The Department of the Environment, being designated(a) for the purposes of section 2(2) of the European Communities Act 1972(b) in relation to the control of air pollution, makes the following Regulations in exercise of the powers conferred on it by section 2(2) of that Act:

Citation and commencement

1. These Regulations may be cited as the Sulphur Content of Liquid Fuels Regulations (Northern Ireland) 2007 and shall come into operation on 31st May 2007.

Interpretation

2.—(1) In these Regulations—

"combustion plant" means any technical apparatus in which fuels are oxidised in order to use the heat generated;

"gas oil" means any petroleum–derived liquid fuel—

(a) which falls within CN code 2710 19 25, 2710 19 29, 2710 19 45 or 2710 19 49; or
(b) where less than 65 per cent by volume (including losses) distils at 250°C and at least 85 per cent by volume (including losses) distils at 350°C by the ASTM D86 method, but excluding marine fuel, diesel fuels (as defined in Article 2(2) of Council Directive 98/70/EC relating to the quality of petrol and diesel fuels(c) and fuels used in non-road mobile machinery and agricultural tractors;

"heavy fuel oil" means any petroleum–derived liquid fuel—

(a) which falls within CN code 2710 19 51 to 2710 19 69; or
(b) where by reason of its distillation limits, falls within the category of heavy oils intended for use as fuel and of which less than 65 per cent by volume (including losses) distils at 250°C by the ASTM D86 method; or
(c) where the distillation cannot be determined by the ASTM D86 method, which is categorised as heavy fuel oil, but excluding marine fuel and gas oil;

(a) S.I.1988/785
(b) 1972 c. 68
“marine fuel” means any petroleum-derived liquid fuel intended for use or in use on board a vessel, including those fuels defined in ISO 8217(a);
“sulphur content of liquid fuels permit” has the meaning given in regulation 4(4)(b)(ii).
“the 1997 Order” means “The Industrial Pollution Control (Northern Ireland) Order 1997”(b)
“the 2003 Regulations” means “The Pollution Prevention and Control Regulations (Northern Ireland) 2003”(c)

(2) In paragraph (1)—
   (a) “ASTM method” means the methods laid down by the American Society for Testing and Materials in the 1976 edition of standard definitions and specifications for petroleum and lubricating products(d); and
   (b) the reference to a numbered CN code is a reference to the code set out in the Integrated Customs Tariff of the United Kingdom (2000 edition) and the CN code within that number(e).

(3) Expressions used in these Regulations that also appear in Council Directive 1999/32/EC relating to a reduction in the sulphur content of certain liquid fuels as amended by Directive 2005/33/EC of the European Parliament and of the Council(f) have the same meaning as they do in that Directive.

(4) The Interpretation Act (Northern Ireland) 1954(g) shall apply to these Regulations as it applies to the Act of the Northern Ireland Assembly.

Application

3. These Regulations do not apply to heavy fuel oil or gas oil intended for—
   (a) the purposes of research and testing;
   (b) processing prior to final combustion; or
   (c) processing in the refining industry.

Maximum sulphur content of heavy fuel oil

4.—(1) Subject to paragraph (2), no person shall use any heavy fuel oil which has a sulphur content that exceeds 1 per cent by mass.

(2) Paragraph (1) shall not apply to the use of heavy fuel oil—
   (a) in a new plant which is operated in accordance with a permit which contains a condition that emission limit values for sulphur dioxide are at least as stringent as those set out for such plant in Annex IV to Directive 2001/80/EC of the European Parliament and of the Council on the limitation of emissions of certain pollutants into the air from large combustion plants(h);
   (b) in an existing plant which—
      (i) before 1st January 2008, is operated in accordance with a permit which contains a condition which prohibits the emissions of sulphur dioxide from the plant exceeding 1,700 mg/Nm3 at an oxygen content in the flue gas of 3 per cent by volume on a dry basis; or

(b) S.I. 1997/2777 (N.I. 18)
(c) S.R. 2003 No. 46
(f) OJL 191 22.7.2005, p. 59
(g) 1954 c. 33 (N.I.)
(h) OJL 309, 27.11.2001, p. 1 as amended by the 2003 Act of Accession
(ii) on and after 1st January 2008, is operated in accordance a permit which contains a condition that emission limit values for sulphur dioxide are at least as stringent as those set out for new plants in Part A of Annex IV to Directive 2001/80/EC;

