- 19.—(1) An electricity distributor is under a duty—
 - (a) to make a connection between a distribution system of his and any premises, when required to do so by—
 - (i) the owner or occupier of the premises; or
 - (ii) an electricity supplier or person supplying electricity under an exemption acting with the consent of the owner or occupier of the premises, for the purpose of enabling electricity to be conveyed to or from the premises;
 - (b) to make a connection between a distribution system of his and any distribution system of another electricity distributor, when required to do so by that distributor for the purpose of enabling electricity to be conveyed to or from that other system.
- (2) Any duty under paragraph (1) includes a duty to provide such electric lines or electrical plant as may be necessary to enable the connection to be used for the purpose for which it is required.
- (3) The duties under this Article shall be performed subject to such terms as may be agreed under Article 20 for so long as the connection is required.
 - (4) In this Article and Articles 20 to 26—
 - (a) any reference to making a connection includes a reference to maintaining the connection (and continuing to provide the necessary electric lines or electrical plant);
 - (b) any reference to requiring a connection includes a reference to requiring the connection to be maintained (and the continued provision of the necessary electric lines and electrical plant); and
 - (c) any reference to the provision of any electric line or electrical plant is a reference to the provision of such a line or an item of electrical plant either by the installation of a new one or by the modification of an existing one.
- (5) The duties under this Article are subject to the following provisions of this Part and any regulations made under those provisions.]
 - F1 Arts. 19-26 substituted (1.11.2007) by Electricity Regulations (Northern Ireland) 2007 (S.R. 2007/321), regs. 1(2), 9 (with transitional provisions in Pt. IV)

[F2 Procedure for requiring a connection

- **20.**—(1) Where a person requires a connection to be made by an electricity distributor in pursuance of Article 19(1), he shall give the distributor a notice requiring him to offer terms for making the connection.
 - (2) That notice must specify—
 - (a) the premises or distribution system to which a connection to the distributor's system is required;
 - (b) the date on or by which the connection is to be made; and
 - (c) the maximum power at which electricity may be required to be conveyed through the connection.
- (3) The person requiring a connection shall also give the distributor such other information in relation to the required connection as the distributor may reasonably request.
- (4) A request under paragraph (3) shall be made as soon as practicable after the notice under paragraph (1) is given (if not made before that time).
- (5) As soon as practicable after receiving the notice under paragraph (1) and any information requested under paragraph (3) the distributor shall give to the person requiring the connection a notice—
 - (a) stating the extent to which the proposals specified in the other person's notice under paragraph (1) are acceptable to the distributor and specifying any counter proposals made by the distributor;
 - (b) specifying any payment which that person will be required to make under Article 22(1), or under regulations made under Article 22(2);
 - (c) specifying any security which that person will be required to give under Article 23;

[F3 Exceptions from duty to connect

- **21.**—(1) Nothing in Article 19(1) requires an electricity distributor to make a connection if and to the extent that—
 - (a) he is prevented from doing so by circumstances beyond his control;
 - (b) circumstances exist by reason of which his doing so would or might involve his being in breach of regulations under Article 32, and he has taken all such steps as it was reasonable to take both to prevent the circumstances from occurring and to prevent them from having that effect; or
 - (c) there is a lack of capacity or there are exceptional circumstances which render it impracticable for him to do so.
- (2) Without prejudice to the generality of paragraph (1) an electricity distributor is not required to make a connection if—
 - (a) making the connection involves the distributor doing something which, without the consent of another person, would require the exercise of a power conferred on him by any provision of Schedule 3 or 4;

- (b) those provisions do not have effect in relation to him; and
- (c) any necessary consent has not, at the time the request is made, been given.
- (3) Paragraph (1)(c) does not permit an electricity distributor to disconnect any premises or distribution system to which a connection is being maintained by him unless the distributor gives—
 - (a) where the connection is to premises, to the occupier or to the owner if the premises are not occupied;
 - (b) where the connection is to another distribution system, to the electricity distributor who runs that system,

not less than seven working days' notice of his intention to disconnect the premises or distribution system.]

