4.1.15	
B4.1.16	
B4.1.17	
B4.1.18	
B4.1.19 Contract	ually linked instruments

B4.1.20	
B4.1.21	In such transactions, a tranche has cash flow characteristics that are payments of principal and interest on the principal amount outstanding only if: U.K.
B4.1.22	
B4.1.23	
	The underlying pool of instruments may also include instruments that: U.K.
Option to (Sections	o designate a financial asset or financial liability as at fair value through profit or loss s 4.1 and 4.2)
	ion eliminates or significantly reduces an accounting mismatch
	The following examples show when this condition could be met. In all cases, an entity may use this condition to designate financial assets or financial liabilities as at fair value through profit or loss only if it meets the principle in paragraph 4.1.5 or 4.2.2(a): U.K.
B4.1.31	
	of financial liabilities or financial assets and financial liabilities is managed and its ance is evaluated on a fair value basis
B4.1.33	
B4.1.34	
B4.1.35	
	ed derivatives (Section 4.3)
R/ 3 1	

B4.3.2					
B4.3.3					
B4.3.4					
B4.3.5	The economic characteristics and risks of an embedded derivative are not closely related to the host contract (paragraph 4.3.3(a)) in the following examples. In these examples, assuming the conditions in paragraph 4.3.3(b) and (c) are met, an entity accounts for the embedded derivative separately from the host contract. U.K.				
B4.3.6					
B4.3.7					
B4.3.8	The economic characteristics and risks of an embedded derivative are closely related to the economic characteristics and risks of the host contract in the following examples. In these examples, an entity does not account for the embedded derivative separately from the host contract. U.K.				
Instrume	ents containing embedded derivatives				
	ment of embedded derivatives				
B4.3.12	Paragraph B4.3.11 does not apply to embedded derivatives in contracts acquired in: U.K.				
Reclassi	fication of financial assets (Section 4.4)				
Reclassi	fication of financial assets				
B4.4.1	Paragraph 4.4.1 requires an entity to reclassify financial assets if the entity changes its business model for managing those financial assets. Such changes are expected to be very infrequent. Such changes are determined by the entity's senior management as a result of external or internal changes and must be significant to the entity's operations and demonstrable to external parties. Accordingly, a change in an entity's business model will occur only when an entity either begins or ceases to perform an activity that is significant to its operations; for example, when the entity has acquired, disposed of or terminated a business line. Examples of a change in business model include the following: U.K.				

B4.4.2							
B4.4.3	The following are not changes in business model: U.K.						
MEASU	IREMENT (CHAPTER 5)						
	easurement (Section 5.1)						
B5.1.1							
B5.1.2							
B5.1.2 A	The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price (ie the fair value of the consideration given or received see also IFRS 13). If an entity determines that the fair value at initial recognition differs from the transaction price as mentioned in paragraph 5.1.1 A, the entity shall account for that instrument at that date as follows: U.K.						
	ent measurement (Sections 5.2 and 5.3)						
B5.2.1							
B5.2.2							
B5.2.2 A							
	ents in equity instruments and contracts on those investments						
B5.2.3							
B5.2.4							
B5.2.5							
B5.2.6 Amortis	ed cost measurement (Section 5.4)						
Effective	e interest method						
B5.4.1							
B5.4.2	Fees that are an integral part of the effective interest rate of a financial instrument include: U.K.						

	Fees that are not an integral part of the effective interest rate of a financial instrument and are accounted for in accordance with IFRS 15 include: U.K.					
B5.4.4						
B5.4.5						
B5.4.6						
B5.4.7 Transact	ion costs					
B5.4.8 Write-of						
B5.4.9 Impairm	ent (Section 5.5)					
	ve and individual assessment basis					
B5.5.1						
B5.5.2						
B5.5.3						
B5.5.4						
B5.5.5	For the purpose of determining significant increases in credit risk and recognising a loss allowance on a collective basis, an entity can group financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis. The entity should not obscure this information by grouping financial instruments with different risk characteristics. Examples of shared credit risk characteristics may include, but are not limited to, the: U.K.					
	of recognising lifetime expected credit losses					
B5.5.7						
B5.5.8						
B5.5.9						
B5.5.10						

B5.5.11	
B5.5.12	An entity may apply various approaches when assessing whether the credit risk on a financial instrument has increased significantly since initial recognition or when measuring expected credit losses. An entity may apply different approaches for different financial instruments. An approach that does not include an explicit probability of default as an input per se, such as a credit loss rate approach, can be consistent with the requirements in this Standard, provided that an entity is able to separate the changes in the risk of a default occurring from changes in other drivers of expected credit losses, such as collateral, and considers the following when making the assessment:
D. 5.12	
B5.5.14	However, for some financial instruments, or in some circumstances, it may not be appropriate to use changes in the risk of a default occurring over the next 12 months to determine whether lifetime expected credit losses should be recognised. For example, the change in the risk of a default occurring in the next 12 months may not be a suitable basis for determining whether credit risk has increased on a financial instrument with a maturity of more than 12 months when: U.K.
Determin	ning whether credit risk has increased significantly since initial recognition
B5.5.15	
B5.5.16	
B5.5.17	The following non-exhaustive list of information may be relevant in assessing changes in credit risk: U.K.
	an 30 days past due rebuttable presumption
B5.5.19	
B5.5.20	
B5.5.21 Financia	l instruments that have low credit risk at the reporting date
B5.5.22	
B5.5.23	
B5.5.24 Modifica	ations

B5.5.25	
B5.5.26	
	ment of expected credit losses
	d credit losses
B5.5.28	
	For financial assets, a credit loss is the present value of the difference between: U.K.
B5.5.30	For undrawn loan commitments, a credit loss is the present value of the difference between: U.K.
B5.5.34	
	on of default
B5.5.36	
	ver which to estimate expected credit losses
B5.5.38	
B5.5.39	However, in accordance with paragraph 5.5.20, some financial instruments include both a loan and an undrawn commitment component and the entity's contractual ability to demand repayment and cancel the undrawn commitment does not limit the entity's exposure to credit losses to the contractual notice period. For example, revolving credit facilities, such as credit cards and overdraft facilities, can be contractually withdrawn by the lender with as little as one day's notice. However, in practice lenders continue to extend credit for a longer period and may only withdraw the facility after the credit risk of the borrower increases, which could be too late to prevent some or all of the expected credit losses. These financial instruments generally have the following characteristics as a result of the nature of the financial instrument, the way in which the financial instruments are managed, and the nature of the available information about significant increases in credit risk: U.K.

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

B5.5.40	When determining the period over w	which the entity is expected to be exposed to credit
	risk, but for which expected credit lo	sses would not be mitigated by the entity's normal
	credit risk management actions, an	entity should consider factors such as historical
	information and experience about:	U.K.

B5.5.52
B5.5.53
B5.5.54
B5.5.55

B5.6.1 If an entity reclassifies financial assets in accordance with paragraph 4.4.1, paragraph 5.6.1 requires that the reclassification is applied prospectively from the reclassification date. Both the amortised cost measurement category and the fair value through other comprehensive income measurement category require that the effective interest rate is determined at initial recognition. Both of those measurement categories also require that the impairment requirements are applied in the same way. Consequently, when an entity reclassifies a financial asset between the amortised cost measurement category

Qualifyii	ng items
B6.3.1	
B6.3.1 B6.3.2	
B0.3.2	
B6.3.3	Paragraph 6.3.4 permits an entity to designate as hedged items aggregated exposures that are a combination of an exposure and a derivative. When designating such a hedged item, an entity assesses whether the aggregated exposure combines an exposure with a derivative so that it creates a different aggregated exposure that is managed as one exposure for a particular risk (or risks). In that case, the entity may designate the hedged item on the basis of the aggregated exposure. For example: U.K.