(c) in a combustion plant other than a new or existing plant to which sub-paragraphs (a) or (b) apply which is operated in accordance with a permit which contains a condition which prohibits the emissions of sulphur dioxide from the plant exceeding 1,700 mg/Nm3 at an oxygen content in the flue gas of 3 per cent by volume on a dry basis; or

(d) in combustion plants forming part of a refinery other than—

(i) a new plant to which paragraph (a) applies; or

(ii) an existing plant to which subparagraph (b)(ii) applies,

and where the combustion plants are operated in accordance with a permit which contains a condition that their monthly average of emissions of sulphur dioxide averaged over all plants in the refinery, irrespective of the fuel or fuel combination used, does not exceed 1,700 mg/Nm3.

(3) An enforcing authority which grants a permit referred to in paragraph (2) shall carry out appropriate monitoring of emissions of sulphur dioxide to ensure that the limitations on emissions contained in that permit are met.

(4) In this regulation—

(a) “existing plant” and “new plant” shall have the meanings given in Articles 2(10) and 2(9) respectively of Directive 2001/80/EC; and

(b) “permit” means—

(i) either—

(aa) an authorisation under Article 6 of the 1997 Order; or

(bb) a permit granted under regulation 10 of the 2003 Regulations if the operation of the combustion plant requires such an authorisation or permit,

or

(ii) a sulphur content of liquid fuels permit which—

(aa) was granted for the purposes of the Sulphur Content of Liquid Fuels Regulations (Northern Ireland) 2002(a) and which is still subsisting; or

(bb) is granted under these Regulations.

(5) Schedule 1 (Sulphur content of liquid fuel permits) has effect.

Maximum sulphur content in gas oil

5. No person shall use gas oil—

(a) Before 1st January 2008, with a sulphur content exceeding 0.2 percent by mass; or

(b) on and after 1st January 2008, with a sulphur content exceeding 0.1 percent by mass.

Sampling and analysis

6.—(1) The Department shall take all necessary measures to ensure that sampling is carried out of heavy fuel oil and gas oil to check that the use of those fuels complies with, respectively, regulation 4(1) and regulation 5.

(2) Sampling shall be carried out with sufficient frequency and in such a way that the Department is satisfied that the samples are representative of the fuels examined.

(a) S.R. 2002 No. 28
(3) Sampling in respect of compliance with regulation 5(b) shall commence no later than 1st July 2008.

(4) Schedule 2 shall have effect in relation to the technical requirements for determining the sulphur content of fuel sampled under paragraph (1).

**Offences and penalties**

7. — (1) A person is guilty of an offence if he contravenes regulation 4(1) or 5, or causes or permits another person to do so.

(2) Any person guilty of an offence under paragraph (1) shall be liable, on summary conviction, to a fine not exceeding level 2 on the standard scale.

(3) For the purposes of these Regulations section 20(2) of the Interpretation Act (Northern Ireland) 1954 applies with the omission of the words “the liability of whose members is limited” and where the affairs of a body corporate are managed by its members, applies in relation to the acts or defaults of a member in connection with his functions of management as if he were a director of the body corporate.

**Revocation and saving**

8. — (1) Subject to paragraph (2), the Sulphur Content of Liquid Fuels Regulations (Northern Ireland) 2002 are revoked.

(2) Where an operator of a combustion plant—

(a) has submitted an application for a sulphur content of liquid fuels permit in accordance with Schedule 1 to the Sulphur Content of Liquid Fuels Regulations (Northern Ireland) 2002; and

(b) that application has not been determined at the date these Regulations come into force, such application shall continue to be determined under those Regulations.

*L.S.*

_Wesley Shannon_

A senior officer of the Department of the Environment
SCHEDULE 1

Sulphur content of liquid fuel permits

1. An operator of an existing plant, new plant or other combustion plant who wishes to operate that plant under an exception provided for in regulation 4(2) may apply to the enforcing authority for a sulphur content of liquid fuels permit if the operation of that plant does not require—
   (a) an authorisation under Article 6 of the 1997 Order; or
   (b) a permit under regulations made under Article 4 of the Environment (Northern Ireland) Order 2002(a)

2. An application under paragraph 1 shall be in writing and accompanied by a fee prescribed in relation to that application by a scheme under Article 8(2) of the 1997 Order and shall contain—
   (a) the name and address of the applicant and any other address to which correspondence should be sent and the applicant’s telephone number;
   (b) the address of the site of the combustion plant, the rated thermal input (in megawatts) and the fuel used in the plant; and
   (c) the condition which the applicant wishes to be included in the permit, being a condition referred to in regulation 4(2).

