Application of Schedule

- 1** This Schedule applies where—
- (a) the High Court has made an energy administration order in relation to a company (the “old energy company”); and
 - (b) it is proposed that a transfer falling within section 18(3) be made to another company (the “new energy company”).
- 2** It is for the energy administrator, while the energy administration order is in force, to act on behalf of the old energy company in the doing of anything that it is authorised or required to do by or under this Schedule.

Making of energy transfer schemes

- 3.—(1)** The old energy company may—
- (a) with the consent of the new energy company, and
 - (b) for the purpose of giving effect to the proposed transfer,
- make a scheme under this Schedule for the transfer of property, rights and liabilities from the old energy company to the new energy company (an “energy transfer scheme”).
- (2) Such a scheme may be made only at a time when the energy administration order is in force in relation to the old energy company.
- (3) An energy transfer scheme may set out the property, rights and liabilities to be transferred in one or more of the following ways—
- (a) by specifying or describing them in particular;
 - (b) by identifying them generally by reference to, or to a specified part of, the undertaking of the old energy company; or
 - (c) by specifying the manner in which they are to be determined.
- (4) An energy transfer scheme shall take effect in accordance with paragraph 8 at the time appointed by the High Court.
- (5) But the High Court must not appoint a time for a scheme to take effect unless that scheme has been approved by the Department.

Status: Point in time view as at 26/10/2023. This version of this Act contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the Energy Act (Northern Ireland) 2011. (See end of Document for details)

(6) The Department may modify an energy transfer scheme before approving it, but only modifications to which both the old energy company and the new energy company have consented may be made.

(7) In deciding whether to approve an energy transfer scheme, the Department must have regard, in particular, to—

- (a) the public interest; and
- (b) the effect the scheme is likely to have (if any) upon the interests of third parties.

(8) Before approving an energy transfer scheme, the Department must consult the Authority.

(9) The old energy company and the new energy company each have a duty to provide the Department with all information and other assistance that it may reasonably require for the purposes of, or in connection with, the exercise of the powers conferred on it by this paragraph.

Provision that may be made by a scheme

4.—(1) An energy transfer scheme may contain provision—

- (c) for the creation of new rights and liabilities (including rights of indemnity and duties to indemnify) as between the old energy company and the new energy company;
- (d) in connection with any provision made under this sub-paragraph, provision making incidental provision as to the interests, rights and liabilities of other persons with respect to the property, rights and liabilities to which the scheme relates.

(2) The property, rights and liabilities of the old energy company that may be transferred in accordance with an energy transfer scheme include—

- (a) property, rights and liabilities that would not otherwise be capable of being transferred or assigned by the old energy company;

(c) no such interference with any interest or right,

as there would be, in the case of a transaction apart from this Act, by reason of a provision falling within sub-paragraph (4).

(b) to treat an interest or right as modified or terminated.

(6) That entitlement—

(a) shall not be enforceable in relation to that interest or right until after the transfer of the interest or right by the scheme; and

(b) shall then be enforceable in relation to the interest or right only in so far as the scheme contains provision for the interest or right to be transferred subject to whatever confers that entitlement.

(7) Sub-paragraphs (3) to (6) have effect where shares in a subsidiary of the old energy company are transferred—

(a) as if the reference in sub-paragraph (4) to the terms on which the old energy company is entitled or subject to anything to which the transfer relates included a reference to the terms on which the subsidiary is entitled or subject to anything immediately before the transfer takes effect; and

(b) in relation to an interest or right of the subsidiary, as if the references in sub-paragraph (6) to the transfer of the interest or right included a reference to the transfer of the shares.

(8) Sub-paragraphs (3) and (4) apply to the creation of an interest or right by an energy transfer scheme as they apply to the transfer of an interest or right.

Status: Point in time view as at 26/10/2023. This version of this Act contains provisions that are prospective.