В6.3.4	when designating the nedged item on the basis of the aggregated exposure, an entity considers the combined effect of the items that constitute the aggregated exposure for the purpose of assessing hedge effectiveness and measuring hedge ineffectiveness. However, the items that constitute the aggregated exposure remain accounted for separately. This means that, for example:
B6.3.5	
Č	tion of hedged items
B6.3.7	nponents
R6 3 8	
B6.3.9	
	When designating risk components as hedged items, an entity considers whether the risk components are explicitly specified in a contract (contractually specified risk components) or whether they are implicit in the fair value or the cash flows of an item of which they are a part (non-contractually specified risk components). Non-contractually specified risk components can relate to items that are not a contract (for example, forecast transactions) or contracts that do not explicitly specify the component (for example, a firm commitment that includes only one single price instead of a pricing formula that references different underlyings). For example:
B6.3.11	
B6.3.12	
B6.3.13	
B6.3.14	
	ents of a nominal amount
B6.3.16	
B6.3.17	
	A layer component may be specified from a defined, but open, population, or from a defined nominal amount. Examples include: U.K.

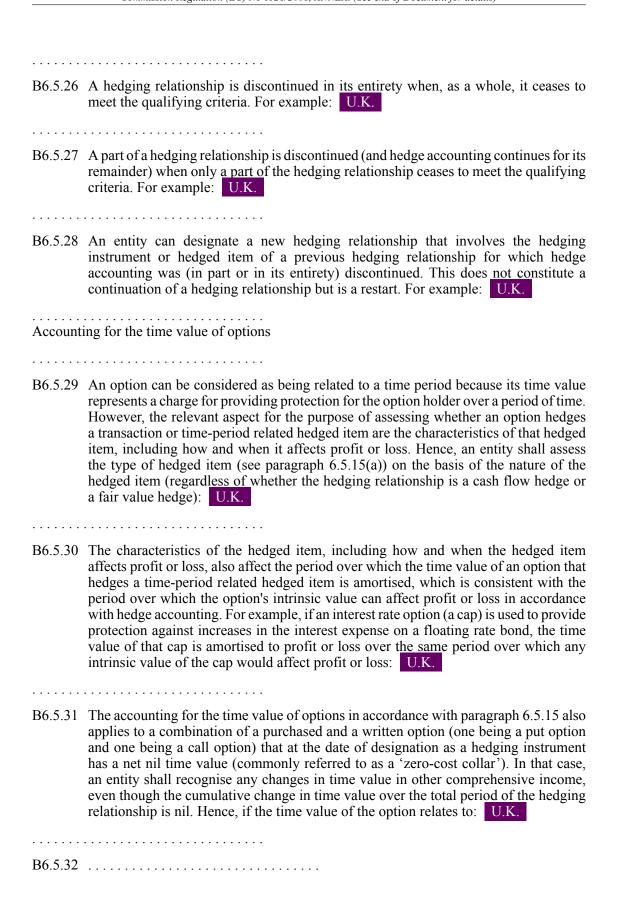

B6.3.20
B6.3.21
B6.3.22 For example, in the case of a financial liability whose effective interest rate is belo LIBOR, an entity cannot designate: U.K.

B6.5.11	Not every change in the extent of offset between the changes in the fair value of the hedging instrument and the hedged item's fair value or cash flows constitutes a change in the relationship between the hedging instrument and the hedged item. An entity analyses the sources of hedge ineffectiveness that it expected to affect the hedging relationship during its term and evaluates whether changes in the extent of offset are: U.K.
B6.5.12	
B6.5.13	

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

	Rebalancing means that, for hedge accounting purposes, after the start of a hedging relationship an entity adjusts the quantities of the hedging instrument or the hedged item in response to changes in circumstances that affect the hedge ratio of that hedging relationship. Typically, that adjustment should reflect adjustments in the quantities of the hedging instrument and the hedged item that it actually uses. However, an entity must adjust the hedge ratio that results from the quantities of the hedged item or the hedging instrument that it actually uses if: U.K.
B6.5.16	If a hedging relationship is rebalanced, the adjustment to the hedge ratio can be effected in different ways: U.K.
B6.5.17	
B6.5.18	
B6.5.19	
B6.5.20	
	nuation of hedge accounting
B6.5.22	
B6.5.23	An entity shall not de-designate and thereby discontinue a hedging relationship that: U.K.
B6.5.24	For the purposes of this Standard, an entity's risk management strategy is distinguished from its risk management objectives. The risk management strategy is established at the highest level at which an entity determines how it manages its risk. Risk management strategies typically identify the risks to which the entity is exposed and set out how the entity responds to them. A risk management strategy is typically in place for a longer period and may include some flexibility to react to changes in circumstances that occur while that strategy is in place (for example, different interest rate or commodity price levels that result in a different extent of hedging). This is normally set out in a general document that is cascaded down through an entity through policies containing more specific guidelines. In contrast, the risk management objective for a hedging relationship applies at the level of a particular hedging relationship. It relates to how the particular hedging instrument that has been designated is used to hedge the particular exposure that has been designated as the hedged item. Hence, a risk management strategy can involve many different hedging relationships whose risk management objectives relate to executing that overall risk

management strategy. For example: U.K.

B6.5.33	If the actual time value and the aligned time value differ, an entity shall determine the amount that is accumulated in a separate component of equity in accordance with paragraph 6.5.15 as follows: U.K.
	ing for the forward element of forward contracts and foreign currency basis spreads of instruments
B6.5.34	A forward contract can be considered as being related to a time period because its forward element represents charges for a period of time (which is the tenor for which it is determined). However, the relevant aspect for the purpose of assessing whether a hedging instrument hedges a transaction or time-period related hedged item are the characteristics of that hedged item, including how and when it affects profit or loss. Hence, an entity shall assess the type of hedged item (see paragraphs 6.5.16 and 6.5.15(a)) on the basis of the nature of the hedged item (regardless of whether the hedging relationship is a cash flow hedge or a fair value hedge):
B6.5.35	
B6.5.36	The accounting for the forward element of a forward contract in accordance with paragraph 6.5.16 also applies if, at the date on which the forward contract is designated as a hedging instrument, the forward element is nil. In that case, an entity shall recognise any fair value changes attributable to the forward element in other comprehensive income, even though the cumulative fair value change attributable to the forward element over the total period of the hedging relationship is nil. Hence, if the forward element of a forward contract relates to:
B6.5.37	
B6.5.38	If the actual forward element and the aligned forward element differ, an entity shall determine the amount that is accumulated in a separate component of equity in accordance with paragraph 6.5.16 as follows: U.K.
B6.5.39 Hedge of	f a group of items (Section 6.6)
Hedge of	f a net position
Eligibilit	y for hedge accounting and designation of a net position
B6.6.1	
B6.6.2	
B6.6.3	

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

**	tion of the hedge effectiveness requirements to a hedge of a net position
B6.6.5	When an entity determines whether the hedge effectiveness requirements of paragraph 6.4.1(c) are met when it hedges a net position, it shall consider the changes in the value of the items in the net position that have a similar effect as the hedging instrument in conjunction with the fair value change on the hedging instrument. For example, an entity has a group of firm sale commitments in nine months' time for FC100 and a group of firm purchase commitments in 18 months' time for FC120. It hedges the foreign currency risk of the net position of FC20 using a forward exchange contract for FC20. When determining whether the hedge effectiveness requirements of paragraph 6.4.1(c) are met, the entity shall consider the relationship between:
B6.6.6 Cash flo	ow hedges that constitute a net position
 В6.6.7	

B6.6.8 For example, an entity has a net position that consists of a bottom layer of FC100 of sales and a bottom layer of FC150 of purchases. Both sales and purchases are denominated in the same foreign currency. In order to sufficiently specify the designation of the hedged net position, the entity specifies in the original documentation of the hedging relationship that sales can be of Product A or Product B and purchases can be of Machinery Type A, Machinery Type B and Raw Material A. The entity also specifies the volumes of the transactions by each nature. The entity documents that the bottom layer of sales (FC100) is made up of a forecast sales volume of the first FC70 of Product A and the first FC30 of Product B. If those sales volumes are expected to affect profit or loss in different reporting periods, the entity would include that in the documentation, for example, the first FC70 from sales of Product A that are expected to affect profit or loss in the first reporting period and the first FC30 from sales of Product B that are expected to affect profit or loss in the second reporting period. The entity also documents that the bottom layer of the purchases (FC150) is made up of purchases of the first FC60 of Machinery Type A, the first FC40 of Machinery Type B and the first FC50 of Raw Material A. If those purchase volumes are expected to affect profit or loss in different reporting periods, the entity would include in the documentation a disaggregation of the purchase volumes by the reporting periods in which they are expected to affect profit or loss (similarly to how it documents the sales volumes). For example, the forecast transaction would be specified as: U.K.

