Council Regulation (EU) 2018/2069 of 20 December 2018 amending Regulation (EU) No 1387/2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products

COUNCIL REGULATION (EU) 2018/2069

of 20 December 2018

amending Regulation (EU) No 1387/2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 31 thereof,

Having regard to the proposal from the European Commission,

Whereas:

- (1) In order to ensure a sufficient and uninterrupted supply of certain agricultural and industrial products which are unavailable in the Union and thereby avoid any disturbances in the market for those products, autonomous Common Customs Tariff ('CCT') duties on those products have been suspended by Council Regulation (EU) No 1387/2013⁽¹⁾. Those products can be imported into the Union at reduced or zero duty rates.
- (2) The Union production of 87 products that are not listed in the Annex to Regulation (EU) No 1387/2013 is inadequate or non-existent. It is therefore in the interest of the Union to suspend totally the autonomous CCT duties on those products.
- (3) It is necessary to modify the conditions for the suspension of autonomous CCT duties for 26 products listed in the Annex to Regulation (EU) No 1387/2013 in order to take into account technical product developments and economic trends in the market.
- (4) For certain products listed in the Annex to Regulation (EU) No 1387/2013, the classification in the Combined Nomenclature (CN) of the products covered by suspensions should be amended.
- (5) It is also necessary, in the interest of the Union, to amend the end date for the mandatory review of 720 products listed in the Annex to Regulation (EU) No 1387/2013 in order to allow duty-free imports beyond that date. The autonomous CCT duty suspensions for those products have been reviewed and new revised dates should be set for their next mandatory review.
- (6) It is no longer in the interest of the Union to maintain the suspension of autonomous CCT duties for 13 products listed in the Annex to Regulation (EU) No 1387/2013. The suspensions for those products should therefore be deleted. Moreover, according to the communication from the Commission concerning autonomous tariff suspensions and quotas⁽²⁾ (the 'Commission communication'), for practical reasons, requests for tariff

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EU) 2018/2069. (See end of Document for details)

suspensions or quotas where the amount of uncollected customs duty is estimated to be less than EUR 15 000 per year cannot be taken into consideration. The mandatory review of the existing suspensions has indicated that imports in relation to 197 products listed in the Annex to Regulation (EU) No 1387/2013 do not reach that threshold. Those suspensions should therefore be deleted.

- (7) In the interest of clarity, and taking into account the number of amendments to be made, the Annex to Regulation (EU) No 1387/2013 should be replaced.
- (8) Regulation (EU) No 1387/2013 should therefore be amended accordingly.
- (9) In order to avoid any interruption of the application of the autonomous suspension scheme and to comply with the guidelines set out in the Commission communication, the changes provided for in this Regulation regarding the suspensions for the products concerned should apply from 1 January 2019. This Regulation should therefore enter into force as a matter of urgency,

HAS ADOPTED THIS REGULATION:

Article 1

The Annex to Regulation (EU) No 1387/2013 is replaced by the text set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 January 2019.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 20 December 2018.

For the Council

The President

E. KÖSTINGER

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EU) 2018/2069. (See end of Document for details)

Changes to legislation: There are currently no known outstanding effects for the Council Regulation (EU) 2018/2069. (See end of Document for details)

- a However, the suspension of tariff duties does not apply where the processing is carried out by retail or catering undertakings
- b Suspension of duties is subject to end-use customs supervision in accordance with Article 254 of Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code (OJ L 269, 10.10.2013, p. 1)
- c Only the ad valorem duty is suspended. The specific duty shall continue to apply.
- d A surveillance of imports of goods covered by this tariff suspension shall be established in accordance with the procedure laid down in Articles 55 and 56 of Commission Implementing Regulation (EU) 2015/2447 of 24 November 2015 laying down detailed rules for implementing certain provisions of Regulation (EU) No 952/2013 of the European Parliament and of the Council laying down the Union Customs Code (OJ L 343, 29.12.2015, p. 558).
- e CUS (Customs Union and Statistics Number) is assigned to each ECICS record (product). ECICS (European Customs Inventory of Chemical Substances) is an information tool managed by the European Commission, General Directorate for Taxation and Customs Union. More information can be found via the following link: http://ec.europa.eu/taxation_customs/common/databases/ecics/index_en.htm
- f The expression 'industrial assembly' refers to the production of new items in an assembly plant or manufacturing plant.
- g New or amended position or position with prolonged validity

- Council Regulation (EU) No 1387/2013 of 17 December 2013 suspending the autonomous Common Customs Tariff duties on certain agricultural and industrial products and repealing Regulation (EU) No 1344/2011 (OJ L 354, 28.12.2013, p. 201).
- OJ C 363, 13.12.2011, p. 6. **(2)**
