Grounds for certification

10F.—(1) This Article applies to—

- (a) a preliminary decision under Article 10E as to whether an applicant should be certified; and
- (b) a final decision under Article 3 of the Electricity Regulation as to whether to certify an applicant.

(2) Subject to paragraph (7), the Authority may only decide that the applicant should be certified, or decide to certify the applicant, if one of the following four grounds (“the certification grounds”) applies.

(3) The first certification ground is that the ownership unbundling requirement in Article 10G is met in relation to the applicant and to any related transmission licensee.

(4) The second certification ground is that the applicant has applied for a derogation from the ownership unbundling requirement on the grounds in paragraph (9) of Article 9 of the Directive (alternative arrangements for independence), and the Authority has determined that the requirements of that paragraph are met.

(5) The third certification ground is that—

- (a) the applicant has applied for a derogation from the ownership unbundling requirement on the grounds in paragraphs (1) and (2) of Article 13 of the Directive (independent system operator);
 - (b) the applicant has nominated an independent system operator for designation in accordance with those paragraphs; and
 - (c) the Authority—
 - (i) has determined that the requirements of those paragraphs and of paragraphs (1) and (2) of Article 14 of the Directive (unbundling of transmission system owners) are met; and
 - (ii) is minded to designate the nominated independent system operator.
- (6) The fourth certification ground is that the applicant has been granted an exemption under Article 17 of the Electricity Regulation (new interconnectors) and remains entitled to the benefit of it.
- (7) The Authority may make a preliminary decision to certify an applicant where it is satisfied that the certification ground to which his application relates applies in the case of the applicant or would apply if particular qualification measures were taken and that—
- (a) those qualification measures are within the powers of the Authority to impose under regulations 11 and 94 of the 2011 Regulations or any other powers of the Authority under this Order or the Energy (Northern Ireland) Order 2003 and the Authority is minded so to exercise those powers; or
 - (b) the Authority is otherwise satisfied that such qualification measures will be taken.
- (8) But, regardless of whether a certification ground applies under paragraph (2), the Authority must not certify the applicant—
- (a) if, on the basis of an opinion expressed by the European Commission under Article 11 of the Directive (certification in relation to persons from countries outside the European Economic Area), the Authority considers that the certification of the applicant would put at risk the security of electricity supplies in the European Economic Area;
 - (b) if a report prepared by the Department under Article 10D states that the certification of the applicant would put at risk the security of electricity supplies in the United Kingdom or the European Economic Area;
 - (c) on the second certification ground if the European Commission has not verified, in accordance with paragraph (10) of Article 9 of the Directive (verification of independence under alternative arrangements), that the requirement in that paragraph as to arrangements for effective independence is met.

The ownership unbundling requirement

^[F25]**10G.**—(1) For the purposes of Article 10F(3), the ownership unbundling requirement is met by an applicant for certification or (as the case may be) a related transmission licensee (“a relevant person”) if the Authority considers that each of the following five tests is passed.

- (a) does not control a relevant producer or supplier;
 - (b) does not have a majority shareholding in a relevant producer or supplier; and
 - (c) will not, on or after the relevant date (within the meaning of Article 10B(3)), exercise any shareholder rights it holds, or becomes the holder of, in relation to a relevant producer or supplier.
- (3) For the purposes of paragraph (2)(c), the Authority is entitled to think that the relevant person will not exercise any shareholder rights it holds, or becomes the holder of, if the relevant person has given an undertaking that it will not exercise those shareholder rights.
- (4) The second test is that the relevant person is not controlled by a person who controls a relevant producer or supplier.
- (5) But even where the second test is not passed, the Authority is entitled to treat it as passed if—
- (a) the control over the relevant person was gained through the exercise of a right conferred as a condition of the provision of financial support or a guarantee in relation to the relevant person's business; or
 - (b) the control over the relevant producer or supplier was gained through the exercise of such a right conferred in relation to the business of the relevant producer or supplier.
- (6) The third test is that the relevant person is not controlled by a person who has a majority shareholding in a relevant producer or supplier.
- (7) But even where the third test is not passed, the Authority is entitled to treat it as passed if—