B6.6.9 For a cash flow hedge of a net position, the amounts determined in accordance with paragraph 6.5.11 shall include the changes in the value of the items in the net position that have a similar effect as the hedging instrument in conjunction with the fair value change on the hedging instrument. However, the changes in the value of the items in the net position that have a similar effect as the hedging instrument are recognised only once the transactions that they relate to are recognised, such as when a forecast sale is recognised as revenue. For example, an entity has a group of highly probable

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

forecast sales in nine months' time for FC100 and a group of highly probable forecast purchases in 18 months' time for FC120. It hedges the foreign currency risk of the net position of FC20 using a forward exchange contract for FC20. When determining the amounts that are recognised in the cash flow hedge reserve in accordance with paragraph 6.5.11(a)–6.5.11(b), the entity compares:

INTERNATIONAL FINANCIAL REPORTING STANDARD 10 U.K.

Consolidated Financial Statements

OBJECT	
	the objective
2	To meet the objective in paragraph 1, this IFRS: U.K.
3 SCOPE	
4	An entity that is a parent shall present consolidated financial statements. This IFRS applies to all entities, except as follows: U.K.
4A	
4B Control	
5	
6	
7	Thus, an investor controls an investee if and only if the investor has all the following: U.K.
8	
9 Power	
10	
11	
12	
13	
14 Returns	

17	
	JNTING REQUIREMENTS
19	
20	
21 Non-coi	ntrolling interests
22	
23	
24 Loss of	control
25	
26	MINING WHETHER AN ENTITY IS AN INVESTMENT ENTITY
27	A parent shall determine whether it is an investment entity. An investment entity is an entity that: U.K.
28	In assessing whether it meets the definition described in paragraph 27, an entity shall consider whether it has the following typical characteristics of an investment entity: U.K.
29

Rights	that give an investor power over an investee
 B14	
B15	Examples of rights that, either individually or in combination, can give an investor power include but are not limited to: U.K.
B16	
B17	
B18	In some circumstances it may be difficult to determine whether an investor's rights are sufficient to give it power over an investee. In such cases, to enable the assessment of power to be made, the investor shall consider evidence of whether it has the practical ability to direct the relevant activities unilaterally. Consideration is given, but is not limited, to the following, which, when considered together with its rights and the indicators in paragraphs B19 and B20, may provide evidence that the investor's rights are sufficient to give it power over the investee:
B19	Sometimes there will be indications that the investor has a special relationship with the investee, which suggests that the investor has more than a passive interest in the investee. The existence of any individual indicator, or a particular combination of indicators, does not necessarily mean that the power criterion is met. However, having more than a passive interest in the investee may indicate that the investor has other related rights sufficient to give it power or provide evidence of existing power over an investee. For example, the following suggests that the investor has more than a passive interest in the investee and, in combination with other rights, may indicate power: U.K.
B20	
B21 Substa	ntive rights
 B22	
B23	Determining whether rights are substantive requires judgement, taking into account all facts and circumstances. Factors to consider in making that determination include but are not limited to: U.K.

B10	For each subsidiary that has non-controlling interests that are material to the reporting entity, an entity shall disclose: U.K.		
 B11			
B12	For each joint venture and associate that is material to the reporting entity, an entity shall disclose: U.K.		
B13	In addition to the summarised financial information required by paragraph B12, an entity shall disclose for each joint venture that is material to the reporting entity the amount of:		
B14	The summarised financial information presented in accordance with paragraphs B12 and B13 shall be the amounts included in the IFRS financial statements of the joint venture or associate (and not the entity's share of those amounts). If the entity accounts for its interest in the joint venture or associate using the equity method: U.K.		

B15	An entity may present the summarised financial information required by paragraphs B12 and B13 on the basis of the joint venture's or associate's financial statements if: U.K.
B16	An entity shall disclose, in aggregate, the carrying amount of its interests in all individually immaterial joint ventures or associates that are accounted for using the equity method. An entity shall also disclose separately the aggregate amount of its share of those joint ventures' or associates': U.K.
B17 COMM	ITMENTS FOR JOINT VENTURES (PARAGRAPH 23(a))
B18	
B19	Unrecognised commitments that may give rise to a future outflow of cash or other resources include: U.K.
B20 INTERI	ESTS IN UNCONSOLIDATED STRUCTURED ENTITIES (PARAGRAPHS 24–31)
Structur	ed entities
B21	
B22	A structured entity often has some or all of the following features or attributes: U.K.
B23	Examples of entities that are regarded as structured entities include, but are not limited to: U.K.
B24 Nature o	of risks from interests in unconsolidated structured entities (paragraphs 29–31)
B25	
B26	Examples of additional information that, depending on the circumstances, might be
DZU	relevant to an assessment of the risks to which an entity is exposed when it has an interest in an unconsolidated structured entity are: U.K.

INTERNATIONAL FINANCIAL REPORTING STANDARD 13 U.K.

Fair Value Measurement

OBJECTIVE	
1	This IFRS: U.K.
2 3	
4 SCOPE	
5	
6	The measurement and disclosure requirements of this IFRS do not apply to the following: U.K.
7	The disclosures required by this IFRS are not required for the following: U.K.
8	REMENT
Definition	on of fair value
9	
10 The asse	et or liability
	A 6-2
11	A fair value measurement is for a particular asset or liability. Therefore, when measuring fair value an entity shall take into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Such characteristics include, for example, the following: U.K.
12	
13	The asset or liability measured at fair value might be either of the following: U.K.

Document Generated: 2024-04-09

14 The transaction	
15	
16	A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either: U.K.
 17	
18	
19	
20	
21 Marko	et participants
 22	
23	In developing those assumptions, an entity need not identify specific marke participants. Rather, the entity shall identify characteristics that distinguish marke participants generally, considering factors specific to all the following: U.K.
The p	rice
24	
25	
26 Appli	cation to non-financial assets
 Highe	est and best use for non-financial assets
 27	
28	The highest and best use of a non-financial asset takes into account the use of the asset that is physically possible, legally permissible and financially feasible, as follows U.K.
 29	
30 Valua	tion premise for non-financial assets

31	The highest and best use of a non-financial asset establishes the valuation premise used to measure the fair value of the asset, as follows: U.K.
32	
33	ation to liabilities and an entity's own equity instruments
	ll principles
34	A fair value measurement assumes that a financial or non-financial liability or an entity's own equity instrument (eg equity interests issued as consideration in a business combination) is transferred to a market participant at the measurement date. The transfer of a liability or an entity's own equity instrument assumes the following: U.K.
35	
	ties and equity instruments held by other parties as assets
37	
38	In such cases, an entity shall measure the fair value of the liability or equity instrument as follows: U.K.
39	An entity shall adjust the quoted price of a liability or an entity's own equity instrument held by another party as an asset only if there are factors specific to the asset that are not applicable to the fair value measurement of the liability or equity instrument. An entity shall ensure that the price of the asset does not reflect the effect of a restriction preventing the sale of that asset. Some factors that may indicate that the quoted price of the asset should be adjusted include the following: U.K.
Liabili	ties and equity instruments not held by other parties as assets
40	
41	For example, when applying a present value technique an entity might take into account either of the following:
	erformance risk

Document Generated: 2024-04-09

42	
43	When measuring the fair value of a liability, an entity shall take into account the effect of its credit risk (credit standing) and any other factors that might influence the likelihood that the obligation will or will not be fulfilled. That effect may differ depending on the liability, for example: U.K.
	ion preventing the transfer of a liability or an entity's own equity instrument
45	
	al liability with a demand feature
47 Applica	tion to financial assets and financial liabilities with offsetting positions in market risks terparty credit risk
48	
49	An entity is permitted to use the exception in paragraph 48 only if the entity does all the following: U.K.
50	
51	
52 Exposu	re to market risks
53	
54	
•	re to the credit risk of a particular counterparty
56	ue at initial recognition
57	
58	