3. An applicant may withdraw his application at any time before it is determined.

4. An enforcing authority which receives a duly made application under paragraph 1 shall grant a sulphur content of liquid fuels permit subject to the condition identified in the application.

5. A sulphur content of liquid fuels permit may be transferred by the holder of the permit to a person who intends to operate the plant to which the permit relates in place of the holder.

6. The person to whom a sulphur content of liquid fuels permit is transferred as permitted by paragraph 5 shall—
   (a) notify the transfer in writing to the enforcing authority which granted the permit; and
   (b) do so within 21 days of the date of the transfer.

7. The holder of a sulphur content of liquid fuels permit may surrender it to the enforcing authority which granted it and such a surrender—
   (a) shall be notified in writing to the enforcing authority within 21 days of the date of the intended surrender; and
   (b) where duly notified shall take effect on the surrender date stated in the notification.

8. In this Schedule “enforcing authority” in relation to the discharge of functions under these Regulations, means either the chief inspector or district council by whom the functions are determined to be exercisable.

9. Regulation 7 of the 2003 Regulations (Discharge and scope of functions) shall apply to functions under these Regulations as it applies to functions under the 2003 Regulations.

10. Article 8 of the 1997 Order shall apply for the purpose of prescribing a fee in respect of an application under paragraph 1 as it applies for the purposes of prescribing a fee in respect of an application for an authorisation granted under Article 6 of the Order.

(a) S.I. 2002/3153 (N.I.)
SCHEDULE 2

Technical requirements for analysis samples

1. The reference method adopted for determining the sulphur content of fuels sampled pursuant to regulation 6(1) shall be defined by—
   (a) ISO method 8754 (1992) and PrEN ISO 14596 for heavy fuel oil(a);
   (b) EN method 4260 (1987), ISO 8754 (1992) and PrEN ISO 14596 for gas oil(b).

2. The arbitration method shall be PrEN ISO 14596.

3. The statistical interpretation of the verification of the sulphur content of the gas oils used shall be carried out in accordance with ISO standard 4259 (1992)(c).

EXPLANATORY NOTE
(This note is not part of the Regulations)

Regulation 3 sets out those matters outside the scope of these Regulations.

Regulation 4 provides, subject to exceptions, that no person shall use any heavy fuel oil which has a sulphur content that exceeds 1 per cent by mass.

Regulation 5 provides that no person shall use gas oil with a sulphur content exceeding 0.2 percent by mass before 1st January 2008 or, on and after 1st January 2008, with a sulphur content exceeding 0.1 percent by mass.

Regulation 6 provides that the Department shall take all necessary measures to ensure that sampling of heavy fuel oil and gas oil is carried out. The Department must also check that the use of those fuels complies with the restrictions in regulations 4 and 5.

Regulation 7 provides that it is an offence to contravene the restrictions on heavy fuel oil and gas oil in regulations 4 and 5 and imposes criminal penalties.

Under regulation 8, the Sulphur Content of Liquid Fuels Regulations (Northern Ireland) 2002 (S.R. 2002/28) are revoked with a saving in respect of permissions granted under those Regulations.

Schedule 1 provides for the enforcing authority to grant permits to enable an operator of a combustion plant (who would not otherwise require a permit to operate the plant) to be exempt from the restriction on the use of heavy fuel oil in regulation 4.

Schedule 2 sets out technical requirements for the analysis of samples taken under regulation 6.

Copies of the British Standards publications referred to in these Regulations may be obtained from any of the outlets operated by the British Standards Institution, or by post from the British Standards Institution at Standards House, 389 Chiswick High Road, London W4 4AL. The Integrated Customs Tariff of the United Kingdom, which sets out the CN codes used in the definitions of “gas oil” and “heavy fuel oil”, are published by HMSO and available from HMSO Bookshops. The 1999 Annual Book of ASTM Standards is available from the American Society for Testing and Materials, 100 Barr Harbor Drive, West Conshohocken, PA 19428, USA.

Copies of the Directive can be obtained from the Stationery Office Bookshop, 16 Arthur Street, Belfast, BT1 4GD.