 - (b) the majority shareholding in the relevant producer or supplier was gained through the exercise of such a right conferred in relation to the business of the relevant producer or supplier.
- (8) Where the Authority treats the second or third test as having been passed only by virtue of paragraph (5) or (7), it must specify a time limit after which it will cease to treat that test as having been passed; and it may extend the time limit if it thinks it necessary or expedient to do so.
- (9) Paragraphs (10) and (11) apply where the Authority is entitled to treat the second or third test as having been passed only by virtue of paragraph (5) or (7).
- (10) In deciding whether to treat the test as having been passed, the Authority—
- (a) must take into account—
 - (i) whether the relationship (direct or indirect) between the relevant person and the relevant producer or supplier has led or might lead the relevant person to discriminate in favour of the relevant producer or supplier; and
 - (ii) the length of time for which that is likely to continue to be so; and
 - (b) may, in particular, take into account any information or undertakings given to the Authority by the relevant person, the relevant producer or supplier or the person who controls the relevant person and controls or has a majority shareholding in the relevant producer or supplier.
- (11) The information and undertakings that may be taken into account under paragraph (10) (b) include information and undertakings regarding any measures that have been or will be put in place to ensure the effective separation of the business of the relevant person and the business of the relevant producer or supplier.

(12) The fourth test is that, where the relevant person is a company, partnership or other business, none of its senior officers has been, or may be, appointed by a person who—

- (a) controls a relevant producer or supplier other than a gas producer or gas supply undertaking; or
- (b) has a majority shareholding in a relevant producer or supplier other than a gas producer or gas supply undertaking.

(2) Where for the purposes of certifying any person, the Authority has treated the second or third test in Article 10G as having been passed only by virtue of paragraph (5) or (7) of that Article, then where after the expiry of the time limit provided under paragraph (8) of that Article it has ceased to treat that test as having been passed by such virtue, the certification shall be withdrawn unless the Authority reviews the certification and is satisfied that the test in question is otherwise passed.

(3) If, on or after 3rd March 2013, as a result of information it has received or obtained, the Authority considers that a person from a third country has taken or may take control of a certified person or a person designated as independent system operator, the Authority must, as soon as is reasonably practicable, notify the information to the Department and the European Commission.

(4) The Authority may review the final certification for any person if—

- (a) to exercise his rights under the regulations in respect of those expenses; and

(4) Any reference in this Article to any expenses reasonably incurred in providing an electric line or electrical plant includes a reference to the capitalised value of any expenses likely to be so incurred in maintaining it, in so far as they will not be recoverable by the supplier as part of the charges made by him for the supply.

23.—(1) Subject to the following provisions of this Article, a public electricity supplier may require any person who requires a supply of electricity under Article 19(1) to give him reasonable security for the payment to him of all money which may become due to him—

- (a) in respect of the supply; or
- (b) where any electric line or electrical plant falls to be provided in pursuance of that paragraph, in respect of the provision of the line or plant;

and if that person fails to give such security, the supplier may if he thinks fit refuse to give the supply, or to provide the line or plant, for so long as the failure continues.

(2) Where any person has not given such security as is mentioned in paragraph (1), or the security given by any person has become invalid or insufficient—

- (a) the public electricity supplier may by notice require that person, within 7 days from the service of the notice, to give him reasonable security for the payment of all money which may become due to him in respect of the supply; and
- (b) if that person fails to give such security, the supplier may if he thinks fit discontinue the supply for so long as the failure continues;

and any notice under sub-paragraph (a) shall state the effect of Article 26.

- (a) may enter into a special agreement with the public electricity supplier for the supply on such terms as may be specified in the agreement; and
- (b) shall enter into such an agreement in any case where—
 - (i) the maximum power to be made available at any time exceeds one megawatt; or
 - (ii) it is otherwise reasonable in all the circumstances for such an agreement to be entered into.