76

Document Generated: 2024-04-09

59		
60		
Valuat	ion techniques	
61		
62		
63		
64		
65	Valuation techniques used to measure fair value shall be applied consistently. However, a change in a valuation technique or its application (eg a change in its weighting when multiple valuation techniques are used or a change in an adjustment applied to a valuation technique) is appropriate if the change results in a measurement that is equally or more representative of fair value in the circumstances. That might be the case if, for example, any of the following events take place:	
66	to valuation techniques	
	al principles	
67		
68		
69 Inputs	based on bid and ask prices	
 7 0		
70 		
71 Fair va	alue hierarchy	
72		
73		
74		
75 Level	1 inputs	

77	
78	A Level 1 input will be available for many financial assets and financial liabilities some of which might be exchanged in multiple active markets (eg on different exchanges). Therefore, the emphasis within Level 1 is on determining both of the following:
79	An entity shall not make an adjustment to a Level 1 input except in the following circumstances: U.K.
80 Level 2	
81	
82	If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability. Level 2 inputs include the following:
83	Adjustments to Level 2 inputs will vary depending on factors specific to the asset of liability. Those factors include the following: U.K.
84	
85 Level 3	inputs
86	
87	
88	
89	
90 DISCL	OSURE
91	An entity shall disclose information that helps users of its financial statements assess both of the following: U.K.
92	To meet the objectives in paragraph 91, an entity shall consider all the following U.K.

accounting...
ANNEX

Document Generated: 2024-04-09

93	To meet the objectives in paragraph 91, an entity shall disclose, at a minimum, the following information for each class of assets and liabilities (see paragraph 94 for information on determining appropriate classes of assets and liabilities) measured at fair value (including measurements based on fair value within the scope of this IFRS) in the statement of financial position after initial recognition: U.K.
94	An entity shall determine appropriate classes of assets and liabilities on the basis of the following: U.K.
95	An entity shall disclose and consistently follow its policy for determining when transfers between levels of the fair value hierarchy are deemed to have occurred in accordance with paragraph 93(c) and (e)(iv). The policy about the timing of recognising transfers shall be the same for transfers into the levels as for transfers out of the levels. Examples of policies for determining the timing of transfers include the following: U.K.
96	
97	
98	
99	

	Appendix A	U.K.
Defined terms		

Application guidance U.K.		
B1	AIR VALUE MEASUREMENT APPROACH	
B2	The objective of a fair value measurement is to estimate the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date under current market conditions. A fair value measurement requires an entity to determine all the following:	
VALU	ATION PREMISE FOR NON-FINANCIAL ASSETS (PARAGRAPHS 31–33)	
В3	When measuring the fair value of a non-financial asset used in combination with other assets as a group (as installed or otherwise configured for use) or in combination with other assets and liabilities (eg a business), the effect of the valuation premise depends on the circumstances. For example: U.K.	
FAIR V	VALUE AT INITIAL RECOGNITION (PARAGRAPHS 57–60)	
	•••••	
B4	When determining whether fair value at initial recognition equals the transaction price, an entity shall take into account factors specific to the transaction and to the asset or liability. For example, the transaction price might not represent the fair value of an asset or a liability at initial recognition if any of the following conditions exist: U.K.	
VALU	ATION TECHNIQUES (PARAGRAPHS 61–66)	
	approach	
	•••••	
B5		
B6		
B7 Cost ap	pproach	
B8		
B9 Income	approach	
B10		
טוט		

ANNEX

Document Generated: 2024-04-09

B11	Those valuation techniques include, for example, the following: U.K.
	value techniques
B12 The com	ponents of a present value measurement
B13	Present value (ie an application of the income approach) is a tool used to link future amounts (eg cash flows or values) to a present amount using a discount rate. A fair value measurement of an asset or a liability using a present value technique captures all the following elements from the perspective of market participants at the measurement date: U.K.
General j	principles
B14	Present value techniques differ in how they capture the elements in paragraph B13. However, all the following general principles govern the application of any present value technique used to measure fair value: U.K.
Risk and	uncertainty
B15	
B16	
B17	Present value techniques differ in how they adjust for risk and in the type of cash flows they use. For example: U.K.
Discount	rate adjustment technique
B18	
B19	
B20	To illustrate a build-up approach, assume that Asset A is a contractual right to receive CU800 in one year (ie there is no timing uncertainty). There is an established market for comparable assets, and information about those assets, including price information, is available. Of those comparable assets:
D21	
B21	
B22 Expected	d present value technique

B23	
B24	In making an investment decision, risk-averse market participants would take into account the risk that the actual cash flows may differ from the expected cash flows. Portfolio theory distinguishes between two types of risk: U.K.
B25	
B26	
B27	To illustrate Methods 1 and 2, assume that an asset has expected cash flows of CU780 in one year determined on the basis of the possible cash flows and probabilities shown below. The applicable risk-free interest rate for cash flows with a one-year horizon is 5 per cent, and the systematic risk premium for an asset with the same risk profile is 3 per cent.
B28	
B29	In theory, the present value (ie the fair value) of the asset's cash flows is the same whether determined using Method 1 or Method 2, as follows: U.K.
	YING PRESENT VALUE TECHNIQUES TO LIABILITIES AND AN ENTITY'S OWN TY INSTRUMENTS NOT HELD BY OTHER PARTIES AS ASSETS (PARAGRAPHS D 41)
B31	When using a present value technique to measure the fair value of a liability that is not held by another party as an asset (eg a decommissioning liability), an entity shall, among other things, estimate the future cash outflows that market participants would expect to incur in fulfilling the obligation. Those future cash outflows shall include market participants' expectations about the costs of fulfilling the obligation and the compensation that a market participant would require for taking on the obligation. Such compensation includes the return that a market participant would require for the following:
B32	
B33	An entity can include a risk premium in the fair value measurement of a liability or an entity's own equity instrument that is not held by another party as an asset in one of the following ways: U.K.
INPUT	TS TO VALUATION TECHNIQUES (PARAGRAPHS 67–71)

ANNEX

Document Generated: 2024-04-09

B34	Examples of markets in which inputs might be observable for some assets and liabilities (eg financial instruments) include the following: U.K.
FAIR V	ALUE HIERARCHY (PARAGRAPHS 72–90)
Level 2	inputs (paragraphs 81–85)
B35	Examples of Level 2 inputs for particular assets and liabilities include the following: U.K.
Level 3	inputs (paragraphs 86–90)
B36	Examples of Level 3 inputs for particular assets and liabilities include the following: U.K.
	JRING FAIR VALUE WHEN THE VOLUME OR LEVEL OF ACTIVITY FOR AN OR A LIABILITY HAS SIGNIFICANTLY DECREASED
B37	The fair value of an asset or a liability might be affected when there has been a significant decrease in the volume or level of activity for that asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities). To determine whether, on the basis of the evidence available, there has been a significant decrease in the volume or level of activity for the asset or liability, an entity shall evaluate the significance and relevance of factors such as the following: U.K.
B38	
B39	
B40	
B41	
B42 Identify	ing transactions that are not orderly
B43	The determination of whether a transaction is orderly (or is not orderly) is more difficult if there has been a significant decrease in the volume or level of activity for the asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities). In such circumstances it is not appropriate to conclude that all transactions in that market are not orderly (ie forced liquidations or distress sales). Circumstances that may indicate that a transaction is not orderly include the following: U.K.

accounting...
ANNEX

Document Generated: 2024-04-09

B44	An entity shall consider all the following when measuring fair value or estimating market risk premiums: U.K.
Using q	uoted prices provided by third parties
B45	
B46	
B47

INTERNATIONAL FINANCIAL REPORTING STANDARD 15 U.K.

Revenue from Contracts with Customers

OBJEC	
1.	g the objective
2.	
3.	
4. SCOPE	
5.	An entity shall apply this Standard to all contracts with customers, except the following: U.K.
6.	
7.	A contract with a customer may be partially within the scope of this Standard and partially within the scope of other Standards listed in paragraph 5. U.K.
8.	GNITION
Identify	ving the contract
9.	An entity shall account for a contract with a customer that is within the scope of this Standard only when all of the following criteria are met: U.K.
 10.	
11.	
12.	For the purpose of applying this Standard, a contract does not exist if each party to the contract has the unilateral enforceable right to terminate a wholly unperformed contract without compensating the other party (or parties). A contract is wholly unperformed if both of the following criteria are met:
13.	