F3 Arts. 19-26 substituted (1.11.2007) by Electricity Regulations (Northern Ireland) 2007 (S.R. 2007/321), regs. 1(2), 9 (with transitional provisions in Pt. IV)

[F4 Power to recover expenditure

- (2) Regulations made, after consultation with the Authority, may make provision for entitling an electricity distributor to require a person requiring a connection in pursuance of Article 19(1) to pay to the distributor, in respect of any expenses reasonably incurred in providing any electric line or electrical plant used for the purpose of making the connection, such amount as may be reasonable in all the circumstances if—
 - (a) the connection is required within the prescribed period after the provision of the line or plant; and
 - (b) a person ("the initial contributor") has made a payment to the distributor in respect of those expenses, the line or plant having been provided for the purpose of making a connection to any premises or distribution system as required by that person.
- (3) Regulations under paragraph (2) may require an electricity distributor who, in pursuance of this Article or the regulations, has recovered any amount in respect of expenses reasonably incurred in providing any electric line or electrical plant—
 - (a) to exercise his rights under the regulations in respect of those expenses; and
 - (b) to apply any payments received by him in the exercise of those rights in making such payments as may be appropriate towards reimbursing the initial contributor and any persons previously required to make payments under the regulations.
- (4) Any reference in this Article to any expenses reasonably incurred in providing an electric line or electrical plant includes a reference to the capitalised value of any expenses likely to be so incurred in continuing to provide it.]

[F5 Power to require security

- **23.**—(1) Subject to the following provisions of this Article, an electricity distributor may require any person who requires a connection in pursuance of Article 19(1) to give him reasonable security for the payment to him of all money which may become due to him under Article 22 in respect of the provision of any electric line or electrical plant.
- (2) If a person fails to give any security required under paragraph (1), or the security given has become invalid or insufficient, and he fails to provide alternative or additional security, the electricity distributor may if he thinks fit—
 - (a) if the connection has not been made, refuse to provide the line or plant for so long as the failure continues; or
 - (b) if the connection is being maintained, disconnect the premises or distribution system in question.
- (3) Where any money is deposited with an electricity distributor by way of security in pursuance of this Article, the distributor shall pay interest, at such rate as may from time to time be fixed by the distributor with the approval of the Authority, on every sum of 50p so deposited for every three months during which it remains in the hands of the distributor.]
 - F5 Arts. 19-26 substituted (1.11.2007) by Electricity Regulations (Northern Ireland) 2007 (S.R. 2007/321), regs. 1(2), **9** (with transitional provisions in Pt. IV)

[F6 Additional terms of connection

- **24.** An electricity distributor may require any person who requires a connection in pursuance of Article 19(1) above to accept in respect of the making of the connection—
 - (a) any restrictions which must be imposed for the purpose of enabling the distributor to comply with regulations under Article 32;
 - (b) any terms which it is reasonable in all the circumstances for that person to be required to accept; and
 - (c) without prejudice to the generality of sub-paragraph (b), any terms restricting any liability of the distributor for economic loss resulting from negligence which it is reasonable in all the circumstances for that person to be required to accept.]
 - F6 Arts. 19-26 substituted (1.11.2007) by Electricity Regulations (Northern Ireland) 2007 (S.R. 2007/321), regs. 1(2), 9 (with transitional provisions in Pt. IV)

[F7 Special agreements with respect to connection

- **25.**—(1) Notwithstanding anything in Articles 19 to 24, a person who requires a connection in pursuance of Article 19(1) may enter into an agreement with the electricity distributor (referred to in this Part as a "special connection agreement") for the making of the connection on such terms as may be agreed by the parties.
- (2) So long as a special connection agreement is effective, the rights and liabilities of the parties shall be those arising under the agreement and not those provided for by Articles 19 to 24.
- (3) Nothing in paragraph (2) prevents the giving of a notice under Article 20(1) requiring a connection to be made as from the time when a special connection agreement ceases to be effective.]

F7 Arts. 19-26 substituted (1.11.2007) by Electricity Regulations (Northern Ireland) 2007 (S.R. 2007/321), regs. 1(2), 9 (with transitional provisions in Pt. IV)

[F10] and, subject to paragraph (1A), the practice and procedure] to be followed in connection with any such determination shall be such as the Authority may consider appropriate.

 - (1B) For the purposes of paragraph (1A), the requisite period in any case means—
 - (a) the period of 2 months from the date when the dispute was referred to the Authority; or

- (2) No dispute arising under Articles 19 to 25 which relates to the making of a connection between any premises and a distribution system may be referred to the Authority after the end of the period of 12 months beginning with the time when the connection is made.
- (3) Where a dispute arising under Articles 19 to 25 between an electricity distributor and a person requiring a connection falls to be determined under this Article, the Authority may give directions as to the circumstances in which, and the terms on which, the distributor is to make or (as the case may be) to maintain a connection pending the determination of the dispute.
- (4) Where any dispute arising under Article 23(1) falls to be determined under this Article, the Authority may give directions as to the security (if any) to be given pending the determination of the dispute.