(2) The Department may by order provide that paragraph (1) shall have effect as if for the wattage mentioned in sub-paragraph (b)(i) there were substituted such other wattage as may be specified in the order; but before making such an order, the Department shall consult with public electricity suppliers and with persons or bodies appearing to be representative of persons likely to be affected.

(3) So long as any such agreement as is mentioned in paragraph (1) is effective, the rights and liabilities of the parties to the agreement shall be those arising under the agreement and not those provided for by Articles 19 to 24; but nothing in this paragraph shall prejudice the giving of a notice under Article 19(2) specifying as the day on which the supply is required to commence the day on which such an agreement ceases to be effective.

(3) An examiner may certify any meter submitted to him, notwithstanding that he has not himself examined or tested it, if—

(3) If the Director considers that any person to whom this paragraph applies has made satisfactory arrangements whereby apparatus provided by some other person is available for the examination, testing or regulation of the first mentioned person's meters, the Director may direct that this paragraph shall not apply to that person to such extent as may be specified in the direction.

(4) Any 2 or more persons to whom this paragraph applies may with the approval of the Director enter and carry into effect arrangements whereby apparatus provided by one or more of the parties is to be available to all or any of them for the purposes of fulfilling their obligations under this paragraph.

(5) Any public electricity supplier who provides apparatus under such arrangements as are mentioned in sub-paragraph (4) shall be under the same obligation under this paragraph, in relation to the meters of any public electricity supplier for whose benefit the apparatus is so made available, as he is or would be under in relation to meters measuring electricity supplied by him.

Testing, etc., of meters

8.—(1) It shall be the duty of a meter examiner, on being required to do so by any person and after giving notice to such persons as may be prescribed—

- (b) to determine whether it is of an approved pattern or construction and, if it is installed for use, whether it is installed in an approved manner;
- (c) to determine whether it is in proper order for ascertaining the quantity of electricity supplied within the prescribed margins of error and, if it has been in use and there is a dispute as to whether it registered correctly at any time, to determine if possible whether it registered within those margins at that time; and
- (d) to make a written report of his conclusions as to the matters mentioned in heads (b) and (c).

(2) If a meter examiner determines that a meter is, or was at any time, operating outside the prescribed margins of error, he shall if possible give an opinion as to—

(3) Regulations under this paragraph may make provision for determining the fees to be paid for examining and testing meters, and the persons by whom and the circumstances in which they are to be paid.

(4) In relation to a meter used or intended to be used in connection with an exempt supply, this paragraph shall have effect as if any reference to the prescribed margins of error included a reference to any margins of error agreed between the electricity supplier and the customer.

9.—(1) This paragraph applies where there is a genuine dispute as to the accuracy of a meter used for ascertaining the quantity of electricity supplied to any premises and notice of the dispute—

- (a) within the prescribed margins of error; and
- (b) in the case of a meter used in connection with an exempt supply, within any agreed margins of error,

unless the contrary is proved.

(4) Where a meter to which this paragraph applies has been operating for any period—

(5) The report of a meter examiner on any question relating to such a meter shall be admissible in evidence in any proceedings in which that question is raised; and any conclusions in the report as to the accuracy of the meter when it was tested shall be presumed to be correct unless the contrary is proved.

Meters to be kept in proper order

(2) An electricity supplier shall at all times, at his own expense, keep any meter let for hire or lent by him to any customer in proper order for correctly registering the quantity of electricity supplied and, in the case of pre-payment meters, for operating properly on receipt of the necessary payment.

(3) An electricity supplier may remove, inspect and re-install any meter by which the quantity of electricity supplied by him to a customer is registered, and shall, while any such meter is removed, fix a substituted meter on the premises; and the cost of removing, inspecting and re-installing a meter and of fixing a substituted meter shall be defrayed by the supplier.

(4) Sub-paragraphs (2) and (3) are without prejudice to any remedy the supplier may have against the customer for failure to take proper care of the meter.

- he shall be guilty of an offence and shall be liable on summary conviction to a fine not exceeding level 3 on the standard scale.

