
STATUTORY RULES OF NORTHERN IRELAND

2007 No. 420

The Natural Mineral Water, Spring Water and Bottled
Drinking Water Regulations (Northern Ireland) 2007

PART 3

Spring water

Bottling of spring water and exploitation of spring water springs

10.—(1) A person shall not cause any water to be bottled in a bottle marked or labelled with the description “spring water” unless that water —

- (a) has been extracted from a spring; and
- (b) meets the requirements of Schedules 2 and 4.

(2) A person shall not cause any water which has been treated with ozone-enriched air to be bottled in a bottle marked or labelled spring water, unless that treatment is an authorised ozone-enriched air oxidation technique.

(3) Where it is found during exploitation that spring water is polluted and that bottling of the water would contravene paragraph 6, 7 or 8 of Schedule 4, a person shall not exploit the spring from which the water is extracted until the cause of the pollution is eradicated and the bottling of the water would comply with those paragraphs.