ANNEX

Document Generated: 2024-04-09

14.	
15.	When a contract with a customer does not meet the criteria in paragraph 9 and an entity receives consideration from the customer, the entity shall recognise the consideration received as revenue only when either of the following events has occurred: U.K.
16. Comb	ination of contracts
17.	An entity shall combine two or more contracts entered into at or near the same time with the same customer (or related parties of the customer) and account for the contracts as a single contract if one or more of the following criteria are met: U.K.
Contra	act modifications
18.	
19.	
20.	An entity shall account for a contract modification as a separate contract if both of the following conditions are present: U.K.
21.	If a contract modification is not accounted for as a separate contract in accordance with paragraph 20, an entity shall account for the promised goods or services not ye transferred at the date of the contract modification (ie the remaining promised goods or services) in whichever of the following ways is applicable: U.K.
Identi	fying performance obligations
22.	At contract inception, an entity shall assess the goods or services promised in a contract with a customer and shall identify as a performance obligation each promise to transfer to the customer either:
23.	A series of distinct goods or services has the same pattern of transfer to the customer if both of the following criteria are met: U.K.
Promi	ses in contracts with customers
24.	
25. Distin	ct goods or services

26.	Depending on the contract, promised goods or services may include, but are not limited to, the following: U.K.
27.	A good or service that is promised to a customer is distinct if both of the following criteria are met: U.K.
28.	
29.	In assessing whether an entity's promises to transfer goods or services to the customer are separately identifiable in accordance with paragraph 27(b), the objective is to determine whether the nature of the promise, within the context of the contract, is to transfer each of those goods or services individually or, instead, to transfer a combined item or items to which the promised goods or services are inputs. Factors that indicate that two or more promises to transfer goods or services to a customer are not separately identifiable include, but are not limited to, the following:
30. Satisfac	tion of performance obligations
31.	
32.	
33.	Goods and services are assets, even if only momentarily, when they are received and used (as in the case of many services). Control of an asset refers to the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset. Control includes the ability to prevent other entities from directing the use of, and obtaining the benefits from, an asset. The benefits of an asset are the potential cash flows (inflows or savings in outflows) that can be obtained directly or indirectly in many ways, such as by: U.K.
34. Perform	ance obligations satisfied over time
35.	An entity transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met: U.K.
36.	
37. Perform	ance obligations satisfied at a point in time

38.	If a performance obligation is not satisfied over time in accordance with paragraphs 35–37, an entity satisfies the performance obligation at a point in time. To determine the point in time at which a customer obtains control of a promised asset and the entity satisfies a performance obligation, the entity shall consider the requirements for control in paragraphs 31–34. In addition, an entity shall consider indicators of the transfer of control, which include, but are not limited to, the following: U.K.
Measuri	ng progress towards complete satisfaction of a performance obligation
39.	
40. Methods	s for measuring progress
41.	
42.	
43. Reasona	ble measures of progress
44.	
45. MEASU	JREMENT
46. Determi	ning the transaction price
47.	
48.	The nature, timing and amount of consideration promised by a customer affect the estimate of the transaction price. When determining the transaction price, an entity shall consider the effects of all of the following: U.K.
49. Variable	consideration
50.	
51	

52.	The variability relating to the consideration promised by a customer may be explicitly stated in the contract. In addition to the terms of the contract, the promised consideration is variable if either of the following circumstances exists:
53.	An entity shall estimate an amount of variable consideration by using either of the following methods, depending on which method the entity expects to better predict the amount of consideration to which it will be entitled: U.K.
54. Refun	d liabilities
55. Const	raining estimates of variable consideration
56.	
57.	In assessing whether it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur once the uncertainty related to the variable consideration is subsequently resolved, an entity shall consider both the likelihood and the magnitude of the revenue reversal. Factors that could increase the likelihood or the magnitude of a revenue reversal include, but are not limited to, any of the following: U.K.
58. Reass	essment of variable consideration
59.	xistence of a significant financing component in the contract
60.	
61.	The objective when adjusting the promised amount of consideration for a significant financing component is for an entity to recognise revenue at an amount that reflects the price that a customer would have paid for the promised goods or services if the customer had paid cash for those goods or services when (or as) they transfer to the customer (ie the cash selling price). An entity shall consider all relevant facts and circumstances in assessing whether a contract contains a financing component and whether that financing component is significant to the contract, including both of the following: U.K.
62.	Notwithstanding the assessment in paragraph 61, a contract with a customer would not have a significant financing component if any of the following factors exist: U.K.

63.	
64.	
65. Non-ca	sh consideration
66.	
67.	
68.	
69. Consid	eration payable to a customer
70.	
71.	
72.	Accordingly, if consideration payable to a customer is accounted for as a reduction of the transaction price, an entity shall recognise the reduction of revenue when (or as the later of either of the following events occurs:
Allocat	ting the transaction price to performance obligations
73.	
74.	
75. Allocat	tion based on stand-alone selling prices
76.	
77.	
78.	
79.	Suitable methods for estimating the stand-alone selling price of a good or service include, but are not limited to, the following: U.K.
80. Allocat	tion of a discount
81.	

82.	An entity shall allocate a discount entirely to one or more, but not all, performance obligations in the contract if all of the following criteria are met:
83. Alloca	ation of variable consideration
84.	Variable consideration that is promised in a contract may be attributable to the entire contract or to a specific part of the contract, such as either of the following: U.K.
85.	An entity shall allocate a variable amount (and subsequent changes to that amount) entirely to a performance obligation or to a distinct good or service that forms part of a single performance obligation in accordance with paragraph 22(b) if both of the following criteria are met: U.K.
86. Chang	es in the transaction price
87.	
88.	
89.	
90.	An entity shall account for a change in the transaction price that arises as a result of a contract modification in accordance with paragraphs 18–21. However, for a change in the transaction price that occurs after a contract modification, an entity shall apply paragraphs 87–89 to allocate the change in the transaction price in whichever of the following ways is applicable: U.K.
CONT	TRACT COSTS
Incren	nental costs of obtaining a contract
91.	
92.	
93.	
94. Costs	to fulfil a contract

ANNEX

Document Generated: 2024-04-09

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

95.	If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 <i>Inventories</i> , IAS 16 <i>Property, Plant and Equipment</i> or IAS 38 <i>Intangible Assets</i>), an entity shall recognise an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria:
96.	
97.	Costs that relate directly to a contract (or a specific anticipated contract) include any of the following: U.K.
98.	An entity shall recognise the following costs as expenses when incurred: U.K.
	isation and impairment
99.	
100.	
101.	An entity shall recognise an impairment loss in profit or loss to the extent that the carrying amount of an asset recognised in accordance with paragraph 91 or 95 exceeds: U.K.
102.	
103.	
104. PRESI	ENTATION
105.	
106.	
107.	
108.	
109. DISCI	OSURE
110.	The objective of the disclosure requirements is for an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. To achieve that objective, an entity shall disclose qualitative and

quantitative information about all of the following: U.K.

111.	
112. Contrac	cts with customers
113.	An entity shall disclose all of the following amounts for the reporting period unless those amounts are presented separately in the statement of comprehensive income in accordance with other Standards: U.K.
Disagg	regation of revenue
114.	
115. Contrac	ct balances
116.	An entity shall disclose all of the following: U.K.
117.	
118.	An entity shall provide an explanation of the significant changes in the contract asset and the contract liability balances during the reporting period. The explanation shall include qualitative and quantitative information. Examples of changes in the entity's balances of contract assets and contract liabilities include any of the following: U.K.
Perform	nance obligations
119.	An entity shall disclose information about its performance obligations in contracts with customers, including a description of all of the following: U.K.
Transac	ction price allocated to the remaining performance obligations
120.	An entity shall disclose the following information about its remaining performance obligations: U.K.
121.	As a practical expedient, an entity need not disclose the information in paragraph 120 for a performance obligation if either of the following conditions is met: U.K.
	••••••
122.	

Significant judgements in the application of this Standard	
123.	An entity shall disclose the judgements, and changes in the judgements, made in applying this Standard that significantly affect the determination of the amount and timing of revenue from contracts with customers. In particular, an entity shall explain the judgements, and changes in the judgements, used in determining both of the following: U.K.
Determi	ning the timing of satisfaction of performance obligations
	For performance obligations that an entity satisfies over time, an entity shall disclose both of the following: U.K.
	ning the transaction price and the amounts allocated to performance obligations
126.	
	ecognised from the costs to obtain or fulfil a contract with a customer
127.	An entity shall describe both of the following: U.K.
	An entity shall disclose all of the following: U.K.
	l expedients
129.	

