SCHEDULE 1

COMBINING WATER RESOURCES MANAGEMENT PLANS AND DROUGHT PLANS

Combination of water resources management and drought plans

6. After Article 73 insert—

“73A Combination of water resources management plans and drought plans

(1) The water resources management plan prepared by a water undertaker under Article 70 and the drought plan prepared by it under Article 73 may, if the undertaker so decides, be combined in a single plan.

(2) A single plan under paragraph (1) may be called a “water resource and supply resilience plan”.”.