(2) Where any person is prosecuted for an offence under sub-paragraph (1), the possession by him of artificial means for causing an alteration of the register of the meter or, as the case may be, the prevention of the meter from duly registering shall, if the meter was in his custody or under his control, be prima facie evidence that the alteration or prevention was intentionally caused by him.

(3) Where an offence under sub-paragraph (1) has been committed, the supplier may discontinue the supply of electricity to the premises until the matter has been remedied and remove the meter in respect of which the offence was committed.

(4) Where an electricity supplier removes a meter under sub-paragraph (3), he shall keep it safely until the Director authorises him to destroy or otherwise dispose of it.

Special provision for pre-payment meters

13.—(1) A customer of an electricity supplier who takes his supply through a pre-payment meter or other device shall be under a duty to take all reasonable precautions for the safekeeping of any money or tokens which are inserted into that meter or device.

(2) During the transitional period, until the vesting in a successor company by virtue of Part III of this Order or this paragraph of any foreign asset or liability is effective under the relevant foreign law, it shall be the duty of Northern Ireland Electricity to hold that asset for the benefit of, or to discharge that liability on behalf of, the successor company.

(4) Northern Ireland Electricity shall have all such powers as may be requisite for the performance of its duty under this paragraph, but—

- (a) it shall be the duty of the appropriate successor company during the transitional period to act on behalf of Northern Ireland Electricity (so far as possible) in performing the duty imposed on Northern Ireland Electricity by this paragraph; and

30. Without prejudice to the powers conferred by Article 95(2), every provision contained in subordinate legislation, which is in operation immediately before the transfer date and then applicable to Northern Ireland Electricity shall have effect as if—

- (a) for references to Northern Ireland Electricity there were substituted references to the appropriate successor company; and
- (b) for any reference (however worded and whether expressly or by implication) to the undertaking or business, or any part of the undertaking or business, of Northern Ireland Electricity there were substituted a reference to the undertaking or business, or the corresponding part of the undertaking or business, of the appropriate successor company.

33.—(1) Where a distribution is proposed to be declared during the accounting reference period of a successor company which includes the transfer date or before any accounts are laid or filed in respect of that period, Articles 278 to 284 of the Companies (Northern Ireland) Order 1986^{F184} (accounts relevant for determining whether a distribution may be made by a company) shall have effect as if—

- (a) references in Article 278 to the company's accounts or to accounts relevant under that Article; and
- (b) references in Article 281 to initial accounts,

Status: Point in time view as at 20/06/2007. This version of this Order contains provisions that are not valid for this point in time.

included references to such accounts as, on the assumptions stated in sub-paragraph (2), would have been prepared under Article 234 of that Order of 1986 in respect of the relevant year.

(2) The said assumptions are—

- (a) that the relevant year had been a financial year of the successor company;
- (b) that the vesting effected by Part III of this Order had been a vesting of all the assets and liabilities to which Northern Ireland Electricity was entitled or subject immediately before the beginning of the relevant year and had been effected immediately after the beginning of that year;
- (c) that the value of any asset and the amount of any liabilities of Northern Ireland Electricity vested in the successor company by virtue of the said Article 234 had been the value or (as the case may be) the amount assigned to that asset or liability for the purposes of the statement of accounts prepared by Northern Ireland Electricity in respect of the financial year immediately preceding the relevant year;
- (d) that any securities of the successor company issued or allotted before the declaration of the distribution had been issued or allotted before the end of the relevant year; and
- (e) such other assumptions (if any) as may appear to the directors of the successor company to be necessary or expedient for the purposes of this paragraph.

(3) For the purposes of the said accounts the amount to be included in respect of any item shall be determined as if anything done by Northern Ireland Electricity (whether by way of acquiring, revaluing or disposing of any asset or incurring, revaluing or discharging any liability, or by carrying any amount to any provision or reserve, or otherwise) had been done by the successor company.

Accordingly (but without prejudice to the generality of the preceding provision) the amount to be included in any reserves of the successor company as representing its accumulated realised profits shall be determined as if any profits realised and retained by Northern Ireland Electricity had been realised and retained by the successor company.