	Appendix A U.K.
Defined terms	

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

Application Guidance Appendix B U.K.	
B1	This application guidance is organised into the following categories: U.K.
 Perfor	mance obligations satisfied over time
 В2	In accordance with paragraph 35, a performance obligation is satisfied over time if one of the following criteria is met: U.K.
35(a))	
 В3	
B4	For other types of performance obligations, an entity may not be able to readily identify whether a customer simultaneously receives and consumes the benefits from the entity's performance as the entity performs. In those circumstances, a performance obligation is satisfied over time if an entity determines that another entity would not need to substantially re-perform the work that the entity has completed to date if that other entity were to fulfil the remaining performance obligation to the customer. In determining whether another entity would not need to substantially re-perform the work the entity has completed to date, an entity shall make both of the following assumptions: U.K.
	mer controls the asset as it is created or enhanced (paragraph 35(b))
В5	's performance does not create an asset with an alternative use (paragraph 35(c))
 B6	
во В7	
В8	to payment for performance completed to date (paragraph 35(c))
 В9	In accordance with paragraph 37, an entity has a right to payment for performance completed to date if the entity would be entitled to an amount that at least compensates the entity for its performance completed to date in the event that the customer or

another party terminates the contract for reasons other than the entity's failure to perform as promised. An amount that would compensate an entity for performance completed to date would be an amount that approximates the selling price of the goods or services transferred to date (for example, recovery of the costs incurred by an entity

ANNEX

Document Generated: 2024-04-09

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

in satisfying the performance obligation plus a reasonable profit margin) rather than compensation for only the entity's potential loss of profit if the contract were to be terminated. Compensation for a reasonable profit margin need not equal the profit margin expected if the contract was fulfilled as promised, but an entity should be entitled to compensation for either of the following amounts:

U.K.

B10	
B11	
B12	In assessing the existence and enforceability of a right to payment for performance completed to date, an entity shall consider the contractual terms as well as any legislation or legal precedent that could supplement or override those contractual terms. This would include an assessment of whether: U.K.
B13 Methods	for measuring progress towards complete satisfaction of a performance obligation
B14	Methods that can be used to measure an entity's progress towards complete satisfaction of a performance obligation satisfied over time in accordance with paragraphs 35–37 include the following: U.K.
Output m	nethods
B15	
B16	
B17 Input me	thods
B18	
B19	A shortcoming of input methods is that there may not be a direct relationship between an entity's inputs and the transfer of control of goods or services to a customer. Therefore, an entity shall exclude from an input method the effects of any inputs that, in accordance with the objective of measuring progress in paragraph 39, do not depict the entity's performance in transferring control of goods or services to the customer. For instance, when using a cost-based input method, an adjustment to the measure of progress may be required in the following circumstances: U.K.
	a right of return

ANNEX

Document Generated: 2024-04-09

B20	In some contracts, an entity transfers control of a product to a customer and also grants the customer the right to return the product for various reasons (such as dissatisfaction with the product) and receive any combination of the following: U.K.
B21	To account for the transfer of products with a right of return (and for some services that are provided subject to a refund), an entity shall recognise all of the following: U.K.
B22	
B23	
B24	
B25	
B26	
B27 Warranti	ies
B28	
B29	
B30	
B31	In assessing whether a warranty provides a customer with a service in addition to the assurance that the product complies with agreed-upon specifications, an entity shall consider factors such as: U.K.
B32	
B33 Principa	l versus agent considerations
D24	
B34	
B34A	To determine the nature of its promise (as described in paragraph B34), the entity shall: U.K.
B35	
B35A	When another party is involved in providing goods or services to a customer, an entity that is a principal obtains control of any one of the following: U.K.
B35B	

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

B36	
B37	Indicators that an entity controls the specified good or service before it is transferred to the customer (and is therefore a principal (see paragraph B35)) include, but are not limited to, the following: U.K.
B37A	
B38 Custom	ner options for additional goods or services
B39	
B40	
B41	
B42	Paragraph 74 requires an entity to allocate the transaction price to performance obligations on a relative stand-alone selling price basis. If the stand-alone selling price for a customer's option to acquire additional goods or services is not directly observable, an entity shall estimate it. That estimate shall reflect the discount that the customer would obtain when exercising the option, adjusted for both of the following: U.K.
	ners' unexercised rights
B44	
B45	
B46	
B47 Non-re	fundable upfront fees (and some related costs)
B48	
B49	
B50	
B51 Licensi	ng
B52	A licence establishes a customer's rights to the intellectual property of an entity. Licences of intellectual property may include, but are not limited to, licences of any

of the following: U.K.

B53	
B54	If the promise to grant a licence is not distinct from other promised goods or services in the contract in accordance with paragraphs 26–30, an entity shall account for the promise to grant a licence and those other promised goods or services together as a single performance obligation. Examples of licences that are not distinct from other goods or services promised in the contract include the following:
B55	
B56	If the promise to grant the licence is distinct from the other promised goods or services in the contract and, therefore, the promise to grant the licence is a separate performance obligation, an entity shall determine whether the licence transfers to a customer either at a point in time or over time. In making this determination, an entity shall consider whether the nature of the entity's promise in granting the licence to a customer is to provide the customer with either:
Determ	ining the nature of the entity's promise
 В57	
B58	The nature of an entity's promise in granting a licence is a promise to provide a right to access the entity's intellectual property if all of the following criteria are met: U.K.
 B59	
B59A	An entity's activities significantly affect the intellectual property to which the customer has rights when either: U.K.
B60	
B61	
B62	An entity shall disregard the following factors when determining whether a licence provides a right to access the entity's intellectual property or a right to use the entity's intellectual property: U.K.
Sales-b	ased or usage-based royalties
В63	Notwithstanding the requirements in paragraphs 56–59, an entity shall recognise revenue for a sales-based or usage-based royalty promised in exchange for a licence of intellectual property only when (or as) the later of the following events occurs: U.K.
 В63А	

B63B	
B64	
B65	Repurchase agreements generally come in three forms: U.K.
A forw	ard or a call option
B66	If an entity has an obligation or a right to repurchase the asset (a forward or a call option), a customer does not obtain control of the asset because the customer is limited in its ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset even though the customer may have physical possession of the asset. Consequently, the entity shall account for the contract as either of the following: U.K.
B67	
B68	
B69 A put o	pption
B70	
B71	
B72	
B73	
B74	
B75	
B76 Consig	nment arrangements
B77	
B78	Indicators that an arrangement is a consignment arrangement include, but are not limited to, the following: U.K.
	d-hold arrangements
R70	

B80	
B81	In addition to applying the requirements in paragraph 38, for a customer to have obtained control of a product in a bill-and-hold arrangement, all of the following criteria must be met: U.K.
B82 Custome	er acceptance
B83	
B84	
B85	
B86 Disclosu	re of disaggregated revenue
B87	
B88	When selecting the type of category (or categories) to use to disaggregate revenue, an entity shall consider how information about the entity's revenue has been presented for other purposes, including all of the following: U.K.
B89	Examples of categories that might be appropriate include, but are not limited to, all of the following: U.K.

Appendix C U.K. Effective date and transition	
	TVE DATE
C1	
C1A	
C1B TRANSI	ITION
C2	For the purposes of the transition requirements in paragraphs C3–C8: U.K.
C3	An entity shall apply this Standard using one of the following two methods: U.K.
C4	
C5	An entity may use one or more of the following practical expedients when applying this Standard retrospectively in accordance with paragraph C3(a): U.K.
C6	For any of the practical expedients in paragraph C5 that an entity uses, the entity shall apply that expedient consistently to all contracts within all reporting periods presented In addition, the entity shall disclose all of the following information: U.K.
 C7	
C7A	An entity applying this Standard retrospectively in accordance with paragraph C3(b) may also use the practical expedient described in paragraph C5(c), either: U.K.
C8	For reporting periods that include the date of initial application, an entity shall provide both of the following additional disclosures if this Standard is applied retrospectively in accordance with paragraph C3(b): U.K.
C8A Reference	tes to IFRS 9

INTERNATIONAL FINANCIAL REPORTING STANDARD 16 U.K.

