SCHEDULE 2

Specified Quantities of Radionuclides on Premises

Part II

Quantity ratios for more than one radionuclide

1. For the purpose of regulation 3(2), the quantity ratio for more than one radionuclide is the sum of the quotients of the quantity of a radionuclide present Q_p divided by the quantity of that radionuclide specified in the appropriate column of Part I Q_{lim} , namely—

$$\sum \frac{Q_p}{Q_{lim}}$$
