
STATUTORY RULES OF NORTHERN IRELAND

2006 No. 5

The Weighing Equipment (Non-automatic Weighing
Machines) Regulations (Northern Ireland) 2006

PART II

MATERIALS, PRINCIPLES OF CONSTRUCTION AND
MARKING OF NON-AUTOMATIC WEIGHING MACHINES

Manner of construction of the load receptor

7. The load receptor of a non-automatic weighing machine shall be so constructed as to provide for easy and practicable weighings for all test purposes not exceeding the maximum capacity of that machine, unless otherwise specified in the published particulars of the approved pattern.