Leases

OBJECT	TIVE
1.	
2. SCOPE	
3.	An entity shall apply this Standard to all leases, including leases of <i>right-of-use assets</i> in a <i>sublease</i> , except for: U.K.
4. RECOG	NITION EXEMPTIONS (PARAGRAPHS B3–B8)
5.	A lessee may elect not to apply the requirements in paragraphs 22–49 to: U.K.
6.	
7.	If a lessee accounts for short-term leases applying paragraph 6, the lessee shall consider the lease to be a new lease for the purposes of this Standard if: U.K.
8. IDENTI	FYING A LEASE (PARAGRAPHS B9–B33)
9.	
10.	
11. Separati	ng components of a contract
12. Lessee	
13.	
14.	
15.	

16. Lessor	
17. LEASE	TERM (PARAGRAPHS B34–B41)
18.	An entity shall determine the lease term as the non-cancellable period of a lease, together with both: U.K.
 19.	
20.	A lessee shall reassess whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances that: U.K.
21.	An entity shall revise the lease term if there is a change in the non-cancellable period of a lease. For example, the non-cancellable period of a lease will change if: U.K.
LESSE	 E
 Recogn	ition
22. Measur	ement
	neasurement
Initial n	neasurement of the right-of-use asset
23.	
<i>2</i> 4.	The cost of the right-of-use asset shall comprise: U.K.
25	
25. Initial n	neasurement of the lease liability
26.	

21.	lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date: U.K.
28. Subseq	uent measurement
Subseq	uent measurement of the right-of-use asset
29. Cost m	odel
30.	To apply a cost model, a lessee shall measure the right-of-use asset at cost: U.K.
31.	
32.	
33. Other r	neasurement models
34.	
35. Subseq	uent measurement of the lease liability
36.	After the commencement date, a lessee shall measure the lease liability by: U.K.
37.	
38.	After the commencement date, a lessee shall recognise in profit or loss, unless the costs are included in the carrying amount of another asset applying other applicable Standards, both: U.K.
Reasses	ssment of the lease liability
 39.	
40.	A lessee shall remeasure the lease liability by discounting the revised lease payments using a revised discount rate, if either: U.K.

41.	
42.	A lessee shall remeasure the lease liability by discounting the revised lease payments, if either: U.K.
43.	modifications
44.	A lessee shall account for a lease modification as a separate lease if both: U.K.
45.	For a lease modification that is not accounted for as a separate lease, at the <i>effective</i> date of the lease modification a lessee shall:
46.	For a lease modification that is not accounted for as a separate lease, the lessee shall account for the remeasurement of the lease liability by: U.K.
46A.	
46B.	The practical expedient in paragraph 46A applies only to rent concessions occurring as a direct consequence of the covid-19 pandemic and only if all of the following conditions are met: U.K.
Present	tation
47.	A lessee shall either present in the statement of financial position, or disclose in the notes: U.K.
48.	
49.	
50.	In the statement of cash flows, a lessee shall classify: U.K.
Disclos	sure
51.	
52.	
53.	A lessee shall disclose the following amounts for the reporting period: U.K.

54.	
55.	
56.	
57.	
58.	
59.	In addition to the disclosures required in paragraphs 53–58, a lessee shall disclose additional qualitative and quantitative information about its leasing activities necessary to meet the disclosure objective in paragraph 51 (as described in paragraph B48). This additional information may include, but is not limited to, information that helps users of financial statements to assess:
60.	
60A.	If a lessee applies the practical expedient in paragraph 46A, the lessee shall disclose: U.K.
LESSO	DR
Classif	fication of leases (paragraphs B53–B58)
61.	
62.	
63.	Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of the contract. Examples of situations that individually or in combination would normally lead to a lease being classified as a finance lease are: U.K.
64.	Indicators of situations that individually or in combination could also lead to a lease being classified as a finance lease are: U.K.
65.	
66. Financ	re leases
Recog	nition and measurement
67. Initial	measurement

68.	
69. Initial	measurement of the lease payments included in the net investment in the lease
70.	At the commencement date, the lease payments included in the measurement of the net investment in the lease comprise the following payments for the right to use the underlying asset during the lease term that are not received at the commencement date: U.K.
Manuf	acturer or dealer lessors
71.	At the commencement date, a manufacturer or dealer lessor shall recognise the following for each of its finance leases: U.K.
72.	
73.	
74. Subsec	quent measurement
75.	
76.	
77.	
78. Lease	modifications
79.	A lessor shall account for a modification to a finance lease as a separate lease if both: U.K.
80.	For a modification to a finance lease that is not accounted for as a separate lease, a lessor shall account for the modification as follows: U.K.
Operat	ring leases
Recog	nition and measurement

Defined terms	Appendix A U.K.
Terms defined in other Sta	ndards and used in this Standard with the same meaning

Applicat	Appendix B U.K.
Portfolio	application
B1 Combina	ation of contracts
B2	In applying this Standard, an entity shall combine two or more contracts entered into at or near the same time with the same counterparty (or related parties of the counterparty), and account for the contracts as a single contract if one or more of the following criteria are met: U.K.
	tion exemption: leases for which the underlying asset is of low value (paragraphs 5–8)
B3	
B4	
B5	An underlying asset can be of low value only if: U.K.
B6	
B7	
B8 Identifyi	ng a lease (paragraphs 9–11)
B9	To assess whether a contract conveys the right to control the use of an identified asset (see paragraphs B13–B20) for a period of time, an entity shall assess whether, throughout the <i>period of use</i> , the customer has both of the following: U.K.
B10	
B11	
B12 Identifie	d asset
B13 Substant	ive substitution rights

B14	Even if an asset is specified, a customer does not have the right to use an identified asset if the supplier has the substantive right to substitute the asset throughout the period of use. A supplier's right to substitute an asset is substantive only if both of the following conditions exist: U.K.
B15	
B16	An entity's evaluation of whether a supplier's substitution right is substantive is based on facts and circumstances at inception of the contract and shall exclude consideration of future events that, at inception of the contract, are not considered likely to occur. Examples of future events that, at inception of the contract, would not be considered likely to occur and, thus, should be excluded from the evaluation include: U.K.
D17	
B17	
B18	
B19 Portion	s of assets
B20 Right to	o obtain economic benefits from use
B21	
B22	When assessing the right to obtain substantially all of the economic benefits from use of an asset, an entity shall consider the economic benefits that result from use of the asset within the defined scope of a customer's right to use the asset (see paragraph B30). For example: U.K.
B23 Right to	o direct the use
B24	A customer has the right to direct the use of an identified asset throughout the period of use only if either: U.K.
How ar	d for what purpose the asset is used
B25	
B26	Examples of decision-making rights that, depending on the circumstances, grant the right to change how and for what purpose the asset is used, within the defined scope of the customer's right of use, include: U.K.

B27 Decisi	ons determined during and before the period of use
B28	
	tive rights
B30	
B31	The following flowchart may assist entities in making the assessment of whether a contract is, or contains, a lease. U.K.
•	ting components of a contract (paragraphs 12–17)
B32	
B33	term (paragraphs 18–21)
B34	
B35	
B36	
В37	At the commencement date, an entity assesses whether the lessee is reasonably certain to exercise an option to extend the lease or to purchase the underlying asset, or not to exercise an option to terminate the lease. The entity considers all relevant facts and circumstances that create an economic incentive for the lessee to exercise, or not to exercise, the option, including any expected changes in facts and circumstances from the commencement date until the exercise date of the option. Examples of factors to consider include, but are not limited to: U.K.
B38	
B39	
B40	
B41	Paragraph 20 specifies that, after the commencement date, a lessee reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the lessee is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination

	of the lease term. Examples of significant events or changes in circumstances include: U.K.
In-sub	stance fixed lease payments (paragraphs 27(a), 36(c) and 70(a))
B42	Lease payments include any in-substance fixed lease payments. In-substance fixed lease payments are payments that may, in form, contain variability but that, in substance, are unavoidable. In-substance fixed lease payments exist, for example, if: U.K.
Lessee	involvement with the underlying asset before the commencement date
Costs	of the lessee relating to the construction or design of the underlying asset
B43	
	title to the underlying asset
B45	
B46	
B47 Lessee	disclosures (paragraph 59)
B48	In determining whether additional information about leasing activities is necessary to meet the disclosure objective in paragraph 51, a lessee shall consider: U.K.
B49	Additional information relating to variable lease payments that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example: U.K.
B50	Additional information relating to extension options or termination options that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example: U.K.
B51	Additional information relating to residual value guarantees that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could

	U.K.
B52	Additional information relating to sale and leaseback transactions that, depending on the circumstances, may be needed to satisfy the disclosure objective in paragraph 51 could include information that helps users of financial statements to assess, for example: U.K.
Lessor le	ease classification (paragraphs 61–66)
B53	
B54	
B55	
B56	
B57 Sublease	classification
B58	In classifying a sublease, an intermediate lessor shall classify the sublease as a finance lease or an operating lease as follows: U.K.

