

SCHEDULES

SCHEDULE 11

PROHIBITED FIREARMS AND AMMUNITION

Ammunition

8. Any bullet for use in a rifle other than—
 - (a) a bullet weighing not less than 100 grains (6.48 grammes);
 - (b) an expanding bullet designed to deform in a predictable manner and thereby increase its effective diameter upon entering tissue.

Changes to legislation:

There are currently no known outstanding effects for the The Wildlife (Northern Ireland) Order 1985, Paragraph 8.