Appendix C U.K. Effective date and transition		
EFFECT	EFFECTIVE DATE	
C1		
C1A TRANS		
C2	on of a lease	
C3	As a practical expedient, an entity is not required to reassess whether a contract is, or contains, a lease at the date of initial application. Instead, the entity is permitted: U.K.	
C4 Lessees		
C5	A lessee shall apply this Standard to its leases either: U.K.	
C6		
C7 Leases p	reviously classified as operating leases	
C8	If a lessee elects to apply this Standard in accordance with paragraph C5(b), the lessee shall: U.K.	
C9	Notwithstanding the requirements in paragraph C8, for leases previously classified as operating leases applying IAS 17, a lessee: U.K.	
C10	A lessee may use one or more of the following practical expedients when applying this Standard retrospectively in accordance with paragraph C5(b) to leases previously classified as operating leases applying IAS 17. A lessee is permitted to apply these practical expedients on a lease-by-lease basis:	
	reviously classified as finance leases

	Examples of application of the consensus	
A1 UNCO	NDITIONAL RIGHT TO REFUSE REDEMPTION (paragraph 7)	
Example 1		
Facts		
A2 Classifi	cation	
A3	The entity has the unconditional right to refuse redemption and the members' shares are equity. IAS 32 establishes principles for classification that are based on the terms of the financial instrument and notes that a history of, or intention to make, discretionary payments does not trigger liability classification. Paragraph AG26 of IAS 32 states: U.K.	
Exampl	e 2	
Facts		
A4 Classifi	cation	
A5	The entity does not have the unconditional right to refuse redemption and the members' shares are a financial liability. The restrictions described above are based on the entity's ability to settle its liability. They restrict redemptions only if the liquidity or reserve requirements are not met and then only until such time as they are met. Hence, they do not, under the principles established in IAS 32, result in the classification of the financial instrument as equity. Paragraph AG25 of IAS 32 states: U.K.	
PROHI	BITIONS AGAINST REDEMPTION (paragraphs 8 and 9)	
Exampl	e 3	
Facts		

A6	A cooperative entity has issued shares to its members at different dates and for different amounts in the past as follows: U.K.
A7 Classific	eation

IFRIC INTERPRETATION 4 U.K.

Determining whether an arrangement contains a lease

REFERENCES	
	ROUND
1	An entity may enter into an arrangement, comprising a transaction or a series of related transactions, that does not take the legal form of a lease but conveys a right to use an asset (e.g. an item of property, plant or equipment) in return for a payment or series of payments. Examples of arrangements in which one entity (the supplier) may convey such a right to use an asset to another entity (the purchaser), often together with related services, include: U.K.
2	
3 SCOPE	
4	This Interpretation does not apply to arrangements that: U.K.
ISSUES	
	The issues addressed in this interpretation are: U.K.
CONSE	NSUS
	ning whether an arrangement is, or contains, a lease
6	Determining whether an arrangement is, or contains, a lease shall be based on the substance of the arrangement and requires an assessment of whether: U.K.
Fulfilme	nt of the arrangement is dependent on the use of a specific asset
· · · · · · · · · · · · · · · · · · ·	
7	
8 Arranger	ment conveys a right to use the asset

9	An arrangement conveys the right to use the asset if the arrangement conveys to the purchaser (lessee) the right to control the use of the underlying asset. The right to control the use of the underlying asset is conveyed if any one of the following conditions is met: U.K.
Assess	sing or reassessing whether an arrangement is, or contains, a lease
10	The assessment of whether an arrangement contains a lease shall be made at the inception of the arrangement, being the earlier of the date of the arrangement and the date of commitment by the parties to the principal terms of the arrangement, on the basis of all of the facts and circumstances. A reassessment of whether the arrangement contains a lease after the inception of the arrangement shall be made only if any one of the following conditions is met: U.K.
• • • • •	
11	A reassessment of an arrangement shall be based on the facts and circumstances as of the date of reassessment, including the remaining term of the arrangement. Changes in estimate (for example, the estimated amount of output to be delivered to the purchaser or other potential purchasers) would not trigger a reassessment. If an arrangement is reassessed and is determined to contain a lease (or not to contain a lease), lease accounting shall be applied (or cease to apply) from: U.K.
Separa	ating payments for the lease from other payments
12	
13	
14	
15	If a purchaser concludes that it is impracticable to separate the payments reliably, it shall: U.K.

SIC INTERPRETATION 27 U.K.

Evaluating the substance of transactions involving the legal form of a lease

REFERENCES ISSUE		
1		
2	When an arrangement with an Investor involves the legal form of a lease, the issues are: U.K.	
CON	SENSUS	
3		
4		
5	IAS 17 applies when the substance of an arrangement includes the conveyance of the right to use an asset for an agreed period of time. Indicators that individually demonstrate that an arrangement may not, in substance, involve a lease under IAS 17 include (Appendix B provides illustrations of application of this interpretation): U.K.	
6	The definitions and guidance in paragraphs 49-64 of the <i>Framework</i> shall be applied in determining whether, in substance, a separate investment account and lease payment obligations represent assets and liabilities of the entity. Indicators that collectively demonstrate that, in substance, a separate investment account and lease payment obligations do not meet the definitions of an asset and a liability and shall not be recognised by the entity include: U.K.	
7		
8	The requirements in IFRS 15 shall be applied to the facts and circumstances of each arrangement in determining when to recognise a fee as income that an Entity might receive. Factors such as whether there is continuing involvement in the form of significant future performance obligations necessary to earn the fee, whether there are retained risks, the terms of any guarantee arrangements, and the risk of repayment of the fee, shall be considered. Indicators that individually demonstrate that recognition of the entire fee as income when received, if received at the beginning of the arrangement, is inappropriate include: U.K.	
 9 DISC	LOSURE	

Changes to legislation: There are currently no known outstanding effects for the

Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)	
10	All aspects of an arrangement that does not, in substance, involve a lease under IAS 17 shall be considered in determining the appropriate disclosures that are necessary to understand the arrangement and the accounting treatment adopted. An entity shall disclose the following in each period that an arrangement exists: U.K.
11 DATE	OF CONSENSUS
EFFE	CTIVE DATE

Changes to legislation: There are currently no known outstanding effects for the Commission Regulation (EC) No 1126/2008, ANNEX. (See end of Document for details)

SIC INTERPRETATION 29 U.K.

Service Concession Arrangements: Disclosures

REFERENCESISSUE		
2	A service concession arrangement generally involves the grantor conveying for the period of the concession to the operator: U.K.	
3		
4		
5 CONSI	ENSUS	
6	All aspects of a service concession arrangement shall be considered in determining the appropriate disclosures in the notes. An operator and a grantor shall disclose the following in each period: U.K.

Intangible assets — website costs

REFE	RENCES
 ISSUI	 E
1	
2	The stages of a website's development can be described as follows: U.K.
3	
4	When accounting for internal expenditure on the development and operation of an entity's own website for internal or external access, the issues are: U.K.
 5	
6	SENSUS
7	
8	
9	Any internal expenditure on the development and operation of an entity's own website shall be accounted for in accordance with IAS 38. The nature of each activity for which expenditure is incurred (e.g. training employees and maintaining the website) and the website's stage of development or post-development shall be evaluated to determine the appropriate accounting treatment (additional guidance is provided in the Appendix to this interpretation). For example: U.K.
